Proust and Emotion Inge Crosman Wimmers 2003-01-01 In *Proust and Emotion*, Inge Crosman Wimmers proposes a new approach to *A la recherche du temps perdu* that centres on the role of affect. Through close reading of the hero-narrator's personal history, the author shows how emotional paradigms (especially separation anxiety), involuntary memory, and other compelling impressions give focus and structure to Proust's novel. Drawing on reader-oriented and emotion theories, she shows how affect commands the attention of the 'motivated reader' and is crucial to the process of self-understanding for both the narrator and the reader. This is the first extensive study in English to take fully into consideration the drafts (esquisses) published in the new Pléiade edition of the novel, the Mauriac edition of *Albertine disparue*, and material from the unpublished Proust manuscripts - all of which shed further light on the importance of affect in *A la recherche*. *Proust and Emotion* will appeal to readers interested in an approach to Proust that combines insights from philosophy, psychology, and literary aesthetics and in a poetics of reading that pays particular attention to emotion.

The Cambridge Companion to Proust Richard Bales 2001-06-14 This Companion, first published in 2001, aims to provide a broad account of the major features of Proust's work.

Film, Music, Memory Berthold Hoeckner 2019-11-27 Film has shaped modern society in part by changing

its cultures of memory. *Film, Music, Memory* reveals that this change has rested in no small measure on the mnemonic powers of music. As films were consumed by growing American and European audiences, their soundtracks became an integral part of individual and collective memory. Berthold Hoeckner analyzes three critical processes through which music influenced this new culture of memory: storage, retrieval, and affect. Films store memory through an archive of cinematic scores. In turn, a few bars from a soundtrack instantly recall the image that accompanied them, and along with it, the affective experience of the movie. Hoeckner examines films that reflect directly on memory, whether by featuring an amnesic character, a traumatic event, or a surge of nostalgia. As the history of cinema unfolded, movies even began to recall their own history through quotations, remakes, and stories about how cinema contributed to the soundtrack of people's lives. Ultimately, *Film, Music, Memory* demonstrates that music has transformed not only what we remember about the cinematic experience, but also how we relate to memory itself.

Proust's Gods Margaret Topping 2000 This study explores two interweaving networks of imagery which are vital to key thematic areas of Proust's fictional construct. These are Christian and biblical, and classical and mythological figures of speech.

Proustian Passions British Academy Postdoctoral Research Fellow Ingrid Wassenaar 2000 Writing on *A la recherche du temps perdu* has tended to celebrate the wonders of the *moi sensible* uncritically. This overlooks the rigour with which Proust tries to understand exactly why explaining one's own actions is so difficult. Can we decide, he asks, whether justifying oneself should be written off as morally repugnant, or taken seriously as evidence of moral probity? *Proustian Passions* examines the case for taking self-justification seriously. This is a brand new vision of a novel whose plunge into subjectivity now seems prescient of the entire twentieth century's cultural trajectory.

[The Work of Forgetting](#) Stephane Symons 2018-12-14 This book presents a critical discussion of the turn to memory, a key evolution in the humanities in the last 50 years. It offers an innovative interpretation of Walter Benjamin's philosophy of history and his oeuvre at large, taking a thematic approach to the issue of forgetting, based on detailed readings of key philosophers of the 20th century.

Marcel Proust in Context Adam Watt 2013-12-05 This volume sets Marcel Proust's masterwork, *À la recherche du temps perdu* (In Search of Lost Time, 1913–27), in its cultural and socio-historical contexts. Essays by the leading scholars in the field attend to Proust's biography, his huge correspondence, and the genesis and protracted evolution of his masterpiece. Light is cast on Proust's relation to thinkers and artists of his time, and to those of the great French and European traditions of which he is now so centrally a part. There is vivid exploration of Proust's reading; his attitudes towards contemporary social and political issues; his relation to journalism, religion, sexuality, science and travel, and how these figure in the Recherche. The volume closes with a comprehensive survey of Proust's critical reception, from reviews during his lifetime to the present day, including assessments of Proust in translation and the broader assimilation of his work into twentieth- and twenty-first-century culture.

Processes of Literary Creation Marion Schmid 2017-12-02 "This work examines the genetic processes that shaped two of the great literary masterpieces of modernity: Flaubert's *"L'Education Sentimentale"* and Proust's *"A la Recherche de Temps Perdu"*. A detailed investigation of Flaubert's notebooks and scenarios from 1864 and 1869 and Proust's *"Cahiers"* from 1908 to 1911 reveals the almost diametrically opposed ways in which the two novels evolved in their early stages."

Mourning and Creativity in Proust Anna Magdalena Elsner 2017-03-09 This study explores Proust's answers to some of the fundamental challenges of the inevitable human experience of mourning. Thinking mourning and creativity together allows for a fresh approach to the modernist novel at large, but also calls for a reassessment of the particular historical and social challenges faced by mourners at the beginning of the twentieth century. The book enables the reader to acknowledge loss and forgetting as an essential part of memory, and it proposes that this literary topos has seminal implications for an understanding of the ethics, aesthetics, and erotic in Proust's *A la recherche du temps perdu*. Drawing on the works of Sigmund Freud and Jacques Derrida, Anna Magdalena Elsner develops an original theory of how mourning and creativity are linked by emphasizing that ethical dilemmas are central to an understanding of the novel's final aesthetic apotheosis. This sheds new light on the enigmatic and versatile nature of mourning but also pays tribute to those fertile tensions and paradoxes that have made Proust's novel captivating for readers since its publication.

Science and Structure in Proust's A la Recherche Du Temps Perdu Nicola Luckhurst 2000 Proust is read as a writer of maxims and metaphors, of short and long sentences, as at once an aesthete and a scientific thinker. His A la recherche du temps perdu is a hybrid, a novel-essay, an epistemological debate that crosses the boundaries between two cultures, art and science. Science and Structure explores the epistemological alertness and anxiety of Proust's masterpiece and in so doing illuminates the interrelations between "modernist" art and science.

Proust & His Banker Gian Balsamo 2017-04-19 This study explores the surprising relationship between Proust's creative genius, his financial extravagance, and the steady hand that kept him afloat. What

Marcel Proust wanted from life most of all was unconditional requited love, and the way he went after it—smothering the objects of his affection with gifts—cost him a fortune. To pay for such extravagance, he engaged in daring speculations on the stock exchange. The task of his cousin and financial adviser, Lionel Hauser, was to make sure these speculations would not go sour. In *Proust and His Banker*, Gian Balsamo examines this vital, complex relationship and reveals that the author's liberal squandering of money provided the grist for many of the fictional characters and dramatic events he wrote about. Focusing on hundreds of letters between Proust and Hauser among other archival and primary sources, Balsamo provides a fascinating window into the writer's creative process, his financial activities, and the surprising relationship between the two. Successes and failures alike provided material for Proust's fiction, whether from the purchase of an airplane for the object of his affections or the investigation of a deceased love's intimate background. Over the course of their fifteen-year collaboration, the banker saw Proust squander three-fifths of his wealth. To Hauser the writer was a virtuoso in resource mismanagement. Nonetheless, Balsamo shows, we owe it to the altruism of this generous relative, who never thought twice about sacrificing his own time and resources to Proust, that *In Search of Lost Time* was ever completed.

Marcel Proust and Spanish America Herbert E. Craig 2002 "Craig begins by attributing the early introduction of the Recherche to the intimate friendship between Proust and the pianist-composer Reynaldo Halm, who was born in Caracas. He then shows in chapter 1 how literary critics of the principal newspapers and literary magazines of such countries as Venezuela, Argentina, and Chile examined this French text, which we know today as one of the fundamental works of modernism. Shortly thereafter interest in the Recherche spread to Cuba, Mexico, Uruguay, and Colombia. Eventually it would be read in all parts of the New World. Over the years Spanish Americans have continued to write about the Recherche and have published several noteworthy books on it, which are included in the comprehensive bibliography which serves as an appendix."--BOOK JACKET.

Albertine disparue Marcel Proust 1954 *Albertine Disparue*, dont le titre original est *La fugitive*, est le sixieme tome d'*A la recherche du temps perdu* de Marcel Proust paru en 1927 a titre posthume. la *Fugitive* devait originairment regrouper la *Prisonniere* et *Albertine disparue*. De fait, *Albertine disparue* est la suite indissociable, sur le plan narratif au moins, de la *Prisonniere*.

Proust, Beckett, and Narration James H. Reid 2003-10-13 This a comprehensive comparison of the narrative techniques of two of the twentieth century's most important writers of prose. Using a combination of theoretical analysis and close readings of Proust's *A la recherche du temps perdu* and Beckett's trilogy of novels, *Molloy*, *Malone Dies*, and *The Unnamable*, James H. Reid compares the two novelists' use of first-person narration in constructing and demystifying fictions of consciousness. Reid focuses on the narrator's search to represent the voice that speaks the novel, a search, he argues, that structures first-person narration in the works of both novelists. He examines in detail the significant impact of Proust's writing on Beckett's own work as well as Beckett's subtle reworkings of Proust's themes and strategies. This study is an important contribution to critical literature, and offers fresh perspectives on the crucial importance of the *Recherche* and the trilogy in the context of the twentieth-century novel.

Reading in Proust's A la recherche Adam Watt 2009-06-18 Adam Watt's critical study of Proust's *A la recherche du temps perdu*, focuses on the role of the acts of reading depicted in the seminal novel. Reading is shown to be a formative and often troubling force in the life of the novel's narrator.

Proust's Deadline Christine M. Cano 2010-10-01 Marcel Proust's multivolume masterpiece, *À la recherche du temps perdu*, began to appear in 1913. Over the next fifty years, it gained a reputation as one of the greatest literary works of the twentieth century. But the novel's classic image as a completed work was later shattered by the discovery of unpublished drafts, and the "war of the Prousts" has kept scholars arguing over its definitive form ever since. Christine M. Cano's *Proust's Deadline* presents a concise history of the publishing and reception of *À la recherche du temps perdu*, and sorts out the most important issues that have arisen from the ensuing debates about the text. She ultimately shows how this quintessential "book about time" tells another story about time's passage: the story of Proust's mortal confrontation with the temporality of writing, publishing, and reading.

Proust, Class, and Nation Edward J. Hughes 2011-09-08 Writing in 1927, Julien Benda described France as being afflicted by the twin scourges of narrow, class-based politics and rabid nationalism. He nevertheless identified Marcel Proust (who had died in 1922) as a writer who had refused to embrace the ideological narrowness of his age. Edward J. Hughes seeks to assess how Proust and his novel *A la*

recherche du temps perdu might be understood in relation to issues of class and nation. A la recherche was produced in momentous times. As an extended textual construction, first conceived of in 1908 and the last tranche of which appeared posthumously almost two decades later, it was assembled against a backdrop of major historical events: pre-war tensions in the wake of the Dreyfus Affair and the Separation of Church and State (issues on which Proust had campaigned publicly); the First World War and the atmosphere of narrow nationalism and Germanophobia which the conflict generated; and the continuing polarization in class politics in the years after the First World War. These all find echoes in A la recherche and Hughes establishes how the exposure given to questions of class and nation needs to be understood historically. He demonstrates that the frequently entrenched positions of Proust's contemporaries at times square with the language and images of social conservatism to be found in A la recherche. Yet alongside that, Hughes unearths evidence that points to Proust as a free-floating, often playful, iconoclast and radical commentator who, as Theodor Adorno observed, resisted bourgeois compartmentalization.

Character and Person John Frow 2014-04-17 Fictional character is an ontologically ambivalent category – at once a formal construct and a quasi-person – which lies at the heart of the life of textual fictions of all kinds. Character and Person explores that ambivalence by investigating not only the kinds of thing that

character is but how it works to engage readers and the range of typologies through which it has been constructed in very different periods, media, and genres. John Frow seeks to explore the ways in which character is person-like, and through that the question of what it means to be a social person. His focus is thus on the interaction between its two major categories, and its method involves a constant play back and forth between them: from philosophical theories of face to an account of the mask in the New Comedy; from an exploration of medieval beliefs about the body's existence in the afterlife to a reading of Dante's Purgatorio; from the history of humoral medicine to the figure of the melancholic in Jacobean drama; and from Proust and Pessoa to cognitive science. What develops from this methodological commitment to fusing the categories of character and person is an extended analysis of the schemata that underpin each of them in their distinct but mutually constitutive spheres of operation.

The Sweet Cheat Gone (Albertine Disparue) Marcel Proust 2019-07-26 This book is a result of an effort made by us towards making a contribution to the preservation and repair of original classic literature. In an attempt to preserve, improve and recreate the original content, we have worked towards: 1. Type-setting & Reformatting: The complete work has been re-designed via professional layout, formatting and type-setting tools to re-create the same edition with rich typography, graphics, high quality images, and table elements, giving our readers the feel of holding a 'fresh and newly' reprinted and/or revised edition, as opposed to other scanned & printed (Optical Character Recognition - OCR) reproductions. 2. Correction of imperfections: As the work was re-created from the scratch, therefore, it was vetted to rectify certain conventional norms with regard to typographical mistakes, hyphenations, punctuations, blurred images, missing content/pages, and/or other related subject matters, upon our consideration. Every attempt was made to rectify the imperfections related to omitted constructs in the original edition via other references. However, a few of such imperfections which could not be rectified due to intentional/unintentional omission of content in the original edition, were inherited and preserved from the original work to maintain the authenticity and construct, relevant to the work. We believe that this work holds historical, cultural and/or intellectual importance in the literary works community, therefore despite the oddities, we accounted the work for print as a part of our continuing effort towards preservation of literary work and our contribution towards the development of the society as a whole, driven by our beliefs. regard to preservation of the historical content. HAPPY READING!

Proust in Perspective Armine Kotin Mortimer 2002-08-07 Marcel Proust speaks to us today as a contemporary and a classic. His great novel resonates across languages and time, summing up the past, interpreting the present, and envisioning the future. For *Proust in Perspective*, scholars from France, Italy, Belgium, Germany, Sweden, Japan, Canada, and the United States have drawn on rich new editions of Proust's novel and correspondence to bring us fresh views of his work. In nineteen original essays, a foreword by Jean-Yves Tadié, and an introduction by editors Armine Kotin Mortimer and Katherine Kolb, this volume guides readers through the dense weave of Proust's fiction and correspondence. The essays take us into the realm of Proustian language--as quotation, metaphor, and memory--and into art history and musical ideology, connecting the art of words with the words of art. They explore the interface of history and fiction, the mysteries of the text's evolution, and the dilemmas of its publication. They present the revelations of genetic criticism and the surprises of gender analysis. Taken together, these essays conjure a multifaceted profile of Proust--his work, life, character, and influence--and of new directions in Proust scholarship today. With compelling rigor and infectious enthusiasm, *Proust in Perspective* conveys the magnitude of Proust's continuing appeal.

Textual Awareness Dirk Van Hulle 2009-12-14 Aware of the act of writing as a temporal process, many modernist authors preserved numerous manuscripts of their works, which themselves thematized time. *Textual Awareness* analyzes the writing processes in James Joyce's *Finnegans Wake*, Marcel Proust's *À la recherche du temps perdu*, and Thomas Mann's *Doktor Faustus* and relates these to Anglo-American, French, and German theories of text. By relating theory to practice, this comparative study reveals the links between literary and textual criticism. A key issue in both textual criticism and the so-called crisis of the novel is the tension between the finished and the unfinished. After a theoretical examination of the relationship between genetic and textual criticism, Dirk Van Hulle uses the three case studies to show how?at each stage in the writing process?the text still had the potential of becoming something entirely different; how and why these geneses proceeded the way they did; how Joyce, Proust, and Mann allowed contingencies to shape their work; how these authors recycled the words of their critics in order to inoculate their works against them; how they shaped an intertextual dimension through the processing of source texts and reading notes; and how text continually generated more text. Van Hulle's exploration of process sheds new light on the remarkable fact that so many modernist authors protected their manuscripts, implying both the authors' urge to grasp everything and their awareness of the dangers of their encyclopedic projects. *Textual Awareness* offers new insights into the artificiality of the artifact?the novel?that are relevant to the study of literary modernism in general and the study of James Joyce, Marcel Proust, and Thomas Mann in particular. Dirk Van Hulle is Assistant Professor of English and German Literature, University of Antwerp.

The Proustian Fabric Christie McDonald 2016-05-01 The association of ideas became the foundation of Freudian psychoanalysis, informed the nascent semiology of Saussure, and characterized the literary works of Sterne, Joyce, Woolf, and especially Marcel Proust. The author of *Remembrance of Things Past*, acutely aware of how philosophical, historical, and narrative writing intersected, gave years of thinking and planning to his multivolume masterpiece. Its shape was protean. Each successive volume reconfigured the previous ones and in 1987 Proust readers welcomed the publication of several new editions, among them the *Bibliothèque de la Pléiade*, which presented as many pages of variants as of text. The *Proustian Fabric* engages the complex layers of association to be found in Proust's work. According to Christie McDonald, "*Remembrance of Things Past* straddles the dominant thinking patterns of two centuries: the nineteenth, in which the association of fragmentary thought was to be subsumed into the notion of a totality, and the twentieth, in which the notion of associative thinking was to move toward an infinite process of referral and interpretation." Imbued with McDonald's discerning knowledge of Proust's intellectual and historical milieu, his compendious writing and his critics, *The Proustian Fabric* is one of the first books to take into account the rich variations of the new editions and to reexamine certain suppositions about Proust's methods, as well as his concern with philosophy, literature, art, and politics.

Logos of Phenomenology and Phenomenology of the Logos. Book Five Anna-Teresa Tymieniecka 2006-07-14 Having established in the onto-poiesis/phenomenology of life the creative function of the human being as the fulcrum of our beingness-in-becoming, let us now turn to investigate the creative logos. In this collection, the momentum of a gathering "creative brainstorm" leads to the vertiginous imaginative transformability of the creative logos as it ciphers through the aesthetic sense, the elements of experience – sensing, feeling, emotions, forming – in works of art, thus lifting human experience into spirit and culture.
