Economics and Morality Katherine E. Browne 2008-09-19 In Economics and Morality, the authors seek to illuminate the multiple kinds of analyses relating morality and economic behavior in particular kinds of economic systems. The chapters explore economic systems from a variety of diverse indigenous and capitalist societies, focusing on moral challenges in non-Western economic systems undergoing profound change, grassroots movements and moral claims in the context of capitalism, and morality-based movements taking place within corporate and state institutions. The anthropological insights of each chapter provide the value of firsthand fieldwork and ethnographic investigation, as well as the tradition of critically studying non-Western and Western societies. Because the moral challenges in a given capitalist society can no longer be effectively addressed without considering the interaction and influences of different societies in the global system, the international ethnographic research in this book can help document and make sense of the changes sweeping our planet.

Trailblazers Empowerdex (Firm) 2007 The authors, who represent Empowerdex (Economic

Empowerment Rating Agency), have interviewed many of the top black leaders, executives and managers, for rare insight into their lives and achievements. Where did they get their first jobs? What personal philosophies motivate them? Trailblazers is focused on the recent history of black business in South Africa and the secrets of the pioneers who made it, while also giving indications for further changes stemming from research and politics. The personal vision of those currently in power will shape the future of business, and the authors trust that their research and debate will inspire more young business people, whose talents are so badly needed to increase South Africa's prosperity. Empowerdex has identified the need for a new breed of business leadership in South Africa, one more involved with day-to-day decision-making. The authors discuss the context Black Economic Empowerment (BEE) has created for powerful black business people, and give voice to the pioneers who can offer advice and vision to inspire younger aspiring executives. Their research shows the relationship between politics, business and the South African economy, as well as the facts and figures behind these powerful people and their companies. Trailblazers offers insight and knowledge of the current business environment and its potential.

Introstat Les Underhill 1996-12-31 An introduction to applied statistics, this text assumes a basic understanding of differentiation and integration.

A Thesaurus of English Word Roots Horace Gerald Danner 2014-03-27 Horace G. Danner's A Thesaurus of English Word Roots is a compendium of the most-used word roots of the English language. As Timothy B. Noone notes in his foreword: "Dr. Danner's book allows you not only to build up your passive English vocabulary, resulting in word recognition knowledge, but also gives you the rudiments for developing your active English vocabulary, making it possible to infer the meaning of words with which you are not yet acquainted. Your knowledge can now expand and will do so exponentially as your awareness of the roots in English words and your corresponding ability to decode unfamiliar words grows apace. This is the beginning of a fine mental linguistic library: so enjoy!" In A Thesaurus of English Word Roots, all word roots are listed alphabetically, along with the Greek or Latin words from which they derive, together with the roots' original meanings. If the current meaning of an individual root differs from the original meaning, that is listed in a separate column. In the examples column, the words which contain the root are then listed, starting with their prefixes, for example, dysacusia, hyperacusia. These root-starting terms then are followed by terms where the root falls behind the word, e.g., acouesthesia and acoumeter. These words are followed by words where the root falls in the middle or the end, as in such terms as bradyacusia and odyacusis.. In this manner, A Thesaurus of English Word Roots places the word in as many word families as there are elements in the word. This work will interest linguists and philologists and anyone interested in the etymological aspects of English language.

In Good Company Dinah Rajak 2011-11-09 Under the banner of corporate social responsibility (CSR), corporations have become increasingly important players in international development. These days, CSR's union of economics and ethics is virtually unquestioned as an antidote to harsh neoliberal reforms and the delinquency of the state, but nothing is straightforward about this apparently win-win formula. Chronicling transnational mining corporation Anglo American's pursuit of CSR, *In Good Company* explores what lies behind the movement's marriage of moral imperative and market discipline. From the company's global headquarters to its mineshafts in South Africa, Rajak reveals how CSR enables the corporation to accumulate and exercise power. Interested in CSR's vision of social improvement, Rajak highlights the dependency that the practice generates. This close examination of Africa's largest private sector employer not only brings critical attention to the dangers of corporate dominance, but also provides a lens through which to reflect on the wider global CSR movement.

Ethnicity, Inc. John L. Comaroff 2009-09-15 In *Ethnicity, Inc.* anthropologists John L. and Jean Comaroff analyze a new moment in the history of human identity: its rampant commodification. Through a wide-ranging exploration of the changing relationship between culture and the market, they address a pressing question: Wherein lies the future of ethnicity? Their account begins in South Africa, with the incorporation of an ethno-business in venture capital by a group of traditional African chiefs. But their horizons are global: Native American casinos; Scotland's efforts to brand itself; a Zulu ethno-theme park named Shakaland; a world religion declared to be intellectual property; a chiefdom made into a global business by means of its platinum holdings; San "Bushmen" with patent rights potentially worth millions of dollars; nations acting as commercial enterprises; and the rapid growth of marketing firms that target specific ethnic populations are just some of the diverse examples that fall under the Comaroffs' incisive scrutiny. These phenomena range from the disturbing through the intriguing to the absurd. Through them, the Comaroffs trace the contradictory effects of neoliberalism as it transforms identities and social being across the globe. *Ethnicity, Inc.* is a penetrating account of the ways in which ethnic populations are remaking themselves in the image of the corporation—while corporations coopt ethnic practices to open up new markets and regimes of consumption. Intellectually rigorous but leavened with wit, this is a powerful, highly original portrayal of a new world being born in a tectonic collision of culture, capitalism, and identity.

The African Film Industry UNESCO 2021-10-01 The production and distribution of film and audiovisual works is one of the most dynamic growth sectors in the world. Thanks to digital technologies, production has been growing rapidly in Africa in recent years. For the first time, a complete mapping of the film and audiovisual industry in 54 States of the African continent is available, including quantitative and qualitative data and an analysis of their strengths and weaknesses at the continental and regional levels. The report proposes strategic recommendations for the development of the film and audiovisual sectors in Africa and invites policymakers, professional organizations, firms, filmmakers and artists to implement them in a concerted manner.

At Home in Exile Helga M Griffin 2021-02-16 This is a story of a girl's construction of her identity, and of her family's search for a place in the world, for the Heimat that is so resonant for those of German background. We follow Helga through an adventurous childhood in Iran, whose vast open spaces her mother called 'my spiritual home'. Her engineer father worked on a grand scale, designing and laying roads and railways, and tunnelling through mountain ranges. Then came the invasions of World War II, and the family, half-German, half-Austrian, found themselves on a long voyage to Australia, designated enemy aliens. They were interned for nearly five years in the dusty Victorian countryside. On their release at the end of the War, stranded in Melbourne, they sought another home. The children were dispatched to convents, and at the Academy of Mary Immaculate, Helga found a temporary homeland, in faith. Everyday life in the Australia of the late 1940s and early 1950s is freshly seen by this feisty, loving migrant family. Through their eyes, we encounter a strange place, Australia, as if for the first time. Helga's development from a thoughtful, sensitive child to a self-possessed young woman, wrestling with her faith and with how to live a decent life, is vividly recounted.
