*Pakistan Studies for B.A./B.Sc./B.Com./B.Sc. (home Economics)* Muḥammad Razā

Kāzmī 2007 Pakistan Studies is a compulsory subject for all B.A/B.Sc. and B.Com. students. This essential core textbook is comprehensive and covers the syllabi prescribed by the major public sector universities. The book provides a complete overview of the historical background and political development of Pakistan, the break-up of 1971 and the nuclearization of Pakistan. The Foreign Relations section deals with the role of world powers during the wars fought by Pakistan and Pakistan's relations with the South Asian and Middle Eastern countries. The economy and culture of Pakistan are also covered in great detail. This is the first definitive study of Pakistan in all its major aspects.

*The History of Illustration* Susan Doyle 2018-01-01 *History of Illustration'* covers image-making and print history from around the world, spanning from the ancient to the modern. Hundreds of color images show illustrations within their social, cultural, and technical context, while they are ordered from the past to the present. Readers will be able to analyze images for their displayed techniques, cultural standards, and ideas to appreciate the art form. This essential guide is the first history of illustration written by an international team of illustration historians, practitioners, and educators.

*Pakistan's Stability Paradox* Ashutosh Misra 2013-03-01 Pakistan, with the second largest Muslim population in the world, is a crucial country in the international system. It is an ally of the United States in the global 'war on terror' but is also regarded as a major bastion of some of the most active jihadist organisations. This book highlights and explores the paradoxes that characterise contemporary Pakistan from the simultaneous democratization and Islamization of civil society to the schizophrenic US-Pakistan relationship. The central theme of the book looks at Pakistan's stability paradox. Commentators and analysts have over recent years often suggested that Pakistan was on the verge of state 'failure' or collapse resulting from a myriad of dilemmas. Yet, remarkably the Pakistani state has proven to be more resilient. This book identifies not only the factors that are contributing to Pakistan's perceived instability but also those factors that have contributed to the state's resilience. Chapters explore this central paradox through three core dimensions of Pakistan's contemporary dilemmas – the domestic, regional and international dimensions.

**And Introduction to Ethics** William Lillie 2011
