*Transformation Index BTI 2022* Bertelsmann Stiftung 2022-02-22 Managing the peaceful transition of authoritarian states to democracy and a market-economic system represents a tremendous challenge. Whether it comes to reconstituting the coherency of the state following armed conflict, expanding participation rights and the rule of law in emerging democracies, overcoming corrupt structures, fighting poverty and inequality, or establishing clear rules for stable market-economic competition, the requirements are enormous, and the pressure on responsible leaders is intense. After all, the quality of governance makes an essential contribution to the success or failure of transformation processes. Accordingly, the Bertelsmann Stiftung's Transformation Index (BTI) systematically places political decision-makers' steering capability at the heart of its analysis and, as a result, is the only index in the world that measures and compares the quality of governance with self-collected data. This is done in the firm conviction that the ongoing comparative study of transformation processes is invaluable for the successful design of reforms and holds enormous global potential to learn from different political strategies for steering change, even though diverse traditions, power configurations, resources and cultures necessarily make each transformation process unique. The BTI measures and compares transition processes in 137 transformation countries with data collected between 2019 and 2021, and establishes their global rating based on detailed country reports. Now in its tenth edition, it offers the opportunity to understand long-term trends and global developments through the analysis of time-series data. The spotlight on current developments is thus complemented by almost two decades of data that captures the most varied transformation processes and puts into perspective recent progress and setbacks on the way to democracy and a market economy.

**Transformation Index BTI 2020** Bertelsmann Stiftung 2020-08-24 Wie gelingt der Wandel zu Demokratie und Marktwirtschaft? Antworten auf diese Frage gibt zum neunten Mal in Folge der "Transformation Index BTI 2020" der Bertelsmann Stiftung. Damit liegt erneut eine globale Analyse mit selbsterhobenen Daten zur Qualität von Demokratie, Marktwirtschaft und Regierungsführung in Entwicklungs- und Transformationsländern vor. Diese vergleichende Untersuchung ermöglicht es, aus verschiedenen politischen Strategien zur Steuerung des Wandels zu lernen, auch wenn unterschiedliche Traditionen, Machtkonfigurationen, Ressourcen und Kulturen jeden Transformationsprozess einzigartig machen. Der BTI misst und vergleicht alle zwei Jahre den Entwicklungsstand in 137 Transformationsländern auf der Grundlage detaillierter Länderberichte. Als international vergleichender Index gibt er damit außen- und entwicklungspolitischen Akteuren, Wissenschaft und Medien sowie Reformern vor Ort wichtige Anhaltspunkte. Die Ausgabe 2020 fasst globale wie auch regionale Erfolge und Rückschläge auf dem Weg zu rechtsstaatlicher Demokratie und sozialpolitisch flankierter Marktwirtschaft in der Zeit zwischen 2017 und 2019 zusammen.
