Tow-Truck Pluck Annie M. G. Schmidt 2017-01-10 Pluck has a little red tow truck. He drives it all over town looking for a place to live. Then Dolly the pigeon tells him that the tower of the Pill Building is empty. In the Pill Building, Pluck meets Mr. Penn and Zaza the cockroach. Pluck makes lots more friends and solves all kinds of problems. But the biggest problem is Dove Grove. It used to be a garden with tall trees, but it has been neglected and gone wild. Grown-ups never go there, but the kids from the Pill Building love playing there. But now the Park Superintendent has decided to chop down the trees to make a paved square. Pluck and his friends try to save Dove Grove. But first he has to rescue Longmount from the canal.

**Experiences of Adults Following an Autism Diagnosis** Kristien Hens 2018-09-29 This book explores adult experiences of autism diagnosis. Focusing on the experiences of 21 interviewees, the structure of the book mirrors the seven stages undergone upon diagnosis, and raises important questions about modern society and the self, amidst this life-changing news. Analysing a broad range of empirical interview data including adults who had experiences of other diagnoses, and adults who seemed to function normally before their autism diagnosis, the authors use these stories to examine how autism diagnosis can be extremely important and helpful, but also generate a great deal of negativity. Illuminating a range of testimonies that have previously been kept in the shadows, this book will not only appeal to students and scholars of autism in adults, but also to practitioners as well as adults who have been diagnosed with autism.

Electrical Power System Essentials Pieter Schavemaker 2017-08-07 The electrical power supply is about to change; future generation will increasingly take place in and near local neighborhoods with diminishing reliance on distant power plants. The existing grid is not adapted for this purpose as it is largely a remnant from the 20th century. Can the grid be transformed into an intelligent and flexible grid that is future proof? This revised edition of Electrical Power System Essentials contains not only an accessible, broad and up-to-date overview of alternating current (AC) power systems, but also end-of-chapter exercises in every chapter, aiding readers in their understanding of the material introduced. With an original approach the book covers the generation of electric energy from thermal power plants as from renewable energy sources and treats the incorporation of power electronic devices and FACTS. Throughout there are examples and case studies that back up the theory or techniques presented. The authors set out information on mathematical modelling and equations in appendices rather than integrated in the main text. This unique approach distinguishes it from other text books on Electrical Power Systems and makes the resource highly accessible for undergraduate students and readers without a technical background directly related to power

**The Kaddu Wasswa Archive** Andrea Stultiens 2010 The Kaddu Wasswa archive by photographer Andrea Stultiens is the visual biography of Ugandan John Kaddu Wasswa, born in 1933, who played an important role in his community as a teacher and social worker. What is exceptional about the now 77-year old Kaddu Wasswa is that he has always documented his activities. He wrote novels, plays and essays, took photographs and collected photos. Additionally, his extensive archive contains letters and newspaper clippings, often with added commentary. Andrea Stultiens met Kaddu Wasswa in 2008 through his grandson, photographer Arthur C. Kisitu. Together, Stultiens and Kisitu set out to explore Kaddu Wasswa's archive. She took photographs of the documents to which she added her and Kisitu's own photos which were taken during their meetings. The result is a unique biography in which the author is personally visible as well. Exhibition: Nederlands Fotomuseum, Rotterdam (30.10.2010-2.01.2011).

Known internationally as an emblem of progressivism and tolerance, the country soon became a frontrunner in the revival of nationalist and anti-immigrant sentiment. This is the first study to offer an extensive engagement with the ideas behind the Dutch swing to the right. The emergence of Dutch populism, this book shows, formed an integral part of a broader conservative tendency, identified as the Dutch New Right. In the US and the UK, the term New Right has been used to describe conservative backlash movements that arose in opposition to the progressive movements of the 1960s. The Dutch swing to the right, this book argues, formed a belated iteration of the New Right backlash that occurred overseas. This text will be essential reading for students and scholars in the fields of European Studies and Political Science, and Dutch politics and society more specifically.

**Ethical Dilemmas in Reproduction** Dr Francoise Shenfield 2002-06-12 Ethical Dilemmas in Reproduction examines the ever-changing interaction between ethics, society, and scientific advances in reproduction. It covers: \*The implications of preimplantation genetic diagnosis becoming selection rather than diagnosis \*Defining the embryo and its status in relation to the child to be \*How the debate on the embryo and its status changes with advances such as therapeutic cloning and the use of stem cells \*Evaluating the risks of multiple birth pregnancies and the material, psychological, and marital stress a couple may face \*The dilemmas that new techniques such as oocyte and ovarian freezing raise for women considering ways to preserve their fertility \*Preparing prospective parents for the psychological effects of secrecy and anonymity associated with children conceived through gamete donation \*The dilemmas involved in helping HIV patients have children The medical profession as a whole faces the responsibility of integrating the benefits of a new technique within the ethical questions raised in using that technique. Nowhere is this more evident than in the science of reproduction. Your patients depend upon your advice when making decisions in this sensitive area. Ethical Dilemmas in Reproduction provides a framework for articulating the issues and making decisions.

*Disorientation and Moral Life* Ami Harbin 2016-05-02 This book is a philosophical exploration of disorientation and its significance for action. Disorientations are human experiences of losing one's bearings, such that life is disrupted and it is not clear how to go on. In the face of life experiences like trauma, grief, illness, migration, education, queer identification, and consciousness raising, individuals can be deeply disoriented. These and other disorientations are not rare. Although disorientations can be common and powerful parts of individuals' lives, they remain uncharacterized by Western philosophers, and overlooked by ethicists. Disorientations can paralyze, overwhelm, embitter, and misdirect moral agents, and moral philosophy and motivational psychology have important insights to offer into why this is. More perplexing are the ways disorientations may prompt improved moral action. Ami Harbin draws on first person accounts, philosophical texts, and qualitative and quantitative research to show that in some cases of disorientation, individuals gain new forms of awareness of political complexity and social norms, and new habits of relating to others and an unpredictable moral landscape. She then argues for the moral and political promise of these gains. A major contention of the book is that disorientations have 'non-resolutionary effects': they can help us act without first helping us resolve what to do. In exploring these possibilities, *Disorientation and Moral Life* contributes to philosophy of emotions, moral philosophy, and political thought from a distinctly feminist perspective. It makes the case for seeing disorientations as having the power to motivate profound and long-term shifts in moral and political action. A feminist re-envisioning of moral psychology provides the framework for understanding how they do so.

**No and Me** Delphine de Vigan 2010-08-02 Lou Bertignac has an IQ of 160 and a good friend called Lucas, who gets her through the school day. At home her father cries in secret in the bathroom and her mother hasn't been out of the house properly for years. But Lou is about to change her life - and that of her parents - for good, all because of a school project she decides to do about the homeless. Through the project Lou meets No, a teenage girl living on the streets. As their friendship grows, Lou cannot bear that No is still on the streets when she goes back home - even if it is to a home that is saddened and desolate. So she asks her parents if No can come to live with them. To her astonishment, her parents - eventually - agree. No's presence forces Lou and her parents to finally face the sadness that has enveloped them. But No has disruptive as well as positive effects. Can this shaky newfound family continue to live together? A tense, brilliant novel tackling the true meaning of home and homelessness.

*Alternative Fees for Litigators and Their Clients* Patrick J. Lamb 2014-10-07 The use of non-hourly fee arrangements by lawyers and the demand for those arrangements by clients is increasing. How are you and your law firm addressing this threat to the billable hour? Are you prepared for the systemic changes needed when value is not measured in six minute increments? *Alternative Fees for Litigators and Their Clients* addresses how attorneys can implement and evaluate alternative fee arrangements in litigation matters. Written by a trial lawyer with over 30 years of experience, this essential guide offers lessons, insights, and practical tips that the author has learned during his firm's long-term experiment with alternative fee arrangements."

**The Culturalization of Citizenship** Jan Willem Duyvendak 2016-06-30 The notion of citizenship has gradually evolved from being simply a legal status or practice to a deep sentiment. Belonging, or feeling at home, has become a requirement. This groundbreaking book analyzes how 'feeling rules' are developed and applied to migrants, who are increasingly expected to express feelings of attachment, belonging, connectedness and loyalty to their new country. More than this, however, it demonstrates how this culturalization of citizenship is a global trend with local variations, which develop in relation to each other. The authors pay particular attention to the intersection between sexuality, race and ethnicity, spurred on by their awareness of the dialectical construction of homosexuality, held up as representative of liberal Western values by both those in the West and by African leaders, who use such claims as proof that homosexuality is un-African.

Shifting Solidarities Ine Van Hoyweghen 2020-06-23 Shifting Solidarities offers a comprehensive analysis of solidarity at a time when major social transformations have penetrated the heart of European societies, disrupting markets and labour relations, transforming social practices, and affecting the moral infrastructure of European welfare states. Factors such as the economic crisis, migration, digitalisation, and climate change all contribute to a sense of emergency. This volume considers how, in times of crisis, there are calls for solidarity by various new social and political actors and movements. The contributions present a broad array of empirical work and critical scholarship, zooming in on shifting solidarities in various domains of social life, including work, social policy, health care, religion, family, gender and migration. This compelling volume provides a unique resource for understanding solidarity in contemporary Europe, and will be a vital text for students and scholars across sociology, social policy, cultural studies, employment/labour markets and organisation studies, migration studies and European studies.

presents 25 essays on the philosophy of design. With contributions originating from philosophy and design research, and from product design to architecture, it gives a rich spectrum of state of the art research and brings together studies on philosophical topics in which design plays a key role and design research to which philosophy contributes. Coverage zooms in on specific and more well-known design disciplines but also includes less-studied disciplines, such as graphic design, interior architecture and exhibition design. In addition, contributors take up traditional philosophical issues, such as epistemology, politics, phenomenology and philosophy of science. Some essays cover philosophical issues that emerge in design, for instance what design can do in addressing societal problems, while other essays analyze main-stream philosophical issues in which design is part of the argument, as for instance abduction and aesthetics. Readers will discover new research with insightful analyses of design research, design thinking and the specificity of design. Overall, this comprehensive overview of an emerging topic in philosophy will be of great interest to researchers and students.

**The House of the Mosque** Kader Abdolah 2011 Iran, 1969. In the house of the mosque, the family of Aqa Jaan has lived for eight centuries. The house teems with life, played out under the watchful eyes of the storks that nest on the minarets above. But this family will experience upheaval unknown to previous generations. For in Iran, political unrest is brewing. The shah is losing his hold on power; the ayatollah incites rebellion from his exile in France; and one day the ayatollah returns. The consequences will be felt in every corner of Aqa Jaan's family.

**Practical Language Testing** Glenn Fulcher 2013-11-26 Practical Language Testing equips you with the skills, knowledge and principles necessary to understand and construct language tests. This intensely practical book gives guidelines on the design of assessments within the classroom, and provides the necessary tools to analyse and improve assessments, as well as deal with alignment to externally imposed standards. Testing is situated both within the classroom and within the larger social context, and readers are provided the knowledge necessary to make realistic and fair decisions about the use and implementation of tests. The book explains the normative role of large scale testing and provides alternatives that the reader can adapt to their own context. This fulfils the dual purpose of providing the reader with the knowledge they need to prepare learners for tests, and the practical skills for using assessment for learning. Practical Language Testing is the ideal introduction for students of

applied linguistics, TESOL and modern foreign language teaching as well as practicing teachers required to design or implement language testing programmes. The book is supported by frequently updated online resources at <http://languagetesting.info/> including sets of scenarios providing resources to study aviation English assessment, call centre assessment, military language assessment, and medical language assessment. The materials can be used to structure debates and seminars, with pre-reading and video activities. Practical Language Testing was commended as a 2012 runner-up of the prestigious SAGE/ILTA Award for Best Book on Language Testing.

**Rembrandt and the Golden Age of Dutch Art** Ruud Priem 2006 Rembrandt and the Golden Age of Dutch Art celebrates an unprecedented era in the history of art. Drawn from the superb collections of Amsterdam's famed Rijksmuseum, the works of art featured here are a testament to the richness and variety of the paintings, prints, and decorative arts produced in the Netherlands in the 17th century. In a unique approach, Ruud Priem leads the viewer through the highlights of the Golden Age, beginning with the artists themselves and their studios, emerging into busy city streets and the bucolic Dutch countryside, and sampling the variety of 17th-century life and culture. Featured are ninety dazzling works by preeminent Dutch artists--Rembrandt van Rijn, Frans Hals, Jacob van Ruisdael, Pieter de Hooch, and Jan Steen, among them.
