In this outrageously funny and oddly wise guide to relationships, forty-five-year-old bachelor Will Forte shares his bulletproof advice for attracting-and retaining-a romantic partner of the fairer sex. Told in the form of 101 hand-drawn rules of thumb, the book takes on all the questions men are dying to know the answers to but are too afraid to ask: What activities are acceptable and not acceptable to do with a romantic interest's father? What animals, if any, should never be incorporated into foreplay? Should I claim to have collaborated with a famous poet? Combining wisdom, both practical and not, with idiosyncratic drawings so simple that even a romantically frustrated man-child could understand them, *101 Things to Definitely Not Do If You Want to Get a Chick* gracefully answers these questions and ninety-eight others.

101 Things I Learned in Architecture School Matthew Frederick 2007-08-31 Concise lessons in design, drawing, the creative process, and presentation, from the basics of "How to Draw a Line" to the complexities of color theory. This is a book that students of architecture will want to keep in the studio and in their backpacks. It is also a book they may want to keep

out of view of their professors, for it expresses in clear and simple language things that tend to be murky and abstruse in the classroom. These 101 concise lessons in design, drawing, the creative process, and presentation—from the basics of "How to Draw a Line" to the complexities of color theory—provide a much-needed primer in architectural literacy, making concrete what too often is left nebulous or open-ended in the architecture curriculum. Each lesson utilizes a two-page format, with a brief explanation and an illustration that can range from diagrammatic to whimsical. The lesson on "How to Draw a Line" is illustrated by examples of good and bad lines; a lesson on the dangers of awkward floor level changes shows the television actor Dick Van Dyke in the midst of a pratfall; a discussion of the proportional differences between traditional and modern buildings features a drawing of a building split neatly in half between the two. Written by an architect and instructor who remembers well the fog of his own student days, *101 Things I Learned in Architecture School* provides valuable guideposts for navigating the design studio and other classes in the architecture curriculum. Architecture graduates—from young designers to experienced practitioners—will turn to the book as well, for inspiration and a guide back to basics when solving a complex design problem.

101 Things to Learn in Art School Kit White 2011-08-19 Lessons, demonstrations, definitions, and tips on what to expect in art school, what it means to make art, and how to think like an artist. What is the first thing to learn in art school? "Art can be anything." The second thing? "Learn to draw." With *101 Things to Learn in Art School*, artist and teacher Kit White delivers and develops such lessons, striking an instructive balance between technical advice and sage concepts. These 101 maxims, meditations, and demonstrations offer both a toolkit of ideas for the art student and a set of guiding principles for the artist. Complementing each of the 101 succinct texts is an equally expressive drawing by the artist, often based on a historical or contemporary work of art, offering a visual correlative to the written thought. "Art can be anything" is illustrated by a drawing of Duchamp's famous urinal; a description of chiaroscuro art is illuminated by an image "after Caravaggio"; a lesson on time and media is accompanied by a view of a Jenny Holzer projection; advice about surviving a critique gains resonance from Piero della Francesca's arrow-pierced Saint Sebastian. *101 Things to Learn in Art School* offers advice about the issues artists confront across all artistic media, but this is no simple handbook to making art. It is a guide to understanding art as a description of the world we live in, and it is a guide to using art as a medium for thought. And so this book belongs on the reading list of art students, art

teachers, and artists, but it also belongs in the library of everyone who cares about art as a way of understanding life.
