*The Boss of Bosses* Attilio Bolzoni 2015-09-03 This is the true story of Totò Riina, the Cosa Nostra boss who rose from nothing to become the most powerful man in Sicily. The picture emerges of a bloodthirsty, power-hungry monster who, despite his lowly beginnings, is able to outmanoeuvre the other Mafia chiefs and take control of the organisation. However, the story is not just that of Riina, but also of Sicily itself. D'Avanzo and Bolzoni have transformed a complex series of events spanning several decades into a gripping narrative. In prison for 18 years now, Totò Riina still remains the dictator of the Cosa Nostra. This book tells the haunting and disturbing tale, with thorough investigation and testimony of the Sicilian Corleone.

**ZeroZeroZero** Roberto Saviano 2016-08-30 An electrifying, internationally bestselling investigation of the

global cocaine trade now a series on Prime Video starring Andrea Riseborough, Dane DeHaan, and Gabriel Byrne, from the author of the #1 international bestseller Gomorrah “Zero zero zero” flour is the finest, whitest available. It is also the nickname among narcotraffickers for the purest cocaine on the market. And it is the title of Roberto Saviano’s unforgettable exploration of the inner workings of the global cocaine trade—its rules and armies, and the true depth of its reach into the world economy. Saviano’s Gomorrah, his explosive account of the Neapolitan mob, the Camorra, was a worldwide sensation. It struck such a nerve with the Camorra that Saviano has lived with twenty-four-hour police protection for more than eight years. During this time he has come to know law enforcement agencies and officials around the world. With their cooperation, Saviano has broadened his perspective to take in the entire global “corporate” entity that is the drug trade and the complex money-laundering operations that allow it to function, often with the help of the world’s biggest banks. The result is a harrowing and groundbreaking synthesis of literary narrative and geopolitical analysis exploring one of the most powerful dark forces in our economy. Saviano tracks the shift in the cocaine trade’s axis of power, from Colombia to Mexico, and relates how the Latin American cartels and gangs have forged alliances with crime syndicates across the globe. He charts the increasing sophistication of these criminal entities as they diversify into other products and markets. He also reveals the astonishing increase in the severity of violence as they have fought to protect and extend their power. Saviano is a writer and journalist of rare courage and a thinker of impressive intellectual depth, able to see connections between far-flung phenomena and bind them into a single epic story. Most drug-war narratives feel safely removed from our own lives; Saviano offers no such comfort. Both heart-racing and eye-opening, *ZeroZeroZero* is an investigative story like none other. Praise for *ZerZeroZero*: “[Saviano] has developed a literary style that switches from vivid descriptions of human depravity to a philosophical consideration of the meaning of violence in the modern world. . . . Most important of all is the hope Saviano gives to countless victims of criminal violence by standing up to its perpetrators.” —Financial Times

**Ryanair** Siobhán Creaton 2005 The supercharged growth of this low-cost airline has actually changed the way countless people live their lives, whether it be Ireland's new "Ryanair Generation," for whom its cheap flights to Dublin have eliminated much permanent emigration to the UK, or the thousands of Britons now enabled to buy holiday homes in rural France. This is the first book to tell the full story of the Ryanair phenomenon, from its inauspicious beginnings to its current dominance, from the secret of its business strategy to its cavalier stunts and practices. Siobhan Creaton has spoken to Ryanair employees past and present, as well as its top management and those at its major rivals like British Airways and easyJet, to produce an authoritative, objective, and compulsive account of one of the most colorful companies in Europe.

**Social Media and European Politics** Mauro Barisione 2017-07-19 This volume investigates the role of social media in European politics in changing the focus, frames and actors of public discourse around the EU decision-making process. Throughout the collection, the contributors test the hypothesis that the internet and social media are promoting a structural transformation of European public spheres which goes well beyond previously known processes of mediatisation of EU politics. This transformation addresses more fundamental challenges in terms of changing power relations, through processes of active citizen empowerment and exertion of digitally networked counter-power by civil society, news media, and political actors, as well as rising contestation of representative legitimacy of the EU institutions. Social Media and European Politics offers a comprehensive approach to the analysis of political agency and social media in European Union politics, by bringing together scholarly works from the fields of public sphere theory, digital media, political networks, journalism studies, euroscepticism, political activism and social movements, political parties and election campaigning, public opinion and audience studies.

**Impresa, società e poteri pubblici** Felice Emilio Santonastaso 2018-11-26 Questo volume raccoglie alcuni degli "scritti minori" di Felice Emilio Santonastaso, i quali coprono un arco di quasi cinquant'anni di studi, tutti dedicati, pur nella molteplicità delle aree tematiche (il "sistema" delle partecipazioni statali, le società di diritto speciale o di diritto singolare, i poteri speciali, le opere pubbliche) al rapporto fra imprese e poteri pubblici. Gli scritti raccolti sono riconducibili ad una "linea di pensiero che [...] mira a privilegiare interpretazioni ed applicazioni degli istituti e delle norme che assicurino – nelle singole 'porzioni' di attività economica considerate – il più soddisfacente, o, se si preferisce, il meno insoddisfacente, punto di equilibrio fra interessi privati ed interessi pubblici", come ricostruisce Alessandro Nigro nella presentazione del volume. L'iniziativa della raccolta di alcuni scritti di Felice Emilio Santonastaso è di un gruppo di professori o ex professori della Facoltà di Economia della Sapienza Università di Roma.

**Michael O'Leary** Alan Ruddock 2008-03-27 Michael O'Leary is a business giant. He transformed Ryanair from a loss-making joke of an Irish carrier into one of the most valuable airlines in the world, and in the process he has revolutionized the very nature of commercial aviation. In this, the first biography of O'Leary, Alan Ruddock portrays the man in three dimensions and examines the business miracle - often talked about but poorly understood - that O'Leary has wrought. 'Ruddock's fast-paced retelling of Ryanair's rise and rise confirms

O'Leary's insistence that his success has little to do with the management maxims of business gurus and everything to do with graft and ruthless attention to detail' Observer 'Probably the definitive Ryanair story ... a good read' Sunday Independent 'The fullest and most accurate picture of O'Leary to date' Irish Daily Mail 'Unlike previous books which simply chart the growth of the airline, this one is bound to get under O'Leary's skin because it reveals a great deal about his hugely driven character' Irish Independent 'Ruddock is good on the flavour of the man, a bundle of energy whose two favourite words start with an F and an S (they aren't flower and sugar)' Irish Examiner

**Imagine Math 7** Michele Emmer 2020-10-07 Imagine mathematics, imagine with the help of mathematics, imagine new worlds, new geometries, new forms. Imagine building mathematical models that make it possible to manage our world better, imagine solving great problems, imagine new problems never before thought of, imagine combining music, art, poetry, literature, architecture, theatre and cinema with mathematics. Imagine the unpredictable and sometimes counterintuitive applications of mathematics in all areas of human endeavour. This seventh volume starts with a homage to the Italian artist Mimmo Paladino who created exclusively for the Venice Conference 2019 ten original and unique works of art paper dedicated to the themes of the meeting. A large section is dedicated to the most recent Fields Medals including a Homage to Maryam Mirzakhani including a presentation of the exhibition on soap bubbles in art and science that took place in 2019. A section is dedicated to cinema and theatre including the performances by Claire Bardainne & Adrien Mondot. A part of the conference focused on the community of mathematicians, their role in literature and even in politics with the extraordinary example of Antanas Mockus Major of Bogotá. Mathematics in the constructions of bridges, in particular in Italy in the Sixties was presented by Tullia Iori. A very particular contribution on Origami by a mathematician, Marco Abate and an artist, Alessandro Beber. And many other topics. As usual the topics are treated in a way that is rigorous but captivating, detailed and full of evocations. This is an all-embracing look at the world of mathematics and culture. The world, life, culture, everything has changed in a few weeks with the Coronavirus. Culture, science are the main ways to safeguard people's physical and social life. Trust in humanity's creativity and ability. The motto today in Italy is Everything will be fine. This work is addressed to all those who have an interest in Mathematics.

**Geometry of the Passions** Remo Bodei 2018-08-08 The passions have long been condemned as a creator of disturbance and purveyor of the temporary loss of reason, but as Remo Bodei argues in *Geometry of the Passions*, we must abandon the perception that order and disorder are in a constant state of collision. By means of a theoretical and historical analysis, Bodei interprets the relationship between passion and reason as a conflict between two complementary logics. *Geometry of the Passions* investigates the paradoxical conflict-collaboration between passions and reason, and between individual and political projects. Tracing the roles passion and reason

have played throughout history, including in the political agendas of Descartes, Hobbes, and the French Jacobins, Geometry of the Passions reveals how passion and reason may be used as a vehicle for affirmation rather than self-enslavement.

**Encyclopedia of Political Communication** Lynda Lee Kaid 2007-12-21 The Encyclopedia of Political Communication discusses the major theoretical approaches to the field, including direct and limited effects theories, agenda-setting theories, sociological theories, framing and priming theories, and other past and present conceptualizations. With nearly 600 entries, this resource pays considerable attention to important political messages such as political speeches, televised political advertising, political posters and print advertising, televised political debates, and Internet sites. The audiences for political communications are also central, necessitating concentration on citizen reactions to political messages, how the general public and voters in democratic systems respond to political messages, and the effects of all types of media and message types.

**The Asset Protection Scheme** Great Britain: National Audit Office 2010-12-21 The Treasury's Asset Protection Scheme to protect over £280 billion of Royal Bank of Scotland's financial assets against losses has, so far, only been partially successful in encouraging lending to creditworthy borrowers on the scale originally envisaged. The Scheme, launched in early 2009, initially involved two banks. RBS eventually put £282 billion of assets into the Scheme, while Lloyds Banking Group paid £2.5 billion to exit the Scheme in November 2009 and instead raised additional capital from shareholders. The principal elements of the Scheme, particularly the first loss, were based on a robust assessment of incentives and on as complete information on the underlying assets as were available at the time. As part of the Scheme, Lloyds and RBS agreed lending targets. While both banks met targets for mortgage lending, there was a shortfall of £30 billion against targets for lending to business. Value for money in the longer term will depend heavily on incentives built into the Scheme to encourage good management of assets. Establishing a requirement for RBS to bear the first £60 billion of losses (a 'first loss') was crucial in providing the right incentive for the bank to manage its assets effectively. However, if the first loss is exceeded, RBS will have less financial incentive to avoid further losses although the bank considers it will still have a legal and moral obligation to manage the assets as best it can. The position of taxpayers would be particularly vulnerable if losses were to exceed about £73 billion

Storia dell'IRI. 5. Un Gruppo singolare. Settori, bilanci, presenza nell'economia italiana Franco Russolillo 2015-01-01T00:00:00+01:00 L'Istituto per la Ricostruzione Industriale (IRI) nasce nel 1933, per volere di Mussolini e su progetto di Alberto Beneduce, con l'intento di evitare il fallimento delle principali banche e imprese italiane e con esso il crollo dell'economia, già provata dalla crisi mondiale esplosa nel 1929. Dal dopoguerra l'Istituto è protagonista prima della ricostruzione e poi del miracolo economico. Dopo le difficoltà

emerse negli anni '70 e il programma di ristrutturazione e rilancio degli anni '80, l'IRI conclude la sua attività nel 2002 dopo le operazioni di privatizzazione che contribuiscono in misura significativa al raggiungimento degli obiettivi di finanza pubblica e all'adesione italiana all'euro. Questo volume prende in esame l'intero arco della vita dell'IRI, dalle vicende di alcuni suoi settori di attività ai risultati di bilancio, dalle pratiche di programmazione e controllo al suo impatto sull'economia e sullo sviluppo del paese. L'IRI è stato il prodotto della sua storia, un Gruppo singolare: holding di imprese e strumento della politica economica, con un largo spettro di attività nell'industria e nei servizi. Nella prima parte di questo volume si considerano le vicende di alcuni fra i suoi principali settori: la siderurgia, dai grandi successi nei decenni della crescita alle crisi della seconda parte degli anni Settanta; le telecomunicazioni, dalla gestione di un monopolio tecnologico ai cambiamenti degli anni Ottanta e Novanta; i casi emblematici dell'Alfa Romeo, della navalmeccanica, della Finmare e dell'Alitalia. Nella seconda parte del volume si analizzano dati e risultati di bilancio dell'IRI e delle sue 'finanziarie'. Si ricostruisce l'evoluzione delle pratiche di controllo e programmazione dell'Istituto in relazione ai mutamenti nella politica economica nazionale. Nella terza parte si analizza il ruolo del Gruppo nell'economia italiana, quale risulta dalla matrice delle interdipendenze settoriali e come agente di diffusione di ricerca, conoscenza e sviluppo tecnologico. Chiude il volume un'ampia bibliografia sul Gruppo IRI.

*Planning Matter* Robert A. Beauregard 2015-11-03 City and regional planners talk constantly about the things of the world—from highway interchanges and retention ponds to zoning documents and conference rooms—yet most seem to have a poor understanding of the materiality of the world in which they're immersed. Too often planners treat built forms, weather patterns, plants, animals, or regulatory technologies as passively awaiting commands rather than actively involved in the workings of cities and regions. In the ambitious and provocative *Planning Matter*, Robert A. Beauregard sets out to offer a new materialist perspective on planning practice that reveals the many ways in which the nonhuman things of the world mediate what planners say and do. Drawing on actor-network theory and science and technology studies, Beauregard lays out a framework that acknowledges the inevitable insufficiency of our representations of reality while also engaging more holistically with the world in all of its diversity—including human and nonhuman actors alike.

*Alternatives to Capitalism* Robin Hahnel 2016-05-24 What would a viable free and democratic society look like? Poverty, exploitation, instability, hierarchy, subordination, environmental exhaustion, radical inequalities of wealth and power—it is not difficult to list capitalism's myriad injustices. But is there a preferable and workable alternative? *Alternatives to Capitalism: Proposals for a Democratic Economy* presents a debate between two such possibilities: Robin Hahnel's "participatory economics" and Erik Olin Wright's "real utopian" socialism. It is a detailed and rewarding discussion that illuminates a range of issues and dilemmas of crucial importance to any serious effort to build a better world.

**Italy in the International System from Détente to the End of the Cold War** Antonio Varsori 2017-11-10 This edited collection offers a new approach to the study of Italy's foreign policy from the 1960s to the end of the Cold War, highlighting its complex and sometimes ambiguous goals, due to the intricacies of its internal system and delicate position in the fault line of the East-West and North-South divides. According to received opinion, during the Cold War era Italy was more an object rather than a factor in active foreign policy, limiting itself to paying lip service to the Western alliance and the European integration process, without any pretension to exerting a substantial international influence. Eleven contributions by leading Italian historians reappraise Italy's international role, addressing three complex and intertwined issues, namely, the country's political-diplomatic dimension; the economic factors affecting Rome's international stance; and Italy's role in new approaches to the international system and the influence of political parties' cultures in the nation's foreign policy.

La guerra fredda economica Adriana Castagnoli 2015-01-01T00:00:00+01:00 Negli anni della guerra fredda Washington mise in campo un ampio spettro di strumenti per contrastare l'espansione del blocco sovietico. La 'guerra fredda economica' condotta dagli Stati Uniti, fatta di misure come sanzioni economiche e controlli sugli scambi commerciali est-ovest, nonché di aiuti ad alleati e a paesi terzi, coinvolse direttamente anche l'Italia orientandone in maniera decisiva i flussi degli scambi. Adriana Castagnoli mette in luce le complesse relazioni politiche ed economiche tra Stati Uniti e Italia che contraddistinsero la nostra collocazione nel blocco occidentale e determinarono, anche per questa via, un modello di sviluppo anomalo e segnato da una forte dipendenza dalle multinazionali americane nei settori tecnologicamente più avanzati. Un effetto a lungo termine che continua ancora oggi a manifestare le sue conseguenze.

**Collusion** Carlo Bonini 2007 They broke the story of the decade—NigerGate. Then they broke the story of the CIA's abduction of an Egyptian cleric off the streets of Milan. Now, have they uncovered what could be the next big story—secret meetings in Rome about the future of Iraq? After George W. Bush pronounced the reasons behind going to war in Iraq—the infamous “sixteen words”—it was La Repubblica reporters Carlo Bonini and Giuseppe D'Avanzo who uncovered that Bush's fraudulent evidence was planted by Italy's secret intelligence agency, SISMI. After Egyptian cleric Abu Omar was kidnapped in broad daylight off the street in Milan, it was Bonini and D'Avanzo who broke the story that it was a combined effort of the CIA and Italian agents. In *Collusion*, the two reporters tell both those stories in full for the first time in the US, as well as the story that may turn into the biggest of them all: secret meetings in Rome between high-ranking Bush administration officials and Iranian agents. In *Collusion*, Bonini and D'Avanzo uncover the government-sponsored underworld of spies and crooked politicians, sidewalk deals and hapless villains that has played such a crucial role in the dirty business of making history since 9-11. But they reveal much more than the inner workings of “NigerGate” or the Abu Omar scandal. They bring the CIA and SISMI into sharp focus along with other players in international spycraft, “black propaganda” specialists, and the numerous shady characters shopping deals—here are the bunglings, the outrageous expense accounts, the lawless abductions, and the absurd misinterpretations of evidence.
