Kim Jiyong, Born 1982: A Novel Cho Nam-Joo 2020-04-14 A New York Times Editors Choice Selection A global sensation, Kim Jiyong, Born 1982 “has become...a touchstone for a conversation around feminism and gender” (Sarah Shin, Guardian). One of the most notable novels of the year, hailed by both critics and K-pop stars alike, Kim Jiyong, Born 1982 follows one woman’s psychic deterioration in the face of rampant misogyny. In a tidy apartment on the outskirts of Seoul, millennial “everywoman” Kim Jiyong spends her days caring for her infant daughter. But strange symptoms appear: Jiyong begins to impersonate the voices of other women, dead and alive. As she plunges deeper into this psychosis, her concerned husband sends her to a psychiatrist. Jiyong narrates her story to this doctor—from her birth to parents who expected a son to elementary school teachers who policed girls’ outfits to male coworkers who installed hidden cameras in women’s restrooms. But can her psychiatrist cure her, or even discover what truly ails her? “A social treatise as well as a work of art” (Alexandra Alter, New York Times), Kim Jiyong, Born 1982 heralds the arrival of international powerhouse Cho Nam-Joo.

Sentimental Education Gustave Flaubert 2016-03-03 'For certain men the stronger their desire, the less likely they are to act.' With his first glimpse of Madame Arnoux, Frédéric Moreau is convinced he has found his romantic destiny, but when he pursues her to Paris the young student is unable to translate his passion into decisive action. He also finds himself distracted by the equally romantic appeal of political action in the turbulent years leading up to the revolution of 1848, and by the attractions of three other women, each of whom seeks to make him her own: a haughty society lady, a capricious courtesan, and an artless country girl. Flaubert offers a vivid and unsparring portrait of the young men of his generation, struggling to salvage something of their ideals in a city where corruption, consumerism, and a pervasive sense of disenchantment undermine all but the most compromised erotic, aesthetic, and social initiatives. *Sentimental Education* combines thoroughgoing irony with an impartial but unexpectedly intense sympathy in a novel whose realism competes with that of Balzac and whose innovations in narrative plot and perspective mark a turning-point in the development of literary modernism. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

The Heart of the City Leonardo Zuccaro Marchi 2017-12-06 The Heart of the City concept, which was introduced at CIAM 8 in 1951, has played an important role in architectural and urban debates. The Heart became the most important of the organic references used in the 1950s for defining a theory of urban form. This book focuses on both the historical and theoretical reinterpretation of this seminal concept. Divided into two main sections, both looking at differing ways in which the Heart has influenced more recent urban thinking, it illustrates the continuity and the complexities of the Heart of the City. In doing so, this book offers a new perspective on the significance of public space and shows how The Heart of the City still resonates closely with contemporary debates about centrality, identity and the design of public space. It would be of interest to architects, academics and students of urban design and planning.

Negotiating Space Barbara H. Rosenwein 1999 This is an examination of how and why medieval kings declared certain properties immune from their own power. The author argues that they were not compelled by weakness, but rather by a need to show strength and reaffirm status and exercise authority, and that we need a new understanding of the political and social exchanges of the period. The declaration of immunities were really instruments used by kings and bishops to forge alliances with the noble families and monastic centres which were the essence of their authority.

Jacques Ellul and the Technological Society in the 21st Century Helena M. Jerónimo 2013-07-08 This volume rethinks the work of Jacques Ellul (1912-1994) on the centenary of his birth, by presenting an overview of the current debates based on Ellul's insights. As one of the most significant twentieth-century thinkers about technology, Ellul was among the first thinkers to realize the importance of topics such as globalization, terrorism, communication technologies and ecology, and study them from a technological perspective. The book is divided into three sections. The first discusses Ellul's diagnosis of modern society, and addresses the reception of his work on the technological society, the notion of efficiency, the process of symbolization/de-symbolization, and ecology. The second analyzes communicational and cultural problems, as well as threats and trends in early twenty-first century societies. Many of the issues Ellul saw as crucial – such as energy, propaganda, applied life sciences and communication – continue to be so. In fact they have grown exponentially, on a global scale, producing new forms of risk. Essays in the final section examine the duality of reason and revelation. They pursue an understanding of Ellul in terms of the depth of experience and the traditions of human knowledge, which is to say, on the one hand, the experience of the human being as contained in the rationalist, sociological and philosophical traditions. On the other hand there are the transcendent roots of human existence, as well as “revealed knowledge,” in the mystical and religious traditions. The meeting of these two traditions enables us to look at Ellul's work as a whole, but above all it opens up a space for examining religious life in the technological society.
