Constitutionalism Dieter Grimm 2016-09-08 Constitutionalism: Past, Present, and Future is the definitive collection of Dieter Grimm's most influential writings on constitutional thought and interpretation. The essays included in this volume explore the conditions under which the modern constitution could emerge; they treat the characteristics that must be given if the constitution may be called an achievement, the appropriate way to understand and interpret constitutional law under current conditions, the function of judicial review, the remaining role of national constitutions in a changing world, as well as the possibility of supra-national constitutionalism. Many of these essays have influenced the German and European discussion on constitutionalism and for the first time, much of the work of one of German's leading scholars of public law will be available in the English language.

Recasting German Federalism Charlie Jeffrey 1999-01-01 Understanding Germany's federal structure is crucial to understanding contemporary Germany. The federal system shaped the way German unification was carried out, it shapes the way in which policies are made, and it plays a role in determining the way in which Germany presents its priorities in the EU. The first part of the book analyzes the nature of pre-unification West German federalism and the unique challenge posed for the federal system by unification. Part 2 takes stock of key issues in the operation of post-unification federalism, including the policy process, the role of parties in federalism, conflicts of interest over financial allocations, and the impact of deepening European integration. The final part offers a series of critical perspectives which address the long-term legacies of unification and increasing pressures for reform.

Decisions of the Bundesverfassungsgericht (Federal Constitutional Court) Federal Republic of Germany Germany. Bundesverfassungsgericht 1992 This fourth volume of decisions of the Federal Republic of Germany's Federal Constitutional Court translated here into English deals with the law of freedom of faith and of the churches. In the more than 50 years of its history, the Federal Constitutional Court has dealt with matters in this field as varied as church tax, the installation of a crucifix on public premises, the taking of an oath, ritual slaughter, and religious education in schools. In order to make the decisions more accessible, the appendix contains an English version of the provisions of the Basic Law and the Weimar Constitution that are essential to understanding them. Like the previous volumes, Volume 4 also contains indices of key words and statutes, and an up-to-date list of all the members of the Federal Constitutional Court since 1951.

How Our Laws are Made John V. Sullivan 2007

Basic Law for the Federal Republic of Germany Deutschland 1974

The Constitutional Jurisprudence of the Federal Republic of Germany Donald P. Kommers 1997 Kommers's comprehensive work surveys the development of German constitutional doctrine between 1949, when the Federal Constitutional Court was founded, and 1996. Extensively revised and expanded to take into account recent

developments since German unification, this second edition describes the background, structure, and functions of the Court and provides extensive commentary on German constitutional interpretation, and includes translations of seventy-eight landmark decisions. These cases include the highly controversial religious liberty and free speech cases handed down in 1995.

The Constitution of the United States David P. Currie 2010-03-18 A masterly introduction to the United States Constitution, this slim book leads the reader through a concise overview of the document's individual articles and amendments. With clear and accessible language, Currie then examines each of the three branches of the federal government and explains the relation between the federal and state governments. He analyzes those constitutional provisions that are designed to protect citizens from governmental interference, such as the due process and equal protection clauses and the confusing first amendment provisions respecting the separation of church and state, and includes discussions of judicial review and freedom of speech and of the press. A sympathetic yet critical guide, Currie's book enables students and laypersons to understand one of the cornerstones of the Western political tradition. The second edition, along with an updated chronology and bibliography, incorporates the Supreme Court decisions over the past decade that have affected constitutional interpretation. "Superb . . . highly recommended for those seeking a reliable, understandable, and useful introduction to our constitution."—Appellate Practice Journal and Update

Facts about Germany 1975

The Basic Law (Grundgesetz) Axel Tschentscher 2002

The Constitutional Jurisprudence of the Federal Republic of Germany Donald P. Kommers 2012-11-09 The third edition of this renowned English-language guide to German constitutional law has been fully updated and significantly expanded to incorporate previously omitted topics and recent decisions of the German Federal Constitutional Court.

German Constitutional Law Christian Bumke 2019-02-21 This revised and fully up-to-date English translation of the 7th edition of the Casebook Verfassungsrecht includes a new outline of the German constitution, the BVerfG Court, and its jurisprudence. It condenses more than six decades of constitutional jurisprudence in order to familiarize readers with the style, technique, and language of the Court. As well as an analysis of the general principles of German constitutional law, the book covers the salient articles of the German Constitution and offers relevant extracts of the Court's most important decisions on the provisions of the Basic Law. It provides notes and discussions of landmark cases to illustrate their legal and historical context and give the reader a clear understanding of the principles governing German constitutional law. The book covers the fundamental rights catalogue of the Basic Law and offers a comprehensive account of its intellectual moorings. It includes landmark jurisprudence on the equal treatment of same-sex couples, life imprisonment, the legal structure of property, the right to assembly, and the right to informational self-presentation. The book also covers the provisions and respective case law governing the state structure of Germany, for instance the recent decisions on the prohibition of the far-right German nationalist party, and the Court's jurisprudence on European integration, including the

most recent decisions on the OMT-program of the European Central Bank.

Basic law for the Federal Republic of Germany, as adopted on 8 May, 1949 1949

The Federalist Papers Alexander Hamilton 2009-04-28 This authoritative edition of the complete texts of the Federalist Papers, the Articles of Confederation, the U.S. Constitution, and the Amendments to the U.S. Constitution features supporting essays in which leading scholars provide historical context and analysis. An introduction by Ian Shapiro offers an overview of the publication of the Federalist Papers and their importance. In three additional essays, John Dunn explores the composition of the Federalist Papers and the conflicting agendas of its authors; Eileen Hunt Botting explains how early advocates of women's rights, most prominently Mercy Otis Warren, Judith Sargent Murray, and Charles Brockden Brown, responded to the Federalist-Antifederalist debates; and Donald Horowitz discusses the Federalist Papers from the perspective of recent experiments with democracy and constitution-making around the world. These essays both illuminate the original texts and encourage active engagement with them.

The Basic Law (Grundgesetz) 2016 Axel Tschentscher 2016-07-08 The Basic Law, Germany's Constitution, has been frequently and substantially changed since coming into force in 1949. The fourth edition of this book consolidates the original text with all amendments up to and including the 60th Amendment of December 2014. There have been no further amendments yet. Therefore, the edition represents the current status in July 2016. The translation is part of 'International Constitutional Law' (ICL), an internet project on comparative constitutional law. The most recent update to this text can be found at www.jurisprudencia.de.
