**Shorter Treks in the Pyrenees** Brian Johnson 2019-05-15 A guidebook to seven circular treks exploring the Pyrenees of France and Spain. The treks are designed with accommodation in mountain refuges or mountain villages at the end of each stage, though there are plenty of options to camp for those who prefer to backpack. Detailed descriptions for each stage of the route are accompanied by sketch maps and elevation profiles. Route 1: Tour of the Basque Country - This route takes you over the steep rolling hills (in both France and Spain) at the western end of the Pyrenees. Accommodation is mainly in Basque villages with steep climbs leading to long walks along easy grassy ridges. Route 2: Pic du Midi d'Ossau - This route takes in the magnificent limestone scenery at the western end of the High Pyrenees by combining the popular Tour du Pic du Midi d'Ossau, in France, with the best sections of the quieter La Senda de Camille on the Spanish side of the border. Route 3: Tour de Vignemale and La Alta Ruta de Los Perdidos - This is the most demanding trek in the guide with easy scrambling over steep passes. The magnificent trek through the alpine terrain around Vignemale and Monte Perdido includes six of the honeypots of the Pyrenees; Cauterets, Vignemale, Gavarnie, Pineta, Ordesa and the Picos del Infierno. Route 4: Reserve Naturelle de Neouvielle - The shortest trek in this guide takes you through the popular Reserve Naturelle de Neouvielle and the surrounding mountains in the French Parc National des Pyrenees. It visits many lakes and tarns in magnificent granite scenery and there is the opportunity to climb several peaks, including Pic du Midi de Bigorre and Pic de Bastan. The trek is based around the GR10 and one of its variations, the GR10C. Route 5: Carros de Foc - The Carros de Foc is an understandably popular trek in the magnificent Parc Nacional d'Aigüestortes i Estany de Sant Maurici, in the Spanish part of Catalonia. This is another granite massif dotted with hundreds of lakes and tarns. The huts are close together so there is a great deal of flexibility in planning, with most walkers taking 5-7 days for the trek. Route 6: Tour des Montagnes d'Ax and the Tour des Perics - The Ariège is a relatively unknown area at the eastern end of the High Pyrenees. This tour combines the magnificent alpine mountains of the Tour des Montagnes d'Ax on either flank of the Vallee de l'Ariège with the Tour des Perics in the gentler scenic mountains of the Cerdagne in the French part of Catalonia. Route 7: The icons of Catalonia: Puigmal and Canigou - Our final tour goes through both the Spanish and French parts of Catalonia at the eastern end of the Pyrenees, taking in ascents of the two most climbed peaks in the Pyrenees; Puigmal and Canigou. Despite rising to almost 3000m the mountain ridges are gentler than in the High Pyrenees, more reminiscent of the Scottish Highlands, although the valleys still have an alpine feel. Much of the time is spent on spectacular high-level traverses of steep mountain slopes.

Mont Blanc Walks Hilary Sharp 2015-12-11 The 54 walks in this guidebook explore the popular region around Mont Blanc. These routes showcase the best mountain walking to be found on both the French and the Italian sides of the Mont Blanc massif. The 50 contrasting day walks (3-20km) range from high-level walks to easy summits, mountain huts, viewpoints and mountain lakes, as well as less strenuous valley walks. Also included are four multi-day treks: Vallorcine to Plaine Joux, Vallorcine to Servoz, the Tour of the Aiguilles Rouges and a circuit of the Italian Val Ferret. Walks are organised according to the nearest town base: St Gervais les Bains and Les Contamines, Servoz and Plateau D'Assy, Les Houches, Chamonix, Argentiere, Vallorcine and Courmayeur. Walks are Graded 1 to 3: grade 1 walks are manageable by any reasonably fit person on good, usually waymarked paths, while grade 3 routes are long, tough routes, often without waymarking, making navigation difficult: there could also be some scrambling. Additionally there is often a valley walk that can be done whatever the weather, or on rest days, with children, by bike, or as a run. All routes feature a detailed route description and mapping.

**Walking in the Auvergne** Rachel Crolla 2013-04-22 This walking guidebook describes 42 day routes exploring the stunning Auvergne region in central France. The walks are ideal for day walkers and hikers, with routes ranging from easy 5km outings to more challenging 20km hikes. All are illustrated with clear mapping and colour photographs. The guide focuses on the best routes in five different areas, including Cantal, the Chaîne des Puys (Monts Dômes), the Monts Dore, the Haute Loire (Livradois and Velay) and the Montagne Bourbonnaise, with bases including Vichy, Clermont-Ferrand and Puy-en-Velay. The routes in this guidebook offer walking on truly spectacular volcanic landscape, with grassy domes and volcanic bowls and long, rambling ridges, yet the walking is generally suitable (nothing over 1,900m) for all walkers, and the area is both accessible and provides a wide range of cultural and historical (and geological) interest. The guidebook also provides a wide range of practical information for visiting the Auvergne, with accommodation transport, and preparation advice, as well as providing a wealth of detail on the many places of interest along the walks.

**Short Treks on Corsica** Gillian Price 2021-08-25 With spectacular mountain landscapes, beautiful rugged coast, forests, maquis and striking river gorges, Corsica is a walker's paradise. This guidebook details five of the island's most popular shorter treks: the 2-day coastal Sentier du Douanier (Customs Officer's Path) around Cap Corse; two coast-to-coast routes through the central mountains, the 11-day Mare a Mare Nord and the 5-day Mare a Mare Sud; and two 'coast and mountains' routes, the 10-day Mare e Monti and the 5-day Mare e Monti Sud. (Corsica's famous 190km GR20 trail is described in a separate Cicerone guide.) The routes can be linked to create longer excursions and accommodation is provided by a mixture of walkers' hostels, B&Bs and hotels; camping is also an option. The guide presents each of the waymarked trails in daily stages averaging around 12-13km per day, with route description, mapping and notes on accommodation options. There is advice on how to get to Corsica, when to go and what to take, plus accommodation listings, useful contacts and a French/Corsican-English glossary. The guide also offers a wealth of information about the island's rich plant and wildlife. Considerably easier than the challenging GR20, these trails offer a more accessible option for trekkers wishing to experience the 'real' Corsica, away from the bustling coastal resorts. You'll find enchanting scenery - towering forests, gushing cascades, turquoise coves, aromatic maquis, rugged mountains and quiet villages nestling on hillsides of chestnut woods - not to mention a favourable climate and delicious local cuisine. Don't be surprised if you fall under the island's spell!
