The Angel Maker Stefan Brijs 2008-12-30 A literary page-turner about one man's macabre ambition to create life-and secure immortality The village of Wolfheim is a quiet little place until the geneticist Dr. Victor Hoppe returns after an absence of nearly twenty years. The doctor brings with him his infant children-three identical boys all sharing a disturbing disfigurement. He keeps them hidden away until Charlotte, the woman who is hired to care for them, begins to suspect that the triplets-and the good doctor- aren't quite what they seem. As the villagers become increasingly suspicious, the story of Dr. Hoppe's past begins to unfold, and the shocking secrets that he has been keeping are revealed. A chilling story that explores the ethical limits of science and religion, *The Angel Maker* is a haunting tale in the tradition of *The Strange Case of Dr. Jekyll and Mr. Hyde* and *Frankenstein*. Brought to life by internationally bestselling author Stefan Brijs, this eerie tale promises to get under readers' skin.

User's Guide for the Structured Clinical Interview for Dsm-5 Personality Disorders (Scid-5-Pd) Michael B. First 2015-09-15 The Structured Clinical Interview for DSM-5 Personality Disorders (SCID-5-PD) is a semistructured diagnostic interview for clinicians and researchers to assess the 10 DSM-5 Personality Disorders across Clusters A, B, and C as well as Other Specified Personality Disorder. Designed to build rapport, the SCID-5-PD can be used to make personality disorder diagnoses, either categorically (present or absent) or dimensionally. The SCID-5-PD includes the indispensable User's Guide for the SCID-5-PD, as well as a handy self-report screening questionnaire for patients or subjects, the Structured Clinical Interview for DSM-5® Screening Personality Questionnaire (SCID-5-SPQ). The SCID-5-PD is the updated version of the former Structured Clinical Interview for DSM-IV Axis II Personality Disorders (SCID-II). The SCID-5-PD name reflects the elimination of the multiaxial system in DSM-5. Although the DSM-IV Personality Disorder criteria are unchanged in DSM-5, the SCID-5-PD interview questions have been thoroughly reviewed and revised to optimally capture the construct embodied in the diagnostic criteria. In addition, a dimensional scoring component has been added to the SCID-5-PD. The basic structure of the SCID-5-PD is similar to the other SCID-5 interviews (such as the Research Version, SCID-5-RV; and the Clinician Version, SCID-5-CV) that cover non-personality DSM-5 disorders. Features include the following: * Questions assessing the DSM-5 criteria for each of the 10 personality disorders: Avoidant Personality Disorder, Dependent Personality Disorder, Obsessive-Compulsive Personality Disorder, Paranoid Personality Disorder, Schizotypal Personality Disorder, Schizoid Personality Disorder, Histrionic Personality Disorder, Narcissistic Personality Disorder, and Antisocial Personality Disorder.* A User's Guide for the SCID-5-PD containing essential guidance for use of the SCID-5-PD, including an appendix of a completed SCID-5-PD and SCID-5-SPQ for a sample patient.* An optional SCID-5-SPQ that serves as a brief, 20-minute self-report screening tool to reduce

the time of the SCID-5-PD clinical interview. The SCID-5-SPQ requires an eighth grade or higher reading level (as determined by the Flesch-Kincaid formula). Its 106 questions correspond directly to each first question in the full SCID-5-PD. The SCID-5-PD can be used in various types of research studies, just as the SCID-II. It has been used to investigate patterns of Personality Disorders co-occurring with other mental disorders or medical conditions; select a group of study subjects with a particular Personality Disorder; investigate the underlying structure of personality pathology; and compare with other assessment methods for Personality Disorders. The SCID-5-PD will serve as a valuable resource to help clinicians and researchers more accurately diagnose Personality Disorders.

The Origin and Evolution of Eukaryotes Patrick J. Keeling 2014 All protists, fungi, animals, and plants on Earth are eukaryotes. Their cells possess membrane-bound organelles including a nucleus and mitochondria, distinct cytoskeletal features, and a unique chromosome structure that permits them to undergo mitosis or meiosis. The emergence of eukaryotic cells from prokaryotic ancestors about 2 billion years ago was a pivotal evolutionary transition in the history of life on Earth. But the change was abrupt, and few clues exist as to the nature of the intermediate stages. Written and edited by experts in the field, this collection from Cold Spring Harbor Perspectives in Biology examines evolutionary scenarios that likely led to the emergence and rapid evolution of eukaryotes. Contributors review the mechanisms, timing, and consequences of endosymbiosis, as well as molecular and biochemical characteristics of archaea and bacteria that may have contributed to the first eukaryotic lineage. They explore all of the available evidence, including clues from the fossil record and comparative genomics, and formulate ideas about the origin of genomic characteristics (e.g., chromatin and introns) and specific cellular features (e.g., the endomembrane system) in eukaryotes. Topics such as the origins of multicellularity and sex are also covered. This volume includes discussion of multiple evolutionary models that warrant serious attention, as well as lively debate on some of the most contentious topics in the field. It will thus be fascinating reading for evolutionary biologists, cell and molecular biologists, paleobiologists, and all who are interested in the history of life on Earth.

Summer House with Swimming Pool Herman Koch 2014-06-25 When a medical procedure goes horribly wrong and famous actor Ralph Meier winds up dead, Dr Marc Schlosser needs to come up with some answers. After all, reputation is everything in this business. Personally, he's not exactly upset that Ralph is gone, but as a high profile doctor to the stars, Marc can't hide from the truth forever. It all started the previous summer. Marc, his wife, and their two beautiful teenage daughters agreed to spend a week at the Meier's extravagant summer home on the Mediterranean. Joined by Ralph and his striking wife Judith, her mother, film director Stanley Forbes and his much younger girlfriend, the large group

settles in for days of sunshine, wine tasting, and trips to the beach. But when a violent incident disrupts the idyll, darker motivations are revealed, and suddenly no one can be trusted. As the ultimate holiday soon turns into a nightmare, the circumstances surrounding Ralph's (later) death begin to reveal the disturbing reality behind that summer's tragedy. Featuring the razor-sharp humour and acute psychological insight that made *The Dinner* an international phenomenon, *Summer House with Swimming Pool* is a controversial, thought-provoking novel that showcases Herman Koch at his finest. Herman Koch was born in 1953. He is a successful actor, screenwriter and columnist in the Netherlands, and has written a number of satirical novels, including *The Dinner* (2011) which became an international bestseller. *The Dinner* was adapted for stage and screen in the Netherlands. An English-language film adaptation starring Richard Gere, Steve Coogan, Laura Linney and Chloë Sevigny is in production. 'Herman Koch has a knack for asking the right simple questions that threaten to completely unhinge who we are and what holds us together. As in his previous novel, *The Dinner*, you'll wonder how far you would go for your children, and again you'll wonder what you might be capable of once the rules have been broken. But *Summer House with Swimming Pool* is more assured and complete and immersive. Viciously funny, tense, and disturbing, this is one vacation you won't forget.' David Vann 'Summer House [with Swimming Pool] is a dark satire, scalpel-sharp and more cohesive than *The Dinner*, with a more complex unreliable narrator, a compelling structure, and a sutured but festering wound of themes.' *Weekend Australian* 'Even in translation from Dutch, there's no false note...The ending is tantalisingly ambiguous. What is clear is that Schlosser, with his scepticism and suspicion, has built his own dark universe. A world that is both disturbing and engrossing, to which we are granted a privileged view, from a merciful distance.' *Saturday Paper* 'This is a masterfully wrought, wickedly witty tale of sexual attraction, ambition, lewdness and deception...*Summer House with Swimming Pool* is an engrossing read written in a style that flows easily yet sneaks up to pack quite a punch.' 4.5 stars *Good Reading* 'Just as he did in his bestseller, *The Dinner* (2013), Dutch novelist Koch tells a sinister tale through the eyes of a questionable narrator...Koch's deft and nuanced exploration of gender, guilt, and vengeance make his second novel to be translated into English an absorbing read.' *Booklist* 'Another rich stew of language, character and cynicism from the author of *The Dinner*.' *Shelf Awareness*

Everyday Thoughts about Nature W.W. Cobern 2012-12-06 The primary goal of *Everyday Thoughts about Nature* is to understand how typical ninth-grade students and their science teachers think about Nature or the natural world, and how their thoughts are related to science. In pursuing this goal, the book raises a basic question about the purpose of science education for the public. Should science education seek to educate 'scientific thinkers' in the pattern of science teachers? Or, should science education seek to foster sound science learning within the matrices of various cultural perspectives? By carefully examining the ideas about Nature held by a group of students and their science teachers, Cobern argues that the purpose of science education for the public is 'to foster sound science learning within the matrices of various cultural perspectives'. Cobern's two books, *World View Theory and Science Education Research* and now *Everyday Thoughts about Nature*, provide complementary accounts of theoretical and empirical foundations for worldview theory in science education. While many graduate students and researchers have benefited from his earlier work, many more will continue to benefit from this book.

Identity Discourses about Spain and Catalonia in News Media Clara Juarez Miro 2019-11-22 News media are principal actors in the development of national identities: they have the ability to construct them, maintain them, or divide them. Identity Discourses about Spain and Catalonia in News Media explores the historical and contemporary role of journalism in the relationship between Catalonia and Spain. With more than seven million inhabitants, Catalonia is a region of Spain with historical economic strength and a unique culture. For centuries, but recently at an escalating pace, a large part of the Catalan population has expressed the desire to secede from Spain, constituting a prototypical case study for secessionism among developed countries. This book explains how news media have constructed Catalan and Spanish identities as different from one other, suggesting that journalism can play a crucial role in secessionist politics.
