BEAR AND THE FOX Gunter Pauli 2007-03-07 A clever fox tries to talk a bear into sharing a big fish he has just caught, but the bear uses a calmly logical approach to avoid the fox's tricks, with a guide for teachers and parents.

Cycling the Camino de Santiago Mike Wells 2019-03-15 The Camino de Santiago de Compostela (Camino Francés or Way of St James) is among the world's most famous pilgrimages: Christian pilgrims have travelled to the shrine of St James in Santiago, northern Spain, since the ninth century. This guide provides all the information you need to successfully cycle the Camino. The Camino Francés is the most popular variant of the Camino, linking St Jean-Pied-de-Port on the French-Spanish border with Santiago via Pamplona, Burgos and León. The guide presents the journey in 18 stages. Two versions of the route are described, the first (770km) based closely on the walkers' route and suitable for hybrid or mountain bikes; the second (798km) a 'road route' for road and touring cycles. It can be cycled in around 10-14 days and is very well provisioned. Clear route description and mapping are accompanied by notes on local points of interest, as well as background information on Spanish history and the history of the Camino. The practicalities are also thoroughly covered, including travel to and from the route, accommodation, facilities, kit and how to qualify for and obtain your Compostela (pilgrims' certificate). Whether you're seeking a spiritual journey, a physical challenge or just a holiday, the Camino promises an unforgettable experience - from the beautiful landscapes, historic towns and rich culture of northern Spain to the famed camaraderie with other wayfarers. Blending information with inspiration, this guide is an ideal companion to cycling this UNESCO-listed route.

Desert witch Gunter Pauli 2007-03-07 When a mouse from the jungle pays a visit to his uncle in the African desert, he gets a lesson on survival and the welwitschia plant, with a guide for teachers and parents.

Documentación de la FAO. 1993

Donde Esta Mi Casa?/Where Is Home? Gunter Pauli 2007-03 Where is Home? is a beautifully illustrated, bilingual Spanish/English children's book that uses Gunter Pauli's ZERI* Education model to teach children science. The book includes a teachers and parents guide and hands on activities that help children apply what they have learned. Gunter Pauli's ZERI* Education model proposes that children, adolescents, and young adults learn science in a way that gives them a more profound academic understanding at the same time that it helps develop their emotional intelligence, eco-literacy, and artistic/creative capacities. If children are to learn how to think, design, create, and dream in systems, then they must be exposed to systems thinking at an early age. Critical concepts become part of the child's long-term memory and the student gains an intuitive grasp of the big picture. Then the learning of the specific tools, concepts, and principles involved become far more appealing. When students start with a story that integrates ethics, economics, biology, and mathematics, they will be drawn to studying those disciplines later on. Pauli's work in sustainable manufacturing and agricultural became the catalyst for a major educational reform in Colombia. The strife and violence that exists in this country spawned an urgent desire on the part of college students to rebuild their society. The professors and engineering students at University EAFIT in Medellin, Colombia, eagerly embraced an integrated educational approach, including a compulsory course in biology for engineering majors. As the concept spread to other universities, the need to mold the earlier educational tracks in this new direction became apparent; first in a High School in Manizales where ZERI's coffee and

bamboo projects have taken off, and then in elementary schools which asked for a version of this program adapted to their level, comparable to the Garden School projects of the Center for Ecoliteracy.

Bosques nublados del neotrópico Maarten Kappelle 2001

Dulce de árbol Gunter Pauli 2007-03-07 A tree and a stalk of sugar cane talk about the ways people use them and also how they might be put to better uses. Includes activities and teacher/parent guide.

Walking in Catalunya - Barcelona Nike Werstroh 2022-11-15 32 varied walks among the rocky mountains, forested slopes and idyllic wine country that surrounds Barcelona. Routes range from 6.5 to 28km and cover Montseny, Vic and Guillerics-Savassona, Sant Llorenç del Munt i l'Obac, Montserrat and Penedès and Garraf.

Please Play with Me! (Por Favor Juega Conmigo!) Gunter Pauli 2007-03 A young sea lion wants to play with a sea cucumber until a passing manta ray tells him that the sea cucumber is the only one left because the rest have been harvested for food due to mistaken ideas about them, with a guide for teachers and parents.

Torres del Paine Rudolf Abraham 2016-08-31 Guidebook to eight walking and trekking routes in Chile's Torres del Paine National Park and Argentina's Los Glaciares National Park. Three of these are multi-day treks, and four of them shorter day walks, as well as one multi-day trek in Argentina's Los Glaciares national park, also included are several excursions from Puerto Natales and El Calafate. Routes are arranged starting with the 10 -11 day Torres del Paine Circuit, (also known as the 'O' Circuit), followed by the shorter Half Circuit (the 'W') which can be walked in 4-5 days. The guidebook helps walkers and trekkers venture into Patagonia with confidence and includes advice on getting to and around the regions, languages, visa, currency, accommodation facilities in the National Parks as well as useful guidance on what to take and expect on the treks. While the Torres del Paine National Park offers a remote wilderness, walking is easily accessible with clear trails, good public transport and regular mountain huts and campsites. Full background information on the geology, history, wildlife, flora and cultures of the regions are also explored, resulting in an excellent companion guide to explore the region.

Proceedings RMRS. 1998

Agua potable del bosque Gunter Pauli 2006-09 A squirrel explains to a deer why the water that had previously made the deer sick is now clean, thanks to reforestation, with a guide for teachers and parents.

DON'T LEAVE ME ALONE Gunter Pauli 2007-03 A fable of a cat and a goat in the Galapagos Islands and the result of introducing non-native species into an ecosystem.
