Bentley's Textbook of Pharmaceutics - E-Book Sanjay Kumar Jain 2012-05-14 This adaptation of Bentley's Textbook of Pharmaceutics follows the same goals as those of the previous edition, albeit in a new look. The content of the old edition has been updated and expanded and several new chapters, viz. Complexations, Stability Testing as per ICH Guidelines, Parenteral Formulations, New Drug Delivery Systems and Pilot Plant Manufacturing, have been included, with an intention to make the book more informative for the modern pharmacists. The book has six sections: Section I deals with the physicochemical principles. Two new chapters: Complexations and ICH Guidelines for Stability Testing, have been added to make it more informative. Section II conveys the information regarding pharmaceutical unit operations and processes. Section III describes the area of pharmaceutical practice. Extensive recent updates have been included in many chapters of this section. Two new chapters: Parenteral Formulations and New Drug Delivery Systems, have been added. Section IV contains radioactivity principles and applications. Section V deals with microbiology and animal products. Section VI contains the formulation and packaging aspects of pharmaceuticals. Pilot Plant Manufacturing concepts are added as a new chapter, which may be beneficial to readers to understand the art of designing of a plant from the pilot plant model.

Bentley 3 1/2 & 4 1/4 Litre 1933-40 In Detail Nick Walker 2003-04-25 A history, description and analysis of the 3 1/2 and 4 1/2 Litre Bentleys built by Rolls-Royce during the 1930s following their surprise takeover of Bentley Motors early in the decade. Promoted as "the silent sports car", these cars proved to be an extraordinary success due to their performance and manners, the excellence of their engineering and construction, the wonderfully attractive coachwork offered on the Bentley chassis, and the association of the Bentley with the illustrious reputation of Rolls-Royce. After outlining the story of Bentley Motors and the Rolls-Royce takeover, the author gives a thoroughgoing account of Rolls-Royces search for a car with which to relaunch Bentley before the earlier glories began to fade. Then he gives a highly detailed technical analysis of the 3 1/2 Litre, covering every aspect of the chassis, running gear, engine and transmission. This is followed by equivalent coverage of the succeeding 4 1/2 Litre and the short-lived Mark V. Each of these receives comprehensive treatment, including information on differences from previous models, revisions, the range of bodies available from coachbuilders, performance and behavior, and appearances in competitive events. There are also chapters on using the cars today and on the practicalities of ownership, with advice on parts availability, maintenance and preservation. The 70 color photographs, some of them specially commissioned, feature outstanding examples of the coachbuilders art, and are backed up by some 140 images from the archives.
