The Sixteenth-Century French Religious Book Andrew Pettegree 2017-03-02 This study comprises the proceedings of a conference held in St Andrews in 1999 which gathered some of the most distinguished historians of the French book. It presents the 16th-century book in a new context and provides the first comprehensive view of this absorbing field. Four major themes are reflected here: the relationship between the manuscript tradition and the printed book; an exploration of the variety of genres that emerged in the 16th century and how they were used; a look at publishing and book-selling strategies and networks, and the ways in which the authorities tried to control these; and a discussion of the way in which confessional literature diverged and converged. The range of specialist knowledge embedded in this study will ensure its appeal to specialists in French history, scholars of the book and of 16th-century French literature, and historians of religion.

Councils in Action Audrey Richards 1971-11-30 A collection of seven papers by social anthropologists on the processes of decision-making in councils. Types of council described are one community-in-council, two arena councils, an elite council, two modern local government councils and a non-council, a temporary negotiating group which nevertheless displays certain features of the council proper. Most of the examples come from Africa (including Madagascar), but there is also an account of politics and decision-making in an English town council. The editors discuss the papers in a comparative framework, considering also other accounts of conciliar structure and decision-making. They review the ways in which decisions are reached and implemented in societies with very different structures and activities and discuss the impact of written records, colonial overrule and political independence. They attempt to outline some general principles of conciliar structure and process.

Little Fox Edward van de Vendel 2020-08-25 Good parents everywhere know the tension of wanting our kids to be curious, to have rich experiences and friends...but to be perfectly safe while doing it. Little Fox knows all about it! His father (in classic picture book fashion) warns him of the danger everywhere. But Little Fox still frolics with butterflies, scavenges for food, and searches for new friends. Then one day he takes a tumble, bumps his head, and starts dreaming of things that reflect both the beauty he's seen and the scary things he's heard. Marije Tolman's ingenious illustrations use a fresh technique that feels like a movie and a dream, starring the cheerful, bright orange Little Fox on grainy mixed media landscapes of blue and green. And when Little Fox wakes up, he's perhaps a little wiser, but still every bit as curious and full of life. Praise for Little Fox ★ "A beautiful, fully realized dreamscape. A tender, brilliant tour de force from the Netherlands."—Kirkus Reviews, starred review

Dialogue Analysis: Units, relations and strategies beyond the sentence Edda Weigand 1997-01-01 The topic of this volume was discussed at a Round Table of the International Association for Dialogue Analysis (IADA) at the University of Bologna in March 1995. The Round Table was intended to make a scientific contribution in honour of the president's 65th birthday. The topic refers on the one hand to the central problem of 'Dialogue Analysis' which is to discover a new, communicatively functioning unit after having left behind the unit of the sentence which can be considered the unit par excellence of structural linguistics. On the other hand, it includes the manifold units, relations, and strategies, i.e. the specific problems of dialogue analysis.

Handbook of Environmental Psychology and Quality of Life Research Ghazlane Fleury-Bahi 2016-08-12 This Handbook presents a broad overview of the current research carried out in environmental psychology which puts into perspective quality of life and relationships with living spaces, and shows how this original analytical framework can be used to understand different environmental and societal issues. Adopting an original approach, this Handbook focuses on the links with other specialties in psychology, especially social and health psychology, together with other disciplines such as geography, architecture, sociology, anthropology, urbanism and engineering. Faced with the problems of society which involve the quality of life of individuals and communities, it is fundamental to consider the relationships an individual has with his different living spaces. This issue of the links between quality of life and environment

is becoming increasingly significant with, at a local level, problems resulting from different types of annoyances, such as pollution and noise, while, at a global level, there is the central question of climate change with its harmful consequences for humans and the planet. How can the impact on well-being of environmental nuisances and threats (for example, natural risks, pollution, and noise) be reduced? How can the quality of life within daily living spaces (home, cities, work environments) be improved? Why is it important to understand the psychological issues of our relationship with the global environment (climatic warming, ecological behaviours)? This Handbook is intended not only for students of various disciplines (geography, architecture, psychology, town planning, etc.) but also for social decision-makers and players who will find in it both theoretical and methodological perspectives, so that psychological and environmental dimensions can be better taken into account in their working practices.

My Little One Germano Zullo 2020-10-27 Winner of the 2016 Bologna Ragazzi Award, My Little One is a series of sparse and rhythmic images drawn in simple grey pencil, measuring like a metronome the boundless love between mother and son. A mother, welcoming her tiny son into the world, tells him the story of their lives, whispering to him as she swings him gently around. With each successive page, he grows while she shrinks, until she is being held by the man he has become. Albertine's weightless strokes and billowing bodies recall the flitting procession of a flipbook or an ephemeral notebook sketch. She choreographs the peculiar dance of aging, of the way our bodies fold, lean, tuck into one another as we grow old. Filled with poetry and questioning, Germano whittles his words down - each precise line reminds us of the pithy goodness of childhood. An eloquent portrait of life's waxing and waning, My Little One is a moving celebration of constant, unconditional love.
