Women Presidents of Latin America Farida Jalalzai 2015-08-20 Women are gaining ground as presidents of Latin America. Women leaders in presidential systems (particularly women directly elected by the public) were generally limited to daughters and wives of male executives or opposition leaders. With the election of Michelle Bachelet in Chile, these traditional patterns appeared to be shifting. This book asks: what conditions allowed for a broadening of routes, beyond family ties, for women in Latin America? Do women presidents of Latin America use their powers to enhance women's representation? While providing valuable insight into the big picture of women in presidential politics throughout Latin America over the last several decades, this book more closely analyzes four women presidents gaining office since 2006: Michelle Bachelet (Chile) Cristina Fernández (Argentina) Laura Chinchilla (Costa Rica) and Dilma Rousseff (Brazil). It assesses the paths and impacts of Latin American women presidents and scrutinizes the ways gender shapes both aspects. No other scholar has offered such an in-depth analysis of the paths and actions of women presidents of Latin America. As such, this book offers important contributions to the gender in politics literature. Its multi-methodological approach consisting of original data collection from field work and in person interviews of political elites and experts combined with an analysis of a host of secondary sources including media articles and public opinion data makes this work exceptionally comprehensive. Its findings are applicable to those studying women, gender, and politics as well as comparative politics, Latin American politics, and leadership studies.

The State of Social Safety Nets 2018 The World Bank 2018-03-23 The State of Social Safety Nets 2018 Report examines global trends in the social safety net/social assistance coverage, spending, and program performance based on the World Bank Atlas of Social Protection Indicators of Resilience and Equity (ASPIRE) updated database. The report documents the main social safety net programs that exist globally and their use to alleviate poverty and to build shared prosperity. The 2018 report expands on the 2015 edition, both in administrative and household survey data coverage. A distinct mark of this report is that, for the first time, it tells the story of what happens with SSN/SA programs spending and coverage over time, when the data allow us to do so. This 2018 edition also features two special themes †“ Social Assistance and Ageing, focusing on the role of old-age social pensions, and Adaptive Social Protection, focusing on what makes SSN systems/programs adaptive to various shocks.

501 French Verbs Fully Conjugated in All the Tenses and Moods in a New Easy-to-learn Format, Alphabetically Arranged Christopher Kendris 2007 Students of French quickly discover that knowing the meanings of commonly used verbs—then learning how to use them in all their many tenses and forms—is a vital part of becoming fluent in the new language. This brand-new edition of Barron's 501 French Verbs now comes with a bonus CD-ROM that offers helpful practice exercises in verb conjugation and a concise grammar review. The book presents the most common regular and irregular French verbs alphabetically arranged in table form, one verb per page, and completely conjugated in all tenses with English equivalents. The book also reviews rules of grammar applicable to verb usage, provides a bilingual list of hundreds more regular verbs, and offers tips on idiomatic verb usage. Tinted page-edge tabs offer language students quick alphabetical reference.

Involved Charles Bazerman 2015 *Involved: Writing for College, Writing for Your Self* helps students to understand their college experience as a way of advancing their own personal concerns and to draw substance from their reading and writing assignments. By enabling students to understand what it is they are being asked to write{u2014}from basic to complex communications{u2014}and how they can go about fulfilling those tasks meaningfully and successfully, this book helps students to develop themselves in all the ways the university offers. This edition of the book has been adapted from the print edition, published in 1997 by Houghton Mifflin. Copyrighted materials{u2014}primarily images and examples within the

The Nassi/Levy Spanish Three Years Stephen L. Levy 1988-01-01

The Economies of Latin America Cesar Rodriguez 2021-09-20 While Latin America accounts for approximately 7 percent of the world economy, easily accessible information on the economies of the region is not always easy to find. The existing literature on Latin American economics usually assumes some previous familiarity with the region and is focused on government policy choices. The Economies of Latin America is a book for the general reader needing a quick introduction to the economics of the region. The book is composed of three parts: the first explains Latin America's economic history and a description of the central economic challenges of the region. The second offers country-specific details. The final part deals with the economic future of the region where the authors put forth a Latin American version of success. This book is a useful, in-depth introduction for students of Latin American economics as well as the general reader.

¡Avancemos!. Ana C. Jarvis 2013 Transports students beyond the classroom on an exciting journey through the diverse Spanish-speaking world. The perfect blend of culture, instruction and interaction enables and motivates students to succeed. Units are built around countries and cities. Relevant instruction is based on multi-tiered differentiation in presentation, practice, and assessments.

Introduce the week's concept with video, photograph, interactive graphic organizers, and more Teach through mini lessons that reinforce comprehension strategies and skills, genre, and vocabulary Model elements of close reading with shared, short-text reads of high interest and grade-level rigor

Global Education Monitoring Report 2020 UNESCO 2020-07-07 This publication assesses progress towards Sustainable Development Goal 4 (SDG 4) on education and its ten targets, as well as other related education targets in the SDG agenda. It addresses inclusion in education, drawing attention to all those excluded from education, because of background or ability. The report is motivated by the explicit reference to inclusion in the 2015 Incheon Declaration, and the call to ensure an inclusive and equitable quality education in the formulation of SDG 4, the global goal for education. It reminds us that, no matter what argument may be built to the contrary, we have a moral imperative to ensure every child has a right to an appropriate education of high quality.

Complete Spanish Step-by-Step Barbara Bregstein 2016-08-26 Publisher's Note: Products purchased from Third Party sellers are not guaranteed by the publisher for quality, authenticity, or access to any online entitlements included with the product. Learn Spanish with the most convenient and effective guide from McGraw-Hill's bestselling Step-by-Step Series It has been proven that the fastest way to learn any language is through a solid grounding in basic grammar and a mastery of high-frequency vocabulary. Outliers Malcolm Gladwell 2008-11-18 From the bestselling author of Blink and The Tipping Point, Malcolm Gladwell's Outliers: The Story of Success overturns conventional wisdom about genius to show us what makes an ordinary person an extreme overachiever. Why do some people achieve so much more than others? Can they lie so far out of the ordinary? In this provocative and inspiring book, Malcolm Gladwell looks at everyone from rock stars to professional athletes, software billionaires to scientific

geniuses, to show that the story of success is far more surprising, and far more fascinating, than we could ever have imagined. He reveals that it's as much about where we're from and what we do, as who we are - and that no one, not even a genius, ever makes it alone. Outliers will change the way you think about your own life story, and about what makes us all unique. 'Gladwell is not only a brilliant storyteller; he can see what those stories tell us, the lessons they contain' Guardian 'Malcolm Gladwell is a global phenomenon ... he has a genius for making everything he writes seem like an impossible adventure' Observer 'He is the best kind of writer - the kind who makes you feel like you're a genius, rather than he's a genius' The Times

The Acquisition of Spanish Silvina Montrul 2004-01-01 This is the first book on the acquisition of Spanish that provides a state-of-the-art comprehensive overview of Spanish morphosyntactic development in monolingual and bilingual situations. Its content is organized around key grammatical themes that form the empirical base of research in generative grammar: nominal and verbal inflectional morphology, subject and object pronouns, complex structures involving movement (topicalizations, questions, relative clauses), and aspects of verb meaning that have consequences for syntax. The book argues that Universal Grammar constrains all instances of language acquisition and that there is a fundamental continuity between monolingual, bilingual, child and adult early grammatical systems. While stressing their similarities with respect to linguistic representations and processes, the book also considers important differences between these three acquisition situations with respect to the outcome of acquisition. It is also shown that many linguistic properties of Spanish are acquired earlier than in English and other languages. This book is a must read for those interested in the acquisition of Spanish from different theoretical perspectives as well as those working on the acquisition of other languages in different contexts.

Texas Contemporary World Studies 2015

Inclusive Social Protection in Latin America Simone Cecchini 2012 This publication examines the main debates under way on social protection and co-responsibility transfer programmes. It identifies the role played by these programmes and considers the conceptual elements, needs and the challenges that will have to be overcome to consolidate comprehensive social protection systems in Latin America. The

authors argue that these should be solidarity-based systems that provide universal coverage and are essentially egalitarian in the guarantees established as citizens' rights. Citizenship as a whole is thus becoming part of protection policies as the region moves towards all-encompassing social policies that combine the complementary principles of targeting as the instrument and universality as the end.

Human Capital Versus Basic Income FABIAN A. BORGES 2022-02-21 Examines the relationship between the widespread election of left-leaning presidents and the diffusion of conditional cash transfer programs in Latin America

The Grammar of Words: An Introduction to Linguistic Morphology Geert Booij 2007-07-05 Geert Booij's popular textbook examines how words are formed, compounded, and inflected in different languages. It shows how, when, and why to use methods of morphological analysis and explains how morphology relates to syntax, phonology, and semantics. The author considers the universal characteristics of morphology and how these are reflected in the workings of mind. The revised edition has been revised and updated throughout; it has a full glossary and a new chapter on the field's most notorious problem: the status of the word. 'The Grammar of Words by Geert Booij covers a broad range of topics from structural questions to psycholinguistic issues and problems of language change. This introduction to morphology is thorough and accessible and, like other works by this renowned author, especially strong at showing the significance of empirical facts for theoretical reasoning.' Ingo Plag, University of Siegen 'A book that is fully comprehensive in its coverage as well as exemplary in its clarity, written by one of the major scholars of contemporary lexical theory.' Sergio Scalise, University of Bologna

Bilingual Grammar of English-Spanish Syntax Sam Hill 2014-06-13 This third edition of this text presents the major grammatical contrasts between English and Spanish in a simple and direct manner that is ideal for teachers of either language. This book addresses difficult grammatical topics for the English speaker, such as the question of aspect (preterit/imperfect) and the Spanish indicative/subjunctive; the English modal auxiliary system; and other challenging topics for the Spanish speaker. This reworked and expanded edition presents a complete inventory of all the major inter-lingual contrasts, emphasizing those contrasts that pose difficulties for teachers and students alike. The text features numerous exercises and,

new with this edition, an extensive glossary of grammatical terms. Answer key available for download from the "features" tab on the publisher's website:

The State of Social Safety Nets 2015 World Bank 2015 Over the last decade, a policy revolution has been underway in the developing and emerging world. Country after country is systematically providing non-contributory transfers to poor and vulnerable people, in order to protect them against economic shocks and to enable them to invest in themselves and their children. Social safety nets or social transfers, as these are called, have spread rapidly from their early prominence in the middle-income countries of Latin America and Europe increasingly to nations in Africa, Asia and the Middle East - and today, over 130 developing countries have made investments in social safety nets an important pillar of economic development policies. The statistics and analysis in *The State of Social Safety Nets 2015* capture this revolution, and reveal it in many dimensions at the country, regional, and international levels. This latest edition of a periodic series brings together a large body of data that was not previously available, drawing on the World Bank's ASPIRE database and other sources. Why have so many countries made a firm commitment to incorporate social safety nets as part of their social and economic policy architecture? Because social safety nets work. This report also reports on the rigorous evidence that demonstrates their impact, and also points the way to making them even more efficient and effective at meeting their development goals. This latest edition of a periodic series brings together a large body of data that was not previously available, drawing on the World Bank's ASPIRE database and other sources to examine trends in coverage, spending, and safety nets program performance.

The Five People You Meet in Heaven Mitch Albom 2007-04-01 Eddie is a wounded war veteran, an old man who has lived, in his mind, an uninspired life. His job is fixing rides at a seaside amusement park. On his 83rd birthday, a tragic accident kills him, as he tries to save a little girl from a falling cart. He awakes in the afterlife, where he learns that heaven is not a destination. It's a place where your life is explained to you by five people, some of whom you knew, others who may have been strangers. One by one, from childhood to soldier to old age, Eddie's five people revisit their connections to him on earth, illuminating the mysteries of his "meaningless" life, and revealing the haunting secret behind the eternal question: "Why was I here?"

Numerous exercises and engaging readings help learners quickly build their Spanish speaking and comprehension prowess.

Conditional Cash Transfer Programmes Simone Cecchini 2011 This publication analyses the role played by conditional cash transfer (CCT) or "co-responsibility" programmes. These programmes are among the main instruments used over the past 15 years to combat poverty in the region and have attracted attention and been replicated beyond its borders. Their purpose is to halt the intergenerational transmission of poverty by developing human capacities in the most vulnerable families. To that end, they deliver direct monetary transfers, subject to certain conditionalities relating to school attendance and health checks. Thus, CCTs not only help to reduce income poverty but also contribute to human-capacity-building, a key asset for the sustainable development and progress of our societies.
