Friendly Fire Ami Ayalon 2021-09-07 FINALIST -- The National Jewish Book Award In this deeply personal journey of discovery, Ami Ayalon seeks input and perspective from Palestinians and Israelis whose experiences differ from his own. As head of the Shin Bet security agency, he gained empathy for "the enemy" and learned that when Israel carries out anti-terrorist operations in a political context of hopelessness, the Palestinian public will support violence, because they have nothing to lose. Researching and writing Friendly Fire, he came to understand that his patriotic life had blinded him to the self-defeating nature of policies that have undermined Israel's civil society while heaping humiliation upon its Palestinian neighbors. "If Israel becomes an Orwellian dystopia," Ayalon writes, "it won't be thanks to a handful of theologians dragging us into the dark past. The secular majority will lead us there motivated by fear and propelled by silence." Ayalon is a realist, not an idealist, and many who consider themselves Zionists will regard as radical his conclusions about what Israel must do to achieve relative peace and security and to sustain itself as a Jewish homeland and a liberal democracy.

Julia Margaret Cameron Julian Cox 2003-03-20 According to one of Julia Margaret Cameron's great-nieces, "we never knew what Aunt Julia was going to do next, nor did anyone else." This is an accurate

summation of the life of the British photographer (1815–1879), who took up the camera at age forty-eight and made more than twelve hundred images during a fourteen-year career. Living at the height of the Victorian era, Cameron was anything but conventional, experimenting with the relatively new medium of photography, promoting her own art through exhibition and sale, and pursuing the eminent personalities of her age—Alfred Tennyson, Charles Darwin, Thomas Carlyle, and others—as subjects for her lens. For the first time, all known images by Cameron, one of the most important nineteenth-century artists in any medium, are gathered together in a catalogue raisonné. In addition to a complete catalogue of Cameron's photographs, there is information on her life and times, initial experiments, artistic aspirations, techniques, small-format images, albums, commercial strategies, sitters, and sources of inspiration. Also provided are a selected bibliography of publications on Cameron, a list of exhibitions of her work held both in her time as well as our own, and a summary of important collections where her pictures can be found.

*Modern Art in Egypt* Fatenn Mostafa Kanafani 2020-06-25 Following a spectacular surge in interest for Egyptian masters, *Modern Art in Egypt* fills the void in Egyptian art history, chronicling the lives and legacies of six pioneering artists working under the British occupation. Using Western-style academic art as a starting point, these artists championed cultural progress, re-appropriating Egyptian visual culture from European orientalists to found a neo-Pharaonic School of Realism. *Modern Art in Egypt* charts the years from Muhammad Ali's educational reforms to the mass influx of foreigners during the nineteenth-century. With a focus on the al-Nahda thought movement, this book provides an overview of the key policy-makers, reformists and feminists who founded the first School of Fine Arts in Egypt, as well as cultural salons, museums and arts collectives. By combining political and aesthetic histories, Fatenn Mostafa breaks the prevailing understanding that has preferred to see non-Western art as derivatives of Western art movements. *Modern Art in Egypt* re-establishes Egypt's presence within the global Modernist canon.

**The Legend of Lakshmi Prasad** Lakshmi Prasad 2016-10-28 I am Lakshmi Prasad, native of Bitihar. I am doing PhD on a very important subject "Mating habits of gay chimpanzees in West Africa" at PANU University, the best University in India and possibly the best University in the world. My idols are "Faizal Guru", "Janab Kasab Sahib", "Focus Carat", "Baba Badkar", "Zakir Nalayak", "Gharkha Dutt", "Dr. Kana Ayyub" and all PhD students who had committed suicide since they failed to solve their PhD problems. I personally feel that, all deprived Indians should automatically be awarded a PhD degree coupled with a free pension of 1 lakh rupees/month to be delivered in cash via post at door step. Till then we are going to fight for azaadi from India. Imagine a day, when no PhD student would have to commit suicide, imagine a day, when no lower caste will be humiliated by upper caste, s/he can use his/her doctorate degree and force others to call him/her Dr. X, Dr. Y ,etc.

**Mardi Gras Beads** Doug MacCash 2022-02-09 Beads are one of the great New Orleans symbols, as much a signifier of the city as a pot of scarlet crawfish or a jazzman's trumpet. They are Louisiana's version of the Hawaiian lei, strung around tourists' and conventioners' necks to demonstrate enthusiasm for the city. The first in a new LSU Press series exploring facets of Louisiana's iconic culture, *Mardi Gras Beads* delves into the history of this celebrated New Orleans artifact, explaining how Mardi Gras beads came to be in the first place and how they grew to have such an outsize presence in New Orleans celebrations. Beads are a big business based on valuelessness. Approximately 130 shipping containers, each filled with 40,000 pounds of Chinese-made beads and other baubles, arrive at New Orleans's biggest Mardi Gras throw importer each Carnival season. Beads are an unnatural part of the natural landscape, persistently dangling from the trees along parade routes like Spanish moss. They clutter the doorknobs of the city, sway behind its rearview mirrors, test the load-bearing strength of its attic rafters, and clog its all-important rainwater removal system. *Mardi Gras Beads* traces the history of these parade trinkets from their origins before World War One through their ascent to the premier parade catchable by the Depression era. Veteran Mardi Gras reporter Doug MacCash explores the manufacture of Mardi Gras beads in places as far-flung as the Sudetenland, India, and Japan, and traces the shift away from glass beads to the modern, disposable plastic versions. *Mardi Gras Beads* concludes in the era of coronavirus, when parades (and therefore bead throwing) were temporarily suspended because of health concerns, and considers the future of biodegradable Mardi Gras beads in a city ever more threatened by the specter of climate change.

Relational Archaeologies Christopher Watts 2014-04-11 Many of us accept as uncontroversial the belief

that the world is comprised of detached and disparate products, all of which are reducible to certain substances. Of those things that are alive, we acknowledge that some have agency while others, such as humans, have more advanced qualities such as consciousness, reason and intentionality. So deeply-seated is this metaphysical belief, along with the related distinctions we draw between subject/object, mind/body and nature/culture that many of us tacitly assume past groups approached and apprehended the world in a similar fashion. Relational Archaeologies questions how such a view of human beings, 'other-than-human' creatures and things affects our reconstruction of past beliefs and practices. It proceeds from the position that, in many cases, past societies understood their place in the world as positional rather than categorical, as persons bound up in reticular arrangements with similar and not so similar forms regardless of their substantive qualities. Relational Archaeologies explores this idea by emphasizing how humans, animals and things come to exist by virtue of the dynamic and fluid processes of connection and transaction. In highlighting various counter-Modern notions of what it means 'to be' and how these can be teased apart using archaeological materials, contributors provide a range of approaches from primarily theoretical/historicized treatments of the topic to practical applications or case studies from the Americas, the UK, Europe, Asia and Australia.
