Rajan had contended in their landmark vision document, *India 2020*, India has steadily moved towards becoming one of the top five economic powers in the twenty-first century. India's growth story has seen new opportunities and emerging technologies that make faster and more inclusive growth viable. In *Beyond 2020*, Kalam and Rajan argue that a renewed policy focus is now needed for agriculture, manufacturing, mining, the chemicals industry, healthcare and infrastructure to invigorate these sectors and boost economic growth. Positive thinking is only possessed by those people who do not know to swim but have the determination of crossing the sea. Today what we are is because of our thinking.
