In this publication, the author aims to dispel the notion that illiteracy is principally confined to rural areas, which has for many years been the main focus of development programs. Through a series of case studies and analysis this book provides a valuable insight into what literacy can mean in an urban setting and explores the many ways it is used to enhance the lives of individuals. It highlights the need for greater understanding of the diversity of literacy learning and explores the practical issues in providing assistance to those who aspire to improve their literacy skills.-- Publisher's description.

Language Activism Haley De Korne 2021-08-02 While top-down policies and declarations have yet to establish equal status and opportunities for speakers of all languages in practice, activists and advocates at local levels are playing an increasingly significant role in the creation of new social

imaginaries and practices in multilingual contexts. This volume describes how social actors across multiple domains contribute to the elusive goal of linguistic equality or justice through their language activism practices. Through an ethnographic account of Indigenous Isthmus Zapotec language activism in Oaxaca, Mexico, this study illuminates the (sometimes conflicting) imaginaries of what positive social change is and how it should be achieved, and the repertoire of strategies through which these imaginaries are being pursued. Ethnographic and action research conducted from 2013-2018 in the multilingual Isthmus of Tehuantepec brings to light the experiences of educators, students, writers, scholars and diverse cultural activists whose aspirations and strategies of social change are significant in shaping the future language ecology. Their repertoire of strategies may inform and encourage language activists, scholars, and educators working for change in other contexts of linguistic diversity and inequality.

Personal Effects Deborah Holdstein 2002 In *Personal Effects*, Holdstein and Bleich compile a volume that cuts across the grain of current orthodoxy. These editors and contributors argue that it is fundamental in humanistic scholarship to take account of the personal and collective experiences of scholars, researchers, critics, and teachers. With this volume, then, these scholars move us to explore the intersections of the social with subjectivity, with voice, ideology, and culture, and to consider the roles of these in the work of academics who study writing and literature. Taken together, the essays in this collection carry forward the idea that the personal, the candidly subjective and intersubjective, must be part of the subject of study in humanities scholarship. They propose an understanding of the personal in scholarship that is more helpful because more clearly anchored in human experience.

Pedagogy of Multiliteracies Heather Lotherington 2012-04-23 A CHOICE Outstanding Academic Title 2012! Based on case studies from public schools in Toronto, Canada, this book chronicles an inspiring five-year journey to develop

thinking about and teaching literacy for the 21st century. The research, which was classroom-based and developed by public school teachers in collaboration with university researchers, was stimulated by an ethnographic study at Joyce Public School to track children learning to read in an era of multiliteracies. Following the kindergarteners' interest in Goldilocks and the Three Bears, Lotherington asked the principal: What would Goldilocks look like, retold through the eyes of the children? The resulting classroom experiment to transform learning to read a storybook into multimodal collaborative storytelling sparked the development of an award-winning school-university learning community dedicated to the development of multimodal literacies in the culturally diverse, urban classroom. *Pedagogy of Multiliteracies* tells the evolving story of teachers' trial-and-error interventions to engage children in multiple modes of expression involving structured play with contemporary media. Using the complex texts created, the teachers carve spaces to welcome the voices of children and the languages of the community into the English-medium classroom.

Understanding Morphology Martin Haspelmath 2013-10-28 This new edition of *Understanding Morphology* has been fully revised in line with the latest research. It now includes 'big picture' questions to highlight central themes in morphology, as well as research exercises for each chapter. *Understanding Morphology* presents an introduction to the study of word structure that starts at the very beginning. Assuming no knowledge of the field of morphology on the part of the reader, the book presents a broad range of morphological phenomena from a wide variety of languages. Starting with the core areas of inflection and derivation, the book presents the interfaces between morphology and syntax and between morphology and phonology. The synchronic study of word structure is covered, as are the phenomena of diachronic change, such as analogy and grammaticalization. Theories are presented clearly in accessible language with the main purpose of shedding light on the data, rather than as a goal in themselves. The authors consistently draw on the best research available, thus utilizing and discussing both functionalist and generative theoretical approaches. Each chapter includes a summary, suggestions for further reading, and exercises. As such this is the ideal book for both beginning students of linguistics, or anyone in a related discipline looking for a first introduction to morphology.

The report is motivated by the explicit reference to inclusion in the 2015 Incheon Declaration, and the call to ensure an inclusive and equitable quality education in the formulation of SDG 4, the global goal for education. The Worlds of Langston Hughes Vera M. Kutzinski 2012-10-15 The poet Langston Hughes was a tireless world traveler and a prolific translator, editor, and marketer. Translations of his own writings traveled even more widely than he did, earning him adulation throughout Europe, Asia, and especially the Americas. In *The Worlds of Langston Hughes*, Vera Kutzinski contends that, for writers who are part of the African diaspora, translation is more than just a literary practice: it is a fact of life and a way of thinking. Focusing on Hughes's autobiographies, translations of his poetry, his own translations, and the political lyrics that brought him to the attention of the infamous McCarthy Committee, she shows that translating and being translated—and often mistranslated—are as vital to Hughes's own poetics as they are to understanding the historical network of cultural relations known as literary modernism. As Kutzinski maps the trajectory of Hughes's writings across Europe and the Americas, we see the remarkable extent to which the translations of his poetry were in conversation with the work of other modernist writers. Kutzinski spotlights cities whose role as meeting places for modernists from all over the world has yet to be fully explored: Madrid, Havana, Buenos Aires, Mexico City, and of course Harlem. The result is a fresh look at Hughes, not as a solitary author who wrote in a single language, but as an international figure at the heart of a global intellectual and artistic formation.

On Decoloniality Walter D. Mignolo 2018-06-01 In *On Decoloniality* Walter D. Mignolo and Catherine E. Walsh explore the hidden forces of the colonial matrix of power, its origination, transformation, and current presence, while asking the crucial questions of decoloniality's how, what, why, with whom, and what for. Interweaving theory-praxis with local histories and perspectives of struggle, they illustrate the conceptual and analytic dynamism of decolonial ways of living and thinking, as well as the creative force of resistance and

re-existence. This book speaks to the urgency of these times, encourages delinkings from the colonial matrix of power and its "universals" of Western modernity and global capitalism, and engages with arguments and struggles for dignity and life against death, destruction, and civilizational despair.

Goldie and the Three Hares Margie Palatini 2011-01-25 The Hare family—Papa, Mama, and Little Baby Hare—are enjoying a peaceful day in their rabbit hole until they hear a big THUMP outside their door. The thump is Goldilocks herself, who has fallen down the rabbit hole after being chased by the Three Bears. (I think you know why those bears were chasing her.) The Hare family is happy to help the girl, who has hurt her foot. But as you might imagine, Goldie is not a very good houseguest. She is tough to please, since every chair is too hard, too soft, or otherwise not just right. (If you were the Hares, you might agree that Goldilocks is loud, obnoxious, and demanding.) But when Goldie is finally comfy-cozy in the Hares' rabbit hole, how are they ever going to get her to leave? Margie Palatini and Jack E. Davis bring a hilarious, just-right twist to the nursery classic.
