The Phoenix Joseph Nigg 2016-11-04 An “insightful cultural history of the mythical, self-immolating bird” from Ancient Egypt to contemporary pop culture by the author of *The Book of Gryphons* (Library Journal). The phoenix, which rises again and again from its own ashes, has been a symbol of resilience and renewal for thousands of years. But how did this mythical bird come to play a part in cultures around the world and throughout human history? Here, mythologist Joseph Nigg presents a comprehensive biography of this legendary creature. Beginning in ancient Egypt, Nigg’s sweeping narrative discusses the many myths and representations of the phoenix, including legends of the Chinese, where it was considered a sacred creature that presided over China’s destiny; classical Greece and Rome, where it appears in the writings of Herodotus and Ovid; medieval Christianity, in which it came to embody the resurrection; and in Europe during the Renaissance, when it was a popular emblem of royals. Nigg examines the various phoenix traditions, the beliefs and tales associated with them, their symbolic and metaphoric use, and their appearance in religion, bestiaries, and even contemporary popular culture, in which the ageless bird of renewal is employed as a mascot and logo. “An exceptional work of scholarship.”—Publishers Weekly

When raised to the level of art, seduction, an indirect and subtle form of power, has toppled empires, won elections and enslaved great minds. In this beautiful, sensually designed book, Greene unearths the two sides of seduction: the characters and the process. Discover who you, or your pursuer, most resembles. Learn, too, the pitfalls of the anti-Seducer. Immerse yourself in the twenty-four manoeuvres and strategies of the seductive process, the ritual by which a seducer gains mastery over their target. Each fascinating character and each cunning tactic demonstrates a fundamental truth about who we are, and the targets we've become - or hope to win over. The Art of Seduction is an indispensable primer on the essence of one of history's greatest weapons and the ultimate power trip. Dieter Rams: As Little Design as Possible Sophie Lovell 2011-06-22 " "Indifference towards people and the reality in which they live is actually the one and only cardinal sin in design" - Dieter Rams. Dieter Rams' life and work are indelibly linked to his thoughts about how people live, and how they can live better. Products he designed in the 1960s are still being produced and sold today - only one

demonstration of the strength of his work. This comprehensive monograph covers both Rams' life and his work, as well as his ideas on good design, which continue to inspire designers and consumers today. A personal foreword by Jonathan Ive evokes the influence that Rams has had on his own work and, by extension, the objects with which so many of us share our everyday lives. An introduction and an essay by Klaus Kemp tell the story of Rams' early life, his training as an architect, and the intellectual context in which his ideas were developed. The next four chapters examine Rams' work and his life – which are more or less synonymous – in depth. This includes his role at Braun as well as the work he did for the furniture company Vitsoe. Each chapter includes sketches, prototypes, finished products and the marketing for those products, giving a complete picture of Rams' work and its context. Two other chapters in this section present Rams' own house, the only work of architecture that he completed, and examine the products he designed at the level of detail, a crucial aspect to his work. A further chapter examines Rams' "ten commandments" of good design and his credo, "less but better", in the context of his role as head of design at Braun, and a final chapter explores his legacy in the work of contemporary designers including Naoto Fukasawa, Jonathan Ive, Sam Hecht, and Konstantin Grcic. This beautifully designed book includes a wide variety of visual material, including sketches and technical drawings, photographs of Rams' work as well as his life, archival material from both Braun and Vitsoe, Ingeborg Rams' subtle photographs and Vitsoe's playful graphic design and advertising. This book will appeal not only to fans of Dieter Rams' work, but to everyone drawn to the message behind his "ten commandments" of good design – which are really ideas about how we can all live better and more sustainable lives. The Rules of Art Pierre Bourdieu 1996 Written with verve and intensity (and a good bit of wordplay), this is the long-awaited study of Flaubert and the modern literary field that constitutes the definitive work on the sociology of art by one of the world's leading social theorists. Drawing upon the history of literature and art from the mid-nineteenth century to the present, Bourdieu develops an original theory of art conceived as an autonomous value. He argues powerfully against those who refuse to acknowledge the interconnection between art and the structures of social relations within which it is produced and received. As Bourdieu shows, art's new autonomy is one such structure, which complicates but does not eliminate the interconnection. The literary universe as we know it today took shape in the nineteenth century as a space set apart from the approved academies of the state. No one could any longer dictate what ought to be written or decree the canons of good taste. Recognition and consecration were produced in and through the struggle in which writers, critics, and publishers confronted one another.

Songs in the Key of Z Irwin Chusid 2000 Outsider musicians can be the product of damaged DNA, alien abduction, drug fry, demonic possession, or simply sheer obliviousness. This book profiles dozens of outsider musicians, both prominent and obscure—figures such as The Shaggs, Syd Barrett, Tiny Tim, Jandek, Captain Beefheart, Daniel Johnston, Harry Partch, and The Legendary Stardust Cowboy—and presents their strange life stories along with photographs, interviews, cartoons, and discographies. About the only things these self-taught artists have in common are an utter lack of conventional tunefulness and an overabundance of earnestness and passion. But, believe it or not, they're worth listening to, often outmatching all contenders for inventiveness and originality. A CD featuring songs by artists profiled in the book is also available.

Sanctuary Steve McCurry 2005-09-01 Beautiful and evocative colour photographs of the temples of Angkor, Cambodia. The globally acclaimed Magnum photographer Steve McCurry has beautifully and evocatively photographed the temples of Angkor in Cambodia, which rank amongst the world's most impressive monuments. Over one hundred of his images of the site are collected in this stunning book, which documents a magical world of carved gods, weathered masonry, tangled vegetation and orange-robed monks. Angkor was the capital of the Khmer rulers from the end of the ninth century to the mid-fifteenth. Each built a state temple at the capital surrounded by walls, moats and embankments which were laid out in accordance to cosmological precepts. Designated a World Heritage site by UNESCO, the temples attract tourists, archaeologists and art historians, as well as remaining a pilgrimage destination for Buddhist monks. McCurry first visited Angkor on an assignment for National Geographic magazine, for whom he has taken famous photographs all over the world. He has made many return visits, capturing overall a sublime portrait of the buildings, sculpture and people of Angkor. The winner of numerous honors, including first prize in the World Press awards and the Robert Capa Gold Medal, McCurry has previously published *Portraits* and *South Southeast* (both with Phaidon). The photographs are accompanied by an informative introduction on the history and meaning of Angkor by John Guy, a leading authority on the cultural history of Southeast Asia. Guy is Curator of Indian and Southeast Asian sculpture at the Victoria and Albert Museum in London, and Consultant to UNESCO on historical monuments in Southeast Asia.

Ancient Mosaic Pavements Rāḥēl Ḥaḳlīlī 2009 This publication is engaged in issues, trends, and themes depicted on mosaic pavements discovered in Israel, the Gaza Strip and Petra (the provinces of ancient Palaestina Prima, Secunda and Tertia) with comparable floors in Jordan (Arabia). The majority of the mosaic pavements discussed in this study are dated to the 4th-8th centuries CE. Mosaic pavements were the normal medium for decorating the floors of synagogues, churches, monasteries, and chapels, as well as public and private buildings. Inscriptions found on many of the pavements commemorate the donors, refer to the artists, and sometimes date the mosaics. The ornamentation of the mosaics in this region is remarkable, rich, and varied in its themes and provides many insights into the contemporary artistic and social cultures.

Ancient Mesopotamia A. Leo Oppenheim 2013-01-31 "This splendid work of scholarship . . . sums up with economy and power all that the written record so far deciphered has to tell about the ancient and complementary civilizations of Babylon and Assyria."—Edward B. Garside, *New York Times Book Review* Ancient Mesopotamia—the area now called Iraq—has received less attention than ancient Egypt and other long-extinct and more spectacular civilizations. But numerous small clay tablets buried in the desert soil for thousands of years make it possible for us to know more about the people of ancient Mesopotamia than any other land in the early Near East. Professor Oppenheim, who studied these tablets for more than thirty years, used his intimate knowledge of long-dead languages to put together a distinctively personal picture of the Mesopotamians of some three thousand years ago. Following Oppenheim's death, Erica Reiner used the author's outline to complete the revisions he had begun. "To any serious student of Mesopotamian civilization, this is one of the most valuable books ever written."—Leonard Cottrell, *Book Week* "Leo Oppenheim has made a bold, brave, pioneering attempt to present a synthesis of the vast mass of philological and archaeological data that have accumulated over the past hundred years in the field of Assyriological research."—Samuel Noah Kramer, *Archaeology* A. Leo Oppenheim, one of the most distinguished Assyriologists of our time, was editor in charge of the *Assyrian Dictionary of the Oriental Institute* and John A. Wilson Professor of Oriental Studies at the University of Chicago.

The Drawings of Philip Guston Magdalena Dabrowski 1988 "This book ... [shows] how the artist worked out his developing ideas primarily through drawing. Included are examples of work from his early years, such as the preparatory drawings he made as a muralist for the WPA in the 1930s, in addition to the increasingly abstract work of the 1940s and 1950s, and the sequence of pictorial experiments that led to his reintroduction of the figure in the late 1960s. Also reproduced, in color, are a number of painterly gouaches and a series of acrylics"--Back cover.
