Pediatric Skills for Occupational Therapy Assistants E-Book Jean W. Solomon 2020-07-12 Learn to provide effective therapy for children and adolescents! Pediatric Skills for Occupational Therapy Assistants, 5th Edition covers the entire scope of pediatric OT practice, from normal childhood development to pediatric disorders and treatment planning. Case studies and helpful tips reinforce your understanding and make it easier to apply OT principles to the clinical setting. This edition is thoroughly updated with online videos and new coverage of community systems, physical agent modalities, childhood obesity, Model of Human Occupation assessments, and Kinesio Taping®. Written by noted OTA educators Jean Solomon and Jane O'Brien, this resource is both a comprehensive textbook and a practical clinical reference! Hundreds of case examples provide snapshots of real-

life situations and solutions, helping you apply key concepts in a real-life setting. UNIQUE! Clinical Pearls boxes highlight practical advice from the authors and contributors, sharing what they have learned from years of experience. Coverage of evidence-based practice includes clinical trials and outcome studies, especially those relating to evaluation and intervention. Coverage of cultural diversity and sensitivity issues addresses the many different groups of people that OTAs treat in practice. Information on preventive care takes the role of the OTA beyond intervention and treatment. Family-centered perspective uses the terminology of the AOTA Practice Framework in showing how to tailor your treatment to meet the needs of children from different environments. Key terms, outlines, and objectives at the beginning of each chapter prepare readers for the information they're expected to learn from the chapter. Content reviews and questions at the end of each chapter summarize key concepts and help you assess your understanding. Suggested activities in each chapter help readers to bridge the gap between the classroom and the clinic by exploring realistic situations. UNIQUE! Learning resources on the Evolve companion website include video clips and review questions, reinforcing your understanding and demonstrating how concepts apply to actual practice. NEW! Every Moment Counts content is added to The Occupational Therapy Process chapter, promoting pediatric mental health. NEW! Coverage of educational expectations is added to the Educational System chapter. NEW! Coverage of "signature" constraint-induced movement therapy (CIMT) is added to Cerebral Palsy chapter. NEW! photographs and illustrations are added throughout the book. NEW! video clips on the Evolve companion website show the typical development of children/adolescents. NEW! Extensive assessment and abbreviations appendices are added to Evolve. NEW! Expanded glossary is added to Evolve.

Loose Leaf for Children John W. Santrock 2018-01-16 Children, Fourteenth Edition provides an overview of children's development, from biological beginnings through infancy and early childhood to adolescence. By highlighting the connections among different aspects of development, the text helps students to better understand the concepts covered. With the help of several experts in the field, John Santrock discusses current research and real-world applications, helping students see how developmental psychology plays a role in their own lives and future careers. Additionally, through an integrated, personalized digital learning program, students gain the insight they need to study smarter and improve performance. The Milestones video program shows students what developmental concepts look like by letting them watch actual humans develop. Students are able to track several individuals starting from infancy and watch them achieve major developmental milestones, both physically and cognitively. Reaching Today's Learners Today's students are as different in some ways from the learners of the last generation as today's discipline of child development is different from the field 30 years ago. Students now learn in multiple modalities; rather than sitting down and reading traditional printed chapters in linear fashion from beginning to end, their work preferences tend to be more visual and more interactive, and their reading and study often occur in short bursts. For many students, a traditionally formatted printed textbook is no longer enough when they have instant, 24/7 access to news and information from around the globe. Two features that specifically support today's students are the adaptive ebook (SmartBook) and the Learning Goals System. • SmartBook helps students distinguish the concepts they know from the concepts they don't, while pinpointing the concepts they are about to forget. SmartBook continuously adapts to create a truly personalized learning path and offers students learning resources such as videos, Concept Clips, and slides to further reinforce difficult concepts. • The Learning Goals Systems provides

extensive learning connections through the chapters, connecting the chapter-opening outline, goals, mini-chapter maps, questions, and end-of-chapter summary. • Assignable within Connect, Concept Clips help students break down key themes and difficult concepts in psychology. Using easy-to-understand analogies, visual cues, and stimulating animations, Concept Clips make psychology meaningful to everyday life. New to This Edition Students helped inform the revision strategy of Children. Content revisions are informed by data collected anonymously through McGraw-Hill's SmartBook; the data pinpoint the concepts that give students the most difficulty. Additional changes include the following: ● The latest research features more than 1,200 newly added citations from 2016, 2017, and 2018. ● This edition places further emphasis on diversity and culture. ● Identity issues, in particular, gender and transgender, are explored more in-depth. ● New content highlights the increasing use of e-cigarettes during pregnancy. ● The text now features a discussion on how infant growth is not smooth and continuous but rather is episodic, occurring in spurts.

Essentials of Life-Span Development John Santrock 2013-02-07 Why are you assigning or considering a brief Human Development text? Is it because your students do not complete the reading in a comprehensive text? Do you run out of time trying to cover the entire lifespan over the course of a few months? Do your students struggle to retain the sheer volume of information in the course? Instructors across the country, looking for a streamlined text that captures the core concepts of life-span development are excited for John Santrock's Essentials of Life-Span Development, 3e. Essentials of Life-Span Development 3e was developed to help meet the ever-changing needs of students in the lifespan course. Knowing that students do not often read the text and have poor study skills, Essentials introduces LearnSmart, McGraw-Hill's adaptive study tool, that helps students know what they know, and more importantly what they don't know, to become more efficient and effective learners. Based on hallmark features: its expert contributors, updated research, and focus on applications, Santrock provides the most dependable and current presentation of life-span development available, and he does so in a briefer format with LearnSmart, helping to ensure that your students will read and appreciate the material while seeing the applications to their everyday life. McGraw-Hill's new Milestones video and assessment program helps bring the course material to life, so your students can witness development as it unfolds.

The Adolescent Eldrie Gouws 2014-05-20 The Adolescent: An Educational Perspective covers several aspects of adolescent's development. The book discusses an adolescent's physical, cognitive, affective, social, conative, and normative development, together with an overview of pedagogic implications. The text also considers other critical aspects (street children, drugs, sexually transmitted disease, abortion, unemployment, and juvenile delinquency) from a sociopedagogical perspective. Subject specialists in the sciences of criminology, social work, sociology and psychology will find this book invaluable.

Juvenile Delinquency in American Society Wendi Johnson 2016-12-31 *Juvenile Delinquency in American Society: Race, Class, and Politics* examines juvenile delinquency and the juvenile justice system as they are influenced by matters of race and ethnicity. Rooted in current research, the book explores how race and racism play a role in which youth are arrested, which are adjudicated delinquents in juvenile courts, and which end up in residential facilities, juvenile detention centers, or adult prisons. The content is organized into four primary units covering the historical context of race, theories of race and delinquency, the social context of race and delinquency, and current issues in juvenile justice. Specific topics include the impact of race on the social construction of adolescence, measures and correlates of delinquency, social process, life course, and critical theories, the school-to-prison pipeline, and corrections and punishment in the modern era. With its thoughtful exploration of a critical issue, *Juvenile Delinquency in American Society* is designed to serve as a primary text in college and university courses in criminal justice and juvenile justice. It can also be used to provide in-service training for professionals at all levels within the juvenile justice system. James Windell has worked for many years as a court clinical psychologist. He is an adjunct faculty member of criminal justice at Wayne State University and a lecturer at Oakland University, both in Michigan. Windell is the author of *The American Criminal Justice System* and *Looking Back in Crime*. Abu Mboka holds a Ph.D. from Arizona State University and worked for several years at a juvenile corrections facility where he was assigned to violent offenders, sex offenders, and substance abusers. Dr. Mboka is now an associate professor of criminal justice at California State University, Stanislaus.

AIDS and Adolescents Lorraine Sherr 1997 *Aids and Adolescents* provides insight into a wide range of adolescent issues. Much of the HIV epidemic response has been at the individual level in the hope that this narrow focus will provide the key to containment and resolution of the spread of the disease. In this text a series of contributions have been compiled to explore adolescent issues ranging from sexual behaviour, health

education campaigns, to HIV prevention and HIV/AIDS care. Chapters provide an overview of adolescent problems, such as homelessness, pregnancy, and gender, and explore why these problems are so often overlooked. They examine facts and fictions associated with adolescent risk, challenging some of the basic current notions underpinning approaches to the subject. There are particular focused studies of Australian adolescents' beliefs about HIV and STDs and also the American adolescent's perceptions of drug injection.

Nurse as Educator Susan Bacorn Bastable 2008 Designed to teach nurses about the development, motivational, and sociocultural differences that affect teaching and learning, this text combines theoretical and pragmatic content in a balanced, complete style. --from publisher description.

A Topical Approach to Life-Span Development John Santrock 2013-10-18 Connect with John Santrock's Topical Approach to Lifespan Development and connect with success. Informed and driven by research. At McGraw-Hill, we have spent thousands of hours with you and your students, working to understand the key needs and concerns you face in the Human Development course. The most common topics raised include managing the vast amount of content inherent to a Lifespan course and ensuring the dependability of the assigned material – is it current and accurate? The result of this research is John Santrock's A Topical Approach to Lifespan Development, 7e. Santrock ensures students complete and understand the assigned material in a number of ways: Santrock's hallmark Learning Goals pedagogy provides a comprehensive roadmap to the text material, clearly pointing out the core concepts fundamental to students' learning and performance. McGraw-Hill's LearnSmart increases students' efficiency in studying by identifying what they know and don't know and provides immediate remediation, helping them to learn the material they are struggling with. The connections theme continues in the 7th edition, showing students the different aspects of lifespan development and helping them to better understand the concepts. This recurring theme of connections – Developmental Connections, Topical Connections, Connecting Development to Life, Connecting with Careers, and Connections through Research – ties together concepts from across chapters to reinforce the learning process and connect the material to students' everyday lives and future aspirations. McGraw-Hill's Milestones video and assessment program helps bring the course material to life, so your students can witness real children developing over time. And of course, all of this material is informed by our unique board of expert contributors – a who's who of developmental psychology – who ensure the material is as accurate and up-to-date as possible.

Adolescence John W. Santrock 2007 More students learn from John Santrock's Adolescence than from any other text in this field. Students and instructors rely on the careful balance of accurate, current research and applications to the real lives of adolescents. The fully-revised eleventh edition includes a new chapter on health, expanded coverage of late adolescence, and more than 1200 research citations from the 21st century.
