Jewish and Christian Women in the Ancient Mediterranean Sara Parks 2021-12-30 This engaging and accessible textbook provides an introduction to the study of ancient Jewish and Christian women in their Hellenistic and Roman contexts. This is the first textbook dedicated to introducing women’s religious roles in Judaism and Christianity in a way that is accessible to undergraduates from all disciplines. The textbook provides brief, contextualising overviews that then allow for deeper explorations of specific topics in women’s religion, including leadership, domestic ritual, women as readers and writers of scripture, and as innovators in their traditions. Using select examples from ancient sources, the textbook provides teachers and students with the raw tools to begin their own exploration of ancient religion. An introductory chapter provides an outline of common hermeneutics or "lenses" through which scholars approach the texts and artefacts of Judaism and Christianity in antiquity. The textbook also features a glossary of key terms, a list of further readings and discussion questions for each topic, and activities for classroom use. In short, the book is designed to be a complete, classroom-ready toolbox for teachers who may have never taught this subject as well as for those already familiar with it. Jewish and Christian Women in the Ancient Mediterranean is intended for use in undergraduate classrooms, its target audience undergraduate students and their instructors, although Masters students may also find the book useful. In addition, the book is accessible and lively enough that religious communities’ study groups and interested laypersons could employ the book for their own education.

*Lakeport’s Ancient Homes* John Aldrich 1917 "[Lakeport] was settled by Abraham Folsom about 1766 and originally called Folsom's Mills; thereafter from 1825, Batchelder's Mills, until about 1830 it began to be called Lake Village, which name it retained until 1891 when the name was changed to Lakeport. The village became a part (Ward 6) of the city of Laconia on its incorporation in 1893 but still keeps the name of lakeport for all local purposes ..."--Introduction, pg. 7.

*Simple Shelters* Jonathan Horning 2009-11-03 A brief introduction to the construction and history of basic shelters. Shelter is one of our most basic needs, and throughout history mankind has been highly inventive in meeting it. Simple Shelters introduces the principal types of wooden and stick-frame structures built around the world, examining how their shape and form reflect cultural and cosmological considerations as well as climatic and utilitarian needs. Charting the gradual shift from the circular homes of the nomads to the rectangular ones favored by settled people, Jonathan Horning explores materials and construction principles over millennia, including the geodesic experiments of the twentieth century.

**The Ancient Secret of the Flower of Life, Volume 2** Drunvalo Melchizedek 2012-04-27 The sacred Flower of Life pattern, the primary geometric generator of all physical form, is explored in even more depth in this volume, the second half of the famed Flower of Life workshop. The proportions of the human body, the nuances of human consciousness, the sizes and distances of the stars, planets and moons, even the creations of humankind, are all shown to reflect their origins in this beautiful and divine image. Through an intricate and detailed geometrical mapping, Drunvalo Melchizedek shows how the seemingly simple design of the Flower of Life contains the genesis of our entire third-dimensional existence. From the pyramids and mysteries of Egypt to the new race of Indigo children, Drunvalo presents the sacred geometries of the reality and the subtle energies that shape our world. We are led through a divinely inspired labyrinth of science, stories, logic, and coincidence on a path of remembering where we come from and the wonder and magic of who we are. Finally, for the first time in print, Drunvalo shares the instructions for the Mer-Ka-Ba meditation--step-by-step techniques for the re-creation of the energy field of the evolved human--which is the key to ascension and the next dimensional world. If done from love, this ancient process of breathing prana opens up for us a world of tantalizing possibility in this dimension, from protective powers to the healing of oneself, of others, and even of the planet. You may discover a memory or a fleeting reflection of yourself in the following topics: - The Unfolding of the Third Informational System: the circles and squares of human consciousness, Leonardo da Vinci's true understanding of the Flower of Life, and exploring the rooms of the great pyramid - Whispers From Our Ancient Heritage: the initiations of Egypt, the mysteries of resurrection, interdimensional conception, ancient mystery schools, Egyptian tantra, and sexual energy and the orgasm - Unveiling the Mer-Ka-Ba Meditation: chakras and the human energy system, energy fields around the body, the seventeen breaths of the Mer-Ka-Ba meditation, and the sacred geometry of the human lightbody.

The Ancient Secret of the Flower of Life  Drunvalo Melchizedek 1999-04 Here, Drunvalo Melchizedek presents in text and graphics the first half of the Flower of Life workshop, illuminating the mysteries of how we came to be, why the world is the way it is and the subtle energies that allow our awareness to blossom into its true beauty. Sacred Geometry is the form beneath our being and points to a divine order in our reality. We can follow that order from the invisible atom to the infinite stars, finding ourselves at each step. The information here is one path, but between the lines and drawings lie the feminine gems of intuitive understanding. You may see them sparkle around some of these provocative ideas: Explore the miracle of our existence by meandering through the wonderland of geometry, science, ancient history and new discovery, seen through the widened vision of Drunvalo and the Flower of Life.

Some Ancient English Homes and Their Associations, Personal, Archæological & Historic ... Elizabeth Hodges 1895 The plan adopted has been to sketch briefly the history of each house through its various owners, from Saxon times onward; giving, by means of anecdotes, extracts from contemporary letters and records, glimpses of the family and social life of those early days. The first five "Homes" were, during some of the most eventful years of their history, possessed by the noble families of Berkeley and Fitzhardinge.--Preface

The Inner Lives of Ancient Houses J. A. Baird 2014-08-28 Dura-Europos, on the Syrian Euphrates, is one of the best preserved and most extensively excavated sites of the Roman world. A Hellenistic foundation later held by the Parthians and then the Romans, Dura had a Roman military garrison installed within its city walls before it was taken by the Sasanians in the mid-third century. The Inner Lives of Ancient Houses is the first study to consider the houses of the site as a whole. The houses were excavated by a team from Yale and the French Academy of Inscriptions and Letters in the 1920s and 30s, and though a wealth of archaeological and textual material was recovered, most of that relating to housing was never published. Through a combination of archival information held at the Yale University Art Gallery and new fieldwork with the Mission Franco-Syrienne d'Europos-Doura, this study re-evaluates the houses of the site, integrating architecture, artefacts, and textual evidence, and examining ancient daily life and cultural interaction, as well as considering houses which were modified for use by the Roman military.

The history of the ancient palace and late houses of parliament at Westminster, by E.W. Brayley and J. Britton Edward Wedlake Brayley 1836

Housing in the Ancient Mediterranean World J. A. Baird 2022-05-31 One of the greatest benefits of studying the ancient Greek and Roman past is the ability to utilise different forms of evidence, in particular both written and archaeological sources. The contributors to this volume employ this evidence to examine ancient housing, and what might be learned of identities, families, and societies, but they also use it as a methodological locus from which to interrogate the complex relationship between different types of sources. Chapters range from the recreation of the house as it was conceived in Homeric poetry, to the decipherment of a painted Greek lekythos to build up a picture of household activities, to the conjuring of the sensorial experience of a house in Pompeii. Together, they present a rich tapestry which demonstrates what can be gained for our understanding of ancient housing from examining the interplay between the words of ancient texts and the walls of archaeological evidence.
