The Deposit Slip Todd M. Johnson 2012-07-01 "Erin Larson is running out of options. In the wake of her father's death, she found a slim piece of paper--a deposit slip--with an unbelievable amount on it. Only the bank claims they have no record of the money, and trying to hire a lawyer has brought only intimidation and threats. Erin's last chance is Jared Neaton. When Jared wearied of the shady ethics of his big law firm and started his own, he never expected the wheels to fly off so quickly. One big loss has pushed him to the brink, and it's all he can do to scrape by. He's not sure if Erin's case is worth the risk, but if the money is real, all his problems could vanish. When digging deeper unleashes something far more dangerous than just threats, both Jared and Erin must decide the cost they're willing to pay to discover the truth" -- Cover verso.

Bank Funding Costs for International Banks Rita Babihuga 2014-04-30 This paper investigates the determinants of bank funding costs for a sample of internationally active banks from 2001–12. We find that changes in banks' unsecured funding costs are associated with bank-specific characteristics such as an institution's credit worthiness and the return on its market value, and importantly, on the level and quality of capital. Similarly, market factors such as the level of investor risk appetite, as well as shocks to financial markets—notably the US subprime crisis and the Euro Area sovereign debt crisis—have also been key drivers of the sharp rise in bank funding costs. We also find evidence that large systemically important institutions have enjoyed a funding advantage, and that this advantage has risen since the onset of the two crises. With the exception of Euro Area periphery banks, by end-2012 the rise in funding costs had generally been reversed for most major banks as a result of improvements in bank asset quality as well as steps taken to increase resilience, notably

higher capitalization. Our results suggest increased capital buffers may potentially support bank lending to the real economy by reducing bank funding costs.
