Multilevel Regulation of Military and Security Contractors Christine Bakker 2012-02-10 The outsourcing of military and security services is the object of intense legal debate. States employ private military and security companies (PMSCs) to perform functions previously exercised by regular armed forces, and increasingly international organisations, NGOs and business corporations do the same to provide security, particularly in crisis situations. Much of the public attention on PMSCs has been in response to incidents in which PMSC employees have been accused of violating international humanitarian law. Therefore initiatives have been launched to introduce uniform international standards amidst what is currently very uneven national regulation. This book analyses and discusses the interplay between international, European, and domestic regulatory measures in the field of PMSCs. It presents a comprehensive assessment of the existing domestic legislation in EU Member States and relevant Third States, and identifies implications for future international regulation. The book also addresses the crucial questions whether and how the EU can potentially play a more active future role in the regulation of PMSCs to ensure compliance with human rights and international humanitarian law.

A Guide to the Project Management Body of Knowledge (PMBOK® Guide) – Seventh Edition and The Standard for Project Management (BRAZILIAN PORTUGUESE) Project Management Institute Project Management Institute 2021-08-01 PMBOK® Guide is the go-to resource for project management practitioners. The project management profession has significantly evolved due to emerging technology, new approaches and rapid market changes. Reflecting this evolution, The Standard for Project Management enumerates 12 principles of project management and the PMBOK® Guide &– Seventh Edition is structured around eight project performance domains. This edition is designed to address practitioners' current and future needs and to help them be more proactive, innovative and nimble in enabling desired project outcomes. This edition of the PMBOK® Guide: • Reflects the full range of development approaches (predictive, adaptive, hybrid, etc.); • Provides an entire section devoted to tailoring the development approach and processes; • Includes an expanded list of models, methods, and artifacts; • Focuses on not just delivering project outputs but also enabling outcomes; and • Integrates with PMI standards™ for information and standards application content based on project type, development approach, and industry sector.

Democracy and the New Religious Pluralism Thomas Banchoff 2007-06-07 Religious pluralism is everywhere in today's politics. Increased immigration flows, the collapse of communism, and the globalization of communications technologies have all fostered a wider variety of religious beliefs, practices, and organizations within and across democratic societies. This is true in both the United States and Europe, where growing and diverse minority communities are transforming the political landscape. As a result, controversies over such things as headscarves and depictions of Mohammed are unsettling a largely secular Europe, while a Christian majority in the US faces familiar questions about church-state relations amidst unprecedented religious diversity. Far from receding into the background, religious language pervades arguments around established issues such as abortion and capital punishment, and new ones such as stem cell research and same-sex marriage. In *Democracy and the New Religious Pluralism*, leading scholars from multiple disciplines explore these dynamics and their implications for democratic theory and practice. What are the

contours of this new religious pluralism? What are its implications for the theory and practice of democracy? Does increasing religious pluralism erode the cultural and social foundations of democracy? To what extent do different religious communities embrace similar -- or at least compatible -- ethical and political commitments? By seeking answers to these questions and revealing religious pluralism as both a source of animosity and a potent force for peaceful engagement, this book offers a revealing look at the future of religion in democratic societies.

After the Map William Rankin 2016-07-01 For most of the twentieth century, maps were indispensable. They were how governments understood, managed, and defended their territory, and during the two world wars they were produced by the hundreds of millions. Cartographers and journalists predicted the dawning of a "map-minded age," where increasingly state-of-the-art maps would become everyday tools. By the century's end, however, there had been decisive shift in mapping practices, as the dominant methods of land surveying and print publication were increasingly displaced by electronic navigation systems. In *After the Map*, William Rankin argues that although this shift did not render traditional maps obsolete, it did radically change our experience of geographic knowledge, from the God's-eye view of the map to the embedded subjectivity of GPS. Likewise, older concerns with geographic truth and objectivity have been upstaged by a new emphasis on simplicity, reliability, and convenience. *After the Map* shows how this change in geographic perspective is ultimately a transformation of the nature of territory, both social and political.

France: Images and Identities focuses on the shifting boundaries between inner-directed and outer-directed Jewish concerns, behaviors and attitudes in France over the course of the late eighteenth, nineteenth, and twentieth centuries.

Steiner and Woods EU Law Marios Costa 2020-07-09 Trusted by students and lecturers for over thirty years, Steiner and Woods EU Law is the most comprehensive black letter guide to the subject, leading the reader through the subject in a straightforward way, and bringing together the expertise of two authors engaged in the teaching of EU law. The book includes a well-balanced range of topics for students taking an EU law course at any level. Offering a careful blend of institutional and substantive coverage, it focuses on explaining the law clearly for student readers. Case detail is clearly sign-posted throughout the text, with keycases highlighted and discussed in feature boxes, ensuring students are up to speed with the most important case law in the area. End of chapter reading suggestions, along with a detailed bibliography, provide a helpful starting point for essay preparation and independent research. Online resources The book is accompanied by online resources, including self-test questions and answers, downloadable diagrams from the text, and an EU development timeline. As the process of the UK leaving the EU unfolds, readers can also visit the OUP "Brexit and EU Law" page for comment, opinion, and updates created by our authors to engage students with the legal issues and considerations at play.
