Fundamentals of Financial Accounting Fred Phillips 2021 "Fundamentals of Financial Accounting responds by using carefully chosen focus companies that students recognize and engage with in their everyday lives. From tech start-ups to some of the world's most familiar trademark brands, each chapter opens with an engaging scenario or story using a familiar company. The same focus company, such as Walmart, Cedar Fair, American Eagle, National Beverage, Under Armour, or General Mills, is used throughout the entire chapter so that students can see how the concepts and calculations apply to a real-world company they are already familiar with"--

Principles of Accounting Volume 2 - Managerial Accounting Mitchell Franklin 2019-02-14 A less-expensive grayscale paperback version is available. Search for ISBN 9781680922936. Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.

INTERMEDIATE ACCOUNTING in Q and A Folorunsho MEJABI 2017-01-02 "For the things we have to learn before we can do them, we learn by doing them." Aristotle once said. If we let ourselves, we shall always be waiting for some distraction or other to end before we can really get down to our work. The only people who achieve much are those who want knowledge so badly that they seek it while the conditions are still unfavourable. Favourable conditions never come. This book presents a new learning style evident with today's students and addresses accounting industry changes as well. This textbook is not written as a reference text, rather it is written in another form where knowledge can be bridged and tested through questions and answers in a multiple choice format. To gain most from the text, we would advise you to read topics relevant to the multiple choices so as to be able to attempt the questions raised. The answers to the questions are provided towards the back pages of the text. The book will not in small measure assists students in preparation for their regular academic and professional exams. Accounting has evolved over the years especially in the areas of standard setting and global inventions and innovations. The book basically covers intermediate and essential topics in financial accounting and & Reporting. It will help broaden the base of Finance Managers, accounting students, accountants, corporate gurus and managers of businesses. Don't forget that: Indeed, learning to write may be part of learning to read. For all I know, writing comes out of a superior devotion to reading.
