The Legend Of Sleepy Hollow and Other Stories Washington Irving 2018-10-24 The Legend of Sleepy Hollow and Other Stories by an American writer Washington Irving. The story is set in the end of the 18th century in the Dutch settlement of Tarry Town, called Sleepy Hollow. Ichabod Crane, a lean, lanky and extremely superstitious teacher from Connecticut competes with Abraham "Brom Bones" Van Brunt for the hand of 18-year-old Katrina Van Tassel, the daughter and sole child of a wealthy farmer, Baltus Van Tassel. One autumn night, when Ichabod was returning from the party at the Van Tassels' homestead, he was followed by a rider without a head. Presumably, it was a ghost of Hessian cavalryman, who had been beheaded by a stray shot in one of the "unnamed battles" during the War of Independence (USA) and after that "rode during the night in a search of his head"...

He Came to Set the Captives Free Rebecca Brown 1992-07-01 For seventeen years, Elaine

served her master, Satan, with total commitment. Then she met Dr. Rebecca Brown, who served her master, Jesus Christ, with equal commitment. Elaine, one of the top witches in the U.S., clashed with Dr. Brown, who stood against her alone. In the titanic life-and-death struggle that followed, Dr. Brown nearly lost her life. Elaine, finding a power and love greater than anything Satan could give her, left Satan and totally committed her life to Jesus Christ. This is an honest, in-depth account of Satan's activities today. You'll see how to: Recognize and combat the many satanists who regularly infiltrate and destroy Christian churches. Recognize and combat satanic attacks. Recognize those serving Satan, and bring them to Jesus Christ.

Alberto Greco María Amalia García 2016 The edition is probably the more comprehensive book on Alberto Greco (b. Argentina 1931-1965) that has been published to date, comprising texts from different authors, letters, photographs, unpublished documents and a series of drawings made by artist Alberto Passolini, that recreate Greco's ephemeral artworks of which they are no records. Although in an attempt to clarify some aspects of his life, through the contribution of new documentation, we did not intend to distinguish to the extreme reality from fiction, myth from reality, but more precisely - to respect the rules of the game, we tried to "stretch" the legend and include more information about some episodes from imaginative strategies. We understand that, for certain, the interpretations proposed by the drawings of Passolini provide a new perspective that enriches what is so far known." (HKB Translation) -- Page 22.

The Magic of the State Michael Taussig 2013-10-18 Set in the enchanted mountain of a spirit-queen presiding over an unnamed, postcolonial country, this ethnographic work of ficto-criticism recreates in written form the shrines by which the dead--notably the fetishized forms of Europe's Others, Indians and Blacks--generate the magical powers of the modern state.

A Book in Every Home Edward Leedskalnin 2021-08-04 2012 Reprint of 1936 Edition. Exact facsimile of the original edition, not reproduced with Optical Recognition Software. After arriving in the United States, Leedskalnin moved to Florida around 1919, where he purchased a small piece of land in Florida City. Over the next 20 years, Leedskalnin putatively constructed and lived within a massive coral monument he called "Rock Gate Park", dedicated to the girl who had left him years before. Working alone at night, Leedskalnin eventually quarried and sculpted over 1,100 short tons of coral into a monument that would later be known as the Coral Castle. Leedskalnin's is also well known for his theories on magnetism, detailing his theories on the interaction of electricity, magnetism and the body; Leedskalnin also included a number of simple experiments to validate his theories. Most importantly, Edward Leedskalnin claimed that all matter was being acted upon by what he called "individual magnets" -- simply a positive and a negative, as a battery. It is obvious from the pamphlets that he produced that this theory became the base of all of his work, and most likely thoughts as well. He also attempted to claim that scientists of his time were looking in the wrong place for their understanding of electricity, and that they were only observing "one half of the whole concept" with "one sided tools of measurement". In addition to all these studies, he found the time to write this little booklet called "A Book in Every Home". Many believe the answers to the questions surrounding Coral Castle lie within. Indeed, every other

page is BLANK; did he purposefully leave room to interpret a code? Could all the answers to how this amazing feat was accomplished lie buried in this "social commentary"?

The Time Ship Enrique Gaspar 2012-07-05 H. G. Wells wasn't the only nineteenth-century writer to dream of a time machine. The Spanish playwright Enrique Gaspar published *El anacronópete*—"He who flies against time"—eight years before Wells's influential work appeared. The novel begins at the 1878 Paris Exposition, where Dr. Don Sindulfo unveils his new invention—which looks like a giant sailing vessel. Soon the doctor embarks on a voyage back in time, accompanied by a motley crew of French prostitutes and Spanish soldiers. The purpose of his expedition is to track down the imprisoned wife of a third-century Chinese emperor, believed to possess the secret to immortality. A classic tale of obsession, high adventure, and star-crossed love, *The Time Ship* includes intricately drawn illustrations from the original 1887 edition, and a critical introduction that argues persuasively for *The Time Ship*'s historical importance to science fiction and world literature.

LSD, My Problem Child Albert Hofmann 2005 This is the story of LSD told by a concerned yet hopeful father, organic chemist Albert Hofmann. He traces LSDs path from a promising psychiatric research medicine to a recreational drug sparking hysteria and prohibition. We follow Dr. Hofmanns trek across Mexico to discover sacred plants related to LSD, and listen in as he corresponds with other notable figures about his remarkable discovery. Underlying it all is Dr. Hofmanns powerful conclusion that mystical experience may be our planets best hope for survival. Whether induced by LSD, meditation, or arising spontaneously, such experiences help us to comprehend the wonder, the mystery of the divine in the microcosm of the atom, in the macrocosm of the spiral nebula, in the seeds of plants, in the body and soul of people. Now, more than sixty years after the birth of Albert Hofmanns problem child, his vision of its true potential is more relevant, and more needed, than ever.

Human Race Get Off Your Knees David Icke 2010 In a book that marks the author's 20th year of uncovering suppressed information, he takes the manipulation of the human race and the nature of reality to new levels of understanding and calls for humanity to rise from its knees and take back the world from the sinister network of families and non-human entities that covertly control us from cradle to grave. Original.

Caliban and the Witch Silvia Federici 2004 Literary Nonfiction. CALIBAN AND THE WITCH is a history of the body in the transition to capitalism. Moving from the peasant revolts of the late Middle Ages to the witch-hunts and the rise of mechanical philosophy, Federici investigates the capitalist rationalization of social reproduction. She shows how the battle against the rebel body and the conflict between body and mind are essential conditions for the development of labor power and self-ownership, two central principles of modern social organization. "It is both a passionate work of memory recovered and a hammer of humanity's agenda." Peter Linebaugh, author of *The London Hanged*"

The House of Ulloa Emilia Pardo Bazán 2013-08-01 This rich and unforgettable story of sexual intrigue and political scheming, written by the Spanish feminist and intellectual Emilia Pardo Bazan, deserves recognition as one of the great nineteenth-century novels. The House of Ulloa follows pure and pious Father Julián Alvarez, who is sent to a remote country estate to put the affairs of the marquis, an irresponsible libertine, in order. When he discovers moral decadence, cruelty and corruption at his new home, Julián's well-meaning but ineffectual attempts to prevent the fall of the House of Ulloa end in tragedy. The House of Ulloa is the finest achievement of Emilia Pardo Bazán, a prolific writer, feminist, traveller and intellectual, and one of the most dynamic figures of her time. Fans of Zola or Hardy will enjoy the novel's rich naturalism, which combines gothic elements with evocative descriptions of Spanish customs and the countryside. At the same time, the novel evokes the social comedy of a Dickens or Thackeray with its biting social satire, frank exposure of sexual mores, and gentle mockery of its innocent hero-priest.

Inner Experience Georges Bataille 2014-07-22 Outlines a mystical theology and experience of the sacred founded on the absence of god. Originally published in 1943, *Inner Experience* is the single most significant work by one of the twentieth century's most influential writers. It outlines a mystical theology and experience of the sacred founded on the absence of god. Bataille calls *Inner Experience* a "narrative of despair," but also describes it as a book wherein "profundity and passion go tenderly hand in hand." Herein, he says, "The mind moves in a strange world where anguish and ecstasy take shape." Bataille's search for experience begins where religion, philosophy, science, and literature leave off, where doctrines, dogmas, methods, and the arts collapse. His method of meditation, outlined and documented here, commingles horror and delight. Laughter, intoxication, eroticism, poetry, and sacrifice are pursued not as ends in and of themselves but as means of access to a sovereign realm of inner experience. This new translation is the first to include *Method of Meditation and Post-Scriptum* 1953, the supplementary texts Bataille added to create the first volume of his *Summa Atheologica*. This edition also offers the full notes and annotations from the French edition of Bataille's *Oeuvres Complètes*, along with an incisive introductory essay by Stuart Kendall that situates the work historically, biographically, and philosophically.

Myself with Others Carlos Fuentes 2013-05-14 In *Myself with Others*, Fuentes has assembled essays reflecting three of the great elements of his work: autobiography, love of literature, and politics. They include his reflections on his beginning as a writer, his celebrated Harvard University commencement address, and his trenchant examinations of Cervantes, Gabriel Garcia Marquez, and Borges.

Expressionism and Film Rudolf Kurtz 2016-03-21 *Expressionism and Film*, originally published in German in 1926, is not only a classic of film history, but also an important work from the early phase of modern media history. Written with analytical brilliance and historical vision by a well-known contemporary of the expressionist movement, it captures Expressionism at the time of its impending conclusion—as an intersection of world view, resoluteness of form, and medial transition. Though one of the most frequently-cited works of Weimar culture, Kurtz's groundbreaking work, which is on a par with Siegfried Kracauer's *From Caligari to Hitler* and Lotte Eisner's *The Haunted Screen*, has never been published in English. Its relevance and historical contexts are analyzed in a concise afterword by the Swiss scholars Christian Kiening and Ulrich Johannes Beil.

The Art of Life Zygmunt Bauman 2013-05-20 In our individualized society we are all artists of life – whether we know it or not, will it or not and like it or not, by decree of society if not by our own choice. In this society we are all expected, rightly or wrongly, to give our lives purpose and form by using our own skills and resources, even if we lack the tools and materials with which artists' studios need to be equipped for the artist's work to be conceived and executed. And we are praised or censured for the results – for what we have managed or failed to accomplish and for what we have achieved and lost. In our liquid modern society we are also taught to believe that the purpose of the art of life should be and can be happiness – though it's not clear what happiness is, the images of a happy state keep changing and the state of happiness remains most of the time something yet-to-be-reached. This new book by Zygmunt Bauman – one of the most original and influential social thinkers writing today – is not a book of designs for the art of life nor a 'how to' book: the construction of a design for life and the way it is pursued is and cannot but be an individual responsibility and individual accomplishment. It is instead a brilliant account of conditions under which our designs-for-life are chosen, of the constraints that might be imposed on their choice and of the interplay of design, accident and character that shape their implementation. Last but not least, it is a study of the ways in which our society – the liquid modern, individualized society of consumers – influences (but does not determine) the way we construct and narrate our life trajectories.

The Demon-Haunted World Carl Sagan 1997-02-25 A prescient warning of a future we now inhabit, where fake news stories and Internet conspiracy theories play to a disaffected American populace "A glorious book . . . A spirited defense of science . . . From the first page to the last, this book is a manifesto for clear thought."—Los Angeles Times How can we make intelligent decisions about our increasingly technology-driven lives if we don't understand the difference between the myths of pseudoscience and the testable hypotheses of science? Pulitzer Prize-winning author and distinguished astronomer Carl Sagan argues that scientific thinking is critical not only to the pursuit of truth but to the very well-being of our democratic institutions. Casting a wide net through history and culture, Sagan examines and authoritatively debunks such celebrated fallacies of the past as witchcraft, faith healing, demons, and UFOs. And yet, disturbingly, in today's so-called information age, pseudoscience is burgeoning with stories of alien abduction, channeling past lives, and communal hallucinations commanding growing attention and respect. As Sagan demonstrates with lucid eloquence, the siren song of unreason is not just a cultural wrong turn but a dangerous plunge into darkness that threatens our most basic freedoms. Praise for *The Demon-Haunted World* "Powerful . . . A stirring defense of informed rationality. . . Rich in surprising information and beautiful writing."—The Washington Post Book World "Compelling."—USA Today "A clear vision of what good science means and why it makes a difference. . . A testimonial to the power of science and a warning of the dangers of unrestrained credulity."—The Sciences "Passionate."—San Francisco Examiner-Chronicle

The Picture Of Dorain Gray

Hopscotch Julio Cortazar 2014-08-05 Translated by Gregory Rabassa, winner of the National Book Award for Translation, 1967 Horacio Oliveira is an Argentinian writer who lives in Paris with his mistress, La Maga, surrounded by a loose-knit circle of bohemian friends who call themselves "the Club." A child's death and La Maga's disappearance put an end to his life of empty pleasures and intellectual acrobatics, and prompt Oliveira to return to Buenos Aires, where he works by turns as a salesman, a keeper of a circus cat which can truly count, and an attendant in an insane asylum. *Hopscotch* is the dazzling, freewheeling account of Oliveira's astonishing adventures.

A Vindication of the Rights of Men Mary Wollstonecraft 2017 In 1790 came that "extraordinary outburst of passionate intelligence," Mary Wollstonecraft's reply to Edmund Burke's attack on the principles of the French Revolution entitled a "Vindication of the Rights of Men." In this

pamphlet she held up to scorn Burke's defence of monarch and nobility, his merciless sentimentality. "It is one of the most dashing political polemics in the language," Mr. Taylor writes enthusiastically, "and has not had the attention it deserves. . . . For sheer virility and grip of her verbal instruments it is probably the finest of her works. Some of her sentences have the quality of a sword-edge, and they flash with the rapidity of a practised duellist. It was written at a white heat of indignation; yet it is altogether typical of the writer that, in the midst of the work, quite suddenly, she had one of her fits of callousness and morbid temper, and declared she would not go on. With great skill Johnson persuaded her to take it up again; and with equal suddenness her eagerness returned, and the book was finished and published before any one else could answer Burke."

Terra Nostra Carlos Fuentes 2003 One of the great masterpieces of modern Latin American fiction, *Terra Nostra* is concerned with nothing less than the history of Spain and of South America, with the Indian Gods and with Christianity, with the birth, the passion, and the death of civilizations. Fuentes skillfully blends a wide range of literary forms, stories within stories, Mexican and Spanish myth, and famous literary characters in this novel that is both a historical epic and an apocalyptic vision of modern times. *Terra Nostra* is that most ambitious and rare of creations—a total work of art.

Living My Life Emma Goldman 2006-04-04 Anarchist, journalist, drama critic, advocate of birth control and free love, Emma Goldman was the most famous—and notorious—woman in the early twentieth century. This abridged version of her two-volume autobiography takes her from her birthplace in czarist Russia to the socialist enclaves of Manhattan's Lower East Side. Against a dramatic backdrop of political argument, show trials, imprisonment, and tempestuous romances, Goldman chronicles the epoch that she helped shape: the reform movements of the Progressive Era, the early years of and later disillusionment with Lenin's Bolshevik experiment, and more. Sounding a call still heard today, *Living My Life* is a riveting account of political ferment and ideological turbulence. First time in Penguin Classics Condensed to half the length of Goldman's original work, this edition is accessible to those interested in the activist and her extraordinary era
