Business Capital 101 Roberta A. Pellant 2021-04-26 The purpose of this book is to define the process and protocols of the TASASS™ score. It also serves as the textbook for the USCGA™ TASASS™ certification course. It was written as a manual for students, entrepreneurs, finance professionals, advisors, and consultants. It defines the types of capital available and documentation requirements to achieve "success" in the capital marketplace. "Success" is defined as a trifecta of: 1) the enterprise acquiring capital; 2) the business becoming successful and 3) the capital source(s) receiving a positive outcome. Business Capital 101 provides clarity in an otherwise complicated environment of gaining access to capital for qualified enterprises. Our mission is to provide a compliant, professional, time-sensitive, cost-conscious, and realistic approach to the business finance process. We accomplish this mission by the implementation of a due diligence process known as the TASASS™ score. The TASASS™ score was developed as a result of a study of more than 300 enterprises engaged by me since 2008 wherein, I was able to determine the more than 300 common attributes amongst successful and failed ventures. The TASASS™ score is a combination of a Transaction Analysis™ (TA), a Situation Analysis™ (SA) implemented in a Software (S) that results in a Score (S). The TASASS™ score is a standardized objective due diligence process that serves capital markets during the enterprise vetting phase of capitalization. The software was created based on a 10-year study of 300 applicants. The goal of the proprietary Software as a Service (SaaS) is to identify opportunities that achieve a TASASS™ score in excess of 92.5%, known as "TASASS Prime™." TASASS™ is an acronym for: Transaction Analysis Situation Analysis Scoring Software™. The TASASS™ score was developed by Tony Drexel Smith through the financial and human capital resources of: TASASS, Inc, The Association of Blue Moon Advisors, Blue Moon Advisors, Inc., Blue Moon Consortium, Inc., US Capital Global, SUMATICI, Inc., and TD Smith & Associates. Enterprises that have raised capital successfully have the following commonalities: they sought the right type of

capital for their stage of development and ability to repay; they created documentation that speaks to the correct capital; and they earned a minimum of 925 out of the 1,000 points possible in our TASASS™ score. Tony Drexel Smith

Giving Back Merrill J. Oster 2003 Business entrepreneurs have always played a key role in America's financial growth. Now social entrepreneurs are also being recognized for their significant contributions. Management expert Peter Drucker insists that "social entrepreneurship ... is as important as economic entrepreneurship. More important, perhaps." That message resonates with today's businessmen and women. They realize that in addition to economic health, the health of society must not be overlooked. The successes featured in this book come from a variety of backgrounds and represent a spectrum of social and spiritual concerns. They are practical idealists who use modern tools and technology to share the age-old love of God with the disadvantaged -- from at-risk kids to dysfunctional families to impoverished minorities to the homeless. Throughout *Giving Back*, authors Oster and Hamel highlight practical principles that will help you use your resources, abilities, and influence to create positive social change and improve the world your grandchildren will inherit. The Fight for Home Daniel Wolff 2012-08-07 When Daniel Wolff first headed down to New Orleans five months after the levees breached, he thought he might spend a year reporting on the recovery ahead. He found people desperate to tell their stories; they had lost the documents of their personal history - the photos and diaries - in the flood. They wanted to recover and preserve their stories through telling, and as their recovery dragged on and they struggled to make their government keep its promises, they became desperate about the recorders and cameras turning away. A year of reporting became five. Wolff follows the

inevitable difficulties of rebuilding a city almost from scratch. A quarter of the population chose not to return; those who did had to rebuild not just houses but community. The city of their memory, their model, had one of the worst crime rates and worst school systems in the country; yet an organized plan for a brighter future might eliminate the very neighborhoods they had returned to fight for. The government was incompetent; the contractors were corrupt. In this environment, trust becomes a radical act and hope is its own small miracle. The Fight for Home introduces an amazing cast of characters: ex-addicts and church women, ex-Black Panthers and Sons of the Confederacy; urban planners and anarchists. As their journeys unfold, Fight for Home becomes a story of surviving not just a flood, but the emergency of the everyday - of surviving in America.

The Retirement Nightmare Diane G. Armstrong WARNING: At the hearing you may lose many of your rights. A guardian may be appointed to make personal decisions for you. A conservator may be appointed to make decisions concerning your property and finances. The appointment may affect control of how you spend your money, how your property is managed and controlled, who makes your medical decisions, where you live, whether you are allowed to vote, and other important rights. The above warning, sent to all allegedly incapacitated seniors in the state of Virginia, summarizes the nightmare that can befall senior citizens anywhere in the United States as a result of involuntary conservatorship or guardianship proceedings. Statutes originally designed to help elderly friends and relatives who are unable to look after their own personal or financial needs are now being increasingly abused by calculating heirs to direct the transfer of family assets to themselves—with the courts' blessings. Based on fifty-five cases drawn from courtrooms across America and the author's own bitter experience, *The Retirement Nightmare* describes what can happen to competent senior citizens when such proceedings are filed against them by relatives or other so-called protectors in the social welfare community. Dr. Armstrong, who was forced to battle her own siblings in a million-dollar court battle to place her competent mother in an involuntary conservatorship, reveals how these arcane conservatorship and guardianship codes function in our courts

today; unfortunately, as the author learned firsthand, the actual application of these codes is determined almost solely by the competence and attitudes of individual judges and investigators. She highlights the key problem areas common to the codes that should be changed and recommends ways that seniors can protect themselves to preserve their personal and financial freedom in their retirement years. She also suggests alternatives to conservatorships and guardianships that exist in every state to help the elderly with various aspects of daily living, such as balancing checkbooks, paying bills, grocery shopping, preparing meals, etc. This breakthrough book exposes the secretive world of involuntary protective proceedings and more importantly gives seniors the tools they need to protect themselves from this predatory litigation. Diane G. Armstrong, Ph.D. (Santa Barbara, CA) is a clinical psychologist who works as a writer and consultant specializing in conservatorship/guardianship issues.
