[Media Poetry](#) Eduardo Kac 2007 The first international anthology to document a radically new poetry which takes language beyond the confines of the printed page into a non-linear world of digital interactivity and hyperlinkage. The work of the poets discussed in this book challenges even the innovations of experimental poetics. It embraces new technologies to explore a new syntax made of linear and non-linear animation, hyperlinkage, interactivity, real-time text generation, spatiotemporal discontinuities, self-similarity, synthetic spaces, immateriality, diagrammatic relations, visual tempo, multiple simultaneities, and many other innovative procedures. This new media poetry, although defined within the field of experimental poetics, departs radically from the avant-garde movements of the first half of the century, and the print-based approaches of the second half. Through an embrace of the vast possibilities made available through new media, the artists in this anthology have become the poetic pioneers for the next millennium.

In Defiance of Painting Christine Poggi 1992-01-01 The invention of collage by Picasso and Braque in 1912 proved to be a dramatic turning point in the development of Cubism and Futurism and ultimately one of the most significant innovations in twentieth-century art. Collage has traditionally been viewed as a new expression of modernism, one allied with modernism's search for purity of means, anti-illusionism, unity, and autonomy of form. This book - the first comprehensive study of collage and its relation to modernism - challenges this view. Christine Poggi argues that collage did not become a new language of modernism but a new language with which to critique modernism. She focuses on the ways Cubist collage - and the Futurist multimedia work that was inspired by it - undermined prevailing notions of material and stylistic unity, subverted the role of the frame and pictorial ground, and brought the languages of high and low culture into a new relationship of exchange.

Sigmar Polke Margit Rowell 1999 Sigmar Polke's thirty-five-year career, during which he has produced a vast range of work in all mediums, has earned him a reputation as one of the most significant artists of his generation. Born in 1941, he began his creative output around 1963 in Dusseldorf during a time of enormous social, cultural, and artistic changes in Germany and elsewhere. Few of his works demonstrate more vividly his imagination, sardonic wit, and subversive approach than the drawings, watercolors, and gouaches produced during the 1960s and early 1970s. Embedded in these images are incisive and parodic commentaries on consumer society, the postwar political scene in Germany, and classic artistic conventions.
