*The Mountain* Rebecca Gugger 2021-09-07 Could everyone be right in this lighthearted story about different perspectives? The bear knows exactly what the mountain looks like—a forest. The sheep, octopus, and ant also know the mountain. It's a meadow! It's surrounded by water! It's a maze of tunnels! The chamois and snow hare have their opinions too. It seems the mountain looks different to every animal. How can that be? And whose point of view is right? Rebecca Gugger and Simon Röthlisberger's insightful story about tolerance is told in their feather light way.

*Playway to English Level 2 Pupil's Book* Günter Gerngross 2009-03-12 Playway to English Second edition is a new version of the popular four-level course for teaching English to young children. Pupils acquire English through play, music and Total Physical Response, providing them with a fun and dynamic language learning experience. In the Pupil's Book: • Fantastic varied tasks keep children motivated • Cross-curricular activities take children's learning beyond the English language classroom • Self evaluation sections help children retain and recycle new language • Regular Word play sections encourage pupils to use the target language creatively

**Knowing What Students Know** National Research Council 2001-10-27 Education is a hot topic. From the stage of presidential debates to tonight's dinner table, it is an issue that most Americans are deeply concerned about. While there are many strategies for improving the educational process, we need a way to find out what works and what doesn't work as well. Educational assessment seeks to determine just how well students are learning and is an integral part of our quest for improved education. The nation is pinning greater expectations on educational assessment than ever before. We look to these assessment tools when documenting whether students and institutions are truly meeting education goals. But we must stop and ask a crucial question: What kind of assessment is most effective? At a time when traditional testing is subject to increasing criticism, research suggests that new, exciting approaches to assessment may be on the horizon. Advances in the sciences of how people learn and how to measure such learning offer the hope of developing new kinds of assessments—assessments that help students

succeed in school by making as clear as possible the nature of their accomplishments and the progress of their learning. Knowing What Students Know essentially explains how expanding knowledge in the scientific fields of human learning and educational measurement can form the foundations of an improved approach to assessment. These advances suggest ways that the targets of assessment-what students know and how well they know it-as well as the methods used to make inferences about student learning can be made more valid and instructionally useful. Principles for designing and using these new kinds of assessments are presented, and examples are used to illustrate the principles. Implications for policy, practice, and research are also explored. With the promise of a productive research-based approach to assessment of student learning, Knowing What Students Know will be important to education administrators, assessment designers, teachers and teacher educators, and education advocates.

Crooked Letter, Crooked Letter Tom Franklin 2010-10-05 "The classic trifecta of talent, heart, and a bone-deep sense of storytelling...A masterful performance, deftly rendered and deeply satisfying. For days on end, I woke with this story on my mind." —David Wroblewski A powerful and resonant novel from the critically acclaimed author of *Smonk* and *Hell at the Breech*, *Crooked Letter, Crooked Letter* tells the riveting story of two boyhood friends, torn apart by circumstance, who are brought together again by a terrible crime in a small Mississippi town. An extraordinary novel that seamlessly blends elements of crime and Southern literary fiction, *Crooked Letter, Crooked Letter* is a must for readers of Larry Brown, Pete Dexter, Ron Rash, and Dennis Lehane. In the late 1970s, Larry Ott and Silas "32" Jones were boyhood pals. Their worlds were as different as night and day: Larry, the child of lower-middle-class white parents, and Silas, the son of a poor, single black mother. Yet for a few months the boys stepped outside of their circumstances and shared a special bond. But then tragedy struck: Larry took a girl on a date to a drive-in movie, and she was never heard from again. She was never found and Larry never confessed, but all eyes rested on him as the culprit. The incident shook the county—and perhaps Silas most of all. His friendship with Larry was broken, and then Silas left town. More than twenty years have passed. Larry, a mechanic, lives a solitary existence, never able to rise above the whispers of suspicion. Silas has returned as a constable. He and Larry have no reason to cross paths until another girl disappears and Larry is blamed again. And now the two men who once called each other friend are forced to confront the past they've buried and ignored for decades.

Ausführlicher Unterrichtsentwurf zum Thema London Sights. Präsentationen im Englischunterricht 2019-03-28 Lesson Plan from the year 2012 in the subject English - Applied Geography, grade: 1,5, University of Education in Schwäbisch Gmünd, course: Präsentationen im Englischunterricht der Realschule, language: English, abstract: London ist der Kern einer Unterrichtsreihe, der im Buch der 7. Klasse der Realschule vorgegeben ist. Das Buch wird in der Unterrichtseinheit über Londons Sehenswürdigkeiten nicht zum Einsatz kommen, da es dafür zu wenige Informationen enthält. Das Thema „Sights in London“ bietet sich darüber hinaus sehr gut für das Üben von Präsentationen an, da es in London viele verschiedene und vor allem interessante Sehenswürdigkeiten gibt. Das Thema wird durch den Reisebericht am Anfang der Stunde für die Schüler und Schülerinnen interessant gestaltet. Nachdem der Text vorgelesen wurde, sind die Schüler und Schülerinnen neugierig geworden und beschäftigen sich anschließend in ihren Kleingruppen intensiver mit ihren Sehenswürdigkeiten. Da London sehr viele Sehenswürdigkeiten bietet, wird die heutige Stunde in Kleingruppen bzw. in Partnergruppen eingeteilt. Jede Schülergruppe soll sich mit zwei bis drei Sehenswürdigkeiten Londons beschäftigen und diese anschließend präsentieren. Die Einteilung und Präsentationsphase wird so aufgebaut sein, dass anhand

eines Stadtplans von London jede Sehenswürdigkeit der Reihe nach, in einer Art „Sightseeing- Tour through London“, eingeteilt und vorgestellt wird. Jede Gruppe gestaltet ein kleines Plakat (Muster s. Anhang) zu ihren Sehenswürdigkeiten. Die Schüler und Schülerinnen, die der Präsentation zuhören, bearbeiten eine „while listening“- Aufgabe (s. Anhang). Bevor die SuS mit der Arbeit beginnen, wird ihnen eine Musterpräsentation vorgestellt.

**Dog Eat Dog** Laurien Berenson 2012-08-24 Competition at an elite Connecticut kennel club has a sharp and deadly bite in this “masterful” mystery (The Plain Dealer). As if raising her son Davey, training her rambunctious Poodle for the show ring, and grooming fellow handler Sam Driver for romance aren’t enough, Melanie Travis’s entrée into the exclusive Belle Haven Kennel Club has been met with a grisly murder. Unfortunately, the only witnesses to the crime were the victim’s startled pair of Beagles. And they aren’t talking... Melanie hadn’t intended to do any serious snooping, what with coping with the unexpected arrival of an ex-husband out to get joint custody of the son he’s never known. In need of some serious distraction, she’s off to sniff out dangerous secrets...only to discover that everyone at Belle Haven has something damning to hide. As the shocking truth slowly comes to light—and her own domestic drama moves center stage—Melanie finds herself eager to put the bite on a dogged killer. “A story as controlled as a well-behaved dog on a lead.”—Publishers Weekly “Don’t make me sit up and beg. Read this book today.”—Dorothy Cannell

*Common Ground* Spencer de Grey 2019-12-13 By 2050, three-quarters of the world's 9.6-billion-strong population will be living in cities - inhabiting vibrant historic cores, commuting from new hinterlands via high-speed transit, or occupying informal urban settlements. Some cities will flourish while others will struggle to meet the demands of a growing population and a changing environment. It will take the collaborative expertise of various disciplines, gathered under the umbrella of good governance, to ensure our cities thrive in the future. Spencer de Grey, Head of Design at Foster + Partners, explores the role that architecture and urban design can play in this global endeavour. This is the tenth essay in the Big Ideas series created by the European Investment Bank. The EIB has invited international thought leaders to write about the most important issues of the day. These essays are a reminder that we need new thinking to protect the environment, promote equality and improve people's lives around the globe.

**Learning Together** Nancy Falchikov 2003-08-27 The number of students in higher education has expanded dramatically in recent years, but funding has not kept pace with this growth. The result is less contact time for lecturers and their students, and corresponding worries about how the quality of teaching and learning can be improved. Peer tutoring is one method which is growing in popularity, and has already proved successful in a number of countries. This book provides an introduction to the methods and practice of peer tutoring focusing on how to set up schemes and how to cope with common problems. It discusses the theory behind this form of learning and the beneficial effects associated with it. Summaries are included at the end of each chapter.

*The Blue Soda Siphon* Urs Widmer 2022-08-05 A magnificent example of Widmer's characteristic humor, literary genius, and unparalleled imagination. In the wildly entertaining novel *The Blue Soda Siphon*, the narrator unexpectedly finds himself back in the world of his childhood: Switzerland in the 1940s. He returns to his childhood home to find his parents frantic because their son is missing. Then, in another switch, the young boy that he was back then turns up in the present of the early 1990s, during the Gulf War, where he meets himself as an older man, and meets his adult self's young daughter. These head-scratching, hilarious time shifts happen when both the adult narrator and his childhood self go to the cinema and see films, the subjects of which echo their own lives. Translated into English for the first time by Donal McLaughlin, this novel, in which the eponymous blue soda siphon bottle is a recurring symbol, is a magnificent example of Urs Widmer's characteristic humor, literary genius, and unparalleled imagination.

*Handbook of Technical and Vocational Education and Training Research* Felix Rauner 2008-12-16 Technical and vocational education and training (TVET) research has become a recognized and well-defined area of interdisciplinary research. This is the first handbook of its kind that specifically concentrates on research and research methods in TVET. The book's sections focus on particular aspects of the field, starting with a presentation of the genesis of TVET research. They further feature research in relation to policy, planning and practice. Various areas of TVET research are covered, including on the vocational disciplines and on TVET systems. Case studies illustrate different approaches to TVET research, and the final section of the book presents research methods, including interview and observation methods, as well as of experimentation and development. This handbook provides a comprehensive coverage of TVET research in an international context, and, with special focus on research and research methods, it is a cutting-edge resource and reference.

**Dietary Reference Intakes for Energy, Carbohydrate, Fiber, Fat, Fatty Acids, Cholesterol, Protein, and Amino Acids** Institute of Medicine 2005-11-28 Responding to the expansion of scientific knowledge about the roles of nutrients in human health, the Institute of Medicine has developed a new approach to establish Recommended Dietary Allowances (RDAs) and other nutrient reference values. The new title for these values Dietary Reference Intakes (DRIs), is the inclusive name being given to this new approach. These are quantitative estimates of nutrient intakes applicable to healthy individuals in the United States and Canada. This new book is part of a series of books presenting dietary reference values for the intakes of nutrients. It establishes recommendations for energy, carbohydrate, fiber, fat, fatty acids, cholesterol, protein, and amino acids. This book presents new approaches and findings which include the following: The establishment of Estimated Energy Requirements at four levels of energy expenditure Recommendations for levels of physical activity to decrease risk of chronic disease The establishment of RDAs for dietary carbohydrate and protein The development of the definitions of Dietary Fiber, Functional Fiber, and Total Fiber The establishment of Adequate Intakes (AI) for Total Fiber The establishment of AIs for linolenic and  $\alpha$ -linolenic acids Acceptable Macronutrient Distribution Ranges as a percent of energy intake for fat, carbohydrate, linolenic and  $\alpha$ -linolenic acids, and protein Research recommendations for information needed to advance understanding of macronutrient requirements and the adverse effects associated with intake of higher amounts Also detailed are recommendations for both physical activity and energy expenditure to maintain health and decrease the risk of disease.

Teacher's Professional Development Sabine Krolak-Schwerdt 2014-04-03 A central aspect of teachers' professional knowledge and competence is the ability to assess students' achievements adequately. Giving grades and marks is one prototypical task in this context. Besides giving grades, assessments for school placements or tracking decisions belong to these tasks. Relevant students' characteristics which influence teachers' assessments do not only involve academic achievement but also students' responses to different task demands as well as non-academic characteristics such as learning motivation or school anxiety. Closely associated with the investigation of teachers' assessment competences and, more specifically, the investigation of conditions associated with high quality of assessments is the development and evaluation of teacher training programs to improve professional competences. In recent years, there has been considerable progress in the domain of professional teacher training; however, only a very limited number of studies are dedicated to the question to what extent training programs might offer valuable approaches to improve the quality of assessments and to implement high assessment competences. Another important field which is closely related to teachers' competences concerns the question how teachers' professional development is linked to students' learning and learning outcomes. In recent years, the societal demand for evidence that teachers' professional development will result in improved student learning outcomes is increasing. This volume brings together questions on assessment, training, and learning in the professional development of teachers which have not been fully discussed yet. The identification of these research gaps was the reason for dedicating a series of lectures given at the University of Luxembourg 2012 to the topic of professionalization of teachers in these domains. Therefore, this book contains contributions from outstanding international scholars in different academic disciplines to present ideas about open research questions concerning the domains of assessment, training, and learning in the professional development of teachers.

Teaching As A Reflective Practice Ian Westbury 2012-08-06 This volume presents a mix of translations of classical and modern papers from the German Didaktik tradition, newly prepared essays by German scholars and practitioners writing from within the tradition, and interpretive essays by U.S. scholars. It brings this tradition, which virtually dominated German curricular thought and teacher education until the 1960s when American curriculum theory entered Germany--and which is now experiencing a renaissance--to the English-speaking world, where it has been essentially unknown. The intent is to capture in one volume the core (at least) of the tradition of Didaktik and to communicate its potential relevance to English-language curricularists and teacher educators. It introduces a theoretical tradition which, although very different in almost every respect from those we know, offers a set of approaches that suggest ways of thinking about problems of reflection on curricular and teaching praxis (the core focus of the tradition) which the editors believe are accessible to North American readers--with appropriate "translation." These ways of thinking and related praxis are very relevant to notions such as reflective teaching and the discourse on teachers as professionals. By raising the possibility that the "new" tradition of Didaktik can be highly suggestive for thinking through issues related to a number of central ideas within contemporary discourse--and for exploring the implications of these ideas for both teacher education and for a curriculum theory appropriate to these new contexts for theorizing, this book opens up a gold mine of theoretical and practical possibilities.

*BTEC First Public Services (uniformed)* Debra Gray 2004 Offers various things that students need to excel in BTEC First in Public Services. This student book contains real life case studies enabling students to explore a range of issues and relate theory to practice. It includes guidance students need to get the best possible grade in their Integrated Vocational Assignment.

BTEC First in Public Services Student Book Debra Gray 2014-08-20 The Student Book covers 5 units providing enough support for the Award. Covers all the underpinning knowledge and understanding needed at level 2 to ensure that learners are fully prepared for the course. The attractive, accessible layout is packed with features, which draw out key points and bring learning to life. Units are presented in topics with plenty of activities and assessment guidance to help learners achieve their potential. Assessment activities and grading will help learners to achieve their potential in internally-assessed units and support external assessment. From 2012, Pearson's BTEC First qualifications have been under re-development, so schools and colleges could be teaching the existing 2010 specification or the new next generation 2012-2013 specification. There are different Student Books to support each specification. If learners are unsure, they should check with their teacher or tutor.
