The Practice Turn in Architecture: Brussels after 1968 Isabelle Doucet 2016-07-07 What makes a city? What makes architecture? And, what is to be included in the discussions of architecture and the city? Attempting to answer such ambitious questions, this book starts from a city's specificity and complexity. In response to recent debates in architectural theory around the agency and locus of critical action, this book tests the potential of criticality through-practice. Rather than through conceptual and ideological categorisations, it studies how architecture and criticality work within specific circumstances. Brussels, a complex city

with a turbulent architectural and urban past, forms a compelling case for examining the tensions between urban politics, architectural imaginations, society's needs and desires, and the city's history and fabric. Inspired by pragmatist-relational philosophies, this book tests the potential of criticality through-practice. It studies a series of critical actions and tools, which occurred in Brussels' architectural and urban culture after 1968. Weaved together, Brussels architectural production emerges from a variety of actors, including architects, urban policy makers, activists, social workers, and citizens, but also architectural movements and ideologies, urban renewal programs, urban traumas, plans and projects, and mundane everyday practices and constructions. This book contributes to the study of Brussels and offers a timely contribution to recent scholarship on the critical reappraisal of architectural debates from the 1960s through to the 1990s. In addition, by showing how pragmatist-relational philosophies can be made relevant for architectural theory, the book opens hopeful potentials for how architectural theory can better contribute to the formulation of a critical agenda for architecture.

The Maclure Collection of French Revolutionary Materials James D. Hardy, Jr. 2018-01-15 Complete catalogue and index of one of the largest collections of its kind of French Revolutionary and Napoleonic newspapers pamphlets and official publications covering the years 1789-1815. Over 20,000 listings are preceded by an introduction giving a history of the collection, a survey of other notable French Revolution collections, and a biographical essay on William S. Maclure. William S. Maclure (1763-1840) was a wealthy Philadelphia merchant, a radical social reformer, and our first scientific geologist. His huge collection of French Revolutionary publications is one of the greatest libraries of its kind to be formed during the period of the Revolution. Maclure bestowed the collection on the Philadelphia Academy of the Natural Sciences in 1821, and the Academy in turn gave the collection to the Historical Society of Philadelphia, In 1949 it was acquired by the University of Pennsylvania.

Social Housing and Urban Renewal Paul Watt 2017-08-15 Contemporary urban renewal is the subject of intense academic and policy debate regarding whether it promotes social mixing and spatial justice, or instead enhances neoliberal privatization and state-led gentrification. This book offers a cross-national perspective on contemporary urban renewal in relation to social rental housing.

Republican Identities in War and Peace Antoine Prost 2014-03-04 Antoine Prost's contributions to French history have enabled us to understand the failure of fascism in France and why the Republic survived the humiliation of occupation and collaboration in the Second World War. He is the pre-eminent historian of civil society in France. For the first time his seminal articles have been translated into English and collected in this single volume. Beginning with his classic account of war memorials, through his pioneering study of the people of a popular quarter of Paris in 1936, and of the troubled history of commemorating the Algerian war, this book expertly takes us through republican representations of war and peace, urban spaces and social identity, and discourse and social conflict in republican France. Amongst this range of topics, Prost considers the notion of social class and deference, the multiple uses of myth, the secularization of religious imagery, the centrality of primary schools in French political culture, and insults as staples of French political rhetoric. Included here are his famous essays 'Verdun' and 'War Memorials of the Great War', which have been hailed as indispensable additions to the study of European cultural history. Also notable is his fascinating investigation of rites de passage in Orlians, which artfully reveals how complex and semiologically rich rites de passage can be. This book is essential reading for anyone wishing to gain a firm understanding of the history of nineteenth and twentieth century France and of the work of one of the most influential cultural historians of our day.

The Many Lives & Secret Sorrows of Josephine B Sandra Gulland 2002-03-17 In this first of three books inspired by the life of Josephine Bonaparte, Sandra Gulland has created a novel of immense and magical proportions. We meet Josephine in the exotic and lush Martinico, where an old island woman predicts that one day she will be queen. The journey from the remote village of her birth to the height of European elegance is long, but Josephine's fortune proves to be true. By way of fictionalized diary entries, we traverse her early years as she marries her one true love, bears his children, and is left betrayed, widowed, and penniless. It is Josephine's extraordinary charm, cunning, and will to survive that catapults her to the heart of society, where she meets Napoleon, whose destiny will prove to be irrevocably intertwined with hers.
