3 Cavalry Division 6 Cavalry Brigade 6 Machine Gun Squadron 2015-04-27 The War Diaries for the Great War, held under WO95, represent one of the most popular record collections held at the National Archives, Kew, London. For researchers and family historians, the War Diaries contain a wealth of information of far greater interest than the army could ever have predicted. They provide unrivalled insight into daily events on the front line and are packed with fascinating detail. They contain no modern editing, opinions or poorly judged comments, just the war day by day, written by the men who fought this 'War to end all Wars. They are without question, the most important source of information available on the war on the Western Front. Full colour facsimile of each page with specially created chronological index. What is a War Diary? The headquarters of each unit and formation of the British Army in the field was ordered to maintain a record of its location, movements and activities. For the most part, these details were recorded on a standard army form headed 'War diary or intelligence summary'. What details are given? Details given vary greatly, depending on the nature of the unit, what it was doing and, to some extent, the style of the man writing it. The entries vary from very simple and repetitive statements like 'Training' up to many pages of description when a unit was in battle. Production of the diary was the responsibility of the Adjutant of the headquarters concerned. Is there any other information or documents with the diaries? Some diaries have other documentation attached, such as maps, operational orders and after-action reports.

Entwined with You Sylvia Day 2013-01-01 The worldwide phenomenon continues as Eva and Gideon face the demons of their pasts and accept the consequences of their obsessive desires . . . From the moment I first met Gideon Cross, I recognized something in him that I needed. Something I couldn't resist. I also saw the dangerous and damaged soul inside - so much like my own. I was drawn to it. I needed him as surely as I needed my heart to beat. No one knows how much he risked for me. How much I'd been threatened, or just how dark and desperate the shadow of our pasts would become. Entwined by our secrets, we tried to defy the odds. We made our own rules and surrendered completely to the exquisite power of possession . . . Praise for the Crossfire series: 'A hundred degrees hotter than anything you've read before.' multiband compression. This isn't another wishy-washy difficult to grasp book on mixing theory. I'm not in the camp of people who will tell you "It all depends." Well actually it does depend-- it depends on the situation. And there are only 2 situations a multiband compressor deals with: Transient Control and Volume Leveling on a per-frequency band basis. By identifying whether you need Transient Control or Volume Leveling you can then literally copy/paste any of my 17 techniques and get the sound you're after. If you know anything about my mixing philosophy then you know that I'm always aiming for 70% of my instruments to blend together and 30% of my instruments to contrast against that blended backdrop. This allows me to achieve more vibrant levels of contrast and with that 70/30 split a mix becomes increasingly more spacious and clear. This is how we create depth. We like depth. Depth is in fact the exacted result of the formulaic processes I teach. In the end mixing is art and I want the act of doing art to feel simple for you. I already went through my phase of hating presets and it only slowed down my progress. Once I realized that presets are just tutorials, my skills improved geometrically. I'm telling you this because at every level of mixing my primary goal is to simplify the process with set and forget presets. Every skilled producer/engineer I've met does this to some degree. Whether we realize it or not habitual mix decisions are in fact presets. As my students have already discovered in "The 3-Space Reverb Framework" and "The Bus Compression Masterclass," some of the most difficult parts of mixing are actually very formulaic. This means they can be replicated and repeated for consistent results across many mediums. Now in this book I'm giving you everything you need to know about multiband compression before even using it. I've then gone step by step through each of the 17 ways we use multiband compression. This means I explain exactly how to do something as well as why it works. These 17 step by step techniques will blow you away with their simplicity and effectiveness. You'll experience the types of actual results you've been needing to make those mental connections and reach the final tier of mixing. So buy your copy of Mastering Multi-Band Compression and you'll never be overwhelmed by Multiband Compression again.

Don't Unplug Chris Dancy 2018-09-18 Chris Dancy, the world's most connected person, inspires readers with practical advice to live a happier and healthier life using technology. In 2002, Chris Dancy was overweight, unemployed, and addicted to technology. He chain-smoked cigarettes, popped pills, and was angry and depressed. But when he discovered that his mother kept a record of almost every detail of his childhood, an idea began to form. Could knowing the status of every aspect of his body and how his lifestyle affected his health help him learn to take care of himself? By harnessing the story of his life, could he learn to harness his own bad habits? With a little tech know-how combined with a healthy dose of reality, every app, sensor, and data point in Dancy's life was turned upside down and examined. Now he's sharing what he knows. That knowledge includes the fact that changing the color of his credit card helps him to use it less often, and that nostalgia is a trigger for gratitude for him. A modern-day story of rebirth and redemption, Chris' wisdom and insight will show readers how to improve their lives by paying attention to the relationship between how we move, what we eat, who we spend time with, and how it all makes us feel. But Chris has done all the hard work: Don't Unplug shows us how we too can transform our lives.

For the Love of MONEY! Worldwide People's Revolution! 2020-01-03 *The Love of Money* is as Old as Civilization, or whenever People started Trading Goods and Services. Indeed, it has Produced what we call "Civilization," which is Defined by the Multitudes of Goods and Services, which are Centered around Eating and Drinking for the most Part, as well as Clothing, Houses, Tools, Workshops and Factories, which have Expanded the Horizons of Mankind to the Point of becoming Great Trash Collectors, who now have so much Trash that we are running Out of Space to put it all, while Cluttering Up the Land with Countless Ugly Buildings, Junkyards full of Rusting Vehicles, and Cemeteries full of Gravestones. BUT, where is the End of it? And what are the Lessons that we should be Learning from it all? Was there some Divine Purpose for it, since the Beginning of Time? Is the Glory of Mankind Measured by the Height of his

Skyscrapers, by the Mountains of his Debts, by the Number of his Cars, by the Fat on his Buttocks, or what? Yes, what is our Goal, in a Nutshell? Was it all Worth the Effort, Time, Energy, Money, and Sacrifices to get where we have gotten? Where have we gotten? Where are we Going to? Looking down on New York City from the Top of the Empire State Building, it Looks like one Giant Trash Dump, somewhat Neatly Stacked Up with Windows to Look Out of — at a Kind of Chaotic Mess with a couple of Streets running through it. No Plan, no Overall Goal, no Logical Purpose, no one in Charge of it — just a Giant MESS that somehow Functions, in spite of it all. In Fact, it only Looks really BAD when you go Digging into it, and Discover what is Actually going on down there, in that Hell Hole. Yes, it can be Depressing to Study it for very Long. Therefore, most People prefer to put it all Out of their Minds, and just Live one Day at a Time, and Hope to some God that the Enemy does not Drop a Hydrogen Bomb on it, and Transform it into a Radioactive Pile of Rubble, just beCause some Stupid Ignorant President Tweeted the wRong Message to the Wrong Person, who Spilled his Hot Coffee into his Crotch, and went into a RAGE!
