Church Mafia Captured by Secret Powers Makhado Sinthumule Ramabulana 2018 The Church Mafia is a thought-provoking and tell-all book inspired by the life of Makhado Sinthumule Ramabulana, who took a courageous step to reveal how God saved him from secret and occult societies. He explores themes of his life in the ministry, commercialisation of the gospel, lessons learnt from countries he travelled to in an effort to gain powers, and detail of the occult operation. After years of struggling to accomplish his mission of pastoring a mega church and impacting the world, he became frustrated, strayed from his true calling and fell into the trap of exploring secret powers hidden in the church today. He operated as General Khatha-Khatha within a counterfeit spiritual movement that operates under the banner of prophecy and instant miracles. This movement operates using secret powers to attract huge crowds, charges consultation fees, and promises people miracle money; leaders of this

movement also perform false prophecies and staged miracles. After reading the Church Mafia, you will begin to understand that most operations in churches today are influenced by secret societies. This book will enable you to be enlightened and never to be fooled by any false doctrine practised in the church today. The main aim of the book is to make the Body of Christ at large aware of the secret operation that has captured so many churches today. It is hoped that after reading this book, your life will be enriched.

The Praise Singer Mary Renault 2015-08-06 'Mary Renault's portraits of the ancient world are fierce, complex and eloquent, infused at every turn with her life-long passion for the Classics. Her characters live vividly both in their own time, and in ours' MADELINE MILLER Mary Renault is a shining light to both historical novelists and their readers. She does not pretend the past is like the present, or that the people of ancient Greece were just like us. She shows us their strangeness; discerning, sure-footed, challenging our values, piquing our curiosity, she leads us through an alien landscape that moves and delights us' HILARY MANTEL In the story of the great lyric poet Simonides, Mary Renault brings alive a time in Greece when tyrants kept an unsteady rule and poetry, music, and royal patronage combined to produce a flowering of the arts. Born into a stern farming family on the island of Keos, Simonides escapes his harsh childhood through a lucky apprenticeship with a renowned Ionian singer. As they travel through 5th century B.C. Greece, Simonides learns not only how to play the kithara and compose poetry, but also how to navigate the shifting alliances surrounding his rich patrons. He is witness to the Persian invasion of Ionia, to the decadent reign of the Samian pirate king Polykrates, and to the fall of the Pisistratids in the Athenian court. Along the way, he encounters artists, statesmen, athletes, thinkers, and lovers, including the likes of Pythagoras and Aischylos. Using the singer's unique perspective, Renault combines her vibrant imagination and her formidable knowledge of history to establish a sweeping, resilient vision of a golden century. 'There's much to say about her interweaving of myth and history and, just as interestingly, there's much to wonder at in the way she fills in the large dark spaces where we know next to nothing about the times she describes . . . an important and wonderful writer . . . she set a course into serious-minded, psychologically intense historical fiction that today seems more important than ever' - Sam Jordison, Guardian

SCM Core Text Pentecostalism William K. Kay 2013-01-26 The Pentecostal and charismatic movements showed astonishing growth in the twentieth century so as to arrive at a total that is said to include at least 400 million people worldwide. This student-friendly text is essential reading for students of Theology and Religious Studies, taking second or third year modules in Pentecostal studies. Tumelo Allan Anderson 1993 This presents a study at grassroots level on African Pentecostal-type churches in South Africa. Quantitative research covers various churches, and includes statistics on church membership. The qualitative research undertaken covers particular church beliefs, concepts of evil, salvation, the Holy Spirit, healing practices, African traditional beliefs, burial practices and sociopolitical attitudes. The book also looks at aspects such as patterns of recruitment and growth, the reasons for leaving 'mission' or other churches; the worship and liturgy of the different types of African Pentecostal churches and the ways in which African Pentecostalism challenges the whole Christian church in its message and mission.

Practical Theology Richard R. Osmer 2008-07-02 Every church congregation encounters challenging situations, some the same the world over, and others specific to each church. Richard Osmer here seeks to teach congregational leaders -- including, but not limited to, clergy -- the requisite knowledge and skills to meet such situations with sensitivity and creativity. Osmer develops a framework for practical theological interpretation in congregations by focusing on four key questions: What is going on in a given context? Why is this going on? What ought to be going on? and How might the leader shape the context to better embody Christian witness and mission? The book is unique in its attention to interdisciplinary issues and the ways that theological reflection is grounded in the spirituality of leaders. Useful, accessible, and lively -- with lots of specific examples and case studies -- Osmer's *Practical Theology* effectively equips congregational leaders to guide their communities with theological integrity.

IziHlabelelo ZamaNazaretha Isaiah Shembe 2010 The texts comprise the original isiZulu hymns as well as English translations, and are brought to life with an accompanying compact disc of song, story and interview excerpts. These include detail about the seminal moment of change and controversy in the 1990s, when the organ was introduced by church member and ethnomusicologist, Bongani Mthethwa, to accompany the Shembe hymnal repertory. The initiative gave birth to dozens of youth choirs who sang the hymns in a new style, and began to compose their own repertory about Shembe in a more 'gospel-inflected' musical version of their faith. --

Pentecostal Theology Keith Warrington 2008-08-07 Pentecostals (traditionally) do not think theologically so much as do it practically. This book will present Pentecostal theology as well as the particular style of Pentecostal thinking and praxis that makes it different. Pentecostalism is not just distinctive because of its belief base but also because of the worldview it owns. The latter is based on a certainty that a religion that does not work is not worth much. Consequently, they look for expressions of life and vitality in their faith. These dominate, rather than an expression of the cerebral, though this is changing. Nevertheless, the sense of the immediate, the God of the now not the distant past, underlie how they do theology. Pentecostal theology tends to be seen through the eyes of people, not theologians; through the community, not traditions (though they have them); through their faith and worship, not ancient creeds. It is a theology of the dynamic, seen through the lens of experience. It is a functional theology that exists to operate; to incorporate an experiential dimension. Pentecostal theology does not operate as other theologies which often only detail a list of beliefs; it does this but also and (more) importantly, it explores them in the context of praxis. Thus, this volume incorporates praxis as part of the enquiry relating to theology.

Hymns, &c. [By Thomas L. Kingsbury.] 1860

Do Funerals Matter? William G. Hoy 2013-03-05 Do Funerals Matter? is a creative interweaving of historical, sociocultural, and research-based perspectives on death rituals, drawing from myriad sources to create a picture of what death rituals have been; and where, especially in the Western world, they are going. Death educators, researchers, counselors, clergy, funeral-service professionals, and others will appreciate the book's theory- and research-based approach to the ways in which different cultural groups memorialize their dead. They will also find clear clinical and practical applications in the author's exploration of the five ritual anchors of death-related ceremonial practice and help for professionals counseling the bereaved surrounding funerals. Based on nearly three decades of research and teaching on funeral rites, this volume promises to fill an important gap in the cross-cultural literature on bereavement, while answering an important question for our generation: Do funerals matter?

African Initiatives in Christianity John S. Pobe 1998 In the continent where Christianity is experiencing

its most rapid growth, a great deal of this expansion is taking place in churches founded by Africans for Africans. These churches are often referred to as 'independent' or 'indigenous' churches, to distinguish them from the 'historic' or 'mission-founded' churches planted during the colonial period by evangelists from Europe and North America. Diverse as they are, the attractiveness of these African Initiatives in Christianity (AICs) stems from the serious attempt they make to express and live out their faith in genuinely African cultural forms and styles. In this new book, two African theologians and church leaders -- one from an historic church, one from an AIC -- offer an insightful introduction into this phenomenon. While their main focus is on what the growth of African Initiatives in Christianity implies for the future of the ecumenical movement in Africa and around the world, they also examine some key teachings of the AICs and trace their roots in African church history since the first century.
