**Understanding Civil War: Africa** Director of the Development Research Group of the World Bank and Professor of Economics Paul Collier 2005 This publication is part of a two volume set which builds upon previous World Bank research into the causes and characteristics of civil war onset, particularly the model developed by Paul Collier and Anke Hoeffler regarding the relationship between violent political conflict and economic development. This volume considers the variables identified in the Collier-Hoeffler model and applies them to a set of case studies from a range of African countries, and then goes on to trace the process of conflict escalation in order to draw conclusions as to why civil war is likely to occur. The publication seeks to advance theoretical and empirical knowledge of civil war, in order to help further the objective of developing appropriate policy interventions. Another volume with case studies from a range of non-African countries is available separately (ISBN 0821360493).

**The Monfort Plan** Jaime Pozuelo-Monfort 2010-03-18 The Monfort Plan is a five-year, forward looking plan to eradicate extreme poverty from the developing world, and details how microfinance has made a difference to developing countries. This book proposes a new institution based in the developing world with the potential to provide a basic, free, and universal service in the areas of water, sanitation, healthcare, and education to the extreme poor worldwide. The provision will be subject to a certain degree of conditionality in areas ranging from corruption to legal environment. The new institution will be established in a new international territory based within a specific country in Sub-Saharan Africa and will emerge in 2015. In The Monfort Plan author Jaime Pozuelo-Monfort engineers and designs a solution to lessen the burden of poverty. In order to do so he relies on the social sciences to bring about innovation and forward looking economic policies and financial instruments in the context of a paradigm shift. This book presents a multidisciplinary approach to policymaking that combines a range of fields in the social sciences, looking at the history behind the Marshall Plan, the formation of the European Union, and the Bretton Woods Institutions, in order to determine how a Marshall Plan for Africa-and the creation of New Institutions in the developing world-could work. We live a moment

of crisis in which creative policymaking might prove useful when proposing outcomes for a revitalized framework for capitalism to thrive and better serve the world. Walks you through the technicalities of the new architecture of capitalism in a straightforward manner Provides a holistic view of how microfinance combined with the right economic policies and financial instruments could help change the world for the poor Contains sweeping and detailed recommendations on how to build a new capitalist paradigm that helps elevate the poor and improve the human condition Incorporating commentary from some of the top minds in the field of microfinance, this book puts the method of microfinance in perspective.

*Critical Mission* Thomas Carothers 2004 Demand for practical knowledge and lessons about how the United States and other countries can more effectively promote democracy around the world has never been higher. **Maintaining the Momentum of Decentralisation in Ukraine** Collectif 2018-06-15 This Multi-level Governance Series study focuses on Ukraine's advances in regional development, territorial reform and decentralisation since 2014. The Government launched a reform to merge local governments and strengthen the decentralisation process, giving additional power and resources to sub-national authorities. In a short period, successful steps have been taken toward achieving municipal mergers and greater fiscal, administrative and political decentralisation, complemented by the State Strategy for Regional Development 2015-2020. The first local elections have been held and more public services are being delivered by certain local authorities. Yet, important challenges remain, ranging from a need to address rising disparities and adjusting multi-level governance practices and territorial structures, to better structuring fiscal decentralisation. This report addresses regional performance and disparities in Ukraine, provides insight into Ukraine's current territorial reform and approach to decentralisation, explores the impact of fiscal decentralisation measures, and includes a case study of the transport sector. It also provides a set of recommendations for action to support Ukraine in meeting the conditions for successful decentralisation.

Not My Time to Die Mukagasana, Yolande 2019-06-28 Yolande Mukagasana is a Rwandan nurse and mother of three children who likes wearing jeans and designer glasses. She runs her own clinic in Nyamirambo and is planning a party for her wedding anniversary. But when genocide starts everything changes. Targeted because she's a successful woman and a Tutsi, she flees for her life. This gripping memoir describes the betrayal of friends and help that comes from surprising places. Quick-witted and courageous, Yolande never loses hope she will find her children alive. "This book was one of the first literary testimonies that I read in French about Rwanda. I found it profoundly moving — both realistic and introspective. Thanks to this beautiful translation, it is at long last available to the English-speaking public." Véronique Tadjó "Reading Yolande Mukagasana's book in French at the age of fifteen changed my life. I realized that genocide is not a mass crime but a single murder repeated hundreds of thousands of times. With this testimony the genocide is no longer just a historical event, it is instead the story of a woman, a mother, a Tutsi. And this is what makes Yolande's account universal." Gaël Faye

**Public Brainpower** Indra Overland 2017-10-26 This book discusses how civil society, public debate and freedom of speech affect the management of natural resources. Drawing on the work of Robert Dahl, Jürgen Habermas and Robert Putnam, the book introduces the concept of public brainpower. Good governance of natural resources requires fertile public debate – to conceive new institutions, to provide checks and balances on existing institutions and to ensure their continuous dynamic evolution as the needs of society change. The book explores the strengths and weaknesses of these ideas through case studies of 18 oil and gas-producing countries: Algeria, Angola, Azerbaijan, Canada, Colombia, Egypt, Iraq, Kazakhstan, Libya, the Netherlands, Nigeria, Norway, Qatar, Russia, Saudi Arabia, the UAE, the UK and Venezuela. The concluding chapter presents 10 tenets on how states can maximize their public brainpower, as well as a ranking of how well 33 resource-rich countries have succeeded in doing so. Four of the chapters – ‘Introduction’, ‘Norway’, ‘Kazakhstan’ and ‘Russia’ – are available under a CC BY 4.0 Open Access license at [link.springer.com](http://link.springer.com).

*Aiding Democracy Abroad* Thomas Carothers 2011-09 Aid to promote democracy abroad has emerged as a major growth industry in recent years. Not only the United States but many other Western countries, international institutions, and private foundations today use aid to support democratic transitions in Eastern Europe, the former Soviet Union, Asia, Africa, Latin America, and the Middle East. Though extensive in

scope, these activities remain little understood outside the realm of specialists. Debates among policymakers over democracy promotion oscillate between unhelpful poles of extreme skepticism and unrealistic boosterism, while the vast majority of citizens in aid-providing countries have little awareness of the democracy-building efforts their governments sponsor. *Aiding Democracy Abroad* is the first independent, comprehensive assessment of this important new field. Drawing on extensive field research and years of hands-on experience, Thomas Carothers examines democracy-aid programs relating to elections, political parties, governmental reform, rule of law, civil society, independent media, labor unions, decentralization, and other elements of what he describes as "the democracy template" that policymakers and aid officials apply around the world. Steering a careful path between the inflated claims of aid advocates and the exaggerated criticisms of their opponents, Carothers takes a hard look at what such programs achieve and how they can be improved.

*The State of Peacebuilding in Africa* Terence McNamee 2020-11-02 This open access book on the state of peacebuilding in Africa brings together the work of distinguished scholars, practitioners, and decision makers to reflect on key experiences and lessons learned in peacebuilding in Africa over the past half century. The core themes addressed by the contributors include conflict prevention, mediation, and management; post-conflict reconstruction, justice and Disarmament Demobilization and Reintegration; the role of women, religion, humanitarianism, grassroots organizations, and early warning systems; and the impact of global, regional, and continental bodies. The book's thematic chapters are complemented by six country/region case studies: The Democratic Republic of Congo, Rwanda, Sierra Leone, Sudan/South Sudan, Mozambique and the Sahel/Mali. Each chapter concludes with a set of key lessons learned that could be used to inform the building of a more sustainable peace in Africa. *The State of Peacebuilding in Africa* was born out of the activities of the Southern Voices Network for Peacebuilding (SVNP), a Carnegie-funded, continent-wide network of African organizations that works with the Wilson Center to bring African knowledge and perspectives to U.S., African, and international policy on peacebuilding in Africa. The research for this book was made possible by a grant from Carnegie Corporation of New York.

*Basketball* James Naismith 1996-01-01 James Naismith was teaching physical education at the Young Men's Christian Association Training College in Springfield, Massachusetts, and felt discouraged because calisthenics and gymnastics didn't engage his students. What was needed was an indoor wintertime game that combined recreation and competition. One evening he worked out the fundamentals of a game that would quickly catch on. Two peach half-bushel baskets gave the name to the brand new sport in late 1891. *Basketball: Its Origin and Development* was written by the inventor himself, who was inspired purely by the joy of play. Naismith, born in northern Ontario in 1861, gave up the ministry to preach clean living through sport. He describes *Duck on the Rock*, a game from his Canadian childhood, the creative reasoning behind his basket game, the eventual refinement of rules and development of equipment, the spread of amateur and professional teams throughout the world, and the growth of women's basketball (at first banned to male spectators because the players wore bloomers). Naismith lived long enough to see basketball included in the Olympics in 1936. Three years later he died, after nearly forty years as head of the physical education department at the University of

Kansas. This book, originally published in 1941, carries a new introduction by William J. Baker, a professor of history at the University of Maine, Orono. He is the author of *Jesse Owens: An American Life and Sports in the Western World*.

**Understanding Civil War: Europe, Central Asia, and other regions** Paul Collier 2005-01-01 Annotation

VOLUME I: Africa VOLUME II: Europe, Central Asia, and Other Regions (volumes sold separately) "This is a superb manuscript, and one that will become a standard reference in the field for students of conflict and civil war." Robert Bates, Eaton Professor of the Science of Government, Harvard University The two volumes of *Understanding Civil War* build upon the World Bank's prior research on conflict and violence, particularly on the work of Paul Collier and Anke Hoeffler, whose model of civil war onset has sparked much discussion on the relationship between conflict and development in what came to be known as the "greed" versus "grievance" debate. The authors systematically apply the Collier-Hoeffler model to 15 countries in 6 different regions of the world, using a comparative case study methodology to revise and expand upon economic models of civil war. The book concludes that the "greed" versus "grievance" debate should be abandoned for a more complex model that considers greed and grievance as inextricably fused motives for civil war. regions of Somalia. *Conflict in Somalia* examines the results of the study and offers recommendations for reconstruction and development assistance that takes the knowledge on conflict into account.

*On Heaven and Earth* Jorge Mario Bergoglio 2013-04-19 From the man who became Pope Francis, Jorge Mario Bergoglio shares his thoughts on religion, reason, and the challenges the world faces in the 21st century with Abraham Skorka, a rabbi and biophysicist. For years Cardinal Jorge Mario Bergoglio, archbishop of Argentina, and Rabbi Abraham Skorka were tenacious promoters of interreligious dialogues on faith and reason. They both sought to build bridges among Catholicism, Judaism, and the world at large. *On Heaven and Earth*, originally published in Argentina in 2010, brings together a series of these conversations where both men talked about various theological and worldly issues, including God, fundamentalism, atheism, abortion, homosexuality, euthanasia, same-sex marriage, and globalization. From these personal and accessible talks comes a first-hand view of the man who would become pope to 1.2 billion Catholics around the world in March 2013.

Melania and Me Stephanie Winston Wolkoff 2020-09-01 #1 NEW YORK TIMES BESTSELLER What Melania wants, Melania gets. The former director of special events at Vogue and producer of nine legendary Met Galas, Stephanie Winston Wolkoff met Melania Knauss in 2003 and had a front row seat to the transformation of Donald Trump's then girlfriend from a rough-cut gem to a precious diamond. As their friendship deepened over lunches at Manhattan hot spots, black-tie parties, and giggle sessions in the penthouse at Trump Tower, Wolkoff watched the newest Mrs. Trump raise her son, Barron, and manage her highly scrutinized marriage. After Trump won the 2016 election, Wolkoff was recruited to help produce the 58th Presidential Inauguration and to become the First Lady's trusted advisor. Melania put Wolkoff in charge of hiring her staff, organizing her events, helping her write speeches, and creating her debut initiatives. Then it all fell apart when she was made the scapegoat for inauguration finance irregularities. Melania could have defended her innocent friend and confidant, but she stood by her man, knowing full well who was really to blame. The betrayal nearly destroyed Wolkoff. In this candid and emotional memoir, Stephanie Winston Wolkoff takes you into Trump Tower and the White House to tell the funny, thrilling, and heartbreaking story of her intimate friendship with one of the most famous women in the world, a woman few people truly understand. How did Melania react to the Access Hollywood tape and her husband's affair with Stormy Daniels? Does she get along well with Ivanka? Why did she wear that jacket with "I really don't care, do u?"

printed on the back? Is Melania happy being First Lady? And what really happened with the inauguration's funding of \$107 million? Wolkoff has some ideas...

*Magnificent Desolation* Buzz Aldrin 2009-08-17 Forty years ago, Buzz Aldrin became the second human - minutes after Neil Armstrong - to set foot on a celestial body other than the Earth. The event remains one of mankind's greatest achievements and was witnessed by the largest worldwide television audience in history. In the years since, millions more have had their earth-centric perspective changed forever by gazing at the iconic photograph of Aldrin standing on the surface of the Moon with the blackness of space behind him. He described what he saw as 'magnificent desolation'. The flight of Apollo 11 made Aldrin one of the most famous people on the planet, yet few people know the rest of the story. In *Magnificent Desolation*, Aldrin not only gives us a harrowing first-person account of the lunar landing that came within seconds of failure, as well as the ultimate insider's view of life as one of the superstars of America's space program, he also opens up with remarkable candor about his more personal trials - and eventual triumphs - back on Earth. From the glory of being part of the mission that fulfilled President Kennedy's challenge to reach the Moon before the decade was out, Aldrin returned home to an Air Force career stripped of purpose or direction, other than as a public relations tool that NASA put to relentless use in a seemingly nonstop world tour. The twin demons of depression and alcoholism emerged - the first of which Aldrin confronted early and publicly and the second of which he met with denial until it nearly killed him. As an adventure story, a searing memoir of self-destruction and self-renewal, and as a visionary rallying cry to once again set our course for Mars and beyond, *Magnificent Desolation* is the thoroughly human story of a genuine hero.

*A Civil Society* James Smith Allen 2022-05 A Civil Society explores the struggle to initiate women as full participants in the masonic brotherhood that shared in the rise of France's civil society and its "civic morality" on behalf of women's rights. As a vital component of the third sector during France's modernization, freemasonry empowered women in complex social networks, contributing to a more liberal republic, a more open society, and a more engaged public culture. James Smith Allen shows that although women initially met

with stiff resistance, their induction into the brotherhood was a significant step in the development of French civil society and its "civic morality," including the promotion of women's rights in the late nineteenth century. Pulling together the many gendered facets of masonry, Allen draws from periodicals, memoirs, and archival material to account for the rise of women within the masonic brotherhood in the context of rapid historical change. Thanks to women's social networks and their attendant social capital, masonry came to play a leading role in French civil society and the rethinking of gender relations in the public sphere.

*The Modern VAT* Mr.Liam P. Ebrill 2001-11-05 Value-added tax, or VAT, first introduced less than 50 years ago, is now a pivotal component of tax systems around the world. The rapid and seemingly irresistible rise of the VAT is probably the most important tax development of the latter twentieth century, and certainly the most breathtaking. Written by a team of experts from the IMF, this book examines the remarkable spread and current reach of the innovative tax and draws lessons about the design and implementation of the VAT, as experienced by different countries around the world. How efficient is it as a tax, is it fair, and is it suitable for all countries? These are among the questions raised. This highly informative and well-researched book also looks at the likely future of the tax.

Warlord Democrats in Africa Anders Themnér 2017-04-15 Post-war democratization has been identified as a crucial mechanism to build peace in war-ridden societies, supposedly allowing belligerents to compete through ballots rather than bullets. A byproduct of this process, however, is that military leaders often become an integral part of the new democratic system, using resources and networks generated from the previous war to dominate the emerging political landscape. The crucial and thus-far overlooked question to be addressed, therefore, is what effect the inclusion of ex-militaries into electoral politics has on post-war security. Can 'warlord democrats' make a positive contribution by shepherding their wartime constituencies to support the building of peace and democracy, or are they likely to use their electoral platforms to sponsor political violence and keep war-affected communities mobilized through aggressive discourses? This important volume, containing a wealth of fresh empirical detail and theoretical insight, and focussing on some of Africa's most high-profile political figures – from Paul Kagame to Riek Machar to Afonso Dhlakama – represents a crucial intervention in the literature of post-war democratization.

**Macarons** Pierre Hermé 2018-08-17 "The macaron bible that we have all waited for . . . filled with imagination, creativity and wonder" by the universally acknowledged king of French pastry (Cooking by the Book). With shops in Tokyo, Paris and London, Pierre Herme has taken the world by storm and has even been described as a couturier of pastry. This is a man at the top of his art and there is no question his macarons are in a league of their own. Macarons are the aristocrats of pastry; these brightly colored, mini meringues, daintily sandwiched together with goeey fillings have become a holy grail for cookery fanatics and there are even food blogs

dedicated to them. Like Pierre Herme's famous macarons, it would be difficult for any macaron book to surpass this universal bestseller. There are 208 pages of recipes and beautiful food photography, and because making macarons is mostly about technique, rather than just a standard recipe, readers will appreciate the 32 step-by-step photo-illustrated instructions for making shells and fillings. All the classics are here like dark chocolate, praline, coffee, and pistachio, but others feature the more unusual macarons that Herme is justly famous for: Isfahan is one, with lychee, rose and raspberry, Arabesque with apricot and pistachio, Satine with passion fruit, orange and cream cheese, Mandarin and pink pepper, black truffles, balsamic vinegar as well as a bright-green macaron filled with fresh mint.
