The Road Cormac McCarthy 2007-03-20 NATIONAL BESTSELLER • WINNER OF THE PULITZER PRIZE • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (San Francisco Chronicle). A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. *The Road* is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation. Look for Cormac McCarthy's new novel, *The Passenger*.

The Unique Technique Maria Higgins 2016-02-02 I am an optometrist. I owned a very traditional medical, white coat practice in Pittsburgh, Pennsylvania near the University of Pittsburgh for 10 years. I became bored and uninspired in this vanilla business environment and sterile space. Feeling restless, I sold my practice and began the search for a new place to start a fresh concept in optometry. I found Frederick, Maryland, which is a historic, walkable little city that tops the triangle with DC and Baltimore. I relocated to a new town, in a new state with a brand new practice - Unique Optique. I was an outsider and a transplant, trying to win Frederick's trust and convince the residents of this town to come to my practice to spend money on high-end glasses. To accomplish this feat, I decided that I needed to show our authenticity, exude genuine sincerity, and smile through adversity. I embraced my flaws; I was vulnerable and real. I used social media, in-house events and the decor of the office to display the business's personality. People instantly related to the practice. They saw that I was not perfect, but I was earnest and that I truly cared. I was proud of my venture. Unique Optique's reviews were stellar and real. The practice grew steadily and by the end of the first year, I was recognized as the Start Up Entrepreneur of Frederick County. Soon, I had requests from business owners and entrepreneurs to come and visit the practice and discuss our unique image strategies. People wanted this quality for their own businesses. I realized that I had helpful and valuable information and put my techniques down on paper. While developing my brand and marketing my business, I have made

mistakes, learned from them, and attempted to fix them. I have worked through adversity and difficulties. In the end, I cultivated a brand to which people could relate. This is my experience. I hope it helps you find your Unique Technique."

The Legal Protection of Rights in Australia Matthew Groves 2019-11-14 How do you protect rights without a Bill of Rights? Australia does not have a national bill or charter of rights and looks further away than ever from adopting one. But it does have a range of individual elements sourced from common law, statute and the Constitution which, though unsystematic, do provide Australians with some meaningful rights protection. This book outlines and explains the unique human rights journey of Australia. It moves beyond the criticisms long made of the Australian position - that its 'formalism', 'legalism' and 'exceptionalism' compromise its capacity for rights protection - to consider how the many elements of its novel legal structure operate. This book analyses the interlocking legal framework for the protection of rights in Australia. A key theme of the book is that the many different elements of a fragmented scheme can add up to something significant, albeit with significant gaps and flaws like any other legal rights protection framework. It shows how the jumbled influences of a common law heritage, a written constitution, differing paths taken by jurisdictions within a single federal state, statutory and common law innovations and a strong dose of comparative legal influences have led to the unique patchwork of rights protection in Australia. It will provide valuable reading for all those researching in human rights, constitutional and comparative law.

Liberating the Will of Australia Geoffrey Burn 2020-08-03 Why do many First People in Australia

find themselves continually under siege? Why do many interventions fail to produce what was hoped for? Why is it that, when there have been many positive developments, at some deep level, nothing seems to have changed? Will the "Uluru Statement from the Heart" ensure the future security of the First Peoples in Australia? By developing strands from Christian theology, *Liberating the Will of Australia* answers these questions in a way that gets to the heart of the problem. It is shown that the way that the First Peoples were treated by the first European in-comers became an indelible part of what Australia currently is. This explains why harm is often done even when good is intended, and why some problems are too complex to solve. But that does not mean that we need to be stuck in the past: through deep repentance by the "Subsequent Peoples," much more than an apology, we can take hold of the work of God to bring new things out of what is broken. Ultimately, this is profoundly hopeful. Although focusing on Australia, the theological tools developed can be applied in other colonial and post-colonial contexts.

Social Work and the Law Chris Maylea 2019-12-04 This exciting new textbook introduces students to the key aspects of the law and legal frameworks essential for social work practice in Australia. Simple and easy to read, it communicates the complex legal concepts in practice in ways students can easily understand. This is essential reading for any student taking a unit in Social Work Law. Specific to Australia, it accounts for Australian jurisdictions, and can be easily integrated into the classroom context, with case studies, questions for discussion and links to further resources, including interactive resources and a website to support further learning and provide updates to changes in the law between editions.

The Right Place Arturo Bris 2021-08-05 *The Right Place* explains why firms succeed in one country and fail in another, irrespective of their inner drivers, and suggest potential initiatives that governments can take to help the private sector create jobs and, consequently, make their countries more prosperous. The competitiveness race is not unlike a cycling race. If you want to ride fast, you need three things: a good bike, to be in good shape, and a smooth and fast road. In a collaborative model, you might say the business is the bicycle, the business leader is the cyclist, and the road is the government and the external environment. The responsibility of a government is to design and build the best possible road. It turns out that when the road is good, good cyclists suddenly appear and want to race on it. In this book, competition and macroeconomics expert, Arturo Bris, provides the analysis of country competitive performance based on 30 years advising countries on this topic. The typical mistakes that countries make are revealed and the pillars necessary in building a competitive economy: economic performance as a necessary condition for prosperity; government efficiency, so the public sector can create the conditions for a productive economy; business efficiency, so companies can create jobs; and infrastructure, both tangible and intangible, so businesses and individuals can operate efficiently. With contemporary case studies throughout, the book provides an illuminating read for politicians, business leaders and students of macroeconomics.

Radical Heart Shireen Morris 2018 Neither Indigenous nor white, Shireen Morris is both outside observer and instrumental insider in the fight for Indigenous rights. Shaped by her family's Indian and Fijian migrant story, Morris is a key player in what many consider the greatest moral challenge of our nation: constitutional recognition of Indigenous Australians. She takes us inside this vital campaign to meet the powerful Indigenous advocates, helpful (and unhelpful) non-Indigenous lawyers, unlikely conservative and monarchist allies and infuriating politicians. We travel with Morris through the wins, disappointments and, ultimately, the betrayals that led to the Turnbull government's heartbreaking

rejection of the Uluru Statement from the Heart. Radical Heart is a challenge for all Australians to dream together of a fairer future, and work as one to make it happen.

Governing natives Ben Silverstein 2018-10-16 In the 1930s, a series of crises transformed relationships between settlers and Aboriginal people in Australia's Northern Territory. By the late 1930s, Australian settlers were coming to understand the Northern Territory as a colonial formation requiring a new form of government. Responding to crises of social reproduction, public power, and legitimacy, they rethought the scope of settler colonial government by drawing on both the art of indirect rule and on a representational economy of Indigenous elimination to develop a new political dispensation that sought to incorporate and consume Indigenous production and sovereignties. This book locates Aboriginal history within imperial history, situating the settler colonial politics of Indigeneity in a broader governmental context.

Indigenous Aspirations and Structural Reform in Australia Harry Hobbs 2021-01-28 Can the Australian state be restructured to empower Aboriginal and Torres Strait Islander peoples and ensure that their distinct voices are heard in the processes of government? This book provides an answer to that question for Australia and provides guidance for all states that claim jurisdiction and authority over the traditional lands of Indigenous peoples. By engaging directly with Indigenous peoples' nuanced and complex aspirations, this book presents a viable model for structural reform. It does so by adopting a distinctive and innovative approach: drawing on Indigenous scholarship globally it presents a coherent and compelling account of Indigenous peoples' political aspirations through the concept of sovereignty. It then articulates those themes into a set of criteria legible to Australia's system of governance. This original perspective produces a culturally informed metric to assess institutional mechanisms and processes designed to empower Indigenous peoples. Reflecting the Uluru Statement from the Heart's call for a First Nations Voice, the book applies the criteria to one specific institutional mechanism - Indigenous representative bodies. It analyses in detail the Aboriginal and Torres Strait Islander Commission and the Swedish Sámi Parliament, a representative body for the Indigenous people of Sweden. In examining the Sámi Parliament the book draws on a rich source of primary and secondary untranslated Swedish-language sources, resulting in the most comprehensive English language exploration of this unique institution. Highlighting the opportunities and challenges of Indigenous representative bodies, the book concludes by presenting a novel and informed model for structural reform in Australia that meets Indigenous aspirations.

Soon we will all decide if and how Indigenous Australians will be recognised in the Constitution. In this essential book, several leading writers and thinkers provide a road map to recognition. Starting with the Uluru Statement from the Heart, these eloquent essays show what constitutional recognition means, and what it could make possible: a political voice, a fairer relationship and a renewed appreciation of an ancient culture. With remarkable clarity and power, they traverse law, history and culture to map the path to change. The contributors to *A Rightful Place* are Noel Pearson, Megan Davis, Stan Grant, Rod Little and Jackie Huggins, Damien Freeman and Nolan Hunter, Warren Mundine, and Shireen Morris. The book includes a foreword by Galarrwuy Yunupingu. *A Rightful Place* is edited by Shireen Morris, a lawyer and constitutional reform fellow at the Cape York Institute and researcher at Monash University.

focuses on the ethics, politics and practices of responsiveness in the context of racism, inequality, difference and controversy. The politics of difference has long been concerned with speech, voice and representation. By focusing on the practices and politics of responsiveness—listening, reading and witnessing—the volume identifies vital new possibilities for ethics and social justice. Chapters focus on the conditions of possibility, or listening as ethical praxis; unsettling or disrupting colonial relationships; and ways of listening that highlight non-Western traditions and move beyond the liberal frame. Ethical responsiveness shifts some of the responsibility for negotiating difference and more just futures from subordinated speakers, and on to the relatively more privileged and powerful.

Atlas of the Heart Brené Brown 2021-11-30 #1 NEW YORK TIMES BESTSELLER • In her latest book, Brené Brown writes, "If we want to find the way back to ourselves and one another, we need language and the grounded confidence to both tell our stories and be stewards of the stories that we hear. This is the framework for meaningful connection." In *Atlas of the Heart*, Brown takes us on a journey through eighty-seven of the emotions and experiences that define what it means to be human. As she maps the necessary skills and an actionable framework for meaningful connection, she gives us the language and tools to access a universe of new choices and second chances—a universe where we can share and steward the stories of our bravest and most heartbreaking moments with one another in a way that builds connection. Over the past two decades, Brown's extensive research into the experiences that make us who we are has shaped the cultural conversation and helped define what it means to be courageous with our lives. *Atlas of the Heart* draws on this research, as well as on Brown's singular skills as a storyteller, to show us how accurately naming an experience doesn't give the experience more power—it gives us the power of understanding, meaning, and choice. Brown shares, "I want this book to be an atlas for all of us, because I believe that, with an adventurous heart and the right maps, we can travel anywhere and never fear losing ourselves."

How to Read The Federalist Papers Anthony Arthur Peacock 2010 While *The Federalist* is indeed an important resource for understanding the meaning of our Constitution, its relevance is based on something deeper. The authors of the essays knew that the principles of our Founding would not always

be unquestioned, so they gave us the strongest defense of those principles as part of the immediate political struggle for ratification. The Federalist not only illuminates the meaning of the Constitution's text. It also explains how our Constitution embodies the core principles of the Declaration of Independence and why it must be preserved in the face of present struggles. In this monograph, Anthony Peacock, professor of political science at Utah State University, offers us a brief guide to The Federalist, a road map illuminating the major issues treated in the essays and explaining their continued relevance for us today. An appendix of important passages on contemporary subjects is also included as a helpful resource for interested readers. Despite our contemporary challenges, we still enjoy some measure of constitutional government. More important, our Founders have left us with their teaching and example, showing us the way to restore our Constitution to its rightful place. Our Constitution will endure only if our leaders understand why it is defensible, and there is no better argument in favor of the Constitution than The Federalist Papers.

Law, Engineering, and the American Right-of-Way David Prytherch 2018-04-13 This book explores the geography of the everyday roadway and contemplates how regulation and design shape our streets. People may question the hegemony of cars, but reimagining public streets is a major conceptual and technical challenge. Drawing from "new mobilities" and transport studies, Prytherch addresses how streets are structured by policy standards; what it means to have a right to the street; and how a more just street would look—in both theory and practice. He summarizes key traffic statutes, case laws, and engineering manuals, and interprets these in relation to mobility rights and justice. At its core, the book moves beyond criticism to highlight emerging movements which aim to develop more complete and livable streets for everyone.

Radical Hope Noel Pearson 2011 In Radical Hope, one of Australia's most original and provocative thinkers turns his attention to the question of education. Noel Pearson begins with two fundamental questions: How to ensure the survival of a people, their culture and way of life? And can education transform the lives of the disadvantaged many, or will it at best raise up a fortunate few? Pearson argues powerfully that underclass students, many of whom are Aboriginal, should receive a rigorous schooling that gives them the means to negotiate the wider world. He examines the long - term failure of educational policy in Australia, especially in the indigenous sector, and asks why it is always "Groundhog Day" when there are lessons to be learned from innovations now underway. Pearson introduces new findings from research and practice, and takes on some of the most difficult and controversial issues. Throughout, he searches for the radical centre - the way forward that will raise up the many, preserve culture, and ensure no child is left behind.

Dance in Contested Land Rachael Swain 2020-10-30 This book traces an engagement between intercultural dance company Marrugeku and unceded lands of the Yawuru, Bunuba, and Nyikina in the north west of Australia. In the face of colonial legacies and extractive capitalism, it examines how Indigenous ontologies bring ecological thought to dance through an entangled web of attachments to people, species, geologies, political histories, and land. Following choreographic interactions across the multiple subject positions of Indigenous, settler, and European artists between 2012-2016 the book closely examines projects such as Yawuru/Bardi dancer and choreographer Dalisa Pigram's solo Gudirr Gudirr (2013) and the multimedia work Cut the Sky (2015). Dance in Contested Land reveals how emergent intercultural dramaturgies can mediate dance and land to revision and reorientate kinetics, emotion, and responsibilities through sites of Indigenous resurgence and experimentation.

Social Democracy and the Crisis of Equality Carol Johnson 2019-02-20 This book analyses social democratic parties' attempts to tackle inequality in increasingly challenging times. It provides a distinctive contribution to the literature on the so-called 'crisis' of social democracy by exploring the role of equality policy in this crisis. While the main focus is on analysing Australian Labor governments, examples are also given from a wide range of parties internationally. The book traces how a traditional focus on class has expanded to include other forms of inequality, including issues of gender, race, ethnicity and sexuality and explores both the intersections and potential tensions that result. Meanwhile there are new challenges for equality policy arising from a changing geo-economics (the rise of Asia), the legacies of neoliberalism and the impact of technological disruption.

Quarterly Essay 69 Moment of Truth Mark McKenna 2018-03-19 Australia is on the brink of momentous change, but only if its citizens and politicians can come to new terms with the past. In this inspiring essay, Mark McKenna considers the role of history in making and unmaking the nation. From Captain Cook to the frontier wars, from Australia Day to the Uluru Statement, we are seeing fresh debates and recognitions. McKenna argues that it is time to move beyond the history wars, and that truth-telling about the past will be liberating and healing. This is an urgent essay about a nation's moment of truth. 'The time for pitting white against black, shame against pride, and one people's history against another's, has had its day. After nearly fifty years of deeply divisive debates over the country's foundation and its legacy for Indigenous Australians, Australia stands at a crossroads - we either make the commonwealth stronger and more complete through an honest reckoning with the past, or we unmake the nation by clinging to triumphant narratives in which the violence inherent in the nation's foundation is trivialised.' —Mark McKenna, Moment of Truth

Soon we will all decide if and how indigenous Australians will be recognised in the constitution. In the words of Professor Greg Craven: "We have a committed prime minister, and a committed opposition. We have a receptive electorate. There will never be a better time. We have no choice but to address the question. If constitutions deal with fundamental things, our indigenous heritage is pretty fundamental." In A Rightful Place, Noel Pearson shows how the idea of "race" was embedded in the constitution, and the distorting effect this has had. Indigenous Efflorescence Gerald Roche 2018-12-14 Indigenous efflorescence refers to the surprising economic prosperity, demographic increase and cultural renaissance currently found amongst many Indigenous communities around the world. This book moves beyond a more familiar focus on 'revitalisation' to situate these developments within their broader political and economic contexts. The materials in this volume also examine the everyday practices and subjectivities of Indigenous efflorescence and how these exist in tension with ongoing colonisation of Indigenous lands, and the destabilising impacts of global neoliberal capitalism. Contributions to this volume include both research articles and shorter case studies, and are drawn from amongst the Ainu and Sami (Saami/Sámi) peoples (in Ainu Mosir in northern Japan, and Sapmi in northern Europe, respectively). This volume will be of use to scholars working on contemporary Indigenous issues, as well as to Indigenous peoples engaged in linguistic and cultural revitalisation, and other aspects of Indigenous efflorescence.
