Grammar of Spoken and Written English Douglas Biber 2021-11-15 The completely redesigned Grammar of Spoken and Written English is a comprehensive corpus-based reference grammar. GSWE describes the structural characteristics of grammatical constructions in English, as do other reference grammars. But GSWE is unique in that it gives equal attention to describing the patterns of language use for each grammatical feature, based on empirical analyses of grammatical patterns in a 40-million-word corpus of spoken and written registers. Grammar-in-use is characterized by three inter-related kinds of information: frequency of grammatical features in spoken and written registers, frequencies of the most common lexico-grammatical patterns, and analysis of the discourse factors influencing choices among related grammatical features. GSWE includes over 350 tables and figures highlighting the results of corpus-based investigations. Throughout the book, authentic examples illustrate all research findings. The empirical descriptions document the lexico-grammatical features that are especially common in face-to-face-conversation compared to those that are especially common in academic writing. Analyses of fiction and newspaper articles are included as further benchmarks of language use. GSWE contains over 6,000 authentic examples from these four registers, illustrating the range of lexico-grammatical features in real-world speech and writing. In addition, comparisons between British and American English reveal specific regional differences. Now completely redesigned and available in an electronic edition, the Grammar of Spoken and Written English remains a unique and indispensable reference work for researchers, language teachers, and students alike.

Persuasive Genres Sujata S. Kathpalia 2021-09-30 This book provides an analysis of persuasive genres in the domain of media, ranging from traditional to new media genres on the internet. Kathpalia provides a layered analysis of a family of persuasive genres at the functional, semantic, and linguistic levels and a reconceptualization of genres as empowering rather than constraining, enabling rather than binding, and dynamic rather than static. The book leads readers to an understanding of genre that accounts for the way we interpret, respond to, and create genres in different settings whilst shedding light on how genres change and how they evolve into new and unique forms to meet the ever-changing needs of society. This book would be of interest to those studying or researching the topic of genres, and those interested in reconceptualizing the way in which we interpret and understand genres from linguistic and discourse perspectives.

Without Past, No Future. Forgetting, Remembering and Reconciliation in Gilbert Gatore's "Le Passé devant soi" Gregor Schönfelder 2017-02-07 Seminar paper from the year 2014 in the subject English - Literature, Works, grade: 1.3, University of Tübingen (English Department), course: Visions of the Future, Shadows of the Past: Contemporary Issues in African Literature, language: English, abstract: 20 years ago, in 1994, the otherwise largely ignored little Central African country of Rwanda made the international headlines by making the world witness its most recent genocide to date. The country's two major ethnic groups, Hutu and Tutsi, had a long history of violence with recurring mutual massacres. Following the downing of the plane carrying Rwanda's president Habyarimana, Hutu militias took control and together with the ordinary population tried to wipe out the Tutsi in countrywide government-sponsored massacres that exceeded previous massacres in quantity and quality. Post-genocide Rwandan society, and therefore its government, faces a very precarious situation: how to rebuild a society in which there are more perpetrators than victims and in which the crimes were largely conducted by the ordinary population? Perhaps the biggest problem faced is that at their core the massacres were hate crimes as opposed to massacres for practical reasons, say, to get more land. One of the country's most pressing issues is therefore reconciliation between these two groups over the past conflicts. The Tutsi-led government has decided to tackle this complex problem by simple means: officially abolishing ethnicities and encouraging Tutsi survivors to forgive Hutu perpetrators. However, as noble and well-meaning this approach seems at first glance, the negative implications might far outweigh the positive ones in the long run, which will be discussed in detail further below. Many non-fictional papers have dealt with the phenomenon of "collective amnesia", yet a surprisingly small number of fictional works has done so, making the few existing ones the more valuable. This paper is going to use one of these fictional works, Gilbert Gatore's novel "Le Passé devant soi" (The Past Ahead), as an example to show why and how to challenge the approach of imposed silence as a means to deal with ethnic divides in post-genocide Rwanda, which lead to "striking continuity from the pre-genocide to the post-genocide regime" (Reyntjens 32). There are three main problems with the government's approach, each of which is dealt with in the novel: the whole issue of reinventing a nation, the consequences of this for the survivors, and the precarious situation perpetrators are put into. We will look at each of these problems in turn while constantly integrating how "Le Passé devant soi" criticises in the current politics of commemoration.

number of odd jobs—book reviews and introductions, speeches and tributes, a “few paragraphs” on baseball or beauty or Borges—and saw each as “an opportunity to learn something, or to extract from within some unsuspected wisdom.” In this, his largest collection of assorted prose, he brings generosity and insight to the works and lives of William Dean Howells, George Bernard Shaw, Philip Roth, Muriel Spark, and dozens more. Novels from outposts of postmodernism like Turkey, Albania, Israel, and Nigeria are reviewed, as are biographies of Cleopatra and Dorothy Parker. The more than a hundred considerations of books are flanked, on one side, by short stories, a playlet, and personal essays, and, on the other, by essays on his own oeuvre. Updike’s odd jobs would be any other writer’s chief work.

Landmark Cases in Defamation Law David Rolph 2019-08-22 *Landmark Cases in Defamation Law* is a diverse and engaging edited collection that brings together eminent scholars from the United Kingdom, the United States, Australia, Canada and New Zealand to analyse cases of enduring significance to defamation law. The cases selected have all had a significant impact on defamation law, not only in the jurisdiction in which they were decided but internationally. Given the formative influence of English defamation law in the United States, Australia, Canada and New Zealand, the focus is predominantly on English cases, although decisions of the United States and Australia are also included in the collection. The authors all naturally share a common interest in defamation law but bring different expertise and emphasis to their respective chapters. Among the authors are specialists in tort law, legal history and internet law. The cases selected cover all aspects of defamation law, including defamatory capacity and meaning; practice and procedure; defences; and remedies.

Stimulating Story Writing! Simon Brownhill 2015-10-16 *Stimulating Story Writing! Inspiring Children aged 7-11* offers innovative and exciting ways to inspire children to want to create stories and develop their story writing skills. This practical guide offers comprehensive and informed support for professionals to effectively engage ‘child authors’ in stimulating story writing activity. Packed full of story ideas, resource suggestions and practical activities, the book explores various ways professionals can help children to develop the six key elements of story, these being character, setting, plot, conflict, resolution and ending. All of the ideas in the book are designed to complement and enrich existing writing provision in classrooms with strategies such as role play, the use of different technologies, and using simple open ended resources as story stimuli. Separated into two sections and with reference to the Key Stage 2

curricula, this timely new text provides professionals with tried and tested strategies and ideas that can be used with immediate effect. Chapters include: • Creating Characters • The Plot Thickens • Inspired Ideas • Resourcing the Story Stimulation This timely new text is the perfect guide for inspiring children aged 7-11 in the classroom and will be an essential resource for teachers and students on teacher training courses.

Housekeeping by Design David Brody 2016-10-17 A mattress, box spring, and duvet for a king-size hotel bed weighs in at 225 pounds. Imagine trying to wrestle with changing the sheets and getting the hospital corners just right; it is easy to see why hotel housekeepers experience back and shoulder injuries at increasing rates. David Brody got behind the scenes at the Chicago Hyatt Regency and the Starwood hotels in Hawaii, bypassing management and corporate press releases to interview the housekeeping staff directly. Given Brody's expertise in architecture and design, his mission here is to help us understand service design in hotels in order to situate the needs of hotel customers, housekeepers, and hotel management one relative to the other. What unfolds as a new perspective on hotels is design in terms of spaces, products, maintenance, and workflow systems. We get vivid examples of how a hotel room's design encapsulates a highly orchestrated, hidden process of management and labor, where work is invisible and surface appearances are paramount to the guest's sense of domestic comfort. (Turndown service is one example: room light dimmed, drapes drawn, music on classical, turndown mat on floor, slippers in place, mint on pillow, etc.) Brody opts strongly for what he calls co-design, which means collaboration between workers and management on improving hotel design, and he is unabashedly partisan in taking sides with hotel workers and their unions. He also advocates for sustainability and green politics."

Lovers by the Lake Bruce J. Spohn 2015-06-12 A touching love story about two people meeting late in life. They seek to learn more about each other to find answers to the questions they could never answer and examine the events in their lives that made them "Lovers by the Lake"

Perspectives on Framing Gideon Keren 2011-02-11 Language comprises a major mark of humans compared with other primates and is the main vehicle for social interaction. A major characteristic of any natural language is that the same communication, idea, or intention can be articulated in different ways—in other words, the same message can be "framed" differently. The same medical treatment can be portrayed in terms of chance of success or chance of failure; energy reduction can be expressed in terms of savings per day or savings per year; and a task can be described as 80% completed or 20% uncompleted. In this book, contributors from a variety of disciplines—psychology, linguistics, marketing, political science, and medical decision making—come together to better understand the mechanisms underlying framing effects and assess their impact on the communication process.

Media Advocacy and Public Health Lawrence Wallack 1993-10-07 Using the media to promote public health is an innovative and valuable approach. *Media Advocacy and Public Health* develops the concept of media advocacy as a central strategy for the prevention of public health problems. How we think about health problems, and what we do about them, is largely determined by how they are reported on television, radio, and in the newspaper. Often, crucial issues of public health policy are discussed and decided only after they are made visible by the media. A traditional communication strategy like social marketing focuses on giving people a message. Media advocacy gives people a voice. The first book of its kind, *Media Advocacy and Public Health* lays out the theoretical framework and practical guidelines to successful media advocacy strategies. Eight case studies, ranging from alcohol to AIDS, vividly illustrate how media advocacy has been successfully applied.

Critical Literacy Lisa P. Stevens 2007-01-18 "This is an excellent text. I particularly liked how the authors share examples of critical literacy throughout the book, especially with digital and multimedia texts." —Peter McDermott, The Sage Colleges "Through realistic discussion of how text shapes us and is shaped by us, Critical Literacy provides pre- and in-service teachers with concrete ways to engage in critical literacy practices with children from elementary through high school." —Cheryl A. Kreutter, St. John Fisher College ...a unique, practical critical literacy text with concrete examples and theoretical tools for pre- and in-service teachers Authors Lisa Patel Stevens and Thomas W. Bean explore the historical and political foundations of critical literacy and present a comprehensive examination of its uses for K-12 classroom practice. Key Features: · Focuses on the nexus of critical literacy theory and practice through real classroom examples, vignettes, and conversations among teachers and teacher educators · Illustrates how critical literacy practices are enacted in the classroom at the elementary, middle, and high school levels. · Offers step-by-step teaching strategies for implementing critical literacy in K-12 classrooms at different paces, depending on existing curriculum Intended Audience: This is an excellent supplemental text for a variety of advanced undergraduate and graduate courses in education departments on how to teach reading and writing. This text will also appeal to instructors and students exploring issues of representation, linguistics, and critical deconstruction.

Bringing Words to Life Isabel L. Beck 2013-03-14 "Exciting and engaging vocabulary instruction can set students on the path to a lifelong fascination with words. This book provides a research-based framework and practical strategies for vocabulary development with children from the earliest grades through high school. The authors emphasize instruction that offers rich information about words and their uses and enhances students' language comprehension and production. Teachers are guided in selecting words for instruction; developing student-friendly explanations of new words; creating meaningful learning activities; and getting students involved in thinking about, using, and noticing new words both within and outside the classroom. Many concrete examples, sample classroom dialogues, and exercises for teachers bring the material to life. Helpful appendices include suggestions for trade books that help children enlarge their vocabulary and/or have fun with different aspects of words"--

Political Fiction and the American Self John Whalen-Bridge 1998 Examining political novels that have achieved (or been denied) canonical status, John Whalen-Bridge demonstrates how Herman Melville, Jack London, Norman Mailer, Ralph Ellison, Toni Morrison, and Margaret Atwood have grappled with the problem of balancing radicalism and art. He shows that some books are more political than others, that some political novelists are more skillful than others, and that readers must allow for basic working distinctions between politics and aesthetics if we are to make useful judgments about which political novels to read, and why. "Whalen-Bridge demonstrates with clarity and power that the American political novel should not be ostracized but celebrated as a genre equal or superior to poetic and aesthetic ones." -- Tobin Siebers, author of *Cold War Criticism and the Politics of Skepticism*

Hit the Headlines Colin MacFarlane 2012 Exercises, games and scenarios to encourage 9-15 year olds to seek out further knowledge in areas such as news, journalism, social issues, IT, data assessment, and 'intelligent observation'. News Frames and National Security Douglas M. McLeod 2014-12-29 Did media coverage contribute to

Americans' tendency to favor national security over civil liberties following the 9/11 attacks? How did news framing of terrorist threats support the expanding surveillance state revealed by Edward Snowden? Douglas M. McLeod and Dhavan V. Shah explore the power of news coverage to render targeted groups suspicious and to spur support for government surveillance. They argue that the tendency of journalists to frame stories around individual targets of surveillance - personifying the domestic threat - shapes citizens' judgments about tolerance and participation, leading them to limit the civil liberties of a range of groups under scrutiny and to support 'Big Brother'.

The Jungle Upton Sinclair 1920 1906 bestseller shockingly reveals intolerable labor practices and unsanitary working conditions in the Chicago stockyards as it tells the brutally grim story of a Slavic family that emigrates to America full of optimism but soon descends into numbing poverty, moral degradation, and despair. A fiercely realistic American classic that will haunt readers long after they've finished the last page.

Nineteenth-Century Serial Narrative in Transnational Perspective, 1830s–1860s Daniel Stein 2019-05-24 This volume examines the emergence of modern popular culture between the 1830s and the 1860s, when popular storytelling meant serial storytelling and when new printing techniques and an expanding infrastructure brought serial entertainment to the masses. Analyzing fiction and non-fiction narratives from the United States, France, Great Britain, Germany, Austria, Turkey, and Brazil, *Popular Culture—Serial Culture* offers a transnational perspective on border-crossing serial genres from the roman feuilleton and the city mystery novel to abolitionist gift books and world's fairs.

Pragmatics of Tense and Time in News Jan Chovanec 2014-11-15 This book provides the first comprehensive account of temporal deixis in English printed and online news texts. Linking the characteristic usage of tenses with the projection of deictic centres, it notes how conventional tenses, particularly in headlines, are affected by heteroglossia arising from various accessed voices. The resulting tense shifts are interpreted pragmatically as a conventional reader-oriented strategy that creates the impression of temporal co-presence. It is argued that since different tense choices systematically correlate with the three main textual segments of news texts, the function of tense needs to be viewed in a close connection with its local context. Traditional news texts are also contrasted with online news, particularly as far as the effect of hypertextuality on the coding of time is concerned. A two-level structural framework for the analysis of online news is proposed in order to account for their increased textual complexity. The book will be of interest to a wide range of scholars and students working in the fields of media pragmatics, discourse analysis and stylistics.

On the Edge of Nineveh M. J. Huntsy 2019-04-06 Vietnam and shocks of the day commanded the headlines for a decade from the mid-sixties into the seventies. A few other things were going on as well; tectonic shifts of the American Landscape rumbled below. The characters in *Nineveh* find themselves neck deep in a whole lot of other. Set principally in the summers of '69 -'71, with an epilogue set an indeterminate time after the conclusion of the main story, *Nineveh* portends the future by bringing the past back for a visit. Stylistically, the novel presents as late 20th Century American hewing to traditional conventions of structure. Dialogue is the preferred medium for bringing the characters and story to the reader. A large Nineteenth Century summer house on fictional Lake Nineveh is the principal setting, and the bucolic resort hamlets and one-factory towns are about to be subsumed by the wave of development bearing down on their way of life. Locals deliver large characters brimming with personality but disgruntled as thoroughly modern Babbits invade the environs. As new pharmacies of fun sprang up, those so inclined seized the moment. Erik Frinjuhr's group of hale fellows better not met incline and indulge. Romps and parties and the emergent recreational drug market before Big Brother had lightened up are captured in sense-around prose and dialogue inviting vicarious participation. As usual, the young women are a step ahead in gaming the changing rules of the war of the sexes. Their varying strategic approaches to achieving romantic goals unfold with Machiavellian charm and weaponized caresses. Written in 1982 on a manual Smith Corona typewriter, the substance of the original manuscript has been maintained through periodic edits, the last of which brought the novel to publication in its present form. The author's early childhood was spent in Minneapolis. He moved with his family to Lake Minnetonka west of the Twin Cities in the '60's. The author attended and graduated from the public schools of Mound, Minnesota, and is a graduate of Macalester College in St. Paul, and the University of Minnesota Law School. He resides in the Land of 10,000 Lakes.

Can We Afford the Future? Doctor Frank Ackerman 2010-08-17 According to many scientists, climate change is a growing threat to life as we know it, requiring a large-scale, immediate response. According to many economists, climate change is a moderately important problem; the best policy is a slow, gradual start, to avoid spending too much. They can't both be right. In this book, Frank Ackerman offers a refreshing look at the economics of climate change, explaining how the arbitrary assumptions of conventional theories get in the way of understanding this urgent problem. The benefits of climate protection are vital but priceless, and hence often devalued in cost-benefit calculations. Preparation for

the most predictable outcomes of global warming is less important than protection against the growing risk of catastrophic change; massive investment in new, low carbon technologies and industries should be thought of as life insurance for the planet. Ackerman makes an impassioned plea to construct a better economics, arguing that the solutions are affordable and the alternative is unthinkable. If we can't afford the future, what are we saving our money for? *Can we Afford the Future?* is part of *The New Economics* series, which uses the ideas behind a new, more human economics to provide a fresh way of looking at major contemporary issues.

Scenario Planning for Climate Change Nardia Haigh 2019-06-25 Climate change, and the resultant impact on resource management and societal wellbeing, is one of the greatest challenges facing businesses and their long-term performance. Uncertainty about access to resources, unanticipated weather events, rapidly changing market conditions and potential social unrest is felt across all business and industry sectors. This book sets out an engaging step-by-step scenario-planning method that executives, Board members, managers and consultants can follow to develop a long-term strategy for climate change tailored for their business. Most climate change strategy books discuss climate mitigation only, focusing on how companies engage with carbon policy, new technologies, markets and other stakeholders about reducing carbon emissions. This book explores these themes but also looks at strategizing for climate change adaptation. Adaptation is equally important, especially given that companies cannot negotiate with nature. There is a need to interpret climate science for business in a way that acknowledges the realities of climate change and identifies a way forwards in responding to this uncertain future.

Adventures in Shondaland Rachel Alicia Griffin 2018-09-10 Shonda Rhimes is one of the most powerful players in contemporary American network television. *Adventures in Shondaland* critically explores Shonda Rhimes's meteoric rise to stardom, her reign (or cultural appointment) as television's diversity queen, and *Shondaland*'s almost-universally lauded melodramatic narratives.

The Nature and Measurement of Competency in English Charles Raymond Cooper 1981 In an examination of the implications and effects of the competency testing movement on the discipline of English, the six chapters of this book answer major questions concerning what competency in English is, what is known about the assessment of competence in English, and how minimal competency in English can be defined and assessed. The first chapter presents an account of the origins and development of the competency testing movement, while the second chapter provides a comprehensive review of the best current research and theory on the acquisition, development, and use of language. The third chapter examines the limitations of various approaches to testing reading ability and then proposes a four-part competency test composed of several test formats. Chapter four outlines a theory-based procedure for assessing competence, and chapter five explores the problems of assessing media competency. The last chapter discusses the politics of minimum competency. (HTH)

The Documentary Film Reader Jonathan Kahana 2016-01-21 Bringing together an expansive range of writing by scholars, critics, historians, and filmmakers, *The Documentary Film Reader* presents an international perspective on the most significant developments and debates from several decades of

critical writing about documentary. Each of the book's seven sections covers a distinct period in the history of documentary, collecting both contemporary and retrospective views of filmmaking in the era. And each section is prefaced by an introductory essay that explains its design and provides critical context. Painstakingly selected from the archives of more than a hundred years of cinema practice and theory, the essays, reviews, interviews, manifestos, and ephemera gathered in this volume suit the needs and interests of the beginning student, the advanced scholar, the casual reader, and the working documentarian.
