**Sathya Sai Vahini** Bhagawan Sri Sathya Sai Baba 2014-07-09 Bhagawan has announced Himself as the Divine Teacher of Truth, Beauty, and Goodness. By precept and example, through His writings and discourses, letters and conversations, He has been instilling the supreme wisdom and instructing all mankind to translate it into righteous living, inner peace, and universal love. When the Ramakatha Rasavahini, the uniquely authentic, nectarine stream of the Rama's story, was serialised in full in the Sanathana Sarathi, Bhagawan blessed readers with a new series, which He named Bharatiya Paramartha Vahini (The Stream of Indian Spiritual Values). While these precious essays, on the basic truths that foster and feed Indian culture since ages before history began, were being published, Bhagawan decided to continue the flow of illumination and instruction under a more comprehensive and meaningful name, Sathya Sai Vahini - the Ganga from the Lotus Feet of the Lord - "The Flow of Divine Sai Grace". This book, therefore, contains the two Vahinis that have merged in one master stream. Inaugurating these series, Bhagawan wrote for publication in the Sanathana Sarathi, "Moved by the urge to cool the heat of conflict and to quench the agonising thirst for 'knowledge about yourself' that you are afflicted with, see, here it comes, the Sathya Sai Vahini, wave behind wave, with the Sanathana Sarathi as the medium between you and Me." With infinite compassion, this Sathya Sai incarnation of the Omniwill is giving millions of persons in all lands freedom from disease, distress, and despair, narcotics, narcissism, and nihilism. He is encouraging those, who suffer gloom through wilful blindness, to light the Lamp of Love in order to see the world and the Lamp of Wisdom to see themselves. "This is a tantalising, true-false world. Its apparent diversity is an illusion. It is One, but is cognised by the maimed,

**Domestic Vastu** Pramod Kumar Sinha This book talks about the fundamentals of domestic vastu. The word Vastu originated from the Sanskrit word “Vas” and the meaning of this word is to live life or to reside. The word “Vasu” originated from “Vas” and finally this word “Vastu” originated from “Vasu”. Meaning of the word Vastu is a place where a person resides. The meaning of Shastra is a book which deals with the mysterious and systematic explanation of a subject, therefore the meaning of Vastushastra is a book related to the residence. The origin and anatomy of Vastushastra is based on the principle of the five elements of creation. As our body is also made up of these five elements, if enough attention is paid to the incorporation of these five elements in the construction of a house then the people residing in the building shall reside happily. These five elements are- Earth, Water, Fire, Air and Space. Our universe also is made up of these five elements only. Therefore the saying goes – (Yatpindetatbramhande). God ( bhagwan) has given these five gifts to us– from (bha) bhumi (land), from (ga) gagan (sky, ether), from (va) vayuq (air), from (na) neer (water). God is represented by the symbol (Om). These five elements are present in this Om also. “Aa” is Agni (fire), “Au” is Jal (water), “Ma” is Vayu (air), “ W ” (ardhachandra) is Bhoomi (land) and “O” is Akash (ether, sky). Similarly the word Vastu also denotes these five elements. From “Va” Vayu (air), from “Aa” Agni (fire), from “Sa” “Srishti” Bhoomi (land), from “Ta” Tat means Akash (ether/ sky) and from “Au” Jal (water). These five elements also are represented by the five planets. 1. Earth is represented by Mars 2. Water is represented by Venus 3. Fire is represented by Sun 4. Air is represented by Saturn 5. Ether is represented by Jupiter. Similarly mind is controlled by Moon. Intelligence is controlled by Mercury. Ego and arrogance is controlled by Rahu and moksha or spirituality by Ketu. Disbalance of these elements in the body produces ill health and disease. In a similar manner the disbalance of these elements in a house creates varied kind of troubles for the persons living in it. There are unlimited forces present in nature. Some of these forces influence us, for example the gravitational force of earth, the magnetic and electrical energy of the universe and the electromagnetic force present everywhere. These energies also exist in the constructed house and they continue influencing the electromagnetic force present in the human body. This produces the auspicious or inauspicious results. These results vary from place to place depending on the geographical location. For these reasons the results of vastu principles are not the same all over the world. They differ according to the longitude and latitude of the place. They also differ according to the horoscope of the person concerned. If man goes along with the flow of nature's energies, it produces good health, progress and prosperity. If he goes against the flow of nature, he faces hurdles and obstructions everywhere. Hence it is utmost important and necessary for us to organize our lives according to nature, only then we can live happily. Halayudha kosha says that, Vastu is that art of house construction, which starts from Ishan kona etc and which protects the residents of the house from natural calamities and obstructions.

*The Om Mala* Nityananda Misra 2018-07-25 The OM Mala is a book (and a mala or a rosary) about just one word-OM. OM is one of the shortest Sanskrit words, and yet is perhaps the most powerful one, besides being a globally recognized mystic mantra. The OM Mala gives 84 names of OM from Sanskrit texts and explains their meanings in 109 sections or beads: 108 chanting beads and one 'sumeru' bead. Each bead offers the meaning(s), explanation, traditions, etymology, and quotations for one or more names of OM. The book covers rare names of OM like 'shrutipada' and 'rasa' as well as common names like 'om', 'udgitha', and 'pranava'. Popular meanings (like Brahma-Vishnu-Shiva) and rare meanings (like inhalation, holding the breath, and exhalation) are included. The book contains teachings and narratives related to OM from Veda-s, Upanishad-s, Smriti-s, Purana-s, Ramayana, Mahabharata, Gita, Yoga, Tantra, Vaishnavism, Shaivism, and Shaktism. Pearls on OM from poems, plays, and works on music and Ayurveda are presented. The use of OM in Yogic breathing and meditation is explained and the explanations/relevance of OM in Jainism, Buddhism, and Sikhism is briefly touched upon. **Layayoga** Shyam Sundar Goswami 1999-05-01 The most comprehensive guide to chakra meditation and the ancient spiritual science of layayoga ever created. • One of the great works on yoga, available for the first time in the United States. • Full-color plates illustrate each chakra. With the growing interest in energy medicine in the West, the ancient Hindu tradition of chakra meditation has become increasingly important to both healers and spiritual seekers. While new to us, the chakras have long been studied in the East, with the spiritual science of layayoga having the profoundest knowledge of these energy centers. The fundamental aspect of layayoga is the arousing of dormant energy within the body through concentration and breathing exercises and the movement of this energy through the chakras to achieve supreme consciousness. Unlike kundalini yoga, which starts with the lower chakras and moves energy upward, layayoga meditation starts with the Sahasrara, the spiritual chakra that crowns the aura, and brings energy down to spiritualize each chakra in turn. Layayoga has long been viewed as the most comprehensive and deeply researched examination of the chakras available in the West. Its detailed, illustrated look at each of the chakras and the various meditations and mantras that go with them makes it a must for serious students of yoga.

**Vaastu: The Art And Science Of Living** Ashwini Kumar 2005-11-01 Vaastu Shaastra is the art and science of living a happy and contented long life. In the modern-day world of high-speed technology, many diseases are arising out of faulty lifestyles. Classical principles of Vaastu Shaastra describe the ancient way of living which need modifications in the present-day context. This book is an intelligent amalgamation of the ancient practice of Vaastu living and modern technologies of house building and architecture. It offers an introduction to Vaastu Shaastra, systematising and standardising its techniques and methodologies. The book has been divided into three sections. The first section has been devoted to the understanding of the key concepts, principles and forces of Vaastu that exert an influence on any given space. The second section of the book reveals how to create heaven on earth; right in your home. It shows how we can achieve internal peace by first achieving external peace in the house. The third section is related to the day-to-day use of Vaastu. One chapter has been devoted to Vaastu of workplace which, in many aspects, is different from residential Vaastu. This book has been written according to the established principles of Vedic Astrology; an inevitable part of Vaastu Shaastra. The effect of the nine planets is considered in Astrology while mainly the effect of planet earth is taken in Vaastu. Astrology depends on dashas (Planetary Periods) while Vaastu depends on dishas (Directions), Jyotish assumes the existence of Kaal Purush (Time Personified) while Vaastu assumes the existence of Vaastu Purush (Space Personified). The book incorporates current knowledge of building science to explain the ancient wisdom of Vaastu Shaastra only to bridge the gap between ancient traditions and modern way of thinking. No attempt has been made to transgress into the other parallel systems known as Feng Shui and Pyramidology, which require totally separate study. The work is meant primarily for those who want to learn Vaastu from the very beginning and pursue it seriously in a scientific manner. The book will also serve as a stepping-stone for those who intend to indulge in hitherto unexplored areas of Vaastu Shaastra like suitability of certain directions for certain activities, hidden meanings of Vaastu Purush; forty-five demi gods; ten dikpalas; three energies and Panchmahabhootas, predicting the fate of a house and its inhabitants through Vaastu kala, etc.

affect us in a more personal and rapid manner, influencing our daily life, impulses and mood. All planets in solar system are revolving around Sun in a predefined pattern. That's how we know when to wake up and when to go to bed. Planets however govern a lot more than just occurrence of day and night or eclipses and tides. Planets have a direct impact on us, despite being several light years away. While the position of planets does not dictate our everyday actions, it does have a profound and close influence on our life and destiny. Understanding planets & their effects: Much like nobody forces Moon to orbit Earth, humans are also under no force to act in a certain way but everything in the universe is correlated and works in sync so naturally, the movement of planets affects our actions as a result, much like our actions affect the environment. Human body is in fact made of elements present in the Universe. The structure of our brain is very much similar to the structure of universe. Everything that happens to the Universe happens to us. Our own magnetic field aligns with the Earth's magnetic field. Each object in the Universe, be it humans, Earth, planets and stars in our galaxy move in a precise symphony so we have to connect ourselves to these energy sources to receive the vibrations and function better. Each planet emanates certain energy while moving through the zodiac circle. Some planets move faster like Sun, Moon, Mercury, Mars and Venus, these are called inner planets and they affect us in a more personal and rapid manner, influencing our daily life, impulses and mood. The outer planets move slowly in the sky, some even take as much as 2.5 years to change a sign. These include Jupiter, Saturn, Rahu and Ketu and these planets have a more profound and long-lasting impact on us, unlike say Moon. Astrological significance of planets: Every planet rules a zodiac sign except Rahu and Ketu, which are in fact not actual planets but two reference points in the sky. Rahu and Ketu are the points where the paths of the Sun and Moon intersect with each other. Rahu is the north lunar node, the Head of the dragon as per mythology and Ketu is the south lunar node. The qualities of the zodiac signs somewhat align with the characteristics of the planets. For instance, impulsive and active Aries is ruled by fiery Mars, dreamy Pisces is ruled by spiritual Jupiter, emotional Cancer is ruled by motherly Moon while confident Leo is ruled by masculine Sun.

**Vedic Astrology: The Light of Wisdom** Ajay Srivastava 2022-07-16 Astrology is the study that everything that exists on earth has a meaningful purpose and we are not living in isolation in this universe. This knowledge is for those who want to understand the intricacies of human life. Serious astrology requires in-depth study of texts, scriptures, and some kind of intuition as predictions cannot be based only on mathematical calculations. Astrology believes that everything is controlled by celestial bodies otherwise predictions are completely impossible. This human body is part of existence and the movement of celestial bodies affects us. It is a science as well as art. Time is a great teacher, but it also throws dust on what is not prevalent or what we leave behind. Every now and then we need to hone our skills to stay sharp. Similarly, the knowledge which gets disappears now needs to be uncovered and sharpened. At present, there is a need for a new way of interpretation that is suitable for the changing world and new environment, there is a need for relevant examples which are suitable for the present generation. This book explains astrological principles with a new set of examples in the changing environment so that the present generation can understand the hidden meaning behind the ancient texts.

Remedies of Astrological Science Tilak Raj Very often it is asked as to what is the use of astrology? Can the malefic result of planets be glozed? Suppose a man starts from home with an umbrella if he knows that it will rain today. He cannot prevent the rain but he can save himself to some extent with the umbrella. Likewise, we try to lessen the malefic effect of the

harmful planets by Tantra, Mantra, Yantras, gems, worship or Jap if we know by Astrology that the period ahead is not auspicious. Different methods of remedies have been mentioned in this book. Learned astrologers prescribe various remedies to curb evil effects of planets. Some scholars advise to wear gems while others prescribe mantras. There are scholars who stress on Yantra-pooja or wearing Rudraksha. Some of them go for propitiating planets or for that matter tantrik remedies.
