The Beauty Myth Naomi Wolf 2009-03-17 The bestselling classic that redefined our view of the relationship between beauty and female identity. In today's world, women have more power, legal recognition, and professional success than ever before. Alongside the evident progress of the women's movement, however, writer and journalist Naomi Wolf is troubled by a different kind of social control, which, she argues, may prove just as restrictive as the traditional image of homemaker and wife. It's the beauty myth, an obsession with physical perfection that traps the modern woman in an endless spiral of hope, self-consciousness, and self-hatred as she tries to fulfill society's impossible definition of "the flawless beauty."

Carnal Thoughts Vivian Sobchack 2004-11-01 In these innovative essays, Vivian Sobchack considers the key role our bodies play in making sense of today's image-saturated culture. Emphasizing our corporeal rather than our intellectual engagements with film and other media, Carnal Thoughts shows how our experience always emerges through our senses and how our bodies are not just visible objects but also sense-making, visual subjects. Sobchack draws on both phenomenological philosophy and a broad range of popular sources to explore bodily experience in contemporary, moving-image culture. She examines how, through the conflation of cinema and surgery, we've all "had our eyes done"; why we are "moved" by the movies; and the different ways in which we inhabit photographic, cinematic, and electronic space. Carnal Thoughts provides a lively and engaging challenge to the mind/body split by demonstrating that the process of "making sense" requires an irreducible collaboration between our thoughts and our senses.

The 48 Laws Of Power Robert Greene 2010-09-03 THE MILLION COPY INTERNATIONAL BESTSELLER Drawn from 3,000 years of the history of power, this is the definitive guide to help readers achieve for themselves what Queen Elizabeth I, Henry Kissinger, Louis XIV and Machiavelli learnt the hard way. Law 1: Never outshine the master Law 2: Never put too much trust in friends; learn how to use enemies Law 3: Conceal your intentions Law 4: Always say less than necessary. The text is bold and elegant, laid out in black and red throughout and replete with fables and unique word sculptures. The 48 laws are illustrated through the tactics, triumphs and failures of great figures from the past who have wielded - or been victimised by - power.

(From the Playboy interview with Jay-Z, April 2003) PLAYBOY: Rap careers are usually over fast: one or two hits, then styles change and a new guy comes along. Why have you endured while other rappers haven't? JAY-Z: I would say that it's from still being able to relate to people. It's natural to lose yourself when you have success, to start surrounding yourself with fake people. In *The 48 Laws of Power*, it says the worst thing you can do is build a fortress around yourself. I still got the people who grew up with me, my cousin and my childhood friends. This guy right here (gestures to the studio manager), he's my friend, and he told me that one of my records, Volume Three, was wack. People set higher standards for me, and I love it.

Neo-Baroque Omar Calabrese 2017-03-14 A leading young Italian semiologist scrutinizes today's cultural phenomena and finds the prevailing taste to be "neo-baroque"--characterized by an appetite for virtuosity, frantic rhythms, instability, poly-dimensionality, and change. Omar Calabrese locates a "sign of the times" in an amazing variety of literary, philosophical, artistic, musical, and architectural forms, from the Venice Biennale through the "new science" to television series, video games, and "zapping" with the remote control device from channel to channel! Calabrese admits that he begins the book with a refusal to distinguish between "Donald Duck and Dante." Avoiding hierarchies or ghettos among works, he takes his readers on a fast-paced expedition through contemporary culture that closes with an elegant essay on evaluation and classical form. According to Calabrese, the enormous quantity of narrative now being produced has led to a new situation: everything has already been said, and everything has already been written. The only way of avoiding saturation has been to turn to a poetics of repetition. The author shows that pleasure in texts is now produced by tiny variations, and a certain kind of citation from other works has taken on a central importance that would have been unthinkable only a few years ago. In describing this development, and others shared by both avant-garde and mass media, he makes us aware of the rapid shrinkage in the once ample space between "highbrow" and "lowbrow." Outliers Malcolm Gladwell 2008-11-18 From the bestselling author of *Blink* and *The Tipping Point*, Malcolm Gladwell's *Outliers: The Story of Success* overturns conventional wisdom about genius to show us what makes an ordinary person an extreme overachiever. Why do some people achieve so much more than others? Can they lie so far out of the ordinary? In this provocative and inspiring book, Malcolm Gladwell looks at everyone from rock stars to professional athletes, software billionaires to scientific geniuses, to show that the story of success is far more surprising, and far more fascinating, than we could ever have imagined. He reveals that it's as much about where we're from and what we do, as who we are - and that no one, not even a genius, ever makes it alone. *Outliers* will change the way you think about your own life story, and about what makes us all unique. 'Gladwell is not only a brilliant storyteller; he can see what those stories tell us, the lessons they contain' *Guardian* 'Malcolm Gladwell is a global phenomenon ... he has a genius for making everything he writes seem like an impossible adventure' *Observer* 'He is the best kind of writer - the kind who makes you feel like you're a genius, rather than he's a genius' *The Times*

The Captains of Thor Robert Frump 2018-10-06 Was it the captain's fault, as many said? Or did the company, the Coast Guard and the American Bureau of Shipping all have a hand on the helm of the SS El Faro as she steered too close to Hurricane Joaquin? This is an examination of a tragedy that has been well-researched and investigated -- heroically so at times -- by the United States Coast Guard and the National Transportation Safety Board. Three very well-done books have been published. All of these efforts produced detailed recommendations and observations and all are publicly available. I commend them to you. My effort touches on the broad sweep and events of the tragedy and investigation, but if you want the detailed story of the final voyage of the ship, you're better off with the other books. My main goal here is to show how the SS El Faro fit into a larger system and culture -- one that I have been covering off and on as a journalist and author for 38 years. It's this system, I feel, that will result in another SS El Faro someday unless it is reformed. Another note on style. My preference in non-fiction is "narrative." In other words, whenever I can, I tell a story and show what is happening; I prefer that to "telling" the reader, because I think "showing" is more readily absorbed. Humans learn through stories. Story telling rather than a lecture better illustrates the emotions at play here, as well as the moods, culture and vibe of the ship and the industry. This does not mean I take a pure poetic license. The dialogue quoted here is real, not made up. The material is factual.

The Collected Writings of Michael Snow Michael Snow 2010-10-30 Writing, for Michael Snow, is as much a form of “art-making” as the broad range of visual art activities for which he is renowned, including the “Walking Woman” series and the film *Wavelength*. Conversely, many of the texts included in this

anthology are as significant visually as they are at the level of content – they are meant to be looked at as well as read. Situated somewhere between a repository of contemporary thought by one of our leading Canadian artists and a history book as it brings to light some important moments in the cultural life of Canada since the 1950s, these texts tell their own story, marking the passage of time, ideas and attitudes. The works included here, ranging from essays and interviews and record album cover notes to filmscripts and speeches (which, in Snow's hands, often fall into the category of performance art), are not only "built for browsing," they offer insights into both the professional and the private Snow. Together, they expand the context of Snow's work and show the evolution of a great Canadian artist, beginning with his early attempts at defining art, to his emergence and recognition on the international art scene. This book is one of four books that are part of the Michael Snow Project. Initiated by the Art Gallery of Ontario and The Power Plant Gallery, the project also includes four exhibitions of his visual art and music.

Summer Lightning P. G. Wodehouse 2012-07-02 "[Blandings] is an entire world unto itself and, one senses, Wodehouse pours into it his deepest feelings for England." –Stephen Fry The Honourable Galahad Threepwood has decided to write his memoir—a tell-all that could destroy polite society. Everyone wants this manuscript gone, particularly Lord Emsworth's neighbor Sir Gregory Parsloe-Parsloe, who would do anything to keep the story of the prawns buried in the past. But the memoir isn't the only problem. A chorus girl disguised as an heiress, a double-dealing detective, a stolen prize-winning sow, and a crazy ex-secretary are only a few of the complications that must be dealt with before everyone can have their happy ending.

Consilience E. O. Wilson 2014-11-26 "A dazzling journey across the sciences and humanities in search of deep laws to unite them." --The Wall Street Journal One of our greatest living scientists--and the winner of two Pulitzer Prizes for *On Human Nature* and *The Ants*--gives us a work of visionary importance that may be the crowning achievement of his career. In *Consilience* (a word that originally meant "jumping together"), Edward O. Wilson renews the Enlightenment's search for a unified theory of knowledge in disciplines that range from physics to biology, the social sciences and the humanities. Using the natural sciences as his model, Wilson forges dramatic links between fields. He explores the chemistry of the mind and the genetic bases of culture. He postulates the

biological principles underlying works of art from cave-drawings to Lolita. Presenting the latest findings in prose of wonderful clarity and oratorical eloquence, and synthesizing it into a dazzling whole, *Consilience* is science in the path-clearing traditions of Newton, Einstein, and Richard Feynman.

Make Room for TV Lynn Spigel 2013-11-26 Between 1948 and 1955, nearly two-thirds of all American families bought a television set—and a revolution in social life and popular culture was launched. In this fascinating book, Lynn Spigel chronicles the enormous impact of television in the formative years of the new medium: how, over the course of a single decade, television became an intimate part of everyday life. What did Americans expect from it? What effects did the new daily ritual of watching television have on children? Was television welcomed as an unprecedented "window on the world," or as a "one-eyed monster" that would disrupt households and corrupt children? Drawing on an ambitious array of unconventional sources, from sitcom scripts to articles and advertisements in women's magazines, Spigel offers the fullest available account of the popular response to television in the postwar years. She chronicles the role of television as a focus for evolving debates on issues ranging from the ideal of the perfect family and changes in women's role within the household to new uses of domestic space. The arrival of television did more than turn the living room into a private theater: it offered a national stage on which to play out and resolve conflicts about the way Americans should live. Spigel chronicles this lively and contentious debate as it took place in the popular media. Of particular interest is her treatment of the way in which the phenomenon of television itself was constantly deliberated—from how programs should be watched to where the set was placed to whether Mom, Dad, or kids should control the dial. *Make Room for TV* combines a powerful analysis of the growth of electronic culture with a nuanced social history of family life in postwar America, offering a provocative glimpse of the way television became the mirror of so many of America's hopes and fears and dreams.

Monstrous Imagination Marie-Hélène Huet 1993 What woeful maternal fancy produced such a monster? This was once the question asked when a deformed infant was born. From classical antiquity through to the Enlightenment, the monstrous child bore witness to the fearsome power of the mother's imagination. What such a notion meant and how it reappeared, transformed, in the Romantic period are the questions explored in this book, a study of theories linking imagination, art and monstrous progeny.

Jane Eyre Charlotte Brontë 2021-01-07 Primarily of the bildungsroman genre, *Jane Eyre* follows the emotions and experiences of its title character, including her growth to adulthood, and her love for Mr. Rochester, the byronic master of fictitious Thornfield Hall. In its internalisation of the action--the focus is on the gradual unfolding of Jane's moral and spiritual sensibility, and all the events are coloured by a heightened intensity that was previously the domain of poetry--*Jane Eyre* revolutionised the art of fiction. Charlotte Brontë has been called the 'first historian of the private consciousness' and the literary ancestor of writers like Joyce and Proust. The novel contains

elements of social criticism, with a strong sense of morality at its core, but is nonetheless a novel many consider ahead of its time given the individualistic character of Jane and the novel's exploration of classism, sexuality, religion, and proto-feminism.

A charmer rather than a fighter, he soon finds himself embroiled with a bandit gang, caught up in vicious court intrigues, and the plaything of an angry, beautiful, and very jealous goddess. While he struggles to establish himself in the capital, the country finds itself pitched into a civil war, and Quillifer, a unwilling soldier at best, finds himself caught up in the action, and able to tip the scales of fortune. It's the first volume in a new epic fantasy by bestselling and award-winning author Walter Jon Williams.

The Age of Globalization Benedict Anderson 2013-11-05 History is forged through the travel of ideas across continents—as well as by bombs. The Age of Globalization is an account of the unlikely connections that made up late nineteenth-century politics and culture, and in particular between militant anarchists in Europe and the Americas, and anti-imperialist uprisings in Cuba, China and Japan. Told through the complex intellectual interactions of two great Filipino writers—the political novelist José Rizal and the pioneering folklorist Isabelo de los Reyes—The Age of Globalization is a brilliantly original work on how global exchanges shaped the nationalist movements of the time.

Parables for the Virtual Brian Massumi 2021-08-27 Since its publication twenty years ago, Brian Massumi's pioneering *Parables for the Virtual* has become an essential text for interdisciplinary scholars across the humanities. Massumi views the body and media such as television, film, and the internet as cultural formations that operate on multiple registers of sensation. Renewing and assessing William James's radical empiricism and Henri Bergson's philosophy of perception through the filter of the postwar French philosophy of Deleuze, Guattari, and Foucault, Massumi links a cultural logic of variation to questions of movement, affect, and sensation. Replacing the traditional opposition of literal and figural with distinctions between stasis and motion and between actual and virtual, Massumi tackles related theoretical issues by applying them to cultural mediums as diverse as architecture, body art, the digital art of Stelarc, and Ronald Reagan's acting career. The result is an intriguing combination of cultural theory, science, and philosophy that asserts itself in a crystalline and multifaceted argument. This twentieth anniversary edition includes a new preface in which Massumi situates the book in relation to developments since its publication and outlines the evolution of its main concepts. It also includes two short texts, "Keywords for Affect" and "Missed Conceptions about Affect," in which Massumi explicates his approach to affect in ways that emphasize the book's political and philosophical stakes.

The Madwoman in the Attic Sandra M. Gilbert 2020-03-17 Called "a feminist classic" by Judith Shulevitz in the New York Times Book Review, this pathbreaking book of literary criticism is now reissued with a new introduction by Lisa Appignanesi that speaks to how *The Madwoman in the Attic* set the groundwork for subsequent generations of scholars writing about women writers, and why the book still feels fresh some four decades later. "Gilbert and Gubar have written a pivotal book, one of those after which we will never think the same again."--Carolyn G. Heilbrun, Washington Post Book World

The Audience Peter Morgan 2015-05-15 For sixty years, Queen Elizabeth II has met with each of her twelve Prime Ministers in a private weekly audience. The discussions are utterly secret, even to the royal and ministerial spouses. Peter Morgan imagines these meetings over the decades of the Queen's remarkable reign, through Prime Ministers from Winston Churchill and Margaret Thatcher to the 2015 incumbent David Cameron. *THE AUDIENCE* is a glimpse into the woman behind the crown, and the moments that have shaped the modern monarchy.

Network Aesthetics Patrick Jagoda 2016-03-22 The term "network" is now applied to everything from the Internet to terrorist-cell systems. But the word's ubiquity has also made it a cliché, a concept at once recognizable yet hard to explain. *Network Aesthetics*, in exploring how popular culture mediates our experience with interconnected life, reveals the network's role as a way for people to construct and manage their world—and their view of themselves. Each chapter considers how popular media and artistic forms make sense of decentralized network metaphors and infrastructures. Patrick Jagoda first examines narratives from the 1990s and 2000s, including the novel *Underworld*, the film *Syriana*, and the television series *The Wire*, all of which play with network forms to promote reflection on domestic crisis and imperial decline in contemporary America. Jagoda then looks at digital media that are interactive, nonlinear, and dependent on connected audiences to show how recent approaches, such as those in the videogame *Journey*, open up space for participatory and improvisational thought. Contributing to fields as diverse as literary criticism, digital studies, media theory, and American studies, *Network Aesthetics* brilliantly demonstrates that, in today's world, networks are something that can not only be known, but also felt, inhabited, and, crucially, transformed.

Locating Nordic Noir Kim Toft Hansen 2017-10-14 This book is a comprehensive study of Nordic Noir television drama from the 1990's until today. The authors introduce the history of contemporary Nordic Noir from the perspective of place, production and location studies. The chapters include readings of well-known television crime dramas such as *Beck*, *The Killing*, *Trapped* and *The Bridge* as well as a range of other important Nordic Noir cases. The authors position the development of Nordic Noir in the global market for popular television drama and place the international attention towards Nordic crime dramas within regional development of drama production in Sweden, Denmark, Norway and Iceland. The Devil In The White City Erik Larson 2010-09-30 'An irresistible page-turner that reads like the most compelling, sleep defying fiction' TIME OUT One was an architect. The other a serial killer. This is the incredible story of these two men and their realization of the Chicago World's Fair of 1893, and its amazing 'White City'; one of the wonders of the world. The architect was Daniel H. Burnham, the driving force behind the White City, the massive, visionary landscape of white buildings set in a wonderland of canals and gardens. The killer was H. H. Holmes, a handsome doctor with striking blue eyes. He used the attraction of the great fair - and his own devilish charms - to lure scores of young women to their deaths. While Burnham overcame politics, infighting, personality clashes and Chicago's infamous weather to transform the swamps of Jackson Park into the greatest show on Earth, Holmes built his own edifice just west of the fairground. He called it the World's Fair Hotel. In reality it was a torture palace, a gas chamber, a crematorium. These two disparate but driven men are brought to life in this mesmerizing, murderous tale of the legendary Fair that transformed America and set it on course for the twentieth century .

Time Travels Elizabeth Grosz 2005-06-22 Recently the distinguished feminist theorist Elizabeth Grosz has turned her critical acumen toward rethinking time and duration. *Time Travels* brings her trailblazing essays together to show how reconceptualizing temporality transforms and revitalizes key scholarly and political projects. In these essays, Grosz demonstrates how imagining different relations between the past, present, and future alters understandings of social and scientific projects ranging from theories of justice to evolutionary biology, and she explores the radical implications of the reordering of these projects for feminist, queer, and critical race theories. Grosz's reflections on how rethinking time might generate new understandings of nature, culture, subjectivity, and politics are wide ranging. She moves from a compelling argument that Charles Darwin's notion of biological and cultural evolution can potentially benefit feminist, queer, and antiracist agendas to an exploration of modern jurisprudence's reliance on the notion that justice is only immanent in the future and thus is always beyond reach. She examines Henri Bergson's philosophy of duration in light of the writings of Gilles Deleuze, Maurice Merleau-Ponty, and William James, and she discusses issues of sexual difference, identity, pleasure, and desire in relation to the thought of Deleuze, Friedrich Nietzsche, Michel Foucault, and Luce Irigaray. Together these essays demonstrate the broad scope and applicability of Grosz's thinking about time as an undertheorized but uniquely productive force.

Category In this hip, accessible primer to the music, literature, and art of Afrofuturism, author Ytasha Womack introduces readers to the burgeoning community of artists creating Afrofuturist works, the innovators from the past, and the wide range of subjects they explore. From the sci-fi literature of Samuel Delany, Octavia Butler, and N. K. Jemisin to the musical cosmos of Sun Ra, George Clinton, and the Black Eyed Peas' will.i.am, to the visual and multimedia artists inspired by African Dogon myths and Egyptian deities, the book's topics range from the "alien" experience of blacks in America to the "wake up" cry that peppers sci-fi literature, sermons, and activism. With a twofold aim to entertain and enlighten, Afrofuturists strive to break down racial, ethnic, and social limitations to empower and free individuals to be themselves.

The Philosophy of Film Noir Mark T. Conard 2005-01-27 An essay collection examining the philosophical elements of select films in noir cinema, as well as the genre's legacy in film and culture. A drifter with no name and no past, driven purely by desire, is convinced by a beautiful woman to murder her husband. A hard-drinking detective down on his luck becomes involved with a gang of criminals in pursuit of a priceless artifact. The stories are at once romantic, pessimistic, filled with anxiety and a sense of alienation, and they define the essence of film noir. Noir emerged as a prominent American film genre in the early 1940s, distinguishable by its use of unusual lighting, sinister plots, mysterious characters, and dark themes. From *The Maltese Falcon* (1941) to *Touch of Evil* (1958), films from this classic period reflect an atmosphere of corruption and social decay that attracted such accomplished directors as John Huston, Alfred Hitchcock, Billy Wilder, and Orson Welles. *The Philosophy of Film Noir* is the first volume to focus exclusively on the philosophical underpinnings of these iconic films. Drawing on the work of diverse thinkers, from the French existentialist Albert Camus to the Frankfurt school theorists Max Horkheimer and Theodor Adorno, the volume connects film noir to the philosophical questions of a modern, often nihilistic, world. Opening with an examination of what constitutes noir cinema, the book interprets the philosophical elements consistently present in the films—themes such as moral ambiguity, reason versus passion, and pessimism. The contributors to the volume also argue that the essence and elements of noir have fundamentally influenced movies outside of the traditional noir period. Neo-noir films such as *Pulp Fiction* (1994), *Fight Club* (1999), and *Memento* (2000) have reintroduced the genre to a contemporary audience. As they assess the concepts present in individual films, the contributors also illuminate and explore the philosophical themes that surface in popular culture. A close examination of one of the most significant artistic movements of the twentieth century, *The Philosophy of Film Noir* reinvigorates an intellectual discussion at the intersection of popular culture and philosophy. Praise for *The Philosophy of Film Noir* “The essays work both as solid primers into philosophy, stretching from Aristotle to Schopenhauer, and as lucid excursions into the genre's dark, mean streets. . . . A fascinating, readable, and provocative book. . . . Highly recommended.” —Choice “Dense and intriguing, the book suggests noir is best perceived as a slightly warped mirror held up to

contemporary society.” –Publishers Weekly
