on Surviving Cancer . New chapter on Nursing Informatics . 3 new Canadian section editors . An all-new Canadian editorial advisory board . Over 55 contributors from across the country . Emphasis on the Media Resources that accompany each chapter help to detail the comprehensive electronic resources available for that specific topic . Addition of new Nursing Story boxes that describe real-life scenarios . Increased emphasis on nurse and client safety, including Safety Alerts embedded throughout the text that highlight safe practices and techniques . New appendix on laboratory values

Concepts for Nursing Practice Jean Giddens 2017 "This innovative interactive text explains 58 of the most common nursing concepts - including six all new concepts - that span the areas of patient physiology, patient behavior, and the professional nursing environment. Featured exemplars for each concept are also discussed to help you more easily understand the concepts and apply them to the clinical setting. In addition to more concepts and featured exemplar sections, this new second edition also boasts a more intuitive organization and review questions for both RN and LPN/LVN programs"--Publisher.

Basic Nursing Leslie S Treas 2013-09-04 Thinking. Doing Caring. In every chapter, you'll first explore the theoretical knowledge behind the concepts, principles, and rationales. Then, you'll study the practical knowledge involved in the processes; and finally, you'll learn the skills and procedures. Student resources available at DavisPlus (davisplus.fadavis.com).

Brunner & Suddarth's Textbook of Medical-Surgical Nursing Suzanne C. Smeltzer, R.N. 2012-06-29

The Other End of the Stethoscope Marcus Engel 2006 Supporting Career and Personal Development.

Canadian Maternity and Pediatric Nursing Jessica Webster 2019-08-14 Canadian Maternity and Pediatric Nursing prepares your students for safe and effective maternity and pediatric nursing practice. The content provides the student with essential information to care for women and their families, to assist them to make the right choices safely, intelligently, and with confidence.

Prioritization, Delegation, and Assignment Linda A. LaCharity 2010
Prioritization, Delegation, and Assignment: Practice Exercises for the NCLEX® Examination is the only review book on the market with a focus on prioritization and management of care-just like the current NCLEX Examination itself! The workbook's unique approach establishes your foundational knowledge and then provides exercises of increasing difficulty to help you build confidence in your prioritization, delegation, and patient assignment skills. It offers unique preparation for the NCLEX Examination and effectively equips you to practice in today's fast-paced healthcare environment. The only workbook available that provides in-depth practice with prioritization, delegation, and assignment questions similar to those you'll see on the NCLEX Examination, including questions in alternate item formats Unique three-part organization

that (1) equips you with foundational skills to make sound decisions, then helps you apply those skills (2) in straightforward scenarios and (3) then in complex health scenarios In-depth Answer Key at the back of the book that provides not only the correct answer but also a detailed rationale and an indication of the focus of the question, whether prioritization, delegation, supervision, or patient assignment. Expanded content focus to include psychiatric/mental health, OB/maternity, and pediatrics along with med-surg areas New chapters on infection control and obstetrics and maternity Greater emphasis on questions involving core body systems and related health problems, such as diabetes and cancer, to best prepare you for the conditions you are most likely to encounter on the NCLEX Examination and in clinical practice Four new unfolding cases addressing long-term care, pediatrics, psychiatric/mental health nursing, and OB/maternity Additional emphasis on medication safety equips you to take appropriate actions to prevent or remediate medication errors Multiple-select questions revised to include at least 5 response choices each, keeping you up to date with the full range of NCLEX Examination item formats

ATI NurseNotes Nursing Q & A Sally Lagerquist 2006-01-01 Focusing on the content areas: medical, surgical, obstetric, pediatric and psychiatric care, ATI's Nursing Q&A: Critical-Thinking Exercises is designed to effectively provide the essential content you need in order to master all exams throughout nursing school, as well as achievement tests, and re-entry and challenge exams. Additional Features: * 75 cases representing situations that are encountered in all areas of nursing.* Exam preparation guide offering: tips and strategies for optimum performance, how to study effectively, how to prepare yourself emotionally, how to cope with exam anxiety, and how to take tests. * Reference codes are provided for all questions in this book. The codes represent four areas?nursing process, client needs and sub needs, cognitive level and human function. * Our questions-answers are designed to emphasize how to apply nursing process and transfer your knowledge of essential concepts and principles to a test question. * The questions included are field-tested to include relevant trends, latest knowledge and current practice, and are directly geared to the main clinical nursing content and behaviors currently covered on the NCLEX-RN?. * Complete answers with detailed rationale are included to help you understand the reason behind the best choice and to explain why the other choices can be eliminated. **As an added bonus, Nursing Q & A also includes a disc featuring over 340 NCLEX-RN? style review questions.

How to Pass Nursing School S. L. Page 2013-11-25 "How to Pass Nursing School" is a comprehensive book that covers all of the important aspects of nursing school. Unlike other books on this topic, this book will tell you all about nursing school--from A to Z! Nursing students often enter nursing school not knowing what to expect, and sometimes find themselves struggling to pass. Some students even become discouraged to the point of questioning whether or not they should quit or pursue a different degree. This guide was written to give students tips to pass, and to tell them exactly what to expect when attending nursing school. The author, S.L. Page, BSN, RN, currently works as a cardiac

nurse, and graduated from nursing school with honors. She passed the NCLEX test on her first try, and later went on to start a popular website, where she's helped thousands of people learn more about nursing. In this book, Sarah guides the reader through what to expect in nursing school from beginning to end, covering all of the things students can expect to face, and sharing all the tips, tricks, and resources she used along the way. Whether you're a current nursing student looking for ways to boost your performance, a high school student interested in preparing for nursing school, an adult looking to return for a nursing degree, or a recent graduate looking for tips to transition into your first job--this book can equip you with the tools and resources to help you succeed. Aside from this nursing school guide, you'll also receive a bundle of professionally designed resume and cover letter templates for submitting resumes after graduation, a printable weekly planner template to help you stay organized, and a printable flashcard template for making flashcards. All templates are in .doc or .docx format, and must be downloaded separately following instructions in the book itself. All of these resources are included with your purchase of "How to Pass Nursing School." These resources alone are worth the purchase price, but you'll get them free as a special gift when you purchase this book. It doesn't matter whether you know nothing about nursing school, or whether you're already in nursing school--this book has something for everyone. To see all of the topics covered in this book, use the "Look Inside" feature on Amazon. Here's just a sample of some of the topics covered: How to prepare for nursing school Tips for international students and returning adults Different types of nurses and degrees (LPN, RN, etc.) Sample curriculum and classes Paying for nursing school (scholarships, financial aid, etc.) Saving money on textbooks Information on care plans, clinicals, and nursing skills Nursing entrance, mid-curricular, and exit exams Studying and test-taking strategies NCLEX Nursing career information Common nursing specialties Preparing for interviews Preparing resumes and cover letters (you'll receive cover letter and resume templates) Tips to get a job and advance in your career and more Who will benefit most from this book? "How to Pass Nursing School" will best benefit the following readers: Adults or international student interested in returning to nursing school, or becoming a nurse in the U.S. (this guide will tell you what to expect) High school students planning to enter nursing school (you'll learn what to expect and how to prepare) For current nursing students, this guide will offer study tips, NCLEX tips, how to save money on books, scholarship resources, and more. If you're about to graduate nursing school (or a recent graduate)--you'll benefit from the professionally designed resume templates and cover letters, and advice on finding jobs and performing well in interviews.

Calculate with Confidence Deborah Gray Morris 2010 This popular text covers the ratio and proportion, formula, and dimensional analysis methods offering a step-by-step approach to the calculation and administration of drug dosages. With over 2,000 practice problems, Gray Morris focuses on enhancing the learning experience of nursing students at all curricular levels by making content clinically applicable. Calculate with Confidence, 6th Edition addresses the increasing responsibility of the nurse in medication administration,

Downloaded from avenza-dev.avenza.com

prioritizes client safety, and reflects the current scope of practice. Tips for Clinical Practice boxes call attention to information critical to math calculation and patient safety. Safety Alert boxes highlight issues that may lead to medication errors and empower you to identify actions that must be taken to avoid calculation errors Chapter review problems test all major topics presented in the chapter. Separate basic math review test allows you to assess and evaluate your understanding of basic math material covered in Unit 1, directing you to review chapters if you miss any of these test questions. Pre-test basic math review tests help you assess your basic math skills and identify areas of strength and weakness in competency of basic math. Comprehensive unit on basic math review offers complete coverage of basic math: roman numerals, fractions, decimals, ratio and proportion, and percentages. NEW! Integration of QSEN information related to patient safety in the Medication Administration chapter and throughout text. NEW! NCLEX-style questions on Evolve help prepare you for the NCLEX-RN Examination. NEW! Content additions and updates includes word problems involving dosages, Critical Thinking Scenarios, a discussion of the concepts regarding safety issues with medication administration, plus significant updates in the insulin, critical care and IV chapters. NEW! Reorganization of Answer Key features answers and the work to practice problems at the end of each chapter rather than in the back of the book.

THINK Like a Nurse! Keith A. Rischer 2013-09-03 About: To prepare you for real world practice, this book will highlight content areas most relevant to the bedside and why they must be mastered and understood. To help visualize the professional development that is needed as you transition to the responsibilities of the professional nurse, I use the metaphor of building a house; not a static structure, but a unique, vibrant "living" house that is a reflection of how you choose to build and add to it over time. Nursing is a living and vibrant practice that requires your personal involvement and engagement to promote the well-being of those you care for. The components of this "living" home include: Foundation: A house must have a firm and stable foundation. The ethical comportment or the art of nursing is this foundation for every nurse. Caring behaviors, nurse engagement, and professionalism in practice must be present or your nursing practice could be on shaky ground before it even begins! Walls: The applied sciences of nursing: pharmacology, fluid and electrolytes, and anatomy and physiology. I contextualize these sciences to the bedside so the relevance of mastering this content becomes apparent. Roof: Critical thinking and clinical reasoning, which is the thinking that is required by the nurse that completes the house and ties everything together. Skeletons in the closet: Every house has closets and some have a few skeletons in them! Incivility and men in nursing will be explored in detail!

mastery is already within you. Each one of us has within us the potential to be a Master. Learn the secrets of the field you have chosen, submit to a rigorous apprenticeship, absorb the hidden knowledge possessed by those with years of experience, surge past competitors to surpass them in brilliance, and explode established patterns from within. Study the behaviors of Albert Einstein, Charles Darwin, Leonardo da Vinci and the nine contemporary Masters interviewed for this book. The bestseller author of *The 48 Laws of Power*, *The Art of Seduction*, and *The 33 Strategies of War*, Robert Greene has spent a lifetime studying the laws of power. Now, he shares the secret path to greatness. With this seminal text as a guide, readers will learn how to unlock the passion within and become masters.

Code of Ethics for Nurses with Interpretive Statements American Nurses Association 2001 Pamphlet is a succinct statement of the ethical obligations and duties of individuals who enter the nursing profession, the profession's nonnegotiable ethical standard, and an expression of nursing's own understanding of its commitment to society. Provides a framework for nurses to use in ethical analysis and decision-making.

Advanced Strategic Planning Aubrey Malphurs 2005-08 Now in its second edition, this helpful guide offers a nine-step strategic thinking and acting model and numerous useful ideas for equipping a church to carry out its mission.

RN Community Health Nursing Edition 8. 0 Assessment Technologies Institute 2019-08

Fundamentals of U.S. Health Care Jahangir Moini 2017-04-07 All health care students must be familiar with the basic concepts of health care in the United States. This introductory textbook presents vital information on health care careers and legal, ethical, financial, and policy issues that will help their future practice. It includes chapters on: careers in the health care profession; the complexity of health care; the Patient Protection and Affordable Care Act; professionalism in health; health care for special populations; the Occupational Safety and Health Administration (OSHA) standards; research and advancements in health care; the future of health care. *Fundamentals of U.S. Health Care* is unique in the way it highlights the important elements of each health career, including job requirements, length of study, and salaries. With the student in mind, this book is accompanied by a website that features detailed PowerPoints and test banks with more than 1,000 review questions. Well-organized and easily understood, this overview provides a reliable, relevant resource and up-to-date reference. It is essential reading for all allied health students, including nurses, surgical technicians, dental hygienists, radiology technicians, medical assistants, pharmacy technicians, physician assistants, and more.

Nursing Fundamentals Mary Ann Hogan 2008 Essential for NCLEX, course and competency review, this resource is a complete, concentrated outline of nursing fundamentals. Each chapter contains objectives, pre- and post chapter

tests with comprehensive rationales, vocabulary review, practice to pass exercises, critical thinking case studies, as well as NCLEX alerts and new test-taking strategies. Content includes all of the "need-to-know" facts covering the nursing process, physical assessment, communication, professional standards, health promotion through the lifespan, and more.

Fundamentals of Nursing - E-Book Patricia A. Potter 2016-02-02 It's your complete guide to nursing – from basic concepts to essential skills! Fundamentals of Nursing, 9th Edition prepares you to succeed as a nurse by providing a solid foundation in critical thinking, evidence-based practice, nursing theory, and safe clinical care in all settings. With illustrated, step-by-step guidelines, this book makes it easy to learn important skills and procedures. Care plans are presented within a nursing process framework, and case studies show how to apply concepts to nursing practice. From an expert author team led by Patricia Potter and Anne Griffin Perry, this bestselling nursing textbook helps you develop the understanding and clinical reasoning you need to provide excellent patient care. 51 skills demonstrations provide illustrated, step-by-step instructions for safe nursing care – and include rationales for each step. 29 procedural guidelines provide streamlined, step-by-step instructions for performing basic skills. UNIQUE! Critical Thinking Models in each clinical chapter show how to apply the nursing process and critical thinking to achieve successful clinical outcomes. Evidence-Based Practice chapter shows how nursing research helps in determining best practices. UNIQUE! Caring for the Cancer Survivor chapter prepares nurses to care for cancer patients who may still face physical and emotional issues. Case studies include unique clinical application questions and exercises, allowing you to practice using care plans and concept maps. The 5-step nursing process provides a consistent framework for care, and is demonstrated in more than 20 care plans. 15 review questions in every chapter test your retention of key concepts, with answers available in the book and on the Evolve companion website. Practical study tools on Evolve include video clips of skills, skills checklists, printable key points, a fluid & electrolytes tutorial, a concept map creator, an audio glossary, and more. UNIQUE! Clear, streamlined writing style makes complex material more approachable. More than 20 concept maps show care planning for clients with multiple nursing diagnoses. Key points and key terms in each chapter summarize important content for more efficient review and study. Unexpected Outcomes and Related Interventions for each skill alert you to potential problems and appropriate nursing actions. Delegation coverage clarifies which tasks can and cannot be delegated. A glossary provides quick access to definitions for all key terms.

Curriculum Development and Evaluation in Nursing, Third Edition Sarah B. Keating, EdD, MPH, RN, C-PNP, FAAN 2014-09-16 "This is a detailed yet practical guide to planning, developing, and evaluating nursing curricula and educational programs. It provides a comprehensive and critical perspective on the totality of variables impacting curricular decisions... This book provides readers with a comprehensive overview of curriculum development, redesign, and evaluation processes and exposes them to the variables impacting curricular decisions..."

92 - 4 Stars."Kathleen A. Poindexter, PhD, MSN, RN, CNE, Doody's Book Reviews
New Edition of The Leading Nursing Text on Curriculum Development and
Evaluation! This third edition of the leading nursing text on curriculum
development and evaluation continues to address relevant NLN and AACN core
competencies for curricula in all undergraduate and graduate nursing programs.
Written for graduate students and faculty, this new edition responds to the
many changes that have occurred in nursing and education since the second
edition was published. These include the continued shortage of nursing faculty
and the projected additional losses of experienced faculty due to impending
retirements, as well as the implementation of the Affordable Care Act and
Consensus Model for Advanced Practice Nursing. This third edition covers
curriculum development and evaluation in detail and provides the knowledge and
practical applications needed by new and experienced faculty to confidently
embrace the academic role. With an emphasis on interdisciplinary collaboration
throughout, the text focuses on the growth of simulation, guidance for new
faculty transitioning from a clinical to academic role, developing curricula
for practice and academic settings, program evaluation, accreditation
activities, and recommendation for research in nursing education. Also
addressed is the explosion of DNP programs across the country and its effect on
practice and education, as well as the controversy surrounding the use of
simulation. Chapter objectives, discussion points, learning activities,
references and a glossary enhance learning and retention of material. The text
is a valuable resource for CNE certification review. New to the Third Edition:
New chapter: Role of Faculty in Curriculum Development and Evaluation
New chapter: Financial Support and Budget Management for Curriculum Development
New chapter: Research and Evidence-Based Practice in Nursing Education
Emphasis on guiding the assimilation of new instructors into faculty roles of program and
curriculum development, instructional design, and student evaluation
New content on curriculum evaluation, financial support, and budget management
Strong focus on Interdisciplinary Educational Collaboration throughout
Addresses the need for preparing more faculty to educate thousands of new
nurses as defined by the IOM Report, the Affordable Care Act, and the Consensus
Model
Instructor Materials including: PowerPoint slides, syllabi,
teaching/learning strategies, learning activities and associated rubrics for
grading.

Fundamentals of Nursing Care Marti A. Burton 2011-01-15 Rely on this study
guide to master the principles, concepts, and skills that are the foundation of
your nursing education. At the same time, you'll be honing the critical
thinking and problem-solving skills essential to your success in the classroom
and in practice. Each chapter features five types of exercises. All are
designed to reinforce what you're learning in class and clinical and to help
you identify areas for additional study. Perforated pages make it easy for you
to submit your assignments for evaluation.

RN Adult Medical Surgical Nursing Edition 11. 0 Assessment Technologies
Institute 2019-08

Clinical Calculations Joyce LeFever Kee 2000 This popular resource is still the only text to review all four major drug calculation methods: basic formula, ratio and proportion, fractional equation, and dimensional analysis. Practice problems help readers master each method so they can apply them effectively in practice. Completely updated throughout, this fourth edition provides the latest information on dosage calculations as well as the most current drug dosages.

Social Movements in Latin America Ronaldo Munck 2020-10-22 Social movements are a key feature of the political and social landscape of Latin America. Ronaldo Munck explores their full range, emanating from different sections of Latin American society and motivated by many different concerns, including worker organizations, peasant and land reform movements, Indigenous groups, women's movements, and environmental groups. Although the mosaic of interlocking and connected issues and rights presents a complex map of social concerns and potentially a fragmented political force, these movements are likely to be at the centre of any future progressive politics in Latin America. As a result, they require careful understanding and a more nuanced theoretical approach. Drawing on insights from Latin American approaches to social movement theory, the book offers a distinctive contribution to social movement literature. The text incorporates detailed case studies and a methodological appendix for students wishing to develop their own research agendas in the field.

Fundamentals of Nursing - Text, Virtual Clinical Excursions 3. 0 and Free Clinical Companion Package Patricia Ann Potter 2007-05-01 This convenient, money-saving package is a must-have for any nursing student! It includes Potter's Fundamentals of Nursing, 6th edition, Virtual Clinical Excursions 3.0, and a FREE Clinical Companion.

Pharm Phlash! Pharmacology Flash Cards Valerie I Leek 2017-12-01 These test-yourself review cards put critical clinical information for nearly 400 of the top generic medications.

From Novice to Expert Patricia Benner 2001 This coherent presentation of clinical judgement, caring practices and collaborative practice provides ideas and images that readers can draw upon in their interactions with others and in their interpretation of what nurses do. It includes many clear, colorful examples and describes the five stages of skill acquisition, the nature of clinical judgement and experiential learning and the seven major domains of nursing practice. The narrative method captures content and contextual issues that are often missed by formal models of nursing knowledge. The book uncovers

the knowledge embedded in clinical nursing practice and provides the Dreyfus model of skill acquisition applied to nursing, an interpretive approach to identifying and describing clinical knowledge, nursing functions, effective management, research and clinical practice, career development and education, plus practical applications. For nurses and healthcare professionals.

Writing about Writing Elizabeth Wardle 2014-01-10 Based on Wardle and Downs' research, the first edition of *Writing about Writing* marked a milestone in the field of composition. By showing students how to draw on what they know in order to contribute to ongoing conversations about writing and literacy, it helped them transfer their writing-related skills from first-year composition to other courses and contexts. Now used by tens of thousands of students, *Writing about Writing* presents accessible writing studies research by authors such as Mike Rose, Deborah Brandt, John Swales, and Nancy Sommers, together with popular texts by authors such as Malcolm X and Anne Lamott, and texts from student writers. Throughout the book, friendly explanations and scaffolded activities and questions help students connect to readings and develop knowledge about writing that they can use at work, in their everyday lives, and in college. The new edition builds on this success and refines the approach to make it even more teachable. The second edition includes more help for understanding the rhetorical situation and an exciting new chapter on multimodal composing. The print text is now integrated with e-Pages for *Writing about Writing*, designed to take advantage of what the Web can do. The conversation on writing about writing continues on the authors' blog, *Write On: Notes on Writing about Writing* (a channel on Bedford Bits, the Bedford/St. Martin's blog for teachers of writing).

Ackley and Ladwig's Nursing Diagnosis Handbook Mary Beth Flynn Makic 2022-04-12 Create individualized nursing care plans with ease and confidence! *Ackley and Ladwig's Nursing Diagnosis Handbook, 13th Edition* uses an easy, three-step system to guide you through client assessment, nursing diagnosis, and care planning. Step-by-step instructions show how to implement care and evaluate outcomes, and help you build skills in diagnostic reasoning and critical thinking. To make care planning easier, this handbook allows you to look up nursing diagnoses and care plans for more than 1450 client symptoms, as well as interventions from NIC (Nursing Interventions Classification) and outcomes from NOC (Nursing Outcomes Classification). Edited by noted nursing educators Mary Beth Flynn Makic and Marina Reyna Martinez-Kratz, this reference provides everything you need to write nursing care plans in just one book! Easy-to-follow Sections I and II guide you through the nursing process and selection of appropriate nursing diagnoses. Step-by-step instructions show how to use the *Guide to Nursing Diagnoses* and *Guide to Planning Care* sections to create a unique, individualized plan of care. UNIQUE! Care plans are provided for each NANDA-International(c) (NANDA-I(c)) -approved nursing diagnosis. Evolve website includes a care plan template, case studies, review questions, and more! Evidence-based interventions and rationales include research studies and references supporting the use of each intervention. Examples of and suggested NIC interventions and NOC outcomes are presented in each care plan. Quality and

safety content emphasizes what must be considered to provide safe patient care, and includes QSEN content in Section I. Pediatric, geriatric, multicultural, and home care interventions are included as appropriate for plans of care. Index of NANDA-I(c) Diagnoses on the inside back cover of the book provides quick reference to page numbers. Alphabetical thumb tabs allow quick access to specific symptoms and nursing diagnoses. NEW! Updated content is based on the 2021-2023 NANDA-I(c)-approved nursing diagnoses and reflects new diagnoses, revised diagnoses, and retired diagnoses. NEW! Updated nursing diagnoses include class and domain information as consistent with the current NANDA-I.

Fundamentals of Nursing Sue C Delaune 2010-03-01 Containing almost 800 questions in an easy to use format, this unique study guide is an essential tool that reinforces the content presented in the core text. The variety of questions include critical thinking discussion questions, classroom and homework activities, and multiple response. Questions build on key concepts presented in the core text on a chapter-by-chapter basis. Varying levels of difficulty are included for self-adaptive learning and review.

Fundamentals of Nursing Patricia Ann Potter 2008-12-01 Learn fundamental nursing principles, concepts, and skills with ease! Fundamentals of Nursing, 8th Edition includes accurate, cutting-edge content, active learning strategies, and the latest evidence-based research to help you excel in your classes and prepare for success in today's competitive nursing field. An expert author team led by Patricia Potter and Anne Griffin Perry provides a trusted, comprehensive resource, thoroughly reviewed by nursing experts and peers to ensure the most accurate content. With practical, fully integrated study support, this edition makes it easier than ever to build the understanding and clinical reasoning essential to providing excellent patient care.

Essentials of Nursing Leadership and Management Ruth M. Tappen 2004-01 This new edition focuses on preparing your students to assume the role as a significant member of the health-care team and manager of care, and is designed to help your students transition to professional nursing practice. Developed as a user-friendly text, the content and style makes it a great tool for your students in or out of the classroom. (Midwest).

Fundamentals of Nursing Review Module 6.1 Ati 2008 The overall goal of this Assessment Technologies Institute, LLC (ATI) Content Mastery Series module is to provide nursing students with an additional resource for the focused review of "Fundamentals for nursing" content relevant to NCLEX preparation and entry level nursing practice.

Dosage Calculations Gloria D. Pickar 2006-08 The second edition of Dosage Calculations: A Ratio-Proportion Approach builds upon its core strengths-comprehensive math review, ratio-proportion method approach, full-color drug labels, and critical thinking assessment. The author's trusted three step method, Convert, Think, Calculate, trains users how to significantly reduce errors and increase their confidence in dosage calculation. The second edition includes a new chapter on Preventing Medication Errors and a new StudyWare CD, with 500 additional practice questions with answers and solutions. This edition has also been updated to reflect the most current drugs and protocol, including JCAHO's do-not-use list.
