The Man Who Invented Fidel Anthony DePalma 2007-05-01 In 1957, Herbert L. Matthews of the New York Times, then considered one of the premiere foreign correspondents of his time, tracked down Fidel Castro in Cuba's Sierra Maestra mountains and returned with what was considered the scoop of the century. His heroic portrayal of Castro, who was then believed dead, had a powerful effect on American perceptions of Cuba, both in and out of the government, and profoundly influenced the fall of the Batista regime. When Castro emerged as a Soviet-backed dictator, Matthews became a scapegoat; his paper turned on him, his career foundered, and he was accused of betraying his country. In this fascinating book, New York Times

reporter DePalma investigates the Matthews case to reveal how it contains the story not just of one newspaperman but of an age, not just how Castro came to power but how America determines who its enemies are. He re-creates the atmosphere of revolutionary Cuba and Cold War America, and clarifies the facts of Castro's ascension and political evolution from the many myths that have sprung up around them. Through a dramatic, ironic, in ways tragic story, *The Man Who Invented Fidel* offers provocative insights into Cuban politics, the Cuban-American relationship, and the many difficult balancing acts of responsible journalism.

The Secret Doctrine of the Rosicrucians Magus Incognito 2010-01-01 The Secret Doctrine of the

Rosicrucians is one of the many titles attributed to William Walker Atkinson writing under a pseudonym. The book presents the history and background of the Rosicrucians, a mystical brotherhood which uses Christian symbology to communicate otherworldly ideas and meanings. Atkinson, writing as Magnus Incognito, supplies a guide to the beliefs and teachings of the brotherhood, including how to ascend to higher planes, sexual satisfaction as spiritual enlightenment, and the meaning behind auras. Interestingly, much of the Rosicrucians is taken verbatim from another Atkinson work *The Arcane Teachings*. MAGNUS INCOGNITO is an alias and pen name of American writer WILLIAM WALKER ATKINSON (1862-1932). He only used the pseudonym once, obviously wishing to emphasize the writer's anonymity. Atkinson was editor of the popular magazine *New Thought* from 1901 to 1905, and editor of the journal *Advanced Thought* from 1916 to 1919. He authored dozens of *New Thought* books under numerous pseudonyms, including "Yogi," some of which are likely still unknown today.

the gatekeepers of traditional high culture, the rise of young ambitious outsiders has indeed seemed like nothing short of a barbarian invasion. In this concise and powerful manifesto, Alessandro Baricco explores a handful of realms that have been "plundered"-wine, soccer, music, and books-and extrapolates that it is not a case of old values against new but a widespread mutation that we are all part of, leading toward a different way of having experiences and creating meaning.

The Travail of Religious Liberty Roland H. Bainton 2008-09-01 The pages of history are filled with stories of men and women burned at the stake, exiled, and ostracized in the name of religion. Thus Roland Bainton explains the struggle within the Christian Church to achieve religious liberty by telling, in popular biographical style, nine stories of sincere people--both persecutors and persecuted--who took part in the struggle. Bainton's biographies begin with Thomas of Torquemada, instrument of the Roman Catholic Inquisition, and with John Calvin who active in the burning of Michael Servetus. He then covers how such persecution brought about the toleration controversy of the sixteenth century, when S^tbastian Castellio struck his blow for religious liberty, when Hollander David Joris made a mystical approach to tolerance, and when Franciscan Bernardino Ochino believed in the cultivation of the inner life. Finally he concentrates on the champions of religious liberty in the 17th Century: John Milton, Roger Williams and John Locke.
