Leaders in Educational Research María de Ibarrola 2014-11-04 In this volume fourteen fellows of the International Academy of Education, whose research work is known internationally, reflect upon the ways in which their careers have been shaped by early family influences, by random events and surprise opportunities, and by nascent intellectual interests and academic mentoring. The authors come from many different countries (Australia, Belgium, Cyprus, Germany, Greece, Israel, Mexico, South Africa, and the USA), and from a number of disciplinary or intellectual orientations including curriculum development, economics, educational measurement and statistical analysis, history, philosophy, policy analysis, program evaluation, psychology, and sociology. They come from diverse social and cultural backgrounds; and in many cases rose above the travails presented by wars, social unrest, and social injustice to attain an education that launched them eventually into a research career. On this path, many were unexpectedly assisted by established researchers who served as mentors or "enablers." Their personal stories, then, are of broad

interest - and may even be a source of comfort and inspiration to younger colleagues who are commencing their careers in the international educational research community.

I, Me, & Myself Vivek Mehrotra 2022-01-06 I, Me, & Myself is the story of a professional who unfortunately suffers a heart attack, forcing him to rest. While he is on the bed away from his daily routine, he gets an opportunity to introspect his life. He discovers two different voices within him, which keep sharing their contradictory remarks. One that always urges to follow the path of righteousness, whereas the other acts as a devil's advocate, always putting forward a conflicting idea or an opinion. Their contradicting stances puzzle the author as he finds it extremely difficult to ascertain who is right. Based on various triggers while introspecting his life's events, the author beautifully personified the role of three components of the human psyche, i.e., 'id', 'ego' and 'super-ego'. The 'id' allures us towards the pursuit of all sorts of pleasure, whereas the 'super-ego' coerces us to pursue ideological goals and perfection. In between these two, 'ego' makes us aware of reality, playing the role of a referee; controlling, guiding, moderating the desires of the 'id' and the 'super-ego'. Readers will undoubtedly be able to identify with the situations they face daily in the corporate world alongside dealing with what keeps happening in their personal lives. The book offers multiple takeaway messages on various topics that will help readers both personally and professionally.

Memory of Beheram Farida J Manekshah 2016-12-01 Looking out across Karachi from the palace veranda you might be forgiven for thinking that you were in Tenerife. There were palm trees. Floral-painted buses forcing their way through the crowd. Street vendors selling savoury fritters from wicker baskets. Others walked like chain-men with buckets and tin cups swinging by their side as they sold water to the thirsty. Everywhere the 'toot-toot' of motor vehicles. There was a vibrancy in this young country, which had achieved independence scarcely five years before. During school holidays, when I was not attending the posh Mama Parsi High School, I might be travelling in a Jeep on one of Papa's many business trips to Afghanistan or India. But for the spoiled favourite daughter of a rich Persian Zoroastrian family, having everything was not enough. I had to throw it all away.

Che in Paona Bazar Kishalay Bhattacharjee 2013-04-11 North-East India is not an Imagined community, ' separated from the politics and policies that govern the rest of the country. It is as real as the violence that has torn the land apart, leaving its people grappling for a semblance of normalcy, if nothing

else. The north-east isn't just a hotbed for insurgency and deadly casual encounters, a stopover on every international rock band's schedule, or where used syringes lie waiting in dark alleys. There are other realities as well—of forbidden love, weddings, fascinating cuisines, childhood memories and other 'unimportant stories' that never made it to our newspapers and television screens.

What s The Sunshine Of Your Life Rakesh Deshpande 2019-02-28 Do you ever feel that you were born for a reason? A reason to fulfill a goal or a reason to complete the pending tasks or a reason to fight evil, raise the good and uphold the right? Well, if you don't believe that you are born for a reason and it's just an accident, then I suggest you rethink on it. You are the reason behind your parents' happiness. I strongly believe that a life is created to fulfill the needs of the truly needy. A need can be anything. Now, your life is a sunshine for someone else. Someone else will be your sunshine later and this cycle will always continue forever. I am referring to sunshine as a reason to live for someone or a goal, a reason to smile every day, a reason to hope to start another day and a reason to stay fit and healthy. I will continue expressing my views throughout the 25 chapters of this book. You may or may not agree with me, but I am sure this book will help you rethink about your relationships, positivity in life and provide you the motivation during the worst days of your life.
