[Sexed Pistols Vanessa Farr 2009](#) Every day, small arms and light weapons (SALW) kill and maim, wound and threaten millions of adults and children, whether combatants and civilians in war zones or gangs and communities in degraded "peacetime" environments that are characterized by large-scale violence. Due to their widespread availability, mobility and ease of use prolific SALW have become central to maintaining social dislocation, destabilization, insecurity and crime in the build-up to war, in wartime and in the aftermath of violent conflict. Small arms are misused within domestic settings, as well as in public spaces, and they affect everyone in the community without regard to sex or age. Although the impacts of these weapons can be vastly different for women and men, girls and boys, a careful consideration of gender and age is rare in the formulation of small arms policy, of planning small arms collection or control, or

even in small arms research. To counter the effects of prolific SALW, their role in reinforcing and maintaining gender- and age-specific violence must be more deeply analyzed and the results applied at the policy and operational level. This work should be undertaken in war-afflicted contexts, in societies suffering from elevated levels of social violence and/or severe underdevelopment, and in those tolerant of the presence of individually owned firearms. Contributors to this book draw on experience and research from around the world on the nexus of gender, age, violence and small arms in developing and developed countries. Their findings feed into a number of recommendations for future policy formulation, program implementation and research designed to further illuminate and counteract the firing of the "sexed pistol".-- Publisher's description.

Napalm Robert M. Neer 2013-04-01 Napalm was invented on Valentine's Day 1942 at a secret Harvard war research laboratory. It created an inferno that killed over 87,500 people in Tokyo—more than died in the atomic explosions at Hiroshima or Nagasaki—and went on to incinerate 64 Japanese cities. The Bomb got the press, but napalm did the work. Robert Neer offers the first history.

Modern Political Warfare Linda Robinson 2018-08-06 "The United States today faces a number of actors who employ a wide range of political, informational, military, and economic measures to influence, coerce, intimidate, or undermine U.S. interests or those of friends and allies; many of these measures are often collectively referred to as "political warfare." This report analyzes political warfare as it is practiced today by both state and nonstate actors, and provides detailed recommendations regarding the most effective ways that the U.S. government, along with its allies and partners, can respond to or engage in this type of conflict to achieve U.S. ends and protect U.S. interests. The authors examine historical antecedents of political warfare and current-day practices through in-depth case studies of Russia, Iran, and the Islamic State. They use these cases to derive common attributes of modern political warfare. The authors then identify effective means for responding to these challenges. Drawing on documentary and field research

as well as extensive semistructured interviews with practitioners in the U.S. government and elsewhere, they determine gaps in practices and capabilities for addressing political warfare threats. The report concludes with recommendations for countering political warfare by creating a more effective, coordinated, and cost-sensitive approach to effective statecraft, including specific measures for the U.S. State Department and the U.S. military, particularly the special operations community. Army Facilities Management Department of Defense 2012-08-24 AR 420-1 Published 1 June 2018 Army Facilities Engineering Regulation 420-1, Army Facilities Management (24 August 2012) describes the management of public works activities, housing, and other facilities operations and management, military construction program development and execution, master planning, utilities services and energy management, and fire and emergency services. Also, it identifies and synthesizes other regulations that provide detailed facilities management policy. This regulation applies to the Active Army, the Army National Guard/Army National Guard of the United States, and the U.S. Army Reserve. This book is a terrific source for sound, cost-effective energy management and investment practices to enhance the DoD's energy security and environmental stewardship. Depending on the military installation location, well-planned energy and water use savings can represent thousands to hundreds-of thousands dollars each year, and many can be achieved with minimal cash outlays. A Patriot's History of the United States Larry Schweikart 2004-12-29 For the past three decades, many history professors have allowed their biases to distort the way America's past is taught. These intellectuals have searched for instances of racism, sexism, and bigotry in our history while downplaying the greatness of America's patriots and the achievements of “dead white men.” As a result, more emphasis is placed on Harriet Tubman than on George Washington; more about the internment of Japanese Americans during World War II than about D-Day or Iwo Jima; more on the dangers we faced from Joseph McCarthy than those we faced from Josef Stalin. *A Patriot's History of the United States* corrects those doctrinaire biases. In this groundbreaking book, America's discovery, founding, and development are reexamined with an appreciation for the elements of public virtue, personal liberty, and private property that make this nation uniquely successful. This book offers a long-overdue acknowledgment of America's true and proud history.

The Global Cold War Odd Arne Westad 2007-03-01 The Cold War shaped the world we live in today - its politics, economics, and military affairs. This book shows how the globalization of the Cold War during the last century created the foundations for most of the key conflicts we see today, including the War on Terror. It focuses on how the Third World policies of the two twentieth-century superpowers - the United States and the Soviet Union - gave rise to resentments and resistance that in the end helped topple one

superpower and still seriously challenge the other. Ranging from China to Indonesia, Iran, Ethiopia, Angola, Cuba, and Nicaragua, it provides a truly global perspective on the Cold War. And by exploring both the development of interventionist ideologies and the revolutionary movements that confronted interventions, the book links the past with the present in ways that no other major work on the Cold War era has succeeded in doing.

Army Barracks Management Program Handbook Department of Defense 2018-01-09 Army Barracks Management Program (ABMP) Handbook describes the management of Unaccompanied Housing to support the needs of unaccompanied soldiers based on lessons learned and provides a uniform standard based on the needs of the Army and its soldiers. The ABMP supports the forming of adaptive partnerships between garrison staff and military unit leaders and capitalizes on the increased presence of military leaders at installations by emphasizing the unit's responsibility for the day-to-day management of permanent party barracks to enable leaders to effectively monitor the morale, health, welfare and discipline of their soldiers. Encyclopedia of Ethical Failure Department of Defense 2009-12-31 The Standards of Conduct Office of the Department of Defense General Counsel's Office has assembled an "encyclopedia" of cases of ethical failure for use as a training tool. These are real examples of Federal employees who have intentionally or unwittingly violated standards of conduct. Some cases are humorous, some sad, and all are real. Some will anger you as a Federal employee and some will anger you as an American taxpayer. Note the multiple jail and probation sentences, fines, employment terminations and other sanctions that were taken as a result of these ethical failures. Violations of many ethical standards involve criminal statutes. This updated (end of 2009) edition is organized by type of violations, including conflicts of interest, misuse of Government equipment, violations of post-employment restrictions, and travel.

The Curious Feminist Cynthia Enloe 2004-12-15 In this collection of lively essays, Cynthia Enloe makes better sense of globalization and international politics by taking a deep and personal look into the daily

realities in a range of women's lives. She proposes a distinctively feminist curiosity that begins with taking women seriously, especially during this era of unprecedented American influence. This means listening carefully, digging deep, challenging assumptions, and welcoming surprises. Listening to women in Asian sneaker factories, Enloe reveals, enables us to bring down to earth the often abstract discussions of the global economy. Paying close attention to Iraqi women's organizing efforts under military occupation exposes the false global promises made by officials. Enloe also turns the beam of her inquiry inward. In a series of four candid interviews and a new set of autobiographical pieces, she reflects on the gradual development of her own feminist curiosity. Describing her wartime suburban girlhood and her years at Berkeley, she maps the everyday obstacles placed on the path to feminist consciousness—and suggests how those obstacles can be identified and overcome. *The Curious Feminist* shows how taking women seriously also challenges the common assumption that masculinities are trivial factors in today's international affairs. Enloe explores the workings of masculinity inside organizations as diverse as the American military, a Serbian militia, the UN, and Oxfam. A feminist curiosity finds all women worth thinking about, Enloe claims. She suggests that we pay thoughtful attention to women who appear complicit in violence or in the oppression of others, or too cozily wrapped up in their relative privilege to inspire praise or compassion. Enloe's vitality, passion, and incisive wit illuminate each essay. *The Curious Feminist* is an original and timely invitation to look at global politics in an entirely different way.

Unity of Mission Melanne A Civic 2019-07-20 While much has been written about civilian-military teams in Vietnam and, most recently, in Iraq and Afghanistan, the subject has not been addressed in a single, comprehensive publication containing historical context and reflecting a broad diversity of views. It is the intention of the coeditors of *Unity of Mission* to fill this gap. The authors are convinced that without unity among military and civilian actors, long-term mission success is difficult at best. They believe the essays contained in this volume attest to this assertion. They are also fully aware that civilian-military teams are not a silver bullet. Rather, at best, such teams serve as a useful tool in a more comprehensive security framework. Nevertheless, in an age of budgetary constraints, the need to coordinate military and civilian resources—hard, kinetic, and soft power—is clear. It is the opinion of the coeditors that civilian-military teams are critical to achieving the goals of sustainable peace, stability, and security.

Army Leadership and the Profession (ADP 6-22) Headquarters Department of the Army 2019-10-09 ADP 6-22 describes enduring concepts of leadership through the core competencies and attributes required of leaders of all cohorts and all organizations, regardless of mission or setting. These principles reflect decades of experience and validated scientific knowledge. An ideal Army leader serves as a role model through strong intellect, physical presence, professional competence, and moral character. An Army leader is able and willing to act decisively, within superior leaders' intent and purpose, and in the organization's best interests. Army leaders recognize that organizations, built on mutual trust and confidence, accomplish missions. Every member of the Army, military or civilian, is part of a team and functions in the role of leader and subordinate. Being a good subordinate is part of being an effective leader. Leaders do not just lead subordinates—they also lead other leaders. Leaders are not limited to just those designated by position, rank, or authority.

Human Reliability Program (Us Department of Energy Regulation) (Doe) (2018 Edition) The Law The Law Library 2018-07-03 Human Reliability Program (US Department of Energy Regulation) (DOE) (2018 Edition) The Law Library presents the complete text of the Human Reliability Program (US Department of Energy Regulation) (DOE) (2018 Edition). Updated as of May 29, 2018 DOE is amending its regulation concerning the Human Reliability Program (HRP). This regulation provides the policies and procedures to ensure that individuals who occupy positions affording unescorted access to certain nuclear materials, nuclear explosive devices, facilities and programs meet the highest standards of reliability and physical and mental suitability. The revisions include some clarification of the procedures and burden of proof applicable in certification review hearings, the addition and modification of certain definitions, and a clear

statement that a security concern can be reviewed pursuant to the HRP regulation in addition to the DOE regulations for determining eligibility for access to classified matter or special nuclear material. These revisions are intended to provide better guidance to HRP-certified individuals and to ensure consistency in HRP decision making. This book contains: - The complete text of the Human Reliability Program (US Department of Energy Regulation) (DOE) (2018 Edition) - A table of contents with the page number of each section

Army Health Promotion Risk Reduction Suicide Prevention Report 2010 Peter W. Chiarelli 2010-11 This candid report is the result of a focused 15-month effort to better understand the increasing rate of suicides in U.S. Army. Key findings include: gaps in the current policies, processes and programs necessary to mitigate high risk behaviors; an erosion of adherence to existing Army policies and standards; an increase in indicators of high risk behavior including illicit drug use, other crimes and suicide attempts; lapses in surveillance and detection of high risk behavior; an increased use of prescription anti-depressants, amphetamines and narcotics; degraded accountability of disciplinary, admin. and reporting processes; and the continued high rate of suicides, high risk related deaths and other adverse outcomes.
