Television and the Afghan Culture Wars Wazhmah Osman 2020-12-14 Portrayed in Western discourse as tribal and traditional, Afghans have in fact intensely debated women's rights, democracy, modernity, and Islam as part of their nation building in the post-9/11 era. Wazhmah Osman places television at the heart of these public and politically charged clashes while revealing how the medium also provides war-weary Afghans with a semblance of open discussion and healing. After four decades of gender and sectarian violence, she argues, the internationally funded media sector has the potential to bring about justice, national integration, and peace. Fieldwork from across Afghanistan allowed Osman to record the voices of many Afghan media producers and people. Afghans offer their own seldom-heard views on the country's cultural progress and belief systems, their understandings of themselves, and the role of international interventions. Osman analyzes the impact of transnational media and foreign funding while keeping the focus on local cultural contestations, productions, and social movements. As a result, she redirects the global dialogue about Afghanistan to Afghans and challenges top-down narratives of humanitarian development.

Taliban Narratives Thomas H. Johnson 2018-02-01 Why has the Taliban been so much more effective in presenting messages that resonate with the Afghan population than the United States, the Afghan government and their allies? This book, based on years of field research and the assessment of hundreds of original source materials, examines the information operations and related narratives of Afghan insurgents, especially the Afghan Taliban, and investigates how the Taliban has won the information war. Taliban messaging, wrapped in the narrative of jihad, is both to the point and in tune with its target audiences. On the other hand, the United States and its Kabul allies committed a basic messaging blunder, failing to present narratives that spoke to or, often, were even understood by their target audiences. Thomas Johnson systematically explains why the United States lost this "battle of the story" in Afghanistan, and argues that this defeat may have cost the US the entire war, despite its conventional and technological superiority.

ODE TO CHILDREN OF OUR EMBATTLED VALUES Isaac Benjamin 2014-08-30 In our world today, children suffer from many societal ruins due the fact that many of them are ignorant of the values a good society is built upon. These norms vary from one state to another. Some of them are universally accepted while others are not. For instance, murder and rape are punishable offences anywhere in the world whereas drunkenness and same sex relationship might not be seen as an offence in some states. Values can be good or bad. When a society adopts bad values such as materialism, corruption, armed robbery, kidnapping, terrorism and many others, the outcome is a society that is bedeviled with terrible wicked deeds and abject poverty of its people. Across all traditions, are values such as sense of morality, fairness, integrity and a few others. However, most important among them is the fear of God. Children are the future of any generation. This literary piece is therefore, meant to help them to hold on to the good norms that defines humanity and mankind.

Afghanistan Investment and Business Guide Volume 1 Strategic and Practical Information IBP, Inc. 2015-09-11 Afghanistan Investment and Business Guide Volume 1 Strategic and Practical Information

A Kingdom of Their Own Joshua Partlow 2016-09-20 The key to understanding the calamitous Afghan war is the complex, ultimately failed relationship between the powerful, duplicitous Karzai family and the United States, brilliantly portrayed here by the former Kabul bureau chief for The Washington Post. The United States went to Afghanistan on a simple mission: avenge the September 11 attacks and drive the Taliban from power. This took less than two months. Over the course of the next decade, the ensuing fight for power and money—supplied to one of the poorest nations on earth, in ever-greater amounts—left the region even more dangerous than before the first troops arrived. At the center of this story is the Karzai family. President Hamid Karzai and his brothers began the war as symbols of a new Afghanistan: moderate, educated, fluent in the cultures of East and West, and the antithesis of the brutish and backward Taliban regime. The siblings, from a prominent political family close to Afghanistan's former king, had been thrust into exile by the Soviet war. While Hamid Karzai lived in Pakistan and worked with the resistance, others moved to the United States, finding work as waiters and managers before opening their own restaurants. After September 11, the brothers returned home to help rebuild Afghanistan and reshape their homeland with ambitious plans. Today, with the country in shambles, they are in open conflict with one another and their Western allies. Joshua Partlow's clear-eyed analysis reveals the mistakes, squandered hopes, and wasted chances behind the scenes of a would-be political dynasty. Nothing illustrates the arc of the war and America's relationship with Afghanistan—from optimism to despair, friendship to enmity—as neatly as the story of the Karzai family itself, told here in its entirety for the first time.

Ethnomusicological Encounters with Music and Musicians Timothy Rice 2016-04-22 Designed as a tribute to Robert Garfias, who has conducted field work in more cultures than any other living ethnomusicologist, this volume explores the originating encounter in field work of ethnomusicologists with the musicians and musical traditions they study. The nineteen contributors provide case studies from nearly every corner of the world, including biographies of important musicians from the Philippines, Turkey, Lapland, and Korea; interviews with, and reports of learning from, musicians from Ireland, Bulgaria, Burma, and India; and analyses of how traditional musicians adapt to the encounter with modernity in Japan, India, China, Turkey, Afghanistan, Morocco, and the United States. The book also provides a window into the history of ethnomusicology since all the contributors have had a relationship with the University of Washington, home to one of the oldest programs in ethnomusicology in the United States. Inspired by the example of Robert Garfias, they are all indefatigable field researchers and among the leading authorities in the world on their particular musical cultures. The contributions illustrate the core similarities in their approach to the discipline of ethnomusicology and at the same time deal with a remarkably wide range of perspectives, themes, issues, and theoretical questions. Readers should find this collection of essays a fascinating, indeed surprising, glimpse into an important aspect of the history of ethnomusicology.
