**Beginner's Japanese** Helen Gilhooly 2003 Japanese has become increasingly popular as a language to learn in recent years, and a growing awareness of Japan has been created through industry, television, newspaper articles, Japanese events and exhibitions. 'Teach Yourself Beginner's Japanese' is the right course for you if you really want to learn Japanese but are daunted by the prospect of complicated grammar, classes and coursebooks. This book starts right from the beginning and explains everything in simple English. There are hints throughout to make learning easy and you can learn at your own pace with plenty of practice of each new point. It is a friendly introduction to the language which will help you to understand and speak Japanese sufficiently well to function effectively in basic everyday situations, both business and social. The course will also offer you an insight into Japanese culture and there is even an opportunity for you to learn some of the basics of reading Japanese if you want to. The book is divided into two main parts. Units 1-12 introduce you to the basic structures and grammatical points you'll need in everyday situations. Units 14-20 deal with everyday situations such as shopping, eating out, travelling, meeting a Japanese business person and entertaining a Japanese person in your home. They give you the opportunity to put into practice and consolidate the language you have learnt in the first 12 units. Unit 13 is a special unit designed to give you the chance to find out something about reading Japanese. If you would rather miss this unit out and concentrate on speaking and listening, you can do so without it affecting your understanding of the other units. All the Japanese in other units is given in romanization. By the end of the course you'll be able to communicate in a wide range of real-life situations and have all the practical information you need to enjoy your

next trip to Japan. Two accompanying cassettes or CDs are available separately or in a pack with the book. The leader in self-learning with more than 300 titles, covering all subjects. Be where you want to be with Teach Yourself.

**Maternity Nursing - Revised Reprint** Deitra Leonard Lowdermilk, RNC, PhD, FAAN 2013-11-25  
Designed to meet the needs of today's students, Lowdermilk's Maternity Nursing, 8th Edition - Revised Reprint addresses the fundamentals of maternity nursing with a concise, focused presentation of the care of women during the childbearing years. Integrating considerations for family, culture, and health promotion into the continuum of care, it also addresses community-based care to emphasize that nursing care takes place in many settings. Maternity Nursing focuses on childbearing issues and concerns, including care of the newborn, as well as wellness promotion and management of common women's health problems. Critical thinking exercises present case studies of real-life situations and corresponding critical thinking questions to help you develop your analytical skills. NEW! A helpful appendix identifies text content that reflects the QSEN competencies - patient-centered care, teamwork and collaboration, evidence-based practice, quality improvement, safety, and informatics - to assist you in developing competencies to provide safe and effective nursing care. NEW! Focus on the family recognizes the nurse's need to integrate the family in the care of the mother and newborn and the importance of the role of the mother to the wellbeing of the family. NEW! Content updates throughout, including information on the late preterm infant and associated concerns such as feeding; guidelines on prioritization and delegation where relevant; and centering pregnancy, a new model of health care that brings women together in groups for their care. NEW! Evidence-based practice content focuses your attention on how to use current research to improve patient outcomes. NEW! Improved readability helps you learn more efficiently with shorter, more focused content discussions. NEW! 21st Century Maternity Nursing: Culturally Competent, Community Focused chapter combines introductory material, culture, and community into one chapter to help you focus on key content and concepts.

NEW! Streamlined content highlights the most essential, need-to-know information.

Process provides a consistent organizational framework. More than 40 nursing skills are presented in a clear, 2-column format with rationales for all steps. Procedural Guidelines boxes provide streamlined step-by-step instructions for performing basic skills. Growth and Development chapter and age-related considerations throughout clinical chapters help prepare students to care for clients of all ages. Sample Nursing Care Plans highlight defining characteristics in assessment data, include client goals and expected outcomes in the planning section, and provide rationales for each nursing intervention. Progressive Case Studies follow the interactions of a client and nurse throughout the chapter to illustrate steps in the nursing process and develop critical thinking skills. Brief coverage of higher level concepts including research, theory, professional roles, and management, maintains the text's focus on essential, basic content. The narrative style makes the text more engaging and appealing. Focused Client Assessment boxes provide specific guidelines for factors to assess, questions and approaches, and physical assessment. Content on delegation is discussed throughout the narrative and specific guidelines are included for each skill. Skills now include Unexpected Outcomes and Interventions to alert for potential undesirable responses and provide appropriate nursing actions. Caring in Nursing is presented in a new chapter and as a thread throughout the text. Outcome Evaluation are based on the chapter's case study and provide guidelines on how to ask questions and evaluate care based on the answers received. NIC and NOC are discussed in the Nursing Process chapter to provide an overview of these taxonomies encountered in practice. NCLEX-style multiple-choice questions at the end of each chapter help students evaluate learning.

**Child Health Nursing** Jane W. Ball 2018-04-23 For courses in Pediatric Nursing. A comprehensive survey of family-centered pediatric nursing care Child Health Nursing: Partnering with Children & Families promotes excellence in nursing care for infants, children, and adolescents--in hospitals and in the community. It focuses on the importance of partnering with families to adapt care plans for children based on their age, health status, and social and cultural influences. The text considers the impact of contemporary care environments on nursing practice, both in health promotion and in the care of children with acute or chronic health conditions. By offering industry best practices and practical applications, the book encourages students to apply evidence-based findings and clinical reasoning to planning superior care. The updated 3rd edition explains how modern nursing practice is affected by reforms to healthcare and its delivery--such as electronic health records, new approaches to chronic and acute condition management, and a focus on prevention. To support safe, effective, and innovative care, this edition draws on the latest recommendations of NANDA International diagnoses, Nursing Intervention Classifications (NIC), Nursing Outcomes Classifications (NOC), and Healthy People 2020.
