Occupational Therapy Practice Framework American Occupational Therapy Association 2008-01-01 The Framework, an official AOTA document, presents a summary of interrelated constructs that define and guide occupational therapy practice. Implicit within this summary are the profession's core beliefs in the positive relationship between occupation and health and its view of people as occupational beings. Translation in Modern Japan Indra Levy 2017-07-05 The role of translation in the formation of modern Japanese identities has become one of the most exciting new fields of inquiry in Japanese studies. This book marks the first attempt to establish the contours of this new field, bringing together seminal works of Japanese scholarship and criticism with cutting-edge English-language scholarship. Collectively, the contributors to this book address two critical questions: 1) how does the conception of modern Japan as a culture of translation affect our understanding of Japanese modernity and its relation to the East/West divide? and 2) how does the example of a distinctly East Asian tradition of translation affect our understanding of translation itself? The chapter engage a wide array of disciplines, perspectives, and topics from politics to culture, the written language to visual culture, scientific discourse to children's literature and the Japanese conception of a national literature. Translation in Modern Japan will be of huge interest to a diverse readership in both Japanese studies

and translation studies as well as students and scholars of the theory and practice of Japanese literary translation, traditional and modern Japanese history and culture, and Japanese women's studies.

Becoming Guanyin Yuhang Li 2020-02-18 The goddess Guanyin began in India as the bodhisattva Avalokiteśvara, originally a male deity. He gradually became indigenized as a female deity in China over the span of nearly a millennium. By the Ming (1358–1644) and Qing (1644–1911) periods, Guanyin had become the most popular female deity in China. In *Becoming Guanyin*, Yuhang Li examines how lay Buddhist women in late imperial China forged a connection with the subject of their devotion, arguing that women used their own bodies to echo that of Guanyin. Li focuses on the power of material things to enable women to access religious experience and transcendence. In particular, she examines how secular Buddhist women expressed mimetic devotion and pursued religious salvation through creative depictions of Guanyin in different media such as painting and embroidery and through bodily portrayals of the deity using jewelry and dance. These material displays expressed a worldview that differed from yet fit within the Confucian patriarchal system. Attending to the fabrication and use of “women’s things” by secular women, Li offers new insight into the relationships between worshipped and worshipper in Buddhist practice. Combining empirical research with theoretical insights from both art history and Buddhist studies, *Becoming Guanyin* is a field-changing analysis that reveals the interplay between material culture, religion, and their gendered transformations.

Fixing Landscape Corey Byrnes 2019-01-15 In 1994, workers broke ground on China’s Three Gorges Dam. By its completion in 2012, the dam had transformed the ecology of the Yangzi River, displaced over a million people, and forever altered a landscape immortalized in centuries of literature and art. The controversial history of the dam is well known; what this book uncovers are its unexpected connections to the cultural traditions it seems to sever. By reconsidering the dam in relation to the aesthetic history of the Three Gorges region over more than two millennia, *Fixing Landscape* offers radically new ways of thinking about cultural and spatial production in contemporary China. Corey Byrnes argues that this monumental feat of engineering can only be understood by confronting its status as a techno-poetic act, a form of landscaping indebted to both the technical knowledge of engineers and to the poetic legacies of the Gorges as cultural site. Synthesizing methods drawn from premodern, modern, and contemporary Chinese studies, as well as from critical geography, art history, and the environmental humanities, Byrnes offers innovative readings of eighth-century poetry, paintings from the twelfth through twenty-first centuries, contemporary film, nineteenth-century British travelogues, and Chinese and Western maps, among other sources. *Fixing Landscape* shows that premodern poetry and visual art have something urgent to tell us about a contemporary experiment in spatial production. Poems and paintings may not build dams, but Byrnes argues that the Three Gorges Dam would not exist as we know it without them.

Sirens of the Western Shore Indra A. Levy 2010 The cross-fertilization of languages, cultures, and literary forms that produced modern Japanese literature also gave birth to a new literary archetype: the "Westernesque femme fatale," an alluring figure who is ethnically Japanese but evokes the West in her physical appearance, lifestyle, behavior, and use of language. Tracing the genesis of this archetype from her first appearance in the vernacularist fiction of the late 1880s to her role in Naturalist fiction of the mid-1900s and her embodiment by the modern Japanese actress in the early 1910s, *Sirens of the Western Shore* identifies the Westernesque femme fatale as the hallmark of an intertextual exoticism that prizes the strange beauty of modern Western writing. By illuminating the exoticist impulses that informed this archetype, Indra Levy offers a new understanding of the relationships between vernacular style and translation, originality and imitation, and writing and performance.

Army Leadership and the Profession (ADP 6-22) Headquarters Department of the Army 2019-10-09 ADP 6-22 describes enduring concepts of leadership through the core competencies and attributes required of leaders of all cohorts and all organizations, regardless of mission or setting. These principles reflect decades of experience and validated scientific knowledge. An ideal Army leader serves as a role model through strong intellect, physical presence, professional competence, and moral character. An Army leader is able and willing to act decisively, within superior leaders' intent and purpose, and in the organization's best interests. Army leaders recognize that organizations, built on mutual trust and confidence, accomplish missions. Every member of the Army, military or civilian, is part of a team and functions in the role of leader and subordinate. Being a good subordinate is part of being an effective leader. Leaders do not just lead subordinates—they also lead other leaders. Leaders are not limited to just those designated by position, rank, or authority.

Not for Long Robert W. Turner II 2018-07-06 The NFL is the most popular professional sports league in the United States. Its athletes receive multimillion-dollar contracts and almost endless media attention. The league's most important game, the Super Bowl, is practically a national holiday. Making it to the NFL, however, is not about the promised land of fame and fortune. Robert W. Turner II draws on his personal experience as a former professional football player as well as interviews with more than 140 current and former NFL players to reveal what it means to be an athlete in the NFL and explain why so many players struggle with life after football. Without guaranteed contracts, the majority of players are forced out of the league after a few seasons. Over three-quarters of retirees experience bankruptcy or financial ruin, two-thirds live with chronic pain, and

too many find themselves on the wrong side of the law. Robert W. Turner II argues that the fall from grace of so many players is no accident. The NFL, he contends, powerfully determines their experiences in and out of the league. The labor agreement provides little job security and few health and retirement benefits, and the owners refuse to share power with the players, making change difficult. And the process of becoming an elite football player--from high school to college and through the pros--leaves athletes with few marketable skills and little preparation for their first Sunday off the field. With compassion and objectivity, Not for Long reveals the life and mind of high school, college, and NFL athletes, shedding light on what might best help players transition successfully out of the sport.

The Devil's Dictionary Ambrose Bierce 1911 Bierce exploits the comic potential of the dictionary format to mock the doublespeak prominent in post-Civil War politics. Using short, pithy entries on a variety of subjects, this "reference book" inverts the meaning of words, skewers popular hypocrisy and showcases Bierce's dark humor. Many of these entries began as newspaper columns Bierce wrote in the 1870s. One hundred years later, it is clear that the America he lampoons is not that different from our own.

Take Up Space The Editors of New York Magazine 2022-02-22 A stunning four-color biography of Congresswoman Alexandria Ocasio-Cortez in the bestselling tradition of Notorious RBG and Pelosi that explores her explosive rise and impact on the future of American culture and politics. The candidate was young—twenty-eight years old, a child of Puerto Rico, the Bronx, and Yorktown Heights. She was working as a waitress and bartender. She was completely unknown, and taking on a ten-term incumbent in a city famous for protecting its political institutions. “Women like me aren’t supposed to run for office,” Alexandria Ocasio-Cortez said in a video launching her campaign, the camera following her as she hastily pulled her hair into a bun. But she did. And in perhaps the most stunning upset in recent memory, she won. At twenty-nine, she was sworn in as the youngest member of the 116th Congress and became the youngest woman to serve as a representative in United States history. Before long, Ocasio-Cortez had earned her own shorthand title—AOC—and was one of the most talked-about public figures (loved and loathed) in the world. Her natural ability to connect with everyday people through the social media feeds grew her following into the multimillions. Every statement she made, every tweet and Instagram Live, went viral, and her term had barely begun before people were speculating that she could one day be president. The question seemed to be on everyone’s mind: How did this woman come from nowhere to acquire such influence, and so fast? Now, in

Take Up Space, that question is answered through a kaleidoscopic biography by the editors of New York magazine that features the riveting account of her rise by Lisa Miller, an essay by Rebecca Traister that explains why she is an unprecedented figure in American politics, and multiform explorations (reportage, comic, history, analysis, photography) of AOC's outside impact on American culture and politics. Throughout, AOC is revealed in all her power and vulnerability, and understood in the context of the fast-changing America that made her possible—and perhaps even inevitable.

Luther@500 and Beyond ATF Press 2019-09-13 The Luther@500 anniversary may be behind us, but Luther stands ahead of us in many ways. The essays in this volume by an international group of scholars begin with a contextual discussion of Luther's definitive contribution to the Wittenberg Reformation and its significance for us today. New light is shed on old issues across a range of topics. But these essays do not stay in the past. Many also engage critically with contemporary issues in Luther interpretation and a few boldly trace the trajectory of Luther's reformational theology into the future.
