Legacies of the Homeland Paramjeet Singh 2018-04-07 This book is not intended to provide a list of the 100 'best' books ever written and published by Punjabi authors. Given the sheer range of books written by Punjabi authors and the unpredictability of individual taste, any such definitive list is quite impossible. Secondly, the choice has been restricted to books that were written by them either in Punjabi, Hindi or Urdu but have been translated into English. Thus, personal choice restricted by availability has dictated this selection. The choice of books includes autobiographies, novels, short stories, poems, and plays. Research books, religious books, and books written originally in English have not been included. From the Introduction I am amazed at the scholarship, the passion and the love with which Paramjeet Singh has written this book. It will be a reference volume for all times. Nirupama Dutt Poet, Journalist & Translator Mr. Singh's effort is commendable as he is making available some of the rarest of gems of Punjabi literature to the non-Punjabi readers. I congratulate Mr. Singh on putting together this selection and hope that non-Punjabi readers of this book would find new horizons of cultural experience opening up before them. Of course, for Punjabi readers, it may be yet another opportunity to experience a sense of genuine pride in their rich legacy of language, literature and culture. . Prof. Rana Nayar

Annihilation of Caste B.R. Ambedkar 2014-10-07 “What the Communist Manifesto is to the capitalist world, Annihilation of Caste is to India.” –Anand Teltumbde, author of *The Persistence of Caste* B.R. Ambedkar’s *Annihilation of Caste* is one of the most important, yet neglected, works of political writing from India. Written in 1936, it is an audacious denunciation of Hinduism and its caste system. Ambedkar – a figure like W.E.B. Du Bois – offers a scholarly critique of Hindu scriptures, scriptures that sanction a rigidly hierarchical and iniquitous social system. The world’s best-known Hindu, Mahatma Gandhi, responded publicly to the provocation. The hatchet was never buried. Arundhati Roy introduces this extensively annotated edition of *Annihilation of Caste* in “The Doctor and the Saint,” examining the persistence of caste in modern India, and how the conflict between Ambedkar and Gandhi continues to resonate. Roy takes us to the beginning of Gandhi’s political career in South Africa, where his views on race, caste and imperialism were shaped. She tracks Ambedkar’s emergence as a major political figure in the national movement, and shows how his scholarship and intelligence illuminated a political struggle beset by sectarianism and obscurantism. Roy breathes new life into Ambedkar’s anti-caste utopia, and says that without a Dalit revolution, India will continue to be hobbled by systemic inequality.

The Birth of an Indian Profession Aparajith Ramnath 2017-07-15 The Birth of an Indian Profession is the first comprehensive history of engineers in modern India. Charting the development of the engineering profession in the country from 1900 to 1947, it explores how engineers, their roles, and their organization were transformed during the politically tumultuous interwar years. Through detailed case studies of engineers in public works, railways, and private industry, the book argues that the profession, once dominated by expatriate British engineers closely associated with the state, saw an increasing proportion of Indian members, and an emerging emphasis on industrial engineering. In the process, it fashioned for itself an Indian identity. Turning the spotlight on practitioners of technology and their professional lives, Ramnath explores several themes including the work culture of engineers, their conception of their own identity, their status in society, and their relationship with the evolving colonial state. In so doing, he provides a fresh perspective on the history of science and technology in twentieth-century India.

Master Tara Singh in Indian History J. S. Grewal 2018-03-22 This is the first comprehensive study of the life and work of Master Tara Singh (1885-1967), Akali leader, freedom fighter, and arguably the foremost leader of the Sikhs. Master Tara Singh's vision of the "Indian National State" was fundamentally different from that of Jawaharlal Nehru and the Indian National Congress. The partition of British Punjab and the formation of Punjabi Suba are the lasting legacies of his determined efforts to protect Sikh interests. Employing new and a broad variety of sources in English and Punjabi, J.S. Grewal weaves a comprehensive biography of Master Tara Singh. Divided into two parts, the first deals with Master Tara Singh's anti-British activity in colonial India, while the second traces the political and religious trajectories of the movements led by him in pursuit of a unilingual Punjab state. Lending unity to the two parts is Master Tara Singh's politics based on Sikh identity as a source of confrontation with the colonial state and the Congress government. Revealing new facts, ideas, and perspectives on Master Tara Singh, this book throws fresh light on the freedom struggle, the Akali movement, the politics of partition, and the working of the Congress governments in the states and at the Centre during a tumultuous and transformative period of Indian history.

Guru Gobind Singh (1666– 1708) J. S. Grewal 2019-07-25 The unifying theme in the life of Guru Gobind Singh was confrontation with the Mughals, which culminated in a struggle for political power. This fact is brought into sharp focus when we consider the Guru's life and legacy simultaneously in the contexts of the Mughal Empire, its feudatory states in the hills, and the Sikh movement. The creation of the Khalsa in 1699 as a political community with the aspiration to rule made conciliation or compromise with the Mughal

state almost impossible. Their long struggle ended eventually in the declaration of Khalsa Raj in 1765. Using contemporary and near contemporary sources in Gurmukhi, Persian, and English, J.S. Grewal presents a comprehensive study of this era of Sikh history. The volume elaborates on the life and legacy of Guru Gobind Singh and explores the ideological background of the institution of the Khalsa and its larger political context. Grewal, however, emphasizes that the legacy of the Khalsa was also social and cultural. This authoritative volume on the tenth Guru is a significant addition to the field of Sikh studies.

The Voyage of the Komagata Maru Hugh J. M. Johnston 2014-04-22 This new and expanded edition offers the most thoroughly researched account of the notorious Komagata Maru incident. The event centres on the ship's nearly four hundred Punjabi passengers, who sought entry into Canada at Vancouver in the summer of 1914, only to be chased away by a Canadian warship. This story became a symbol of prejudicial immigration policies, which Canadians today reject, and served to fuel the emerging anti-British movement in India. It deserves the careful re-examination it gets in this thoroughly updated edition that provides a contemporary perspective on a defining moment in Canadian, British Empire, and Indian history.

Pakistan Or the Partition of India B. R. Ambedkar 2017-10-09 This is one of the epics from Dr. Ambedkar. Written in 1945 the book really explains the dynamics of Hindu Mahasabha and Muslim League and how Congress and British Government played a role in partition. Although this book takes you to the unheard side of partition, it is interesting on how linguistic approach was chosen for a division of something that is unsure if it existed. Dr. Ambedkar takes a fine approach of giving a clarity of situation instead of been judgmental on the partition. No wonder the man was chosen to write our constitution. Of course if the war of majority and minority is kept away, the partition and its tragedy can be ready more fluently.

State and Nation-Building in Pakistan Roger D. Long 2015-10-08 Religion, violence, and ethnicity are all intertwined in the history of Pakistan. The entrenchment of landed interests, operationalized through violence, ethnic identity, and power through successive regimes has created a system of 'authoritarian clientalism.' This book offers comparative, historicist, and multidisciplinary views on the role of identity politics in the development of Pakistan. Bringing together perspectives on the dynamics of state-building, the book provides insights into contemporary processes of national contestation which are crucially affected by their treatment in the world media, and by the reactions they elicit within an increasingly globalised polity. It investigates the resilience of landed elites to political and social change, and, in the years after partition, looks at the impact on land holdings of population transfer. It goes on to discuss religious identities and their role in both the construction of national identity and in the development of sectarianism. The book highlights how ethnicity and identity politics are an enduring marker in Pakistani politics, and why they are increasingly powerful and influential. An insightful collection on a range of perspectives on the dynamics of identity politics and the nation-state, this book on Pakistan will be a useful contribution to South Asian Politics, South Asian History, and Islamic Studies.
