Writing Good Sentences Linda G. Turrell 2022-08-01 Why read this book? This book walks you through the ten writing skills needed to master the art of writing good sentences. Whether it is the skill of crafting clear, logical, coherent, or vivid sentences, you will expand your skills. No matter where your experiences lead, you will have these skills: 1. Sentences types--simple, compound, and complex 2. Sentences--run-on and fragment 3. Sentence types--infinitive, participle, and appositive 4. Sentences--declarative, interrogative, imperative, exclamatory 5. Sentence word choice--choosing vivid words 6. Sentence logic--understanding cause and effect 7. Sharpening sentences 8. Expanding sentence meaning through description 9. Expanding sentence meaning using nouns 10. Expanding sentence meaning--using verbs The ten steps explored in this book explain the process by examples, exercises, and reproducibles. These lessons will show you HOW to MASTER this skill. It can be used both inside and outside the classroom by students and independent learners. The clear explanatory material is followed by reproducible activities that will help bring writing mastery. An answer key is included. This book is volume four of the MASTERING LANGUAGE ARTS SERIES. Volume one, WRITING GOOD STORIES, volume 2, EVERYDAY WRITING, and volume three, MASTERING PUNCTUATION, are companion books in the series. This unique approach will help beginner writers, as well as writers who want to work on specific writing skills. This book is written by an award-winning instructor who has taught how to master many types of writing over the course of thirty years. She has published twenty-three books and fifteen professional articles, has been a state conference speaker, columnist, consultant, and instructional review columnist, and has served as a national judge for instructional media. And she is the holder of the TEXTY award given nationally for excellence in instructional writing. She was one of three in her category, and that series has been in print for twenty-three years used in classrooms across the nation. Linda G. Turrell has ten instructional books in two languages in 311 libraries worldwide.

Grammar for the Well-Trained Mind: Red Workbook: A Complete Course for Young Writers, Aspiring Rhetoricians, and Anyone Else Who Needs to Understand How English Works.

(Grammar for the Well-Trained Mind) Susan Wise Bauer 2019-01-01 The Key to the Red Workbook gives clear, thoroughly-explained answers to all exercises in the Red Workbook, the second of four non-sequential books in the Grammar for the Well-Trained Mind series, providing detailed, well-designed

exercises in the correct use of English grammar. The Key, along with the accompanying Red Workbook and the Core Instructor Text, make up Grammar for the Well-Trained Mind: a complete course that takes students from basic definitions (“A noun is the name of a person, place, thing, or idea”) through advanced sentence structure and analysis—all the grammar skills needed to write and speak with eloquence and confidence. This innovative program combines the three essential elements of language learning: understanding and memorizing rules (prescriptive teaching), repeated exposure to examples of how those rules are used (descriptive instruction), and practice using those rules in exercises and in writing (practical experience). Each year, parents and teachers go through the dialogue, rules, and examples in the Core Instructor Text; students follow along in the Workbook. This repetition solidifies the concepts, definitions, and examples in the student’s mind. There are four Student Workbooks, one for each year. Each Student Workbook contains the same rules and examples—but four completely different sets of exercises and assignments, allowing students to develop a wide-ranging knowledge of how the rules and examples are put to use in writing. Each Key to the Workbooks provides not only answers, but also explanations for the parent/instructor, and guidance as to when the answers might be ambiguous (as, in English, they often are). All of the rules covered, along with the repeated examples for each, are assembled for ongoing reference in the Comprehensive Handbook of Rules. This will become the student’s indispensable guide to writing through high school, into college and beyond. Step-by-step instruction takes students from the most basic concepts through advanced grammatical concepts such as modal and hortative verbs and multiple functions of noun clauses. Extensive diagramming exercises reinforce the rules and help technical and visual learners to understand and use the English language effectively. Each step of the diagramming process is illustrated and thoroughly explained to the student. Text for examples and exercises are drawn from great works of literature, as well as from well-written nonfiction texts in science, mathematics, and the social sciences. Regular review is built into each year of work. The Key accompanies the second of four non-sequential workbooks, each containing new exercises that allow students to practice and apply the grammar principles under study.

Sentence Composing for Elementary School Don Killgallon 2000 Don Killgallon's signature sentence

composing approach to writing is rapidly becoming a part of every effective teacher's repertoire, in middle schools, high schools, and colleges across the country. Thousands of teachers have achieved astonishing results - with students readily writing sentences remarkably similar to those of professional writers. What's more they've discovered that this approach is easy to teach and easy to learn. Now, Don and Jenny Killgallon make these techniques available to elementary teachers with the first-ever worktext in which children learn to write sentences like their favorite authors. Using sentences from more than one hundred popular stories and novels as models, *Sentence Composing for Elementary School* offers extensive practice in four sentence-manipulating techniques: sentence unscrambling, sentence imitating, sentence combining, and sentence expanding. By playing with hundreds of sentences from selections like Charlotte's Web and the Harry Potter series, children learn to write their own sentences in more effective and interesting ways. At the same time, they improve their reading skills by discovering the story in the sentence. Teachers and students will find this textbook an innovative, creative, and enjoyable alternative to traditional grammar texts aimed at dissecting sentences. Instead, *Sentence Composing for Elementary School* engages children in learning how to build better sentences.

The Writing Revolution Judith C. Hochman 2017-08-07 "HELP! My Students Can't Write!" Why You Need a Writing Revolution in Your Classroom and How to Lead It. The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, TWR can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities TWR is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

the IFIP Technical Committee on Artificial Intelligence (Technical Committee 12) and its Working Group 12.5 (Artificial Intelligence Applications). All papers were reviewed by at least two members of our Program Committee. Final decisions were made by the Executive Program Committee, which comprised John Debenham (University of Technology, Sydney, Australia), Ilias Maglogiannis (University of Aegean, Samos, Greece), Eunika Mercier-Laurent (KIM, France) and myself. The best papers were selected for the conference, either as long papers (maximum 10 pages) or as short papers (maximum 5 pages) and are included in this volume. The international nature of IFIP is amply reflected in the large number of countries represented here. The conference also featured invited talks by Prof. Nikola Kasabov (Auckland University of Technology, New Zealand) and Prof. Lorenza Saitta (University of Piemonte Orientale, Italy). I should like to thank the conference chair, John Debenham for all his efforts and the members of our program committee for reviewing papers to a very tight deadline.
