Papillon Henri Charriere 2012-05-29 "A modern classic of courage and excitement." –The New Yorker • The source for the iconic prison-escape film starring Steve McQueen Henri Charrière, nicknamed "Papillon," for the butterfly tattoo on his chest, was convicted in Paris in 1931 of a murder he did not commit. Sentenced to life imprisonment in the penal colony of French Guiana, he became obsessed with one goal: escape. After planning and executing a series of treacherous yet failed attempts over many years, he was eventually sent to the notorious prison, Devil's Island, a place from which no one had ever escaped . . . until Papillon. His flight to freedom remains one of the most incredible feats of human cunning, will, and endurance ever undertaken. Charrière's astonishing autobiography, *Papillon*, was first published in France to instant acclaim in 1968, more than twenty years after his final escape. Since then, it has become a treasured classic--the gripping, shocking, ultimately uplifting odyssey of an innocent man who would not be defeated. The Fourth Industrial Revolution Klaus Schwab 2017-01-03 World-renowned economist Klaus Schwab, Founder and Executive Chairman of the World Economic Forum, explains that we have an opportunity to shape the fourth industrial revolution, which will fundamentally alter how we live and work. Schwab argues that this revolution is different in scale, scope and complexity from any that have come before. Characterized by a range of new technologies that are fusing the physical, digital and biological worlds, the developments are affecting all disciplines, economies, industries and governments, and even challenging ideas about what it means to be human. Artificial intelligence is already all around us, from supercomputers, drones and virtual assistants to 3D printing, DNA sequencing, smart thermostats, wearable sensors and microchips smaller than a grain of sand. But this is just the beginning: nanomaterials 200 times stronger than steel and a million times thinner than a strand of hair and the first transplant of a 3D printed liver are already in development. Imagine "smart factories" in which global systems of manufacturing are coordinated virtually, or implantable mobile phones made of biosynthetic materials. The fourth industrial revolution, says Schwab, is more significant, and its ramifications more profound, than in any prior period of human history. He outlines the key technologies driving this revolution and discusses the major impacts expected on government, business, civil society and individuals. Schwab also offers bold ideas on how to harness these changes and shape a better future—one in which technology empowers people rather than replaces them; progress serves society rather than disrupts it; and in which innovators respect moral and ethical boundaries rather than cross them. We all have the opportunity to contribute to developing new frameworks that advance progress.

Kushiel's Dart Jacqueline Carey 2002-03-15 A nation born of angels, vast and intricate and surrounded by danger... a woman born to servitude, unknowingly given access to the secrets of the realm... Born with a scarlet mote in her left eye, Phédre nó Delaunay is sold into indentured servitude as a child. When her bond is purchased by an enigmatic nobleman, she is trained in history, theology, politics, foreign languages, the arts of pleasure. And above all, the ability to observe, remember, and analyze. Exquisite courtesan, talented spy... and unlikely heroine. But when Phédre stumbles upon a plot that threatens her homeland, Terre d'Ange, she has no choice. Betrayed into captivity in the barbarous northland of Skaldia and accompanied only by a disdainful young warrior-priest, Phédre makes a harrowing escape and an even more harrowing journey to return to her people and deliver a warning of the impending invasion. And that proves only the first step in a quest that will take her to the edge of despair and beyond. Phédre nó Delaunay is the woman who holds the keys to her realm's deadly secrets, and whose courage will decide the very future of her world. Not since Dune has there been an epic on the scale of Kushiel's Dart—a massive tale about the violent death of an old age and the birth of a new. It is a novel of grandeur, luxuriance, sacrifice, betrayal, and deeply laid conspiracies. A world of cunning poets, deadly courtiers, deposed rulers and a besieged Queen, a warrior-priest, the Prince of Travelers, barbarian warlords, heroic traitors, and a truly Machiavellian villainess... all seen through the unflinching eyes of an unforgettable heroine.
