**Solid Waste Management** Elizabeth M. Thomas-Hope 1998 "This volume presents a collection of papers which, with perspectives from Africa and the Caribbean, raise critical issues in the management of solid waste. It is intended to offer a basis for discussion among the wide range of disciplines and sectors involved in solid waste management and suggest directions for future work in the theoretical and practical dimensions of the challenge with which developing countries are confronted"--Back cover.

## *The Commonwealth of Dominica* Unesco 1982

**Social Life in the Caribbean, 1838-1938** Bridget Brereton 1985 Provides a clear and readable account of a formative period in the history of the region. The text is divided into two halves: the first half looks at the structure of society and covers issues of race, class and wealth, while the second half looks at four particular aspects of community life - religion, the family, education and festivals...

**The Environment and Science and Technology Education** A. V. Baez 2013-10-22 The Environment and Science and Technology Education covers topics on key issues in environmental education; school-based primary and secondary education; and community-based environmental education. The book also discusses topics on tertiary, professional and vocational environmental education and non-formal public environmental education. The text will give practical help to teachers in all countries in order to raise

standards of education in those topics essential for development.

Quarterly Review of Education in Jamaica 1973

*Cape Economics* Dave Ramsingh 2017-02-09 This CAPE Economics Multiple Choice Practice book is an invaluable exam preparation aid for CAPE Economics students. This book provides excellent practice for the multiple choice questions from Paper 1 of the CAPE examination, and has been specially written to help CAPE Economics students improve their Paper 1 exam score.

**Agricultural Science for CSEC** Stephen Chadd 2014-01-31 These Study Guides have been developed exclusively with the Caribbean Examinations Council (CXC(R)) to be used as an additional resource by candidates who are following the Caribbean Secondary Education Certificate (CSEC(R)) programme. They provide candidates with extra support to help them maximise their performance in their examinations.

*English across Cultures. Cultures across English* Ofelia García 1989-01-01 CONTRIBUTIONS TO THE SOCIOLOGY OF LANGUAGE brings to students, researchers and practitioners in all of the social and language-related sciences carefully selected book-length publications dealing with sociolinguistic theory, methods, findings and applications. It approaches the study of language in society in its broadest sense, as a truly international and interdisciplinary field in which various approaches, theoretical and empirical, supplement and complement each other. The series invites the attention of linguists, language teachers of all interests, sociologists, political scientists, anthropologists, historians etc. to the development of the sociology of language.

**The CARICOM Bibliography** 1983

Artificial Insemination in Farm Animals Milad Manafi 2011 Artificial insemination is used instead of natural mating for reproduction purposes and its chief priority is that the desirable characteristics of a

bull or other male livestock animal can be passed on more quickly and to more progeny than if that animal is mated with females in a natural fashion. This book contains under one cover 16 chapters of concise, up-to-date information on artificial insemination in buffalos, ewes, pigs, swine, sheep, goats, pigs and dogs. Cryopreservation effect on sperm quality and fertility, new method and diagnostic test in semen analysis, management factors affecting fertility after cervical insemination, factors of non-infectious nature affecting the fertility, fatty acids effects on reproductive performance of ruminants, particularities of bovine artificial insemination, sperm preparation techniques and reproductive endocrinology diseases are described. This book will explain the advantages and disadvantages of using AI, the various methodologies used in different species, and how AI can be used to improve reproductive efficiency in farm animals.

*How Tobacco Smoke Causes Disease* 2010 This report considers the biological and behavioral mechanisms that may underlie the pathogenicity of tobacco smoke. Many Surgeon General's reports have considered research findings on mechanisms in assessing the biological plausibility of associations observed in epidemiologic studies. Mechanisms of disease are important because they may provide plausibility, which is one of the guideline criteria for assessing evidence on causation. This report specifically reviews the evidence on the potential mechanisms by which smoking causes diseases and considers whether a mechanism is likely to be operative in the production of human disease by tobacco smoke. This evidence is relevant to understanding how smoking causes disease, to identifying those who may be particularly susceptible, and to assessing the potential risks of tobacco products.

**Antigua and Barbuda** Caribbean Conservation Association 1991

**Cellular and Molecular Basis in Parasitic Diseases Control: Research Trends** Qingfeng Zhang  
2022-05-04

*Agricultural & Veterinary Sciences International Who's who* 1994

CARICOM Perspective 1987

*The Haitian Revolution and Its Effects* Patrick E. Bryan 1984

*Principles of Business for CXC* Trevor Marshall 2000-05-30 This new text for the Principles of Business has been written to give students clear and concise coverage of the examination syllabus and provide practice in the style of questions used in the examination itself.

*Agricultural Science for the Caribbean 3* Ralph Persad 2014-11 Agricultural Science for the Caribbean is a three year course for lower Secondary schools, with an emphasis on observation and practical activity. Students are encouraged to find out more about agriculture local to their homes so that they can relate and apply their learning to individual experiences and environments.

*Junior Secondary Agriculture for the Caribbean I.* Mohammed 1991-07-01 This series covers all aspects of agriculture over the three years of the Junior Secondary educational programme. The topics covered within this third volume are systems of farming, vegetative propagation methods, production of crops, crop production technology, forestry, fishing, marketing, grasslands, pastures and forages, cattle rearing, farm records and agencies participating in agriculture.

*International Perspectives on Natural Disasters: Occurrence, Mitigation, and Consequences* Joseph P.

Stoltman 2007-03-11 Reports of natural disasters fill the media with regularity. Places in the world are affected by natural disaster events every day. Such events include earthquakes, cyclones, tsunamis, wildfires - the list could go on for considerable length. In the 1990s there was a concentrated focus on natural disaster information and mitigation during the International Decade for Natural Disasters Reduction (IDNDR). The information was technical and provided the basis for major initiatives in building structures designed for seismic safety, slope stability, severe storm warning systems, and global monitoring and reporting. Mitigation, or planning in the event that natural hazards prevalent in a region would suddenly become natural disasters, was a major goal of the decade-long program. During the IDNDR, this book was conceptualized, and planning for its completion began. The editors saw the need for a book that would reach a broad range of readers who were not actively or directly engaged in natural disasters relief or mitigation planning, but who were in decision-making positions that provided an open window for addressing natural disaster issues. Those people were largely elected public officials, teachers, non-governmental organization staff, and staff of faith-based organizations. Those people, for the most part, come to know very well the human and physical characteristics of the place in which they are based. With that local outreach in mind, the editors intended the book to encourage readers to: 1.

**CXC News** 1986

**Sustainable Agriculture Research and Education in the Field** National Research Council 1991-02-01 Interest is growing in sustainable agriculture, which involves the use of productive and profitable farming practices that take advantage of natural biological processes to conserve resources, reduce inputs, protect the environment, and enhance public health. Continuing research is helping to demonstrate the ways that many factorsâ€"economics, biology, policy, and traditionâ€"interact in sustainable agriculture systems. This book contains the proceedings of a workshop on the findings of a broad range of research projects funded by the U.S. Department of Agriculture. The areas of study, such as integrated pest management, alternative cropping and tillage systems, and comparisons with more conventional approaches, are essential to developing and adopting profitable and sustainable farming systems.

**Junior Secondary Agriculture for the Caribbean** I. Mohammed 1990-10 This book is the second in a series of three texts which cover the needs of students studying agriculture at the Junior Secondary Level.

**Human and Social Biology** 2008

**A World of Prose** Hazel Simmons-McDonald 2017-08-14 A World of Prose includes all the prescribed texts for the revised CSEC English A and English B syllabuses. It has been compiled with the approval of the Caribbean Examinations Council by Editors who have served as CSEC English panel members. - The material in this anthology will help students to prepare effectively for the CSEC examination. - The texts have been chosen to cover a wide range of themes and subjects and include a balance of well-known texts from the past as well as more recent works. - The anthology includes texts from the Caribbean and the rest of the world to stimulate an interest in and enjoyment of reading and literature.

- This collection contains notes on each text and questions to provoke discussion, as well as a useful checklist to help students with literary analysis. - The book contains practical guidance for students on how to tackle examination questions, with examples of model answers for reference.
