Secretos subterráneos de los mundos olvidados Débora Goldstern 2016-05-01 En 1974, Erich Von Däniken el autor del best seller "El Oro de los Dioses", declaró: "he descubierto, en la región oriental, provincia de Morona, Santiago, dentro de los límites de la República del Ecuador, objetos preciosos de gran valor cultural e histórico para la Humanidad que consisten en láminas metálicas que contienen la relación histórica de toda una civilización perdida, de la cual el género humano no tiene memoria ni indicio todavía. Han tenido que transcurrir casi cuarenta y tres años para que los Tayos, así como sus secretos andinos volvieran emerger de la mano de Débora

The Equals Daniel Sweren-Becker 2017-09-12 What happens when your own government turns against you? The Equality Team continues to round up and subject The Ones—the 1% of the American population who were genetically engineered in vitro—to a vaccine that will level the playing field. Desperate to save her boyfriend James from this fate, Cody flees into the wild to seek assistance from a shadowy rebel group dedicated to equal rights for the Ones at any cost. But when she grows closer to a radical named Kai, she's brought deeper into the fold, only to realize the group's leader has a secret plan more dangerous than Cody could have imagined—something that could change the course of the Ones' future. Themes of justice, discrimination and terrorism mix with actual science to create a frightening version of our near future in Daniel Sweren-Becker's *The Equals*, the action-packed sequel to *The Ones*. An Imprint Book "Chilling and frighteningly real, *The Ones* leads us down a dark rabbit hole of scientific possibilities, fractured morality, and brutal consequences. It forces the question: If perfection becomes a liability, how far are we willing to go in the pursuit of it -- or to stop it?"—Kami

Garcia, #1 New York Times bestselling coauthor of *Beautiful Creatures* and author of *The Lovely Reckless* "Like watching your favorite TV show, *The Ones* is a thrill ride with a new shock at every turn. You won't believe what happens next, and yet, you should. Because this reality is all too possible."
—Melissa de la Cruz, #1 New York Times bestselling author of *Isle of the Lost* and the forthcoming *Something In Between* "A gripping and cautionary tale. A thrilling read." —Brendan Reichs, New York Times bestselling coauthor of the *Virals* series. "The basic premise for this captivating tale is much closer to practical concern than many might imagine. It is crucial that we visualize many possible scenarios like this one so that we can humanely respond to (or better yet anticipate) new technologies and the consequences for new babies. We hopefully will not punish the latter for the shortcomings of the former, and books like this will help us all engage with the key issues, technical and moral."

Architecture, Mysticism and Myth W. R. Lethaby 2019-01-08 This classic explores the symbolism of classical architecture. A milestone in relating mysticism to design, it shows the correlation between mythology and the design of St. Paul's Cathedral, the Taj Mahal, the Palace of Versailles, and other architectural masterpieces. This delightful book describes the symbolism of real-world architecture, as well as architecture described in fiction, myth and folklore. Lethaby believed that architecture reflected the macrocosm. He speculated that many of the seemingly ornamental details of classical buildings actually represented aspects of the land, the sea and the sky. This is one of those books like the *Golden Bough* or the *White Goddess* (albeit shorter and a less challenging read) that will turn you on to the mythopoetic side of reality, no matter whether you agree with its conclusions.

The Morning of the Magicians Louis Pauwels 2008-12-09 The groundbreaking and classic study that first popularized occultism, alchemy, and paranormal phenomena in the 1960s • Provides profound insights into our perceptions of reality, telepathy, mutants, and parallel universes • Reveals the occult influences on the Nazis and introduces the alchemist Fulcanelli and the work of Charles Fort and Gurdjieff • Over Half a Million Copies Sold This groundbreaking, international bestseller, first published in 1960, couples profound insights into the hidden history of humanity and our perceptions of reality with the scientific evidence that supports the existence of paranormal activity, telepathy, and extraterrestrial communications. The first book to explore in depth the Nazi fascination with the occult, Pauwels and Bergier also broke new ground with their study of pyramidology, alchemy and its close kinship with atomic energy, and the possibility of a widespread mutation of humanity that would herald the dawn of a new age for the earth. Their study of secret societies, starting with the Rosicrucians, suggests that such changes are actively being pursued in the present day by a "conspiracy" of the most spiritually and intellectually advanced members of the human race. *The Morning of the Magicians* also explores the anomalous events collected by Charles Fort, the work of Gurdjieff, and the history of the mysterious Fulcanelli, who was widely believed to have manufactured the philosopher's stone--which provided the Nazis the motive for mounting an intensive search for him during their occupation of Paris. Much more than a collection of strange facts defying conventional wisdom, this book remains a sophisticated philosophical exploration of repressed phenomena and hidden histories that asks its readers to look at reality with ever "awakened eyes."

Es posible nacer como una persona "normal" según se considera en el actual sistema social y sin embargo traer multitud de conocimientos, experiencias y aptitudes desarrolladas en otras vidas? Lo es... En realidad todos hemos estado ya aquí... al menos una gran mayoría. Hemos vuelto una y otra vez, solo que olvidamos al nacer... Journey to the Center of the Earth Jules Verne 2021-01-26 As one of the many installments in Jules Verne's Voyage Extraordinaire series, Journey to the Center of the Earth promises high stakes and thrilling adventure. When Professor Otto Lidenbrock bought an ancient runic manuscript, which chronicles the lives of Norwegian Kings, he did not expect to learn of anything but the history of Icelandic leaders. However, upon further inspection, Lidenbrock and his nephew, Axel, find that the manuscript includes a coded message written by a 16th century alchemist. After rigorous translating and decoding, Axel and Lidenbrock discover the content of the note, in which the author reveals that it is possible to travel to the center of the Earth through volcanic passages. When Lidenbrock heard the news, he immediately started preparations to start the journey, though Axel was skeptical. When Lidenbrock's will proves to be more powerful than his nephew's doubt, the two decide to make the journey, recruiting an Icelandic tour guide named Hans on the way. As the three men make their way to inactive volcanic tubes, they embark on a high-stake adventure, facing dangers of cave-ins, subpolar tornados, an underground ocean and prehistoric creatures. The three men stay strong in their adventure, knowing the risky journey promises superior knowledge and acclaim, granted that they make it out alive. With the combination of science fiction and the adventure genre, Jules Verne created a novel that captures the attention of his audience. Originally published in 1864, Journey to the Center of the Earth still provides modern readers with entertainment and insight with its detailed and imaginative prose. Journey to the Center of the Earth can be read independently or as a companion to the other titles of Jules Verne's critically acclaimed series, Voyage Extraordinaire. This edition of Journey to the Center of the Earth by Jules Verne now features an eye-catching cover design and is printed in a stylish and readable font, crafting an assessible and pleasant reading experience for modern audiences.

La razza che verrà Edward Bulwer Lytton 2014-01-28T00:00:00+01:00 Un romanzo o un trattato politico? Certamente una piacevole dissertazione sui temi della convivenza civile, se non uno studio impegnato sui difetti di una democrazia immatura e puramente formale (quella americana), troppo "giovane" per l'esperienza di un Pari d'Inghilterra colto e smalzato. Tuttavia, anche se imperfetta, una democrazia è da preferirsi a una società politicamente e razionalmente perfetta, costituita però da automi privi di sentimento e di immaginazione. E perciò incapaci di libertà. "... Una volta soli nell'alloggio che dividevamo vicino all'ingresso della miniera dissi al mio amico: "Dimmi francamente, cos'hai visto in quel crepaccio? Sono sicuro che si è trattato di qualcosa di strano e terribile. Qualsiasi cosa fosse, ti ha lasciato in mente dei dubbi. In tal caso due teste sono meglio di una. Confidati con me."

El conocimiento secreto Jose Luis Espejo 2013-02-14 Esta obra enseña al lector los entresijos de las sociedades secretas: sus ideas, que circulan por el circuito intelectual de las sociedades modernas, y que entran en la categoría de lo esotérico, lo mágico y lo mitológico. Más allá de la Historia oficial se esconde una Historia oculta que desconocemos. Existe un conocimiento secreto, que constituye una contraseña para acceder al núcleo central del Poder. Es mucho más que un liviano pasatiempo de los poderosos: multitud de obras literarias y ensayísticas incorporan estos contenidos, a veces de forma velada y en ocasiones de forma explícita. Los iniciados los expresan a través de la pintura, la literatura, el cine, la arquitectura, la música... y así exteriorizan la militancia esotérica como una forma de «comunicar» algo a sus contemporáneos. Buena parte de las doctrinas e ideas que subyacen a las sociedades iniciáticas acaban colisionando con los intereses de millones de personas.

The Gold of the Gods Erich von Däniken 2011-06-17 Erich von Däniken, whose books have enthralled millions of readers around the world, now presents astonishing new confirmation for his revolutionary theories. He explores a vast, mysterious underworld of Ecuador---caves filled with gold and writings in solid gold that go back to the time of the Great Flood, bolstering von Däniken's theory of a prehistoric earthly "era of the gods."

Il lato oscuro del nazifascismo Giuseppina Mellace 2021-11-30 L'autrice ci dona un saggio accurato e appassionato, frutto di ricerche, studi, viaggi e riflessioni, che mette in luce aspetti poco noti del nazifascismo, come la fascinazione per l'esoterismo in Germania o il culto di Roma e la rivisitazione della storia in Italia. Un vero viaggio nel tempo e nei luoghi della guerra. L'opera è divisa in due parti. Nella prima dedicata ad Hitler scopriamo tra le altre cose, la sua ossessione per la ricerca delle reliquie: il Santo Graal, L'Arca dell'Alleanza e la Lancia di Longino. Nella seconda seguiamo Mussolini impegnato a diventare "l'uomo della provvidenza", cultore delle tradizioni e dei sacri valori della famiglia. In appendice completano il volume molti documenti originali. Giuseppina Mellace, nata a Roma nel 1957, è autrice di pièce teatrali, saggi, racconti e romanzi con i quali ha vinto numerosi premi. Dal 2014 pubblica con la Newton Compton di Roma libri di saggistica storica tra cui Una grande tragedia dimenticata, sull'eccidio delle Foibe, con il quale ha vinto tre primi premi a Giardini di Naxos, Rovigo e Matera. Il libro è stato presentato anche in Rai durante la trasmissione "Uno mattina Libri". Sempre nella stessa sezione, l'autrice ha poi pubblicato Delitti e Stragi dell'Italia fascista e L'Oro del Duce, ricevendo anche con questi testi numerosi riconoscimenti. Nel 2019 è uscito I Dimenticati di Mussolini, incentrato sulla vicenda degli IMI con il quale ha già vinto il primo premio "Il Convivio" ed è stato presentato anch'esso in Rai. Ha pubblicato con l'Università Cusano nel 2020 il romanzo storico IL QUADRO DI NORMA, con il quale ha già avuto tre primi premi.

The Forbidden Religion Jose M. Herrou Aragon 2012-07-03 Gnosis means knowledge. But we are not referring to just any knowledge. Gnosis is knowledge which produces a great transformation in those who receive it. Knowledge capable of nothing less than waking up man and helping him to escape from the prison in which he finds himself. That is why Gnosis has been so persecuted throughout the course of history, because it is knowledge considered dangerous for the religious and political authorities who govern mankind from the shadows. Every time this religion, absolutely different from the rest, appears before man, the other religions unite to try to destroy or hide it again. Primordial Gnosis is the original Gnosis, true Gnosis, eternal Gnosis, Gnostic knowledge in its pure form. Due to multiple persecutions, Primordial Gnosis has been fragmented, distorted and hidden.

Women of the Twelfth Century, Volume 3 Georges Duby 1998-08-03 In this volume, Georges Duby

studies the relationship between the Church and women in twelfth-century Europe. By that time, the Church had begun to see the evolving roles and expectations of women as serious matters, resulting in a wide range of clerical writings addressing "the woman question." Drawing on these writings, Duby describes how women were thought to embody particular sins, such as sorcery, disobedience, and licentiousness. He evaluates Eve's role in man's fall from grace in the Garden of Eden and analyzes the reasoning behind the view that women are unstable, curious, frivolous creatures. He also notes that these charges are leveled against women, even as praise is heaped upon them for the conventional virtues they exhibit in their roles as wives and mothers. As the final installment in Duby's three-volume study of French noblewomen of the twelfth century, *Eve and the Church* is the last work of this superb historian. It will be of interest to scholars of medieval history and women's history as well as to anyone interested in current debates about women and religion. Georges Duby (1919-1996) was a member of the Académie française and for many years held the distinguished chair in medieval history at the Collège de France. His books include *The Three Orders*; *The Age of Cathedrals*; *The Knight, the Lady, and the Priest*; *Love and Marriage in the Middle Ages*; and *History Continues*, all published by the University of Chicago Press.

Confessions of an Illuminati, Volume I Leo Lyon Zagami 2015-11-11 In English for the first time, a guide to the true secret structure of the Illuminati and their invisible network made of various power structures, author Leo Lyon Zagami uses their internal documents and reveals confidential and top-secret events. His book contends that the presence of numerous Illuminati brotherhoods and secret societies—just as those inside the most prestigious U.S. universities such as Yale or Harvard—have always been guides to the occult. From the Ordo Templi Orientis (OTO)'s infiltration of Freemasonry to the real Priory of Sion, this book exposes not only the hidden structure of the New World Order and the occult practices but also their connections to the intelligence community and the infamous Ur-Lodges.
