**When Rain Clouds Gather** Bessie Head 2013-09-23 Rural Botswana is the backdrop for *When Rain Clouds Gather*, the first novel published by one of Africa's leading woman writers in English, Bessie Head (1937–1986). Inspired by her own traumatic life experiences as an outcast in Apartheid South African society and as a refugee living at the Bamangwato Development Association Farm in Botswana, Head's tough and telling classic work is set in the poverty-stricken village of Golema Mmidi, a haven to exiles. A South African political refugee and an

Englishman join forces to revolutionize the villagers' traditional farming methods, but their task is fraught with hazards as the pressures of tradition, opposition from the local chief, and the unrelenting climate threaten to divide and devastate the fragile community. Head's layered, compelling story confronts the complexities of such topics as social and political change, conflict between science and traditional ways, tribalism, the role of traditional African chiefs, religion, race relations, and male-female relations.

**Law of Persons** Trynie Boezaart 2010 "The law of persons is a dynamic area of the law, and it is this dynamic nature that generates interest in this subject and makes it stimulating to teach and learn. Law of Persons seeks to make this subject area accessible to students, including first-year students. In the law of persons, the common law and legislation have been harmonised with the spirit, purport and objects of the Bill of Rights, while the values entrenched

in the Constitution are permeating every area of the law. The greatest change in our law of persons to date has been the Children's Act 38 of 2005: it had redefined basic concepts, it has revolutionised the parent-child relationship, it has ended the labelling of children in terms of their parents' marital status and it has radically altered the legal status of unmarried fathers. Law of Persons is also available in Afrikaans, and should ideally be used in conjunction with Personeregbronnebundel / Law of Persons Sourcebook"--Provided by publisher.

**Becoming a teacher** Josef de Beer 2020-12-31 This book disseminates original research on learning in and from practice in pre-service teacher education. Authors such as Lederman and Lederman describe the student teaching practicum (or work-integrated learning [WIL]), which is an essential component of pre-service teacher education, as the 'elephant in the room'. These authors note that 'the capstone experience in any teacher education programme is the student teaching practicum... [a]fter all, this is where the rubber hits the road'. However, many teacher educators will agree that this WIL component is sometimes very insufficient in assisting the student teacher to develop their own footing and voice as a teacher. This is the 'gap' that this research book addresses. Most of the chapters in the book report empirical data, with the exception of two chapters that can be categorized as systematic reviews. WIL is addressed from various angles in the chapters. Chapter 6 focuses on research related to what makes Finnish teacher education so effective, and in Chapter 4 researchers of the University of Johannesburg disseminate their findings on establishing a teaching school (based on Finnish insights) in Johannesburg. Chapter 3 highlights the challenges faced in open-and distance learning teacher education contexts. Several of the chapters disseminate research findings on alternative interventions to classic WIL, namely, where "safe spaces" or laboratories are created for student teachers to learn and grow professionally. These could either be simulations, such as software programmes and avatars in the intervention described in Chapter 2; student excursions, as the findings in chapters 5, 7 and 10 portray; or alternative approaches to WIL (e.g. Chapters 11 and 12). The book is devoted to scholarship in the field of pre-service teacher education. The target audience is scholars working in the fields of pre-service teacher education, work-integrated learning, and self-directed learning. The book makes a unique contribution in terms of firstly its extensive use of Cultural-Historical Activity Theory as a research lens, and secondly in drawing on various theoretical frameworks. Both quantitative and qualitative research informed the findings of the book.

particularly in this first book of poems, *An African Elegy*, but also in his books of short stories and prize-winning novel *The Famished Road*. Okri's dreams are made on the stuff of Africa's colossal economic and political problems, and reading the poems is to experience a constant succession of metaphors of resolution in both senses of the word. Virtually every poem contains an exhortation to climb out of the African miasma, and virtually every poem harvests the dream of itself with an upbeat restorative ending' - Giles Foden, *Times Literary Supplement*

awareness of self. Sometimes melancholy, sometimes brutal, occasionally funny and infuriating, a journalist-comrade-lover caught up in the shade and shadow of politics and social injustice faces treachery and betrayal on every level. Set against the backdrop of a cityscape that taunts and tantalises, this is where love fails and passion wanes, "where suffering has no meaning", where an individual escapes death only to find himself confronted with choices wrought by remorse and retribution, by conscience and character. And yet, with all trauma, there is a distinct musicality to the lyrical unpacking that follows a string of small things ...
