This is likewise one of the factors by obtaining the soft documents of this **2015 imc** by online. You might not require more time to spend to go to the books inauguration as skillfully as search for them. In some cases, you likewise get not discover the publication 2015 imc that you are looking for. It will entirely squander the time.

However below, taking into account you visit this web page, it will be as a result definitely simple to get as without difficulty as download lead 2015 imc

It will not give a positive response many epoch as we notify before. You can accomplish it even if perform something else at house and even in your workplace. thus easy! So, are you question? Just exercise just what we come up with the money for below as skillfully as evaluation **2015 imc** what you subsequent to to read!

**2015 International Mechanical Code** International Code Council 2014-06-05 For the most current mechanical codes that address the design and installation of the most current mechanical systems, use the 2015 INTERNATIONAL MECHANICAL CODE SOFT COVER. Designed to provide comprehensive regulations for mechanical systems and equipment, it includes coverage of HVAC, exhaust systems, chimneys and vents, ducts, appliances, boilers, water heaters, refrigerators, hydronic piping, and solar systems. This valuable reference uses prescriptive- and performance- related provisions to establish minimum regulations for a variety of systems. This updated code includes information on condensate pumps, and the ventilation system for enclosed parking garages.

**Integrated Marketing Communication** Jeanne M. Persuit 2016-09-22 Integrated Marketing Communication (IMC) is a holistic approach to the areas of advertising, public relations, branding, promotions, event and experiential marketing, and related fields of strategic communication. Integrated Marketing Communication: Creating Spaces for Engagement explores how IMC can open up spaces for engagement in our classrooms and our communities. The breadth of the contributors is in the spirit of IMC, examining public and private sector organizations that offer products and services while relying on various methodologies and theoretical approaches, with particular emphasis on rhetoric, philosophy of communication, qualitative research, and historical perspectives in IMC. Moreover, each chapter considers IMC from a different communicative perspective, including strategic communication, philosophy of communication, rhetorical theory, health communication, crisis and risk communication, communication theory, and mass communication.

2015 International Existing Building Code International Code Council 2014-06-11 Learn the requirements needed to instill safety and stability in existing and historic buildings - without requiring full compliance with the new construction requirements in the building code. The 2015 INTERNATIONAL EXISTING BUILDING CODE LOOSE LEAF contains requirements intended to encourage the use and reuse of existing buildings by covering important topics such as repairs, alterations, additions, and changes of occupancy, making this an ideal addition to a user's code products. Chapter changes in this updated code include requirements related to the addition of sleeping units and dwelling units as they relate to the requirements for Accessible units, and Type A units and Type B units have been moved to Chapter 11 on Additions.

**2015 International Mechanical Code Turbo Tabs for Soft Cover** ICC 2014-06-27 Customize your 2015 INTERNATIONAL MECHANICAL CODE SOFT COVER book with updated, easy-to-use TURBO TABS. These handy tabs will highlight the most frequently referenced sections of the latest version of the IMC. They have been strategically designed by industry experts so that users can quickly and efficiently access the information they need, when they need it.

*International Plumbing Code 2015* International Code Council 2014-06-05 With an emphasis on design and installation for optimum performance, the 2015 INTERNATIONAL PLUMBING CODE SOFT COVER sets forth established requirements for plumbing systems. This important reference guide includes provisions for fixtures, piping, fittings, and devices, as well as design and installation methods for water supply, sanitary drainage, and storm drainage. The 2015 edition of the code includes information on public toilet facilities, as well as water temperature limiting devices, and replacement water heater installation. Using both prescriptive- and performance-related specifications, this code provides comprehensive minimum regulations for a variety of plumbing facilities, facilitating the design and acceptance of new and innovative products, materials, and systems.

Advanced Applications of Fractional Differential Operators to Science and Technology Matouk, Ahmed Ezzat 2020-04-24 Fractional-order calculus dates to the 19th century but has been resurrected as a prevalent research subject due to its provision of more adequate and realistic descriptions of physical aspects within the science and engineering fields. What was once a classical form of mathematics is currently being reintroduced as a new modeling technique that engineers and scientists are finding modern uses for. There is a need for research on all facets of these fractional-order systems and studies of its potential applications. *Advanced Applications of Fractional Differential Operators to Science and Technology* provides emerging research exploring the theoretical and practical aspects of novel fractional modeling and related dynamical behaviors as well as its applications within the fields of physical sciences and engineering. Featuring coverage on a broad range of topics such as chaotic dynamics, ecological models, and bifurcation control, this book is ideally designed for engineering professionals, mathematicians, physicists, analysts, researchers, educators, and students seeking current research on fractional calculus and other applied mathematical modeling techniques.

*Alternative Media Meets Mainstream Politics* Joshua D. Atkinson 2019-05-20 This volume examines the rising role that alternative media play in contemporary mainstream political communication. The book focuses on three primary sites where such media have established growing influence in recent years: political parties, mainstream political news, and participatory media that allow for engagement.

*Cardiac Fibrosis and Heart Failure: Cause or Effect?* Ian M.C. Dixon 2015-06-29 The unique biology of cardiac fibroblasts and related cells, such as cardiac myofibroblasts and valvular interstitial cells, distinguish them from other fibroblastic cells, a concept that is only beginning to be widely appreciated. Further, the natural signals that stimulate and inhibit cardiac fibrosis within these cells are not well understood. This volume compiles articles that address the molecular mechanisms that control the synthesis and secretion of the cardiac ECM. The book showcases chapters that highlight discussion of role of Transforming Growth Factor  $\beta$  (TGF $\beta$ ), an important fibrogenic cytokine and its downstream effectors SMAD in many cardiac diseases. Further, the contributions highlight information to discuss endogenous inhibitors of cardiac fibrosis, as well as advances in tissue engineering specific to matrix in the heart. Finally, discussions of unifying mechanisms of matrix remodeling in valves and myocardium

are presented. The mechanisms involved in the stimulation of cardiac fibrosis are not fully understood. In most cases the marginal attenuation of cardiac fibrosis as a result of a given therapy is a beneficial side-effect linked to other primary effects on other cells, especially cardiomyocytes. Very few drugs or agents are known to affect the function and dysfunction of cardiac fibroblasts and myofibroblasts alone. The book helps to translate the information gathered within to allow us to alter the course of fibrogenic events that are typical of cardiac fibrosis, and thereby reduce their burden on the patient and on society itself.

Espoo, Finland, 10-14 June 2018). The aim of this IMDC series of conferences is to promote all aspects of marine design as an engineering discipline. The focus is on key design challenges and opportunities in the area of current maritime technologies and markets, with special emphasis on: • Challenges in merging ship design and marine applications of experience-based industrial design • Digitalisation as technological enabler for stronger link between efficient design, operations and maintenance in future • Emerging technologies and their impact on future designs • Cruise ship and icebreaker designs including fleet compositions to meet new market demands To reflect on the conference focus, Marine Design XIII covers the following research topic series: • State of art ship design principles - education, design methodology, structural design, hydrodynamic design; • Cutting edge ship designs and operations - ship concept design, risk and safety, arctic design, autonomous ships; • Energy efficiency and propulsions - energy efficiency, hull form design, propulsion equipment design; • Wider marine designs and practices - navy ships, offshore and wind farms and production. Marine Design XIII contains 2 state-of-the-art reports on design methodologies and cruise ships design, and 4 keynote papers on new directions for vessel design practices and tools, digital maritime traffic, naval ship designs, and new tanker design for arctic. Marine Design XIII will be of interest to academics and professionals in maritime technologies and marine design.

**Integrated Marketing Communications with Student Resource Access 12 Months** Bill Chitty 2017-11-16 Organisations continually use integrated marketing communications to achieve a competitive advantage and meet their marketing objectives. This 5th edition of Integrated Marketing Communications emphasises digital and interactive marketing, the most dynamic and crucial components to a successful IMC campaign today. Incorporating the most up-to-date theories and practice, this text clearly explains and demonstrates how to best select and co-ordinate all of a brand's marketing communications elements to effectively engage the target market. Chapters adopt an integrative approach to examine marketing communications from both a consumer's and marketer's perspective. With a new chapter on digital and social marketing addressing the development of interactive media in IMC and new IMC profiles featuring Australian marketer's, along with a wide range of local and global examples including: Spotify, Pandora, Snapchat, Palace Cinemas, Woolworths, KFC, Old Spice, Telstra, Colgate and QANTAS, this text has never been so relevant for students studying IMC today. Each new copy of the text also offers 12 month access to a wealth of student online revision and learning tools: CourseMate Express + Search me! Marketing. Unique to the text is a series of new student and instructor IMC videos showing students how key objectives in IMC theory are applied by real businesses.

properties. Drawing on cutting-edge empirical research, the book offers a detailed view into the marketing communications practices of EPL clubs (such as brand management and communications alignment), the football clubs' practitioners' perspectives of IMC and the integration processes taking place within the clubs. It examines the key marketing communications practices that strategic IMC entails, including marketing strategies and goals, cross-functional communication, external communication management and brand management, and helps researchers and practitioners to understand how IMC can have the maximum positive impact on the brand of an organisation, by managing their content, channels, stakeholders and results. This book is fascinating reading for any researcher, advanced student or practitioner with an interest in sport management, the business of football, sport marketing, or innovative approaches to marketing and business communications in other commercial spheres.

Macrophage Targeted Delivery Systems Swati Gupta 2022-02-22 The proposed book is envisioned for the nascent and entry-level researchers who are interested to work in the field of drug delivery and its applications specifically for macrophage targeting. Macrophages have gained substantial attention as therapeutic targets for drug delivery considering their major role in health and regulation of diseases. Macrophage-targeted therapeutics have now added significant value to the lives and quality of life of patients, without undue adverse effects in multiple disease settings. We anticipate examining and integrating the role of macrophages in the instigation and advancement of various diseases. The major focus of the book is on recent advancements in various targeting strategies using delivery systems or nanocarriers followed by application of these nanocarriers for the treatment of macrophage associated disorders. Macrophage Targeted Delivery Systems is primarily targeted to Pharmaceutical Industry & Academia, Medical & Pharmaceutical Professionals, Undergraduate & Post graduate students and Research Scholars, Ph.D, post docs working in the field of medical and pharmaceutical sciences.

*Promoting Interdisciplinarity in Knowledge Generation and Problem Solving* Al-Suqri, Mohammed Nasser 2017-10-31 Interdisciplinary research is a method that has become efficient in accelerating scientific discovery. The integration of such processes in problem solving and knowledge generation is a vital part of learning and instruction. *Promoting Interdisciplinarity in Knowledge Generation and Problem Solving* is a pivotal reference source for the latest scholarly research on interdisciplinary projects from around the world, highlighting the broad range of circumstances in which this approach can be effectively used to solve problems and generate new knowledge. Featuring coverage on a number of topics and perspectives such as industrial design, ethnographic methods, and methodological pluralism, this publication is ideally designed for academicians, researchers, and students seeking current research on the promotion of interdisciplinarity for knowledge production.

*Innovative Research and Applications in Next-Generation High Performance Computing* Hassan, Qusay F. 2016-07-05 High-performance computing (HPC) describes the use of connected computing units to perform complex tasks. It relies on parallelization techniques and algorithms to synchronize these disparate units in order to perform faster than a single processor could, alone. Used in industries from medicine and research to military and higher education, this method of computing allows for users to complete complex data-intensive tasks. This field has undergone many changes over the past decade, and will continue to grow in popularity in the coming years. *Innovative Research Applications in Next-Generation High Performance Computing* aims to address the future challenges, advances, and applications of HPC and related technologies. As the need for such processors increases, so does the importance of developing new ways to optimize the performance of these supercomputers. This timely publication provides comprehensive information for researchers, students in ICT, program developers, military and government organizations, and business professionals.

**Programming & Analysis (PA) ARE 5.0 Exam Guide (Architect Registration Examination): ARE 5.0 Overview, Exam Prep Tips, Guide, and Critical Content** Gang Chen 2020-09-05 A Practical Exam Guide for the ARE 5.0 Programming & Analysis (PA) Division! To become a licensed architect, you need to have a proper combination of education and/or experience, meet your Board of Architecture's special requirements, and pass the ARE exams. This book provides an ARE 5.0 exam overview, suggested reference and resource links, exam prep and exam taking techniques, tips and guides, and critical content for the ARE 5.0 Programming & Analysis (PA) Division. More specifically this book covers the following subjects: · ARE 5.0, AXP, and education requirements · ARE 5.0 exam content, format, and prep strategies · ARE 5.0 credit model and the easiest way to pass ARE exams · Allocation of your time and scheduling · Timing of review: the 3016 rule; memorization methods, tips, suggestions, and mnemonics · Environmental & contextual conditions · Codes & regulations · Site analysis & programming · Building analysis & programming This book will help you pass the PA division of the ARE 5.0 and become a licensed architect! Can you study and pass the ARE 5.0 Programming & Analysis (PA) exam in 2 weeks? The answer is yes: If you study the right materials, you can pass with 2 weeks of prep. If you study our book, "Programming & Analysis (PA) ARE 5.0 Exam Guide (Architect Registration Examination)" & "Programming & Analysis (PA) ARE 5.0 Mock Exam (Architect Registration

Examination)," you have an excellent chance of studying and passing the ARE 5.0 Programming & Analysis (PA) division in 2 weeks. We have added many tips and tricks that WILL help you pass the exam on your first try. Our goal is to take a very complicated subject and make it simple. "Programming & Analysis (PA) ARE 5.0 Exam Guide (Architect Registration Examination)" & "Programming & Analysis (PA) ARE 5.0 Mock Exam (Architect Registration Examination)" will save you time and money and help you pass the exam on the first try! **Boiling** Yasuo Koizumi 2017-06-22 Boiling: Research and Advances presents the latest developments and improvements in the technologies, instrumentation, and equipment surrounding boiling. Presented by the Japan Society of Mechanical Engineers, the book takes a holistic approach, first providing principles, and then numerous practical applications that consider size scales. Through six chapters, the book covers contributed sections from knowledgeable specialists on various topics, ranging from outlining boiling phenomena and heat transfer characteristics, to the numerical simulation of liquid-gas two phase flow. It summarizes, in a single volume, the state-of-the-art in boiling heat transfer and provides a valuable resource for thermal engineers and practitioners working in the thermal sciences and thermal engineering. Explores the most recent advancements in boiling research and technology from the last twenty years Provides section content written by contributing experts in their respective research areas Shares research being conducted and advancements being made on boiling and heat transfer in Japan, one of the major research hubs in this field

HVAC Equations, Data, and Rules of Thumb, Third Edition Arthur Bell 2015-12-22 This comprehensive volume, often called the "HVAC bible," has been thoroughly updated to cover the latest code changes, equipment, and techniques HVAC Equations, Data, and Rules of Thumb, 3e offers all of the information an HVAC student or professional needs in one resource. The book thoroughly explains the expansion of piping systems and temperature limitations of new materials such as polyethylene, polypropylene, PVC, CPVC, and PEX. Detailed information is included for all types of facilities, including offices, hotels, hospitals, restaurants, commercial spaces, and computer rooms. This practical handbook reflects all the latest code changes—including the ASHRAE standards—and explains how to interpret and put them to use. It includes completely updated coverage of new pumps, chillers, air handling units, cooling equipment, boilers, and pipe material. You will get complete coverage of sustainability organizations that have become more important since last edition, including LEED, USGBC, Energy Star. Features hundreds of equations and rules for everything from ductwork to air-handling systems Includes a brand-new chapter on sound, vibration, and acoustics Contains an updated list of equipment manufacturers for all products featured

International Fuel Gas Code 2021 International Code Council 2020-08-17 Addresses the design and installation of fuel gas systems and gas fired appliances through prescriptive and performance requirements. Key changes in the 2021 IFGC include: The termination of concealed condensate piping requires marking to indicate if it is the primary drain or the secondary drain. Press-connect joints are acceptable for high pressure (over 5 psi) applications indoors. Commercial cooking appliances are not allowed within dwelling units.

**An International Perspective on Disasters and Children's Mental Health** Christina W. Hoven 2019-07-18 This book provides a broad international perspective on the psychological trauma faced by children and adolescents exposed to major disasters, and on the local public health response to their needs. An outstanding quality of the book is that it draws upon the experience of local researchers,

clinicians, and public mental health practitioners who dedicated themselves to these children in the wake of overwhelming events. The chapters address exemplary responses to a wide variety of trauma types, including severe weather, war, industrial catastrophes, earthquakes, and terrorism. Because disasters do not recognize geographic, economic, or political boundaries, the chapters have been selected to reflect the diverse global community's attempt to respond to vulnerable children in the most challenging times. The book, thus, examines a diverse range of healthcare systems, cultural settings, mental health infrastructure, government policies, and the economic factors that have played an important role in responses to traumatic events. The ultimate goal of this book is to stimulate future international collaborations and interventions that will promote children's mental health in the face of disaster.

**The Military Orders Volume VII** Nicholas Morton 2019-08-05 The Military Orders essay collections arising from the quadrennial conferences held at Clerkenwell in London have come to represent an international point of reference for scholars. This present volume brings together twenty-nine papers given at the seventh iteration of this event. The studies offered here cover regions as disparate as Prussia, Iberia and the Eastern Mediterranean and chronologically span topics from the Twelfth to the Twentieth century. They draw attention to little used textual and non-textual sources, advance challenging new methodologies, and help to place these military-religious institutions in a broader context.

**Emerging Trends in Engineering, Science and Technology for Society, Energy and Environment** Rajesh Vanchipura 2018-08-06 The International Conference on Emerging Trends in Engineering, Science and Technology (ICETEST) was held at the Government Engineering College, Thrissur, Kerala, India, from 18th to 20th January 2018, with the theme, "Society, Energy and Environment", covering related topics in the areas of Civil Engineering, Mechanical Engineering, Electrical Engineering, Chemical Engineering, Electronics & Communication Engineering, Computer Science and Architecture. Conflict between energy and environment has been of global significance in recent years. Academic research needs to support the industry and society through socially and environmentally sustainable outcomes. ICETEST 2018 was organized with this specific objective. The conference provided a platform for researchers from different domains, to discuss and disseminate their findings. Outstanding speakers, faculties, and scholars from different parts of the world presented their research outcomes in modern technologies using sustainable technologies.

*Modern Refrigeration and Air Conditioning* A. D. Althouse 2000-07-01 Modern Refrigeration and Air Conditioning provides an excellent blend of theory with job-qualifying skills, making it a leader in the refrigeration and air conditioning field! This comprehensive text teaches both fundamental principles and the service techniques needed to diagnose and remedy HVAC problems. Modern Refrigeration and Air Conditioning contains the most recent information and advances in the field needed to prepare the technician for success in today's world. This edition includes up-to-date material on EPA rules and regulations covering refrigerant recovery, recycling, and reclaiming. Both students and practicing technicians will benefit from the comprehensive approach of this text, which provides a solid and thorough knowledge of all aspects of refrigeration and air conditioning.

**Promotional Marketing** Roddy Mullin 2018-05-15 In today's connected world, promotion is fundamental to everything we do to drive business. This is a new edition of an established book,

updated with the latest research on the shopper/buyer and how to reach their 'tipping point' when the decision to buy is made, now covering mobile, online and bricks-and-mortar sales and marketing. This book clarifies why a focus on the customer is key, and how to communicate with them from even before they discover a want or need, to the point of purchase and after. The author of this important book explains how and when to use suppliers (agencies, printers, insurers, etc.) for promotions of all types, including advertising (outdoor, on websites and in print), experiential marketing (road and trade shows, exhibitions, merchandising) and sales promotions (in-store/web and mobile promotion offers). Processes describe and explain how to implement promotional marketing to achieve business objectives. Promotional Marketing is a practitioner guide to sales and marketing for agencies, entrepreneurs and small businesses and those seeking a career in retail. It is packed with real-life and award-winning case studies and practical briefs (NatWest, Diageo, Sainsbury's, Shell and Radisson, for example) as a starter for when the client needs a creative answer yesterday! It is also tuned to those studying, providing a chapter on how marketing and sales fit into business.

Integrated Marketing Communication Jerome M. Juska 2017-10-02 This book is an up-to-date resource that shows students how to achieve their marketing objectives through a campaign that coordinates marketing, advertising, and promotion. It provides essential information about planning, implementing, and assessing a comprehensive marketing plan to help students appreciate integrated marketing communications as a business strategy. The author describes the processes and considerations needed to appeal to consumers, identifying how geographic segmentation, timing, competitive environments, and cost contribute to planning. He considers the integration of digital technology, such as social media platforms and mobile apps, and how these can be used for advertising, sales promotion, and public relations. The book's concise, easy to read explanation of marketing components and their interconnected relationships is solidified by a series of visual summaries as well as examples and useful demonstrations. Students are given the opportunity to prepare their own integrated marketing communication plan based on consumer, product, and market research along with original creative materials and media spreadsheets. Students of marketing communication, advertising and promotion, and digital marketing will love this book's abbreviated, but thorough format. An interactive companion website rounds out a stellar set of features that encourage quick understanding, participation, and utilization of IMC concepts.

The Clocks Are Telling Lies Scott Alan Johnston 2022-01-15 Until the nineteenth century all time was local time. On foot or on horseback, it was impossible to travel fast enough to care that noon was a few minutes earlier or later from one town to the next. The invention of railways and telegraphs, however, created a newly interconnected world where suddenly the time differences between cities mattered. The Clocks Are Telling Lies is an exploration of why we tell time the way we do, demonstrating that organizing a new global time system was no simple task. Standard time, envisioned by railway engineers such as Sandford Fleming, clashed with universal time, promoted by astronomers. When both sides met in 1884 at the International Meridian Conference in Washington, DC, to debate the best way to organize time, disagreement abounded. If scientific and engineering experts could not agree, how would the public? Following some of the key players in the debate, Scott Johnston reveals how people dealt with the contradictions in global timekeeping in surprising ways - from zealots like Charles Piazzi Smyth, who campaigned for the Great Pyramid to serve as the prime meridian, to Maria Belville, who

sold the time door to door in Victorian London, to Moraviantown and other Indigenous communities that used timekeeping to fight for autonomy. Drawing from a wide range of primary sources, *The Clocks Are Telling Lies* offers a thought-provoking narrative that centres people and politics, rather than technology, in the vibrant story of global time telling.

**Integrated Marketing Communications** Philip J. Kitchen 2021 *Integrated Marketing Communications: A Global Brand-Driven Approach*, 2nd edition presents an integrated and global framework to marketing communications, delivered in a highly readable, cohesive and succinct manner. Co-written by the internationally acclaimed leading experts in the field, Philip Kitchen & Marwa Tourky, this core text explores the best ways to communicate effectively both in the present and in the future. Taking a rigorous approach, the textbook provides a critical overview to the modern communications issues found in industry and society today. It offers a concise, stimulating approach in its coverage of IMC and combines insightful knowledge of trends in the global marketplace, consumer and stakeholder issues with wider adoption of a consumer-driven perspective, as well as a roadmap through the bewildering maze of marketing communications. Comprehensively updated and revised throughout to take into account recent industry developments, this new edition also offers a plan for brand building post-pandemic. This textbook is ideal for upper-level undergraduates and post-graduate students who would benefit from insightful knowledge of key trends and sharp insights into the important theories and considerations around marketing communications and IMC.

**The Political Representation of Kurds in Turkey** Cengiz Gunes 2020-11-26 Throughout the 1960s and 1970s, Turkey relentlessly persecuted any form of Kurdish dissent. This led to the radicalisation of an increasing number of Kurds, the rise of the Kurdish national movement and the PKK's insurgency against Turkey. Political activism by the Kurds or around Kurdish-related political demands continues to be viewed with deep suspicions by Turkey's political establishment and severely restricted. Despite this, the pro-Kurdish democratic movement has emerged, providing Kurds with a channel to represent themselves and articulate their demands. This book is timely contribution to the debate on the Kurds' political representation in Turkey, tracing the different forms it has taken since 1950. The book highlights how the transformations in Kurdish society have affected the types of actors involved in politics and the avenues, organisations and networks Kurds use to challenge the state. Based on survey data obtained from over 350 individuals, this is the first book to provide an in-depth analysis of Kurdish attitudes from across different segments of Kurdish society, including the elite, the business and professional classes, women and youth activists. It is an intimate portrait of how Kurds today are dealing with the challenges and difficulties of political representation.

**2015 International Mechanical Code Commentary** International Code Council 2014-11-20 Unlike any other book on the market, the 2015 INTERNATIONAL MECHANICAL CODE COMMENTARY is a powerhouse of features: a renowned author team, the entire text and tables from the 2015 International Mechanical Code (IMC), and valuable commentaries that put its technical requirements into a real-world context. Section by section, the book guides readers through the 2015 IMC, presenting clear, detailed explanations that expand on its regulations along the way. These commentaries examine the code's implications and methods of application, as well as the potential consequences that may arise when not followed. With a focus on the effective design and installation of mechanical systems, coverage includes ventilation, exhaust systems, duct systems, hydronic heating, and more. When it comes to the 2015 IMC, there simply isn't a better resource and reference guide available, and you won't to be in the field without it.
